

GOP-002A Manufacturing and Materials Handling Equipment

Note: The system will log you out after 15 minutes of inactivity. If entering a large amount of data, please click on the Save button periodically to save data and reset the 15 minute timer. From the Certification page, you can use the menu on the left-hand side of the page to return to this screen and add additional data if necessary.

Section B: Reason for Applying

*Select all that apply to confirm that the proposed equipment meets the requirements of GOP-002A:

- ☐ Manufacturing and Materials Handling Equipment Not Permitted in a facility's approved Title V Operating Permit
- ☐ Manufacturing and Materials Handling Equipment Permitted in a facility's approved Title V Operating Permit

Section C: Inventories

Note: You must fill out all required facility designations and descriptions. Required fields are indicated by an asterisk (*).

Emission Unit Inventory

☐ *By clicking this box you are confirming that the Equipment permitted in this General Operating Permit shall only be permitted in ONE Emission Unit.

U NJID #	*Facility Designation
34	

Control Device Inventory (If Applicable)

*Is there a Control Device connected to the Manufacturing and Materials Handling Equipment associated with this General Operating Permit? ☒ Yes ☐ No

Please identify all Control Devices connected to the Manufacturing and Materials Handling Equipment listed in this General Operating Permit. If the Control Device is currently permitted, please select the 'CD NJID #' in the facility's Title V Operating Permit:

CD NJID #	*Is this Control Device currently permitted in the facility's Title V Operating Permit?	Select the 'CD NJID #' of the currently permitted Control Device in the facility's Title V Operating Permit	*Facility Designation	*CD Type	*CD Description	*Minimum Operating Pressure Drop (in. H ₂ O)	*Maximum Operating Pressure Drop (in. H ₂ O)	Remove
5	<input type="checkbox"/>							

Add Control Device

Reset Table

Emission Point Inventory

Please identify all Emission Points connected to the Manufacturing and Materials Handling Equipment listed in this General Operating Permit. If the Emission Point is currently permitted, please select the 'PT NJID #' in the facility's Title V Operating Permit:

PT NJID #	*Is this Emission Point currently permitted in the facility's Title V Operating Permit?	Select the 'PT NJID #' of the currently permitted Emission Point in the facility's Title V Operating Permit	*Facility Designation	*PT Description	Remove
37	<input type="checkbox"/>				

Add Emission Point

Equipment Inventory

Note: Click on "Add Unpermitted Equipment" below to add Unpermitted Equipment to this GOP (if applicable). Use the Scroll Bar to include all required Equipment Details.

E NJID #	Currently Permitted E NJID #	*Basis of PTE Emission Limits (SEE OPTION INFO BELOW)	*Associated CD NJID # (Primary)	Associated CD Description (Primary)	Associated CD NJID # (Secondary)	Associated CD Description (Secondary)	*Associated PT NJID #(s) (SEE NOTE BELOW)	*Facility Designation	*Equipment Description	Equipment Type	*Equipment Location	*Equipment Make	*Equipment Manufacturer	*Equipment Model	*Installation Date (mm/dd/yyyy)	Last Mod. 43			None	No Control Device	None	No Control Device	37			Manufacturing and Materials Handling E											

Option 1: Manufacturing and Materials Handling Equipment with uncontrolled Potential to Emit (PTE) emissions less than the reporting threshold for each air contaminant.

Option 2: Manufacturing and Materials Handling Equipment with Potential to Emit (PTE) emissions before a Control Device less than the reporting threshold for each air contaminant.

Option 3: Manufacturing and Materials Handling Equipment with TSP, PM-10, and PM-2.5 Potential to Emit (PTE) emissions after a particulate Control Device (Baghouse or Cartridge Filter) less than the reporting threshold. All other air contaminants PTE emissions shall be less than the reporting threshold before the Control Device for each air contaminant.

Note: Press and hold the 'Ctrl' key to scroll and select/deselect one or more PT NJID records. Use the arrows on the right to access additional records, if available.

Add Unpermitted Equipment

Section D: Potential to Emit

The PTE for equipment permitted under this General Operating Permit shall be less than the reporting thresholds in accordance with [N.J.A.C. 7:27-22](#) and/or [N.J.A.C. 7:27-17](#), as applicable.
