

Pequest Trout Hatchery Stocking Summary - 2017

Below are the summaries of fish stocked from the Pequest Trout Hatchery during the 2017 stocking seasons. Note that there were two age classes (2 yr. and 3 yr.) of broodstock during the spring and fall stockings; average lengths are provided for both year classes.

A total of 615,280 trout were stocked in New Jersey's public waters during 2017.
