---

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Stream Encroachment (SE) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

**NEW JERSEY'S DRAFT CZM 309 ASSESSMENT  
AVAILABLE FOR REVIEW**

**PUBLIC NOTICE**

The New Jersey Department of Environmental Protection Office of Coastal Planning would like your comments on New Jersey's DRAFT SECTION 309 ASSESSMENT.

Through the 1990 reauthorization of the Coastal Zone Management Act (CZMA), Congress established a new Coastal Enhancement Grants Program that encouraged federally approved state coastal management programs to develop *assessments and strategies* to address major coastal issues in one or more of eight coastal management areas. New Jersey chose to address coastal hazards and cumulative and secondary impacts as part of the 1993 strategy development process. The 1996 reauthorization of CZMA recognized the continuation of the Coastal Enhancement Grants Program and directed the re-assessment and development of strategies to address one or more of nine major coastal issues. New Jersey chose to continue its address of cumulative and secondary impacts by focusing on impacts of development in coastal watersheds. The subject areas being assessed herein include: public access, coastal hazards, ocean resources, wetlands, cumulative and secondary impacts, marine debris, special area management planning, energy and government facility siting, and aquaculture. The federal program objective is to fund new initiatives that result in an enhancement to New Jersey's Coastal Management Program.

The Department of Environmental Protection, Office of Coastal Planning has prepared the draft program assessment based on previous Section 309 Enhancement Program findings and subsequent changes over time. We would appreciate your review and comment on the draft 'Assessment' for each of the major coastal issues and your suggestion on the priority rating that each assessment topic should receive. Your comments and suggestions will be considered prior to our submitting the final version to the National Oceanic and Atmospheric Administration.

Copies of the Draft Assessment are available on the NJDEP Website at [www.state.nj.us/dep](http://www.state.nj.us/dep) and/or upon request from the NJDEP, Office of Coastal Planning, 609-292-2662.

Please submit your written comments on the *Draft Assessment Questionnaire* by **April 30, 2001**, to:
