## General Application Milestone Codes

---

Application Approved  
Application Denied  
Application Withdrawal  
C = Cancelled

F = Complete for Filing  
H = Public Hearing Date  
I = Additional Information Requested  
L = Legal Appeal of Permit Decision

M = Permit Modification  
P = Permit Decision Date  
R = Complete for Review  
T = Additional Information Received

## Specific Decision Application Codes

---

AVE PLAN = Averaging Plan  
FP/A = Footprint/Absence of Wet., Waters & Transition Area  
F/F = Farming/Forestry/Silviculture Exemption  
FP/P = Footprint/Wetlands Present  
FP/SOW = Footprint/State Open Waters Present Only  
FP/T = Footprint/Transition Area Present Only  
NW = ACOE Nationwide Permit Exemptions  
O = Other  
PA/A = Presence-Absence/Absence of Wet., Waters & Trans. Area  
PA/P = Presence-Absence/Wetlands Present

PA/SOW = Presence/Absence/State Open Waters Only  
PA/T = Presence/Absence/Transition Area Only  
R = Reductions  
REG = HMDC/Pinelands Exemption  
SPEC ACTIVITY = Special Activity (Linear Dev. & Stormwater Mgmt.)  
SA/GP = Special Activity for Statewide Gen. Permit Activity  
SA/R = Special Activity for Redevelopment  
SD = Municipal Subdivision Approval  
SP = Municipal Site Plan Approval  
VERIFIED = Verified Line

---

## Permit Descriptions

---

**CAFRA** - A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

**Federal Consistency Activity:** Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

**Freshwater Wetlands:** A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas. A Stream Encroachment Permit, a U.S. Army Corps of Engineers Dredge and Fill Permit, and a Water Quality Certification may also be required.

**General Groundwater Petroleum Products Cleanup:** This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

**NJPDES permits:** A permit is required for the discharge of pollutants to surface and groundwaters, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities which require a permit may be found at N.J.A.C. 7:14A-2.4)

**Solid Waste Facility:** A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

**Stream Encroachment:** Under the Flood Control Act DEP is empowered to require a permit to control construction within and proximate to flood hazard areas to reduce flood damage to and from new development and to protect the flood storage capacity and ecology of flood plains.

**Tidal Wetlands:** A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

**Treatment Works Approval:** A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

**Waterfront Development:** A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

## General Information

---

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Stream Encroachment (SE) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

## Appeals on Applications

---

Any individual who would like to appeal a decision on an application should direct their remarks to:

Office of Legal Affairs  
Attn: Adjudicatory Hearing Requests  
Department of Environmental Protection  
PO Box 402  
Trenton, NJ 08625-0402

---

## DEP SUBSCRIPTION INFORMATION

Copies of this publication are found in all municipal clerks offices and county planning board offices. Individuals may obtain an annual subscription of 24 issues for a fee of \$50 which is the estimated cost of producing and mailing each issue to subscribers. If you desire a new subscription, please send a check for \$50 payable to the Treasurer, State of New Jersey and mail it to the NJDEP, Bureau of Revenue, PO Box 417, 160 S. Broad St., 3<sup>rd</sup> Flr., Trenton, NJ 08646-0417. Please use the form below to make any changes in your subscription.

For information on a specific permit, please see the telephone list inside the back cover.

## **NOTICE OF STIPULATION OF SETTLEMENT**

### **WATERFRONT DEVELOPMENT PERMIT APPLICATION**

**TAKE NOTICE THAT THE DEPARTMENT OF ENVIRONMENTAL PROTECTION** Office of Dredging and Sediment Technology has agreed to settle the pending appeal of Waterfront Development Permit Application file #1342-94-0017.4, for property designated Lot 1, Block 7, Borough of Rumson, Monmouth County, New Jersey.

The applicant, Tighe, Inc., proposes to maintenance dredge approximately 450 cubic yards of dredged material from around an existing "T" dock. A grain size analysis was performed on the material to be removed. The material was found to contain greater than 90% sand. The material is to be removed using hydraulic methods, and placed in a temporary dewatering area to be located on the parking lot of the restaurant. The material would then be transported for use as beach fill material above the mean high water line at the Chapel Beach Club located at Block 23, Lot 3 and Block 17, Lot 3 in the Borough of Sea Bright.

Comments regarding this proposed settlement may be forwarded within 15 days of this notice to:

Suzanne U. Dietrick  
NJDEP  
Office of Dredging and Sediment Technology  
PO Box 28  
Trenton, NJ 08625

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION**

**Notice of Public Comment Period for Request for Federal Consistency Determination**

The requests for a Federal Consistency Determination for the projects listed below are reviewed under the Rules on Coastal Zone Management, N.J.A.C. 7:7E.

<b>COUNTY</b>	<b>PROJECT NUMBER</b>	<b>PROJECT LOCATION</b>	<b>APPLICANT NAME</b>
<b><u>DATE RECEIVED</u></b>	<b><u>PROJECT MANAGER</u></b>	<b><u>PROJECT DESCRIPTION</u></b>	<b><u>ADDRESS</u></b>

**DEPARTMENT OF ENVIRONMENTAL PROTECTION  
DIVISION OF SCIENCE, RESEARCH AND TECHNOLOGY**

Solicitation of Water Quality Related Data to Support the Development of the 2002 Water Quality Limited Segments List under Section 303(d) of the Federal Clean Water Act and Subchapter 6 of the New Jersey Watershed Management Planning Rules (N.J.A.C. 7:15-6)

**Take notice** that the New Jersey Department of Environmental Protection (Department) is soliciting water quality related data to develop the 2002 Water Quality Limited Segments List (also known as the 303(d) List). The Water Quality Limited Segments List is used to establish priorities for implementation of water quality improvement measures including, as appropriate, development of total maximum daily loads (TMDLs). A TMDL establishes allowable pollutant loads or other quantifiable parameters that a stream can assimilate without exceeding applicable surface water quality standards. TMDLs establish the basis for water quality based controls such as permit limits or best management practices to control the amount of pollutants being discharged into the water body.

Data received through this solicitation may be used to:

- 1) confirm impairment of a waterbody and/or presence of a pollutant that is currently on the 1998 Water Quality Limited Segments List;
- 2) delist a waterbody and/or a pollutant that is currently on the 1998 Water Quality Limited Segments List; or,
- 3) list a waterbody and/or a pollutant that is not included on the 1998 Water Quality Limited Segments List.

The development of the Water Quality Limited Segments List is governed by Section 303(d) of the Federal Clean Water Act (33 USC 1313 (d)), United States Environmental Protection Agency's (USEPA's) Water Quality Planning and Management Regulation at 40 CFR 130, and Subchapter 6 of New Jersey's Water Quality Management Planning Rules (N.J.A.C. 7:15). Both USEPA and the Department are revising their respective regulations regarding the development of Water Quality Limited Segments lists. USEPA adopted revisions to their existing Water Quality Planning and Management Regulation in July, 2000. However, a date has not yet been established for implementation of these revisions. The Department proposed to repeal the existing Water Quality Management Planning rules and replace them with new rules entitled Water Quality and Watershed Management Planning rules (see N.J.R. 2285(a); July 3, 2000). Under this proposal, the development of the Water Quality Limited Segments List would be governed by proposed N.J.A.C. 7:15-3, Water Quality Limited Segments List. The 2002 Water Quality Limited Segments List will be developed under rules in place at the time the 2002 Water Quality Limited Segments List is proposed.

Section 303(d) of the Federal Clean Water Act requires States, Territories and authorized Tribes to promulgate a list of both waterbodies in which it is known that water quality does not currently meet applicable surface water quality standards, as well as threatened waterbodies. Threatened waterbodies are those waterbodies in which water quality currently meets applicable water quality standards but for which statistically significant trends indicate that the waterbody is not expected to meet applicable surface water quality standards by the next 303 (d) cycle, currently two (2) years. New Jersey's Surface Water Quality Standards (SWQSs) can be found at N.J.A.C 7:9B. Waterbodies must be maintained on the Water Quality Limited Segments List unless new data show that SWQSs are being met, waters are not threatened, or the original basis for listing is no longer applicable, e.g., adopted change in applicable SWQSs.

Under USEPA rule (40CFR 130.7), States, Territories and authorized Tribes are required to develop the Water Quality Limited Segments List in 1998, 2002 and every two years thereafter. This notice solicits data for development of the 2002 Water Quality Limited Segments List.

Interested persons should mail data packages to the Department at NJDEP, Division of Science, Research and Technology, Water Assessment Team, 1<sup>st</sup> Floor, 401 East State Street, P.O. Box 409, Trenton, New Jersey 08625-0409.

Data packages will be accepted for a period of six months from the date of this notice for the development of the 2002 Water Quality Limited Segments List. Data packages submitted after this time period may be considered for subsequent Water Quality Limited Segments Lists and/or other Department assessments such as Water Quality Inventory Reports.

Quality assurance considerations are particularly important because the adopted Water Quality Limited Segments List is used to establish priorities for water quality improvement measures, including, as appropriate, TMDL development. Given the importance and long-term ramifications of the Water Quality Limited Segments List, the Department must use data which meet the following quality assurance requirements:

- 1) Data packages must include a completed Quality Assurance/Quality Control Project Plan (QA/QC/Plan) prepared in accordance with "Guidance for the Development of Quality Assurance Project Plans for Environmental Monitoring" (EPA Region II, May 1, 1999);
- 2) All samples, including replicates, blanks and recovery spikes, shall be collected in conformance with the Department's Field Sampling Manual (1992);
- 3) Sampling locations must be accurately documented to within 200 feet;
- 4) Laboratory samples must be analyzed at a State certified lab; and
- 5) Analytical testing methods shall be in accordance with 40 CFR Part 136 Guidelines for Establishing Test Procedures for Analysis under the Clean Water Act.

The Department will identify water quality limited segments using appropriate readily available data collected by governmental and non-governmental entities. In determining which data are appropriate and readily available, the Department will consider quality assurance/ quality control, monitoring design, age of data, accurate sampling location information, data documentation and use of electronic data management. A data package should include:

- 1) A completed QA/QC project plan. The Department recognizes that some water quality data collected to date may not have been collected under a QA/QC project plan "approved" by the Department. The Department will consider data, for this data solicitation only, which do not have a previously approved QA/QC project plan if the data was collected in accordance with a QA/QC program acceptable to the Department;
- 2) Data provided in electronic format, preferably STORET. Data may also be provided in Excel, Access or compatible format on floppy disc, ZIP drive or CD ROM. Station location data should be provided in ArcView, Arc Info or compatible format when possible, or mapped on a USGS Quadrangle Sheet; and,
- 3) A citable report summarizing the data that includes name address, and telephone number of the entity that generated the data set.

Public notice of solicitation of data is being provided in the New Jersey Register and DEP Bulletin, and on the NJDEP Website ([www.dep.state.nj.us/dep](http://www.dep.state.nj.us/dep)). Electronic data cannot be accepted via e-mail or over the web at this time. Questions may be submitted electronically to [wat@dep.state.nj.us/dep](mailto:wat@dep.state.nj.us/dep).

Director  
Division of Science, Research and Technology

***New Jersey Department of Environmental Protection  
Division of Responsible Party Site Remediation  
Industrial Site Evaluation Element***

***PUBLIC NOTICE***

Notice is hereby given that the New Jersey Department of Environmental Protection (Department), Site Remediation Program, proposes to issue the following New Jersey Pollutant Discharge Elimination System permit actions in accordance with N.J.S.A. 58:10A-1 et seq. and N.J.A.C. 7:14A-1 et seq.

The permit action prepared by the Department is based on the administrative record which is on file at the offices of the Department, Site Remediation Program, located at 401 East State Street in the City of Trenton, Mercer County, New Jersey. It is available for inspection, by appointment, Monday through Friday, between 8:30 A.M. and 4:00 P.M. Appointment for inspection may be requested in writing to the Bureau of Federal Case Management or by fax at (609) 777-4285. Requests should be made to the attention of the file custodians. Appointments for inspection of the NJPDES file only or requests for a copy of the draft document (at a nominal charge) may be made by calling Central File at (609) 292-0400.

Comments on the draft document or a request that the Department hold a non-adversarial public hearing must be submitted in writing to the person specified below and shall be postmarked within 30 days of the date of this public notice. All persons, including the applicant, who believe that any condition set forth in this document is inappropriate, must raise all reasonable issues and submit all arguments and factual materials supporting their position by the close of the public comment period. Any request for a hearing shall state the nature of the issues to be raised. A public hearing will be conducted whenever the Department determines that there is a significant degree of public interest in the permit decision. If a public hearing is held, the public comment period shall automatically be extended to the close of the public hearing.

The Department will consider and respond to all significant and timely comments. The applicant and each person who has submitted written comments will receive notice of Department's final decision.

Written comments should be submitted to the appropriate permitting bureau:

Steve Maybury, Chief  
Bureau of Environmental Evaluation, Cleanup and Responsibility Assessment  
P.O. Box 432  
Trenton, NJ 08625

Kevin Kratina, Chief  
Bureau of Underground Storage Tanks  
P.O. Box 433  
Trenton, NJ 08625

***Public notice of proposed permit actions***

<b><i>Facility name / NJPDES Permit No ./ SRP Case ID</i></b>	<b><i>Facility location / address /  County</i></b>	<b><i>NJDEP case manager / Bureau / phone number</i></b>	<b><i>Permit Type / Formation / Ground Water Classification</i></b>	<b><i>Executive Summary</i></b>
Woodcrest Elementary School  8000107  92-06-05-1705	Astor & Cranford Roads  Cherry Hill  Camden County	John Blankenship  BUST  609-984- 3071	Discharge to Ground Water  Kirkwood Formation  II-A	The applicant for the permit is Cherry Hill Board of Education, 45 Ranaldo Terrace, Cherry Hill, NJ 08034. The facility is an elementary school and has had a discharge of fuel oil. The fuel oil will be recovered by pumping wells. Ground water recovered in the process will be injected into wells upgradient of the contaminant plume. The discharge will be to the Kirkwood Formation of Tertiary Age.

**NEW JERSEY'S DRAFT CZM 309 ASSESSMENT  
AVAILABLE FOR REVIEW**

**PUBLIC NOTICE**

The New Jersey Department of Environmental Protection Office of Coastal Planning would like your comments on New Jersey's DRAFT SECTION 309 ASSESSMENT.

Through the 1990 reauthorization of the Coastal Zone Management Act (CZMA), Congress established a new Coastal Enhancement Grants Program that encouraged federally approved state coastal management programs to develop *assessments and strategies* to address major coastal issues in one or more of eight coastal management areas. New Jersey chose to address coastal hazards and cumulative and secondary impacts as part of the 1993 strategy development process. The 1996 reauthorization of CZMA recognized the continuation of the Coastal Enhancement Grants Program and directed the re-assessment and development of strategies to address one or more of nine major coastal issues. New Jersey chose to continue its address of cumulative and secondary impacts by focusing on impacts of development in coastal watersheds. The subject areas being assessed herein include: public access, coastal hazards, ocean resources, wetlands, cumulative and secondary impacts, marine debris, special area management planning, energy and government facility siting, and aquaculture. The federal program objective is to fund new initiatives that result in an enhancement to New Jersey's Coastal Management Program.

The Department of Environmental Protection, Office of Coastal Planning has prepared the draft program assessment based on previous Section 309 Enhancement Program findings and subsequent changes over time. We would appreciate your review and comment on the draft 'Assessment' for each of the major coastal issues and your suggestion on the priority rating that each assessment topic should receive. Your comments and suggestions will be considered prior to our submitting the final version to the National Oceanic and Atmospheric Administration.

Copies of the Draft Assessment are available on the NJDEP Website at [www.state.nj.us/dep](http://www.state.nj.us/dep) and/or upon request from the NJDEP, Office of Coastal Planning, 609-292-2662.

Please submit your written comments on the *Draft Assessment Questionnaire* by **April 30, 2001**, to:

Ms. Ruth Ehinger  
NJDEP Office of Coastal Planning  
401 East State Street, P.O.B. 418  
Trenton, New Jersey 08625-0418.  
FAX # 609-292-2662

***New Jersey Department of Environmental Protection  
Division of Water Quality***

***PUBLIC NOTICE***

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP) proposes to issue the following New Jersey Pollutant Discharge Elimination System (NJPDES) permit actions in accordance with N.J.A.C. 7:14A-1 et seq. and by authority of N.J.S.A. 58:10A-1 et seq. The description of each proposed permit action is contained in the accompanying table.

This public notice has been prepared for these facilities as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. Copies of the draft document are obtainable, for a nominal charge, and the administrative record is available for inspection by appointment only, Monday through Friday, by contacting the NJDEP file room at (609) 292-0400. Additional information regarding the draft document may be obtained from the contact person listed in the accompanying table.

Comments on the draft document or a request that NJDEP hold a non-adversarial public hearing on the document must be submitted, in writing, to the individual specified below (refer to the accompanying table for the appropriate permitting bureau) during the public comment period, which closes either:

1. 30 calendar days after publication of the last newspaper notice when a notice is published in the DEP Bulletin ***and*** a newspaper(s); or
2. 30 calendar days after publication of the DEP Bulletin notice when a notice is published in the DEP Bulletin ***only***.

All persons, including permittees who believe that any condition of NJDEP's tentative decision to issue these permit actions is inappropriate must raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. Any request for a public hearing shall state the nature of the proposed issues to be raised in the hearing. A public hearing will be conducted if NJDEP determines there is a significant degree of public interest. If a public hearing is held, the public comment period is automatically extended through the close of the hearing.

NJDEP will consider and respond to all significant and timely submitted comments. The permittee and each person who submitted written comments, will receive notice of NJDEP's final decision to issue, revoke or redraft the document.

NJ</p> <p>Atlantic County</p>	<p>Matt Klewin</p> <p>Bureau of Nonpoint Pollution Control</p> <p>(609) 633-7021</p>	<p>I-PL (Preservation Area)</p>	<p>This is a draft renewal action for Moorings at Sweetwater. This facility is an apartment house that consists of two (2) multi-unit buildings. The buildings have a total of 9,500 square feet, and total maximum occupancy is 24-30 people. The total discharge of the facility is limited to 1800 gallons per day. This is a "flow only" permit with conditions that the if the maximum flow of 1800 gallons is exceeded the permittee may be required to sample for additional parameters in the discharge and in the monitoring wells.</p>

<p>General Permit - Category II (Stormwater Basin Sanitary Landfill)</p> <p>NJPDES No. NJG0108308</p> <p>Ground Water</p>	<p>Statewide</p>	<p>Judy Majoras</p> <p>Bureau of Nonpoint Pollution Control</p> <p>(609) 292-0407</p>		<p>The General NJPDES-DGW Permit for Stormwater Basin Discharges to Ground Water at Operating Sanitary Landfills (NJG0108308) is due to expire and is being renewed, draft. The permit applies only to stormwater basins that collect runoff from areas of operating landfills that are not used for disposal. Statistical analyses are performed on the analytical results of discharge samples to note variations in contaminant concentrations that may indicate a lack of control over site conditions. Lack of control over site conditions can adversely impact the quality of stormwater runoff being discharged at landfills. Facilities eligible for this general permit are also issued individual permits that require ground water monitoring to detect any contaminant discharges from the landfill waste disposal areas.</p>
