Interconnection Agreement Review **Form/Checklist**

Requirements Pursuant to N.J.A.C. 7:19-6.9

FORM TO BE COMPLETED FOR EACH INTERCONNECTION (acceptable to have one agreement between two parties)
 N.J.A.C. 7:19-6.9(g) requires Department approved written agreements for all systems with interconnections of 6" or greater. The following is a checklist for what must be included in the Interconnection Agreements between systems.

1. General Water System Information

Water System Name (Supplier): _____ **PWSID #** _____

Owner/Executive Director Name (Please Print) _____ Title _____

W-Operator Name (Please Print) _____ License Number _____

Water System Name (Receiver): _____ **PWSID #** _____

Owner/Executive Director Name (Please Print) _____ Title _____

W-Operator Name (Please Print) _____ License Number _____

2. Interconnection Information:

Interconnection Street Address: _____

Interconnection Name: _____

Interconnection State ID # (if known): *e.g. 96-871* _____

Interconnection Owner: _____

Purpose: *e.g. Emergency, Bulk Sale, Bulk Purchase* _____

Diameter of Pipe (in): _____

Piping Material: _____

Water Type: *e.g. Surface Water - Filtered* _____

Gravity or Pumped? _____

Direction of Flow: One-Way Two-Way _____

Hydraulic capacity in each direction (psi): _____

Flow Rate (MGD): _____

Notification process/timing required prior to use:

Is the interconnection metered: Yes No If no, how is transfer measured?

Interconnection annual flow test schedule:

Duration constraints for use:

3. Agreement Information:

Agreement Attached : Yes No

Date(s) valid:

Rates Included? Yes

No If no, why?

CONTENT BELOW LINE TO BE COMPLETED BY NJDEP ONLY:

Staff Reviewer _____ Signature _____

Date _____

Yes	No	Requirements
<input type="checkbox"/>	<input type="checkbox"/>	The agreement must be signed by both parties.
<input type="checkbox"/>	<input type="checkbox"/>	The agreement should include the following for each party, as applicable, of the interconnections: <ul style="list-style-type: none"><input type="checkbox"/> reason for use (i.e. emergency, bulk sale, bulk purchase),<input type="checkbox"/> size,<input type="checkbox"/> hydraulic capacity, in each direction,<input type="checkbox"/> proposed flow rate,<input type="checkbox"/> whether the interconnection is one-way or two-way,<input type="checkbox"/> whether or not pumping is required for interconnection use,<input type="checkbox"/> notification process/timing required prior to use,<input type="checkbox"/> location (street address),<input type="checkbox"/> who owns and maintains the interconnection,<input type="checkbox"/> any duration constraints,<input type="checkbox"/> whether metered and if not, how volumes transferred is determined
<input type="checkbox"/>	<input type="checkbox"/>	The agreement must list the date signed and the date through which the agreement is valid, or whether it contains a rolling renewal.
<input type="checkbox"/>	<input type="checkbox"/>	The agreement must include rates in accordance with N.J.A.C. 7:19-6.9(e) & (f).
<input type="checkbox"/>	<input type="checkbox"/>	The agreement must include a schedule for the annual interconnection flow test in accordance with N.J.A.C. 7:19-6.9(d) for systems >10,000 population.
