

GP-008 Site Remediation Activities for Gasoline Contamination at Vehicle Fueling Stations

Section B: Reason for Applying (Check one)

Select "Unpermitted" if **all** of the pieces of Equipment covered by this General Permit are existing equipment that were never covered by an air permit, or is new equipment that is going to be installed. Continue to Section C: Equipment Inventory.

Select "Permitted" if **one or more** of the pieces of Equipment covered by this General Permit is existing equipment that is or was covered by an air permit, or new equipment that will replace existing pieces of equipment currently listed on an air permit.

If you are unsure the equipment listed in Section C: Equipment Inventory has ever been issued an air permit, please refer to your [Permit/Certificate Folder](#). The Permit/Certificate Folder contains a list of all permits (General and Preconstruction) at the facility and the equipment included in those permits.

- ☒ Unpermitted (new equipment or existing unpermitted equipment)
☐ Permitted (modification or replacement of existing pieces of equipment currently listed on an effective NJDEP permit)

Section D: Permitting Scenarios

This General Permit covers site remediation activities for subsurface gasoline contamination at a vehicle fueling station location specified in the permit. Vehicle fueling stations include current or former retail gasoline stations, vehicle fueling activities located at municipal, county and state garages, fire and police departments, and similar vehicle fueling activities located at commercial and industrial sites, conducted in accordance with the applicable requirements of this General Permit. This General Permit allows the replacement of one type of remediation system and/or control apparatus with another system throughout the duration of the project as long as the equipment (including pilot testing) complies with the applicable requirements of this General Permit.
