In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Stream Encroachment (SE) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed does not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed inside the back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

DEP Bulletin Notice

Notice Final Settlement

Take notice that the Department of Environmental Protection has entered into a settlement agreement with ARD Mount Olive Associates to resolve an appeal of the Department's April 16, 1998 denial of Individual Freshwater Wetlands Permit Application 1427-91-0001.5. The original application proposed the placement of fill in 10.4 acres of freshwater wetlands located on Block: 4400, Lot: 79 in the Township of Mount Olive for a proposed residential development known as Dyrham Woods. Through extensive negotiations with ARD Mount Olive Associates an alternative site design was developed that requires only 3.77 acres of wetlands disturbance while continuing to provide an economically viable project. The Department published a Notice of Intent to Settle for this project in the September 27, 2000 edition of the DEP Bulletin. The Department received two comment letters in response to that notice: one from the Mount Olive Township Planning Board and the other from the Mount Olive Township Environmental Commission. Both letters raised concerns about the fate of remaining wetlands on the ARD property and required mitigation for the 3.77 acres of remaining wetlands impacts. During the settlement negotiations, ARD agreed to include improvements to their site plan needed to maintain the hydrology of the remaining wetlands, and natural drainage patterns on the site. ARD has also proposed to perform mitigation by enhancing approximately 20 acres of wetlands previously disturbed by mineral extraction on a nearby site in Mount Olive Township. These comments were addressed in a letter from the Department to Mount Olive Township dated November 3, 2000.
