In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed does not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed inside the back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

NL Industries NJPDES Permit No. NJ 0053198 Storm Water	Marsulex Inc. (former) Sayreville Boro Middlesex County	Eric Sussman Bureau of Nonpoint Pollution Control (609) 633-7021	Unknown tributary SE1 02030105130	The permittee was formerly engaged in the blending and distribution of Sulfuric Acid. The Standard industrial Classification (SIC) code for the former facility was 2819. Production of Sulfuric Acid ceased in June 1989 and the facility was used as an acid blending operation and bulk storage transfer station until October 1997. The facility is in the process of completing an industrial cleanup of the site in accordance with the State's Industrial Site Recovery Act. Approximately, 8,800 cubic yards of PCB contaminated soil had been piled adjacent to surface water on the site. The Department required NL to retain their NJPDES stormwater permit and continue to implement best management practices to minimize the impact of runoff to surface water from the contaminated pile. The permit was to be retained by the permittee until a remedy for the soil pile was approved and completed under the direction of the Bureau of Environmental, Evaluation, Cleanup and Responsibility Assessment (BEECRA). A letter was issued by BEECRA on February 16, 1999 stating that the responsible party has satisfied their requirements for the contaminated soil pile area. Subsequently, in a letter to the Department dated July 13, 2000, NL industries requested that the permit for the former acid plant area be revoked. Based on the completion of remedial activities for the area of concern covered under the NJPDES permit the Department is revoking NJPDES permit NJ0053198.
