General Application Milestone Codes

Application Approved	F = Complete for Filing	M = Permit Modification
Application Denied	H = Public Hearing Date	P = Permit Decision Date
Application Withdrawal	I = Additional Information Requested	R = Complete for Review
C = Cancelled	L = Legal Appeal of Permit Decision	T = Additional Information Received

Specific Decision Application Codes

AVE PLAN = Averaging Plan	PA/SOW = Presence/Absence/State Open Waters Only
FP/A = Footprint/Absence of Wet., Waters & Transition Area	PA/T = Presence/Absence/Transition Area Only
F/F = Farming/Forestry/Silviculture Exemption	R = Reductions
FP/P = Footprint/Wetlands Present	REG = HMDC/Pinelands Exemption
FP/SOW = Footprint/State Open Waters Present Only	SPEC ACTIVITY = Special Activity (Linear Dev. & Stormwater Mgmt.)
FP/T = Footprint/Transition Area Present Only	SA/GP = Special Activity for Statewide Gen. Permit Activity
NW = ACOE Nationwide Permit Exemptions	SA/R = Special Activity for Redevelopment
O = Other	SD = Municipal Subdivision Approval
PA/A = Presence-Absence/Absence of Wet., Waters & Trans. Area	SP = Municipal Site Plan Approval
PA/P = Presence-Absence/Wetlands Present	VERIFIED = Verified Line

Permit Descriptions

CAFRA - A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

Federal Consistency Activity: Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

Freshwater Wetlands: A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas. A Stream Encroachment Permit, a U.S. Army Corps of Engineers Dredge and Fill Permit, and a Water Quality Certification may also be required.

General Groundwater Petroleum Products Cleanup: This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

NJPDES permits: A permit is required for the discharge of pollutants to surface and groundwaters, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities which require a permit may be found at N.J.A.C. 7:14A-2.4)

Solid Waste Facility: A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

Stream Encroachment: Under the Flood Control Act DEP is empowered to require a permit to control construction within and proximate to flood hazard areas to reduce flood damage to and from new development and to protect the flood storage capacity and ecology of flood plains.

Tidal Wetlands: A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

Treatment Works Approval: A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

Waterfront Development: A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Stream Encroachment (SE) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed does not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed inside the back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

Appeals on Applications

Any individual who would like to appeal a decision on an application should direct their remarks to:

Office of Legal Affairs
Attn: Adjudicatory Hearing Requests
Department of Environmental Protection
PO Box 402
Trenton, N.J. 08625-0402

DEP SUBSCRIPTION INFORMATION

Copies of this publication are found in all municipal clerks offices and county planning board offices. Individuals may obtain an annual subscription of 24 issues for a fee of \$50 which is the estimated cost of producing and mailing each issue to subscribers. If you desire a new subscription, please send a check for \$50 payable to the Treasurer, State of New Jersey and mail it to the NJDEP, Bureau of Revenue, PO Box 417, Trenton, NJ 08625-0417. Please use the form below to make any changes in your subscription.

For information on a specific permit, please see the telephone list inside the back cover.

***Water Pollution Control Act Rules
Sludge Quality Assurance***

PUBLIC NOTICE

TAKE NOTICE that pursuant to Executive Order No. 66 (1978), the Water Pollution Control Act rules at N.J.A.C. 7:14 are scheduled to expire on April 27, 1999. The Department is proposing to readopt with certain amendments and new rules the Sludge Quality Assurance rules (SQAR) contained in Subchapter 4 of the Water Pollution Control Act rules and, in addition, to recodify the SQAR into their own chapter at N.J.A.C. 7:14C.

Under the rules, the Department sets forth the sampling, analytical and reporting requirements for all domestic and industrial sludge generators. Changes are being proposed upon readoption to (1) update analytical methods to be consistent with Federal Rules at 40 CFR Part 503, (2) provide exemptions for the smallest domestic treatment works (which typically service schools, religious institutions, and small commercial establishments), and (3) provide reductions for parameters which have not been frequently detected or which conservative risk assessments have shown not to be a problem when managing sludge.

Because the Department is recodifying SQAR to a new chapter in the New Jersey Administrative Code, the Department is also proposing amendments to the NJPDES rules at N.J.A.C. 7:14A to correct cross-references to SQAR provisions.

A **public hearing** concerning this proposal will be held on:

Date:	Monday, February 22, 1999
Time:	9:30 A.M. to 12:00 P.M.; 1:00 P.M. to 5:00 P.M. (or close of testimony, whichever is earlier)
Location:	N.J. Department of Environmental Protection Public Hearing Room, First Floor, 401 E. State Street Trenton, New Jersey

Submit written comments by March 18, 1999 to:

Janis E. Hoagland

Attn: DEP Docket Number 38-98-12/686
Office of Legal Affairs
New Jersey Department of Environmental Protection
P.O. Box 402
Trenton, New Jersey 08625-0402

The proposal will appear in the February 1, 1999 New Jersey Register. Anyone requiring more information or a copy of the proposed rules should contact the Bureau of Pretreatment and Residuals at (609) 633-3823.

***New Jersey Department of Environmental Protection
Division of Water Quality***

PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP) proposes to issue the following New Jersey Pollutant Discharge Elimination System (NJPDDES) permit actions in accordance with N.J.A.C. 7:14A-1 et seq. and by authority of N.J.S.A. 58:10A-1 et seq. The description of each proposed permit action is contained in the accompanying table.

This public notice has been prepared for these facilities as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. Copies of the draft document are obtainable, for a nominal charge, and the administrative record is available for inspection by appointment only, Monday through Friday, by contacting the NJDEP file room at (609) 292-0400. Additional information regarding the draft document may be obtained from the contact person listed in the accompanying table.

Comments on the draft document or a request that NJDEP hold a non-adversarial public hearing on the document must be submitted, in writing, to the individual specified below (refer to the accompanying table for the appropriate permitting bureau) during the public comment period, which closes 30 calendar days after publication of this notice. All persons, including permittees who believe that any condition of NJDEP's tentative decision to issue these permit actions is inappropriate must raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. Any request for a public hearing shall state the nature of the proposed issues to be raised in the hearing. A public hearing will be conducted if NJDEP determines there is a significant degree of public interest. If a public hearing is held, the public comment period is automatically extended through the close of the hearing.

NJDEP will consider and respond to all significant and timely submitted comments. The permittee and each person who submitted written comments, will receive notice of NJDEP's final decision to issue, revoke or redraft the document.

Written comments should be submitted to the appropriate permitting bureau:

Jeffrey Reading, Chief
Bureau of Point Source Permitting - Region 1
PO Box 029
Trenton, NJ 08625

Debra Hammond, Chief
Bureau of Point Source Permitting - Region 2
PO Box 029
Trenton, NJ 08625

Barry Chalofsky, Chief
Bureau of Nonpoint Pollution Control
PO Box 029
Trenton, NJ 08625

Mary Jo Aiello, Chief
Bureau of Pretreatment and Residuals
PO Box 029
Trenton, NJ 08625

Public notice of proposed permit actions

Facility name/ NJPDES Permit No./ Permit type	Facility location address County	NJDEP case manager/ Bureau	Receiving Stream or Formation or POTW/ Classification/ Watershed	Executive Summary
Anchor Glass Container Corp NJPDES Permit No. NJ0033651 Storm Water	145 Cliffwood Ave. Aberdeen Twp Monmouth County	Manish Patel Bureau of Nonpoint Pollution Control (609) 633-7021	Long Neck Creek FW2-NT 02030104920	The applicant was primarily involved in manufacturing glass containers. It is classified under SIC code 3221. The facility ceased all manufacturing operations in Dec. 1995 and has eliminated all source materials. Therefore, this facility will have NJPDES NJ0033651 revoked
Jensen's Deep Run NJ PDES Permit No. NJ0080055 Ground Water	Intersection of Rts 573 and 539, Plumstead Twp. Ocean County	Greg Chin Bureau of Nonpoint Pollution Control (609) 633-7021	II-A	The facility is a residential senior citizen mobile home community which consists of 134 proposed and 114 existing mobile homes. Two sanitary wastewater treatment plants were originally proposed for the Jensen's Deep Run Adult Village. However, since the construction and operation of Treatment Plant #1, actual flow data, based on 114 existing home units, has demonstrated the volume of wastewater generated at full buildout (248 home units) could be managed by Treatment Plant #1. The 93 acre property is bisected by a lake and an unnamed tributary of the Lahway Creek. Treatment Plant #1 is located on the north side of the lake adjacent to Rt. 537. Treated wastewater discharged from the treatment plant will meet ground water quality standards for nitrate-nitrogen prior to subsurface disposal. Treatment Plant #1 (T01) will have a discharge limitation of 26,050 gpd.
National Fuel Oil, Inc. NJPDES Permit No. NJ0025950 Ground Water	525 Raymond Boulevard, Newark Essex County	Judy Majoras Bureau of Nonpoint Pollution Control (609) 633-7021	II-A	The permit is being revoked because the facility has been closed. Storm water runoff had previously been directed to an oil/water separator and then discharged to a dry well. All storage tanks have been removed, the ground has been regraded and the oil/water separator has been disconnected.
Inversand Company NJPDES Permit No. NJ0004146 DSW - Minor	Woodbury-Glassboro Road, Mantua Gloucester County	Jim Grob Bureau of Point Source Permitting Region 2 (609) 292-4860	Mantua Creek via Knights Run FW2-NT Lower Delaware Tributaries # 18 watershed	This application is for a renewal of a NJPDES permit to discharge an average monthly flow of 0.34 MGD, of treated industrial, wastewater. The wastewater is generated as a result of the applicant's activity covered under the Greensand Mining subcategory of the Non-metallic Mining and Mineral Dressing, Standard industrial Code 1499, Inorganic Chemical Manufacturing, SIC Code 2899 and Water Media Filtration Production, SIC Code 3589.

E.C.D., Inc. NJPDES Permit No. NJ0031186 DSW - Minor	E.C.D., Inc. 171 Central Avenue Hillside Union County	Ramanathan Asokan Bureau of Point Source Permitting Region 2 (609) 292-4860	Elizabeth River FW2-NT Newark Bay	This existing facility discharges approximately 2,500 gallons per day of non-contact cooling water and stormwater to the Elizabeth River via a storm sewer through outfall DSN 002A.
Caprioni Sewerage Service, Inc. NJPDES Permit No. NJ0108839 Land Application of Biosolids-Class B	PO Box 278 Woodbine Road Belleplain Cape May County	Ruth Anne Rosenberg Bureau of Pretreatment and Residuals (609) 633-3823	NA	This action is a “Notice of Intent to Deny” for the March 31, 1995, new permit application for a New Jersey Pollutant Discharge Elimination System permit. Caprioni Sewerage Services, Inc. (CSSI) proposed to resume land application of residuals generated in wastewater treatment on approximately thirty-six (36) acres of farmland to establish and maintain agronomic crops. Crops grown at the farm are harvested for animal feed and/or bedding. A NJPDES permit, under NJ0098884, to land apply residuals was issued to CSSI on October 7, 1983. On February 8 and 23, 1994, the Department directed CSSI to cease all land application of residuals. Permit NJ0098884 expired on March 31, 1995. CSSI has reported no residuals land application at this site since 1994. A permit renewal application was received, but was not submitted one hundred eighty (180) days prior to the date of the permit expiration. Therefore, a new NJPDES number, NJ0108839, was issued. This application was submitted for a type of permit that the Department no longer issues. Previous permit requirements and CSSI’s application forms were for land application based on the Federal regulatory requirements pursuant to 40 CFR Part 257. New regulations for residuals management were adopted under N.J.A.C. 7:14A-20 on May 5, 1997. These regulations adopted most of the Federal requirements pursuant to 40 CFR Part 503. These regulations established six different programs for the land application of residuals, which would require either a “Preparer’s” permit or a Letter of Land Application Management Approval, none of which are consistent with the site-specific activity of CSSI’s March 31, 1995, application.
