Application Approved
Application Denied
Application Withdrawal
C = Cancelled

F = Complete for Filing
H = Public Hearing Date
I = Additional Information Requested
L = Legal Appeal of Permit Decision

M = Permit Modification
P = Permit Decision Date
R = Complete for Review
T = Additional Information Received

Specific Decision Application Codes

AVE PLAN = Averaging Plan
FP/A = Footprint/Absence of Wet., Waters & Transition Area
F/F = Farming/Forestry/Silviculture Exemption
FP/P = Footprint/Wetlands Present
FP/SOW = Footprint/State Open Waters Present Only
FP/T = Footprint/Transition Area Present Only
NW = ACOE Nationwide Permit Exemptions
O = Other
PA/A = Presence-Absence/Absence of Wet., Waters & Trans. Area
PA/P = Presence-Absence/Wetlands Present

PA/SOW = Presence/Absence/State Open Waters Only
PA/T = Presence/Absence/Transition Area Only
R = Reductions
REG = HMDC/Pinelands Exemption
SPEC ACTIVITY = Special Activity (Linear Dev. & Stormwater Mgmt.)
SA/GP = Special Activity for Statewide Gen. Permit Activity
SA/R = Special Activity for Redevelopment
SD = Municipal Subdivision Approval
SP = Municipal Site Plan Approval
VERIFIED = Verified Line

Permit Descriptions

CAFRA - A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

Federal Consistency Activity: Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

Freshwater Wetlands: A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas. A Stream Encroachment Permit, a U.S. Army Corps of Engineers Dredge and Fill Permit, and a Water Quality Certification may also be required.

General Groundwater Petroleum Products Cleanup: This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

NJPDES permits: A permit is required for the discharge of pollutants to surface and groundwaters, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities which require a permit may be found at N.J.A.C. 7:14A-2.4)

Solid Waste Facility: A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

Stream Encroachment: Under the Flood Control Act DEP is empowered to require a permit to control construction within and proximate to flood hazard areas to reduce flood damage to and from new development and to protect the flood storage capacity and ecology of flood plains.

Tidal Wetlands: A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

Treatment Works Approval: A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

Waterfront Development: A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Stream Encroachment (SE) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed does not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed inside the back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

Appeals on Applications

Any individual who would like to appeal a decision on an application should direct their remarks to:

Office of Legal Affairs
Attn: Adjudicatory Hearing Requests
Department of Environmental Protection
PO Box 402
Trenton, NJ 08625-0402

DEP SUBSCRIPTION INFORMATION

Copies of this publication are found in all municipal clerks offices and county planning board offices. Individuals may obtain an annual subscription of 24 issues for a fee of \$50 which is the estimated cost of producing and mailing each issue to subscribers. If you desire a new subscription, please send a check for \$50 payable to the Treasurer, State of New Jersey and mail it to the NJDEP, Bureau of Revenue, PO Box 438, Trenton, NJ 08625-0417. Please use the form below to make any changes in your subscription.

For information on a specific permit, please see the telephone list inside the back cover.

NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION

NOTICE OF INTENT TO SETTLE

WATERFRONT DEVELOPMENT PERMIT

TAKE NOTICE THAT THE DEPARTMENT OF ENVIRONMENTAL PROTECTION intends to enter into a Mediation Agreement which would authorize the construction of a 4' x 65' fixed pier extending to a 6' x 154' fixed pier, a 2' x 38' ramp, a 6' x 14' floating dock, and a boat lift with 2 pilings under the Waterfront Development Law N.J.S.A. 12:5-3. The pier would be constructed on the Navesink River at a property owned by the 740 Navesink River Road Trust, Middletown Township, Monmouth County.

IN THE MATTER OF: 740 Navesink River Road Trust

File 1331-99-0015.2 – Monmouth County

740 & 748 Navesink River Road
Red Bank, New Jersey 07701

Block 855, Lots 8.01, 8.02 and 8.03

Comments regarding this settlement, or requests for copies of the Mediation Agreement and plan, may be sent to Kurt R. Kalb, Section Chief, Land Use Regulation Program, PO Box 439, Trenton, NJ 08625, telephone (609) 292-8262. Comments must be received by NJDEP within 15 days of this publication, or by 31 August 2000.

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
SITE REMEDIATION PROGRAM
DISCHARGE RESPONSE ELEMENT
CN-028
TRENTON, N.J. 08625
609-584-4150**

PUBLIC NOTICE AND STATEMENT OF BASIS

Notice is hereby given that the New Jersey Department of Environmental Protection (Department), Site Remediation Program, proposes to restrict and control the discharge of pollutants from Carduners Mall, Rt. 130 & Rt. 571, East Windsor, Mercer County.

The Carduners Mall site is a commercial property consisting of two (2) strip mall buildings. Ramp Dry Cleaners, Carduners Liquor Store, a deli, a bakery, a printing shop a hair salon, a pizzeria, Sherwin Williams-Paint, and an optician operate(d) at the strip-mall buildings 1 & 2. Ground water beneath the site is contaminated with chlorinated solvents (dry cleaning fluid) and no. 2 fuel oil from previous discharges at the site. Contaminated ground water at the site is being remediated utilizing a ground-water recovery and treatment system. Treated ground water is being discharged into an infiltration gallery constructed in a former tank excavation located in front of Ramp Dry Cleaners. The treated ground water flows 20 feet through heavily contaminated soils above the Merchantville Formation (which consists of dense clay) to sumps in the basements of buildings 1 & 2 and to a passive recovery trench located in front of building 2 that leads to a collection sump. The discharges from all sumps are connected to the ground-water treatment system.

This notice is being given to inform the public that the Department has prepared a draft renewal of the existing NEW JERSEY POLLUTANT DISCHARGE ELIMINATION SYSTEM / DISCHARGE TO GROUND WATER (NJPDES/DGW) permit (NJPDES NO. NJ7000804), in accordance with the provisions of the New Jersey "Water Pollution Control Act" (N.J.S.A. 58:10A-1 et seq.), its implementing regulations (N.J.A.C. 7:14A-1 et seq.), and the Ground Water Quality Standards (N.J.A.C. 7:9-6 et seq.).

The implementation of the New Jersey Pollutant Discharge Elimination System requirements are the enforcement mechanism by which pollutant discharges are brought into conformance and compliance with laws, regulations and standards. The pollution control requirements are those conditions necessary to restrict the discharge of pollutants and protect the public health and the environment.

Copies of the draft permit have been sent to the Mayor, Municipal Clerk, Planning Board, Sewerage Authority, Health Officer, and Environmental Commission of East Windsor Township, Mercer County.

The draft document prepared by the Department is based on the administrative record which is on file at the offices of the Department, Site Remediation Program, located at 401 East State Street in the City of Trenton, Mercer County, New Jersey. It is available for inspection, by appointment, between 8:30 A.M. and 4:00 P.M., Monday through Friday. Information regarding appointments for inspection may be scheduled by calling Central File at (609) 292-0400.

Interested persons may submit written comments on the draft permit to the Assistant Director, Discharge Response Element, PO Box 028, 401 East State Street, Trenton, New Jersey, 08625. All comments shall be submitted within 30 days of the date of this public notice. All persons, including the owner or operator, who believe that any condition set forth in this document is inappropriate, must raise all reasonably ascertainable issues and submit in writing to the Department all reasonably available arguments and factual grounds supporting their position, including all supporting material, by the close of the public comment period. All comments submitted by interested persons in response to this notice, within the public comment period, will be considered by the Department with respect to the requirements being applied to this facility. After the close of the public comment period, the Department will make a final decision. The Department will respond to all significant and timely comments when a final decision is made. The owner or operator and each person who has submitted written comments will receive notice of Department's final decision.

Any interested person may request in writing that the Department holds a nonadversarial public hearing on the draft document. This request shall state the nature of the issues to be raised in the proposed hearing and shall be submitted within 30 days of the date of this public notice to the Assistant Director, Discharge Response Element, at the address cited above. A public hearing will be conducted whenever the Department determines that there is a significant degree of public interest in the permit decision. If a public hearing is held, the public comment period in this notice shall automatically be extended to the close of the public hearing.

Additional information concerning the draft NJPDES Permit may be obtained between the hours of 8:00 A.M. and 4:30 P.M., Monday through Friday from Linda Jordan of the Bureau of Field Operations -- Southern Field Office at 609-584-4150.

Robert Van Fossen
Assistant Director
Discharge Response Element

NAME AND ADDRESS OF PERMITTEE

New Jersey Department of Environmental Protection
Division of Parks and Forestry
CN 404
Trenton, New Jersey 08625-0404

NAME AND ADDRESS OF FACILITY

Monmouth Battlefield State Park
Old Route 33
Manalapan Township, Monmouth County

LOCATION OF THE FACILITY

Lot: 65
Block: 40
Manalapan Township, Monmouth County

Monmouth Battlefield State Park discharges sanitary wastewater generated by public restrooms associated with the operation of the State Park. The Park also discharges backwash from the potable water treatment plant which serves the State Park. The Water Treatment Plant uses potassium permanganate for iron removal in green sand filters. Two potable wells supply water and are located approximately 390 feet from the spray irrigation field and the subsurface disposal system. Sanitary wastewater is collected and undergoes flow equalization, primary settling, biological treatment utilizing RBCs, denitrification and UV disinfection prior to spray irrigation or subsurface disposal.

INTENT TO SETTLE

As a result of a mediation between Broadmoor Properties (Applicant) and the Department of Environmental Protection (Department) held in the Offices of DEP on July 28, 2000, the parties agree to the following:

Applicant proposes to construct a single family dwelling on Block 22, Lot 2 in the Borough of Rumson adjacent to the Shrewsbury River with a driveway which extends from the existing cul-de-sac of Broadmoor Drive across the southwesterly corner of Block 22, Lot 1 in common ownership, all as shown on a plan entitled "Site Plan, Block 121-Lot 2, Borough of Rumson, Monmouth County, New Jersey", dated 9/10/99 and prepared by Schoor, Depalma.

Application for a CAFRA Permit and Coastal Wetlands Permit (File No. 1342-97-0027.2&.3) was denied by the Departments Land Use Regulation Program by letter of January 18, 2000.

Applicant has requested an adjudicatory hearing at the Office of Administration to reverse this decision and requested mediation by the Office in Order to resolve the dispute. The Department agreed to participate in the mediation process.

During mediation, the Applicant and the Department agreed that the construction of a single family dwelling on Lot 2, together with the driveway on Lots 1 and 2 as shown in application documents referenced in paragraph 1 above, could proceed provided the on-site 2:1 mitigation be modified in a manner satisfactory to the Department. The Applicant shall deed restrict Lot 1 in order to preclude any development that would require a CAFRA permit in an area from the mean high water line, as shown on the plan referenced in paragraph 1, to 150 feet inland. Provided, however, that no more than two dock and elevated walkway applications for Lot 1 and one such application for Lot 2 shall be permitted on the inlet within the CAFRA regulated area. The applicant is not restricted from developing the area which does not require a CAFRA permit. The Applicant is not restricted from developing the area which does not require a CAFRA permit. The Applicant will not build any vertical bulkheading on either lot at or below the mean high water line. The above-referenced mean high water line is as depicted in the plan referenced in paragraph 1.

If the Department finds no merit in any public objection and the Applicant submits record of filing the deed restriction and a mitigation plan that conforms to this agreement, the Department will issue a letter authorizing construction within 15 business days of the close of the public comment period. The letter will constitute the Department's determination of consistency with the Coastal Zone Management Plan and water quality certification under section 401 of the Federal Clean Water Act. The Department will so notify the Corps of Engineers. The Applicant will withdraw its appeal upon receipt of the authorizing letter. The authorization shall remain valid for a period of five years from the date of the letter.

Any comments regarding this proposed settlement must be forwarded within 15 days of this notice. Send comments to:

Ruth Ehinger, Bureau of Coastal Regulation
NJDEP Land Use Regulation Program
PO Box 439
Trenton, NJ 08625-0439

NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION

NOTICE OF INTENT TO SETTLE

WATERFRONT DEVELOPMENT PERMIT

TAKE NOTICE THAT THE DEPARTMENT OF ENVIRONMENTAL PROTECTION intends to enter into a Mediation Agreement which would authorize the construction of a 6' x 204' fixed pier, a 3' x 15' ramp, two 8' x 20' floating docks, and a boat lift under the Waterfront Development Law N.J.S.A. 12:5-3. The pier would be constructed on Parkers Creek at a property owned by B.J. and Brenda Kingdon, Oceanport, Monmouth County.

IN THE MATTER OF: B.J. and Brenda Kingdon

Kalb, Section Chief, Land Use Regulation Program, PO Box 439, Trenton, NJ 08625, telephone (609) 292-8262. Comments must be received by NJDEP within 15 days of this publication, or by 31 August 2000.

NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION

**SITE REMEDIATION PROGRAM
DISCHARGE RESPONSE ELEMENT
CN-028
TRENTON, N.J. 08625
609-584-4150**

PUBLIC NOTICE AND STATEMENT OF BASIS

Notice is hereby given that the New Jersey Department of Environmental Protection (Department), Site Remediation Program, proposes to restrict and control the discharge of pollutants from FORMER AGWAY BULK STORAGE TERMINAL, 511 PAUL STREET, LOT 3, BLOCK 726, VINELAND, Cumberland County.

A soil flushing system will be used to remove residual Phase Separated Hydrocarbons (PSH) from the vadose zone (i.e. unsaturated zone) at the site. PSH will be flushed from the vadose zone via the application of water, and collected from the water table by pumping through the use of pneumatic total fluids pumps. Recovery will be achieved by pumping from three individual wells at the site. The proposed pumping rate from each well is approximately 4 to 6 gallons per minute (gpm), for a total combined flow rate of 12 to 18 gpm, or approximately 17,000 to 26,000 gallons per day (gpd). All recovery and treatment equipment is satisfactory to provide a level of treatment suitable for land application of the effluent.

The recovered groundwater/PSH will be routed to a treatment system consisting of a 500-gallon capacity Phase/Water separator, followed by a high pressure Granular Activated Carbon (GAC) system to remove residual contaminants from the recovered groundwater. PSH recovered, as the result of pumping will remain within the Phase/Water separator until a "trigger" volume is accumulated. When this volume is reached within the tank, operation of each pneumatic pump will be discontinued via a high-level product switch that eliminates power to the pump. A telephone relay will be included with the treatment system control panel to automatically call the system operator, providing notification of the shutdown. The PSH will then be manually transferred to a 55-galolon drum for offsite disposal.

If a significant volume of residual PSH is flushed from the soil during the initial operation of the system, the storage system used for PSH may be upgraded. If a larger storage container is required, an Oil/Water Separator and a 275-gallon product storage tank will be installed, in lieu of the 55-gallon drum. A high-level switch will be interlocked with the system such that PSH will

be automatically transferred to the storage tank, rather than discontinuing operation of the groundwater pump and shutting down the system, when the trigger volume is reached. Additionally, if PSH is encountered in any of the existing monitoring wells, passive recovery canisters, dedicated bailers, or another suitable method of PSH recovery will be installed in the impacted wells. These collection devices will be routinely monitored, and recovered PSH will be transferred to either the 55-gallon drum or the PSH storage tank.

A transfer pump will be used to route groundwater from the product storage tank to the GAC system where the groundwater will be treated to remove residual contaminants. Two 1,000-lb high-pressure carbon vessels will be used in series to ensure that the treated groundwater is suitable for land application. The effluent from the GAC system will be routed to two onsite percolation ponds and one infiltration trench. The effluent will percolate into the soils and flush residual contaminants and PSH from the soil column. Upon reaching the groundwater, the PSH flushed from the soil particles, and that freed from the void spaces, will flow, via advective transport, toward the recovery wells, where it will be captured and recycled through the system. Petroleum hydrocarbon constituents bound to the soil matrix may be solubilized and transported to the water table surface, then recovered via pumping and treated in the GAC system.

This notice is being given to inform the public that the Department has prepared a draft NEW JERSEY POLLUTANT DISCHARGE ELIMINATION SYSTEM / DISCHARGE TO GROUND WATER (NJPDES/DGW) permit (NJPDES NO. NJ8000077), in accordance with the provisions of the New Jersey "Water Pollution Control Act" (N.J.S.A. 58:10A-1 et seq.), its implementing regulations (N.J.A.C. 7:14A-1 et seq.), and the Ground Water Quality Standards (N.J.A.C. 7:9-6 et seq.).

The implementation of the New Jersey Pollutant Discharge Elimination System requirements are the enforcement mechanism by which pollutant discharges are brought into conformance and compliance with laws, regulations and standards. The pollution control requirements are those conditions necessary to restrict the discharge of pollutants and protect the public health and the environment.

Copies of the draft permit have been sent to the Mayor, Municipal Clerk, Planning Board, Sewerage Authority, Health Officer, and Environmental Commission of Vineland City, Cumberland County.

The draft document prepared by the Department is based on the administrative record which is on file at the offices of the Department, Site Remediation Program, located at 401 East State Street in the City of Trenton, Mercer County, New Jersey. It is available for inspection, by appointment, between 8:30 A.M. and 4:00 P.M., Monday through Friday. Information regarding appointments for inspection may be scheduled by calling Central File at (609) 292-0400.

Interested persons may submit written comments on the draft permit to the Assistant Director, Discharge Response Element, P.O. Box 028, 401 East State Street, Trenton, New Jersey, 08625. All comments shall be submitted within 30 days of the date of this public notice. All persons, including the owner or operator, who believe that any condition set forth in this document is inappropriate, must raise all reasonably ascertainable issues and submit in writing to the Department all reasonably available arguments and factual grounds supporting their position, including all supporting material, by the close of the public comment period. All comments submitted by interested persons in response to this notice, within the public comment period, will be considered by the Department with respect to the requirements being applied to this facility. After the close of the public comment period, the Department will make a final decision. The Department will respond to all significant and timely comments when a final decision is made. The owner or operator and each person who has submitted written comments will receive notice of Department's final decision.

Any interested person may request in writing that the Department hold a nonadversarial public hearing on the draft document. This request shall state the nature of the issues to be raised in the proposed hearing and shall be submitted within 30 days of the date of this public notice to the Assistant Director, Discharge Response Element, at the address cited above. A public hearing will be conducted whenever the Department determines that there is a significant degree of public interest in the permit decision. If a public hearing is held, the public comment period in this notice shall automatically be extended to the close of the public hearing.

Additional information concerning the draft NJPDES Permit may be obtained between the hours of 8:00 A.M. and 4:30 P.M., Monday through Friday from Furman Stoop of the Bureau of Field Operations – Southern Field Office at 609-584-4150.

PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection (Department), Site Remediation Program, proposes to issue the following New Jersey Pollutant Discharge Elimination System permit actions in accordance with N.J.S.A. 58:10A-1 et seq. and N.J.A.C. 7:14A-1 et seq.

The permit action prepared by the Department is based on the administrative record which is on file at the offices of the Department, Site Remediation Program, located at 401 East State Street in the City of Trenton, Mercer County, New Jersey. It is available for inspection, by appointment, Monday through Friday, between 8:30 A.M. and 4:00 P.M. Appointment for inspection may be requested in writing to the Bureau of Federal Case Management or by fax at (609) 777-4285. Requests should be made to the attention of the file custodians. Appointments for inspection of the NJPDES file only or requests for a copy of the draft document (at a nominal charge) may be made by calling Central File at (609) 292-0400.

Comments on the draft document or a request that the Department hold a nonadversarial public hearing must be submitted in writing to the person specified below and shall be postmarked within 30 days of the date of this public notice. All persons, including the applicant, who believe that any condition set forth in this document is inappropriate, must raise all reasonable issues and submit all arguments and factual materials supporting their position by the close of the public comment period. Any request for a hearing shall state the nature of the issues to be raised. A public hearing will be conducted whenever the Department determines that there is a significant degree of public interest in the permit decision. If a public hearing is held, the public comment period shall automatically be extended to the close of the public hearing.

The Department will consider and respond to all significant and timely comments. The applicant and each person who has submitted written comments will receive notice of Department's final decision.

Written comments should be submitted to the appropriate permitting bureau:

Steve Maybury, Chief
Bureau of Environmental Evaluation, Cleanup and Responsibility Assessment
P.O. Box 432
Trenton, NJ 08625

Kevin Kratina, Chief
Bureau of Underground Storage Tanks

Division of Water Quality***

PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP) proposes to issue the following New Jersey Pollutant Discharge Elimination System (NJPDES) permit actions in accordance with N.J.A.C. 7:14A-1 et seq. and by authority of N.J.S.A. 58:10A-1 et seq. The description of each proposed permit action is contained in the accompanying table.

This public notice has been prepared for these facilities as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. Copies of the draft document are obtainable, for a nominal charge, and the administrative record is available for inspection by appointment only, Monday through Friday, by contacting the NJDEP file room at (609) 292-0400. Additional information regarding the draft document may be obtained from the contact person listed in the accompanying table.

Comments on the draft document or a request that NJDEP hold a non-adversarial public hearing on the document must be submitted, in writing, to the individual specified below (refer to the accompanying table for the appropriate permitting bureau) during the public comment period, which closes either:

1. 30 calendar days after publication of the last newspaper notice when a notice is published in the DEP Bulletin *and* a newspaper(s); or
2. 30 calendar days after publication of the DEP Bulletin notice when a notice is published in the DEP Bulletin *only*.

All persons, including permittees who believe that any condition of NJDEP's tentative decision to issue these permit actions is inappropriate must raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. Any request for a public hearing shall state the nature of the proposed issues to be raised in the hearing. A public hearing will be conducted if NJDEP determines there is a significant degree of public interest. If a public hearing is held, the public comment period is automatically extended through the close of the hearing.

NJDEP will consider and respond to all significant and timely submitted comments. The permittee and each person who submitted written comments, will receive notice of NJDEP's final decision to issue, revoke or redraft the document.

Written comments should be submitted to the appropriate permitting bureau:

Jeffrey Reading, Chief
Bureau of Point Source Permitting - Region 1
PO Box 029
Trenton, NJ 08625

Debra Hammond, Chief
Bureau of Point Source Permitting - Region 2
PO Box 029
Trenton, NJ 08625

Barry Chalofsky, Chief
Bureau of Nonpoint Pollution Control
PO Box 029
Trenton, NJ 08625

Mary Jo Aiello, Chief
Bureau of Pretreatment and Residuals
PO Box 029
Trenton, NJ 08625

*Public Notice of Proposed Permit Actions – 8/16/2000
