
MONMOUTH COUNTY RECLAMATION CENTER
TITLE V OPERATING PERMIT RENEWAL AND PERMIT MODIFICATION
Program Interest (PI): 21351/Permit Activity Number: BOP180001
DEPARTMENT INITIATED CHANGES

No comments were received during the public comment period for the Monmouth County Reclamation Center, Title V Operating Permit Renewal and Permit Modification, Program Interest (PI): 21351/Permit Activity Number: BOP180001. However, the following Department initiated changes were made to the Operating Permit's Compliance Plan. These changes were made to improve the Compliance Plan and do not impact any of the applicable requirements that MCRC must comply with:

Emission Unit U1, OS1: added "inactive" designation for Flare "A" (CD1), added a reference line to show flowrate of the flare.

Emission Unit U3, OS2: move the flowrate reference line from OS Summary page to operating scenario OS2, to make it consistent with other Emission Units.
