In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Stream Encroachment (SE) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed does not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed inside the back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

Delaware River Port Authority NJPDES Permit No. NJ0026379 Storm Water	Rt. 322 & Delaware River, Logan Twp. Gloucester County	Linda Coles Bureau of Nonpoint Pollution Control (609) 633-7021	Raccoon Creek SE2 02040202150	The Commodore Barry Bridge Toll Plaza in Logan Township, Gloucester County is engaged in bridge and vehicle/equipment maintenance and is classified under Standard Industrial Classification (SIC) code 4785: operation of toll bridge and toll road. Besides the toll booths, administrative building, and paved and curbed approach roadways, the facility operates a fueling and maintenance area. All vehicle maintenance occurs indoors and the vehicle fueling area is graded and roofed to prevent run-on and run-through of rain water. The SIC code for this facility is not one which is regulated by the NJPDES Stormwater Permit program. It is the Department's understanding that this permit was initially issued for the regulation on-site construction activity, which has since ceased. The permit has remained in force since the completion of construction. Following recommendations from the Southern Bureau of Water Compliance and Enforcement and a review of Department records it has been determined that an individual discharge to stormwater permit is not warranted for this facility. The objective of this regulatory decision is the revocation of the existing RF permit for Commodore Barry Bridge toll plaza, NJPDES Permit No. NJ0026379.
Bayway Refining Company NJPDES Permit No. NJ0105104 Ground Water	1400 Park Avenue, Linden City Union County	Mark Miller Bureau of Nonpoint Pollution Control (609) 633-7021	II-A	The Bayway Refinery was constructed in 1908 and has been in operation since 1909 on 1,300 acres in Linden, Union County. The refining process areas consist of process units which use crude petroleum and other petroleum feedstock to manufacture fuel products and petrochemical feedstocks. Crude petroleum is stored in the Tremley Tankfield. From tankage, crude is fed to the pipestill where it is distilled into several major streams. The streams are further refined into a variety of intermediate and finished products by processes such as catalytic cracking, catalytic reforming, alkylation and desulfurization. Final products include LPG, home heating oil, heavy fuel oil, jet fuel, diesel fuel, kerosene, several grades of gasoline and asphalt. Petroleum products are either shipped from the refinery by barge, pipeline, tank car or truck; or they are stored at one of the contiguous tankfield locations. The discharge to ground water occurs from process wastewater and stormwater surface impoundments and in-ground concrete tanks referred to as: 1) Rahway River Tankfield Separator No. 1 (East Side); 2) Rahway River Tankfield Separator No. 2 (West Side); 3) Forty Acres Tankfield Separator; 4) Tremley Separator; 5) East Side Retention Basin; 6) East Retention Basin; 7) West Separator; 8) Biox Lagoons. This permit does not address historical soil or ground water contamination, which is the responsibility of Exxon Corporation and is managed under an Administrative Consent Order by the Department's Site Remediation Program.
Environmental Renewal, Inc. NJPDES Permit No. NJ0126292 Storm Water	End of Highland Avenue, Wanaque Borough Passaic County	Eric Sussman Bureau of Nonpoint Pollution Control (609) 633-7021	FW2-NT 02030103070	The permittee is engaged in the commercial composting of leaves and grass. The permittee is regulated by the State of New Jersey for its stormwater discharge under Standard Industrial Classification (SIC) code 2875. Presently, the surface runoff from the facility is discharged through a series of drainage ditches. Today's permit modification requires the facility to develop and implement a Stormwater Pollution Prevention Plan (SPPP) with Best Management Practices (BMPs) to control the quality of its stormwater discharges. The permit also requires the permittee to make timely certification of the SPPPs development, implementation, and yearly inspections. The discharge will be to the Wanaque River, via a man made drainage ditch. The receiving water at the location that it will accept the discharge is classified as FW2-NT. The facility has been rated as a minor facility in accordance with USEPA rating criteria.

Beverly STP NJPDES Permit No. NJ0027481 DSW Major	Penn and Magnolia Streets Beverly, NJ 08010 Burlington County	Ramanathan Asokan Bureau of Point Source Permitting Region 2 (609) 292-4860	Delaware River Zone 2 Waters Lower Delaware River	This application is for a renewal of a NJPDES permit to discharge an average of 1.0 MGD of treated domestic wastewater.
