RE: Infrastructure SIP

Dear Regional Administrator Enck:

Enclosed is a proposed revision of the "infrastructure" portion of the New Jersey State Implementation Plan (SIP). Through this SIP revision, the Department demonstrates how the State is satisfying the requirements in 42 U.S.C. § 7410(a)(1) and (2) (Clean Air Act Section 110(a)(1) and (2)) by demonstrating that it has the ability and authority to implement, maintain, and enforce the National Ambient Air Quality Standards for all criteria pollutants and regional haze requirements. It also satisfies the USEPA's conditional approvals of our previously submitted Section 110 SIP for the ozone and fine particulate matter NAAQS (78 FR 35764, June 14, 2013).

The Department will utilize the USEPA's streamlined SIP processing procedures for this proposed SIP revision. A public hearing concerning the proposed SIP revision will be conducted, if requested, by the end of the comment period. The Department will send notice to Air Program Branch Chief Rick Ruvo at the USEPA Region 2 if a hearing is requested. Written and electronic comments, including requests for a public hearing, may be submitted by close of business, Friday, July 18, 2014 to the address at the end of this letter.

If you have any questions regarding this proposal, please contact William O'Sullivan, Director, Division of Air Quality at (609) 984-6721.

Sincerely yours,

Bob Martin  
Commissioner
