## General Application Milestone Codes

---

Application Approved	F = Complete for Filing	M = Permit Modification
Application Denied	H = Public Hearing Date	P = Permit Decision Date
Application Withdrawal	I = Additional Information Requested	R = Complete for Review
C = Cancelled	L = Legal Appeal of Permit Decision	T = Additional Information Received

## Specific Decision Application Codes

---

AVE PLAN = Averaging Plan	PA/SOW = Presence/Absence/State Open Waters Only
FP/A = Footprint/Absence of Wet., Waters & Transition Area	PA/T = Presence/Absence/Transition Area Only
F/F = Farming/Forestry/Silviculture Exemption	R = Reductions
FP/P = Footprint/Wetlands Present	REG = HMDC/Pinelands Exemption
FP/SOW = Footprint/State Open Waters Present Only	SPEC ACTIVITY = Special Activity (Linear Dev. & Stormwater Mgmt.)
FP/T = Footprint/Transition Area Present Only	SA/GP = Special Activity for Statewide Gen. Permit Activity
NW = ACOE Nationwide Permit Exemptions	SA/R = Special Activity for Redevelopment
O = Other	SD = Municipal Subdivision Approval
PA/A = Presence-Absence/Absence of Wet., Waters & Trans. Area	SP = Municipal Site Plan Approval
PA/P = Presence-Absence/Wetlands Present	VERIFIED = Verified Line

---

## Permit Descriptions

---

**CAFRA** - A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

**Federal Consistency Activity:** Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

**Freshwater Wetlands:** A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas. A Stream Encroachment Permit, an U.S. Army Corps of Engineers Dredge and Fill Permit, and a Water Quality Certification may also be required.

**General Groundwater Petroleum Products Cleanup:** This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

**NJPDES permits:** A permit is required for the discharge of pollutants to surface and groundwater, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities, which require a permit, may be found at N.J.A.C. 7:14A-2.4)

**Solid Waste Facility:** A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

**Stream Encroachment:** Under the Flood Control Act DEP is empowered to require a permit to control construction within and proximate to flood hazard areas to reduce flood damage to and from new development and to protect the flood storage capacity and ecology of flood plains.

**Tidal Wetlands:** A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

**Treatment Works Approval:** A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

**Waterfront Development:** A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

## General Information

---

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Stream Encroachment (SE) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

## Appeals on Applications

---

Any individual who would like to appeal a decision on an application should direct their remarks to:

Office of Legal Affairs  
Attn: Adjudicatory Hearing Requests  
Department of Environmental Protection  
PO Box 402  
Trenton, NJ 08625-0402

---

## DEP SUBSCRIPTION INFORMATION

Copies of this publication are found in all municipal clerks offices and county planning board offices. Individuals may obtain an annual subscription of 24 issues for a fee of \$50, which is the estimated cost of producing and mailing each issue to subscribers. If you desire a new subscription, please send a check for \$50 payable to the Treasurer, State of New Jersey and mail it to the NJDEP, Bureau of Revenue, PO Box 417, 160 S. Broad St., 3<sup>rd</sup> Flr., Trenton, NJ 08646-0417. Please use the form below to make any changes in your subscription.

For information on a specific permit, please see the telephone list inside the back cover.

Division of Responsible Party Site Remediation  
Industrial Site Evaluation Element***

***PUBLIC NOTICE***

Notice is hereby given that the New Jersey Department of Environmental Protection (Department), Site Remediation Program, proposes to issue the following New Jersey Pollutant Discharge Elimination System permit actions in accordance with N.J.S.A. 58:10A-1 et seq. and N.J.A.C. 7:14A-1 et seq.

The permit action prepared by the Department is based on the administrative record which is on file at the offices of the Department, Site Remediation Program, located at 401 East State Street in the City of Trenton, Mercer County, New Jersey. It is available for inspection, by appointment, Monday through Friday, between 8:30 A.M. and 4:00 P.M. Appointment for inspection may be requested in writing to the Bureau of Federal Case Management or by fax at (609) 777-4285. Requests should be made to the attention of the file custodians. Appointments for inspection of the NJPDES file only or requests for a copy of the draft document (at a nominal charge) may be made by calling Central File at (609) 292-0400.

Comments on the draft document or a request that the Department holds a non-adversarial public hearing must be submitted in writing to the person specified below and shall be postmarked within 30 days of the date of this public notice. All persons, including the applicant, who believe that any condition set forth in this document is inappropriate, must raise all reasonable issues and submit all arguments and factual materials supporting their position by the close of the public comment period. Any request for a hearing shall state the nature of the issues to be raised. A public hearing will be conducted whenever the Department determines that there is a significant degree of public interest in the permit decision. If a public hearing is held, the public comment period shall automatically be extended to the close of the public hearing.

The Department will consider and respond to all significant and timely comments. The applicant and each person who has submitted written comments will receive notice of Department's final decision.

Written comments should be submitted to the appropriate permitting bureau:

Steve Maybury, Chief  
Bureau of Environmental Evaluation, Cleanup and Responsibility Assessment  
P.O. Box 432  
Trenton, NJ 08625

Kevin Kratina, Chief  
Bureau of Underground Storage Tanks  
PO Box 433  
Trenton, NJ 08625

***New Jersey Department of Environmental Protection  
Division of Water Quality***

***PUBLIC NOTICE***

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP) proposes to issue the following New Jersey Pollutant Discharge Elimination System (NJPDES) permit actions in accordance with N.J.A.C. 7:14A-1 et seq. and by authority of N.J.S.A. 58:10A-1 et seq. The description of each proposed permit action is contained in the accompanying table.

This public notice has been prepared for these facilities as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. Copies of the draft document are obtainable, for a nominal charge, and the administrative record is available for inspection by appointment only, Monday through Friday, by contacting the NJDEP file room at (609) 292-0400. Additional information regarding the draft document may be obtained from the contact person listed in the accompanying table.

Comments on the draft document or a request that NJDEP hold a non-adversarial public hearing on the document must be submitted, in writing, to the individual specified below (refer to the accompanying table for the appropriate permitting bureau) during the public comment period, which closes either:

1. 30 calendar days after publication of the last newspaper notice when a notice is published in the DEP Bulletin ***and*** a newspaper(s); or
2. 30 calendar days after publication of the DEP Bulletin notice when a notice is published in the DEP Bulletin ***only***.

All persons, including permittees who believe that any condition of NJDEP's tentative decision to issue these permit actions is inappropriate must raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. Any request for a public hearing shall state the nature of the proposed issues to be raised in the hearing. A public hearing will be conducted if NJDEP determines there is a significant degree of public interest. If a public hearing is held, the public comment period is automatically extended through the close of the hearing.

NJDEP will consider and respond to all significant and timely submitted comments. The permittee and each person who submitted written comments, will receive notice of NJDEP's final decision to issue, revoke or redraft the document.

***Written comments should be submitted to the appropriate permitting bureau:***

<b><u>Permit:</u></b>	<b><u>Facility Location:</u></b>	<b><u>NJDEP:</u></b>	<b><u>Receiving Discharge:</u></b>	<b><i>Executive Summary</i></b>
<ul style="list-style-type: none"> <li><i>Name</i></li> <li><i>NJPDES No.</i></li> <li><i>Type</i></li> </ul>	<ul style="list-style-type: none"> <li><i>Address</i></li> <li><i>County</i></li> </ul>	<ul style="list-style-type: none"> <li><i>Case manager</i></li> <li><i>Bureau</i></li> <li><i>Phone No.</i></li> </ul>	<ul style="list-style-type: none"> <li><i>Stream or Formation or POTW</i></li> <li><i>Stream Classification</i></li> <li><i>Watershed</i></li> </ul>	
General Permit - Category I2  NJPDES Permit No. NJ0108642  Ground Water	Statewide, NJ 00000 All Municipalities  Statewide	June Gazek  Bureau of Nonpoint Pollution Control  (609) 633-7021	Statewide  II-A	This general NJPDES-Discharge to Ground Water (DGW) permit is being renewed with some changes. This permit applies specifically to active potable water treatment plant facilities who, as part of their treatment process, are removing excess iron and manganese which is frequently elevated in raw water supplies. The facilities who are eligible for this general permit treat their water as described above and discharge their filter backwash/clarifier water to on-site basins. The renewal permit proposes the following major changes: a consolidation of the 4 monitoring programs into 2 monitoring programs; changing the monitoring program frequency from semi-annual to annual. Most facilities will have a decrease in monitoring, except for those currently in monitoring program 3 who will sample annually for the trihalomethane compounds. Existing data collected over the previous 5 years suggests a wide variation needing further additional data for comparison.
Arthur Schalick High School  NJPDES Permit No. NJ0090221  Ground Water	Rt 553 Pittsgrove Twp  Salem County	Matt Klewin  Bureau of Nonpoint Pollution Control  (609) 633-7021	II-A	This is a renewal permit action. Arthur Schalick High School has a staff and student population of 742 and the middle school has a staff and student population of 719. Both schools have cafeterias and showers. In addition the high school has a laboratory. The maximum design flow of the facility is 22,500 GPD of sanitary wastewater. The wastewater is discharged to four(4) subsurface disposal beds. The facility is required to monitor the effluent discharge (T01T) and four(4) ground water monitoring wells to ensure compliance with the conditions of the permit.

<p>Delphi Engine &amp; Energy Mngt</p> <p>NJPDES Permit No. NJ0030392</p> <p>Stormwater</p>	<p>760 Jersey Avenue New Brunswick City</p> <p>Middlesex County</p>	<p>Eric Sussman</p> <p>Bureau of Nonpoint Pollution Control</p> <p>(609) 633-7021</p>	<p>Mile Run Brook</p> <p>02030105080</p>	<p>The applicant is engaged in the manufacturing of storage batteries, Standard Industrial Classification (SIC) code 3691. Stormwater is collected from approximately 9 acres of the site. The stormwater is diverted to an on-site treatment system, which is designed to treat the runoff from a 100 year 24 hour storm event (7.5 inches/24-hours). The system has a holding capacity of 1,000,000 gallons. The treatment system is primarily for the removal of lead; and consists of pH adjustment, coagulation, clarification and sand filtration. Sludge that is generated from the treatment process is thickened and then filtered pressed. The pressed sludge cakes are then sent to a smelter to recover the lead content. Water from the sludge recovery process is reintroduced into the treatment system. The existing permit regulates stormwater discharged via storm sewer, from outfall DSN001, to the Mile Run Brook a tributary of the Raritan River, classified as FW2-NT. A second outfall (DSN002) has been closed.</p> <p>After a review of correspondence submitted by Delphi Engine &amp; Energy Management a decision was reached to modify their existing Stormwater Permit. The NJDEP intends to modify the existing NJPDES permit NJ0030392 to eliminate the requirement to monitor for rainfall data</p>
<p>USR Optonix Inc</p> <p>NJPDES Permit No. NJ0127337</p> <p>Ground Water</p>	<p>Kings Highway Washington Twp.</p> <p>Morris County</p>	<p>Keith Howell</p> <p>Bureau of Nonpoint Pollution Control</p> <p>(609) 633-7021</p>	<p>II-A</p>	<p>This is a new NJPDES-DGW permit for an existing facility. USR Optonix manufactures dry phosphor coatings for television tubes and toner products for copy machines. The manufacturing process of phosphor coatings involves the blending and heat treatment of metallic and non-metallic powders consisting of rare earth metals, lanthanides and fluoride. The toner manufacturing process consists of blending and packaging of carbon black, bulking agents and polymers.</p> <p>USR Optonix generates approximately 50,000 gpd of non-contact cooling water from the phosphor manufacturing process. Periodically, water generated by general maintenance such as the water deionization system, water tower, fire system flushing and roof run off after a rain event are mixed with the non-contact cooling water discharge. Location of I01I discharge point is indicated on the site map which illustrates that the discharge begins at a concrete pipe which flows into a wooded portion of USR Optonix's property until it reaches their I/P Lagoon.</p> <p>All sanitary and process wastewaters are discharged into the Hackettstown MUA sewer system.</p>

<p>Musconetcong SA W.P.C.P.</p> <p>NJPDES Permit No. NJ0027821</p> <p>DSW Major</p>	<p>Continental Drive Mount Olive, NJ 07828</p> <p>Morris County</p>	<p>Jason Lonardo</p> <p>Bureau of Point Source Permitting Region 1</p> <p>(609) 633-3869</p>	<p>Musconetcong River</p> <p>FW2-TM (C2)</p> <p>02040105150030</p>	<p>This application is for a modification of a NJPDES permit to discharge treated domestic wastewater.</p> <p>Through the modification application, the permittee is requesting that the existing NJPDES/DSW permit be modified to reflect an interim staged flow of 4.31 MGD to accommodate additional sewage flow from the Borough of Hopatcong to treat the failing septic system around Lake Hopatcong. To process the additional flows from the Borough of Hopatcong, the permittee will be constructing an additional 0.5 MGD water pollution control plant module. The Department has determined that removal of the failing septic system discharges and treatment of that wastewater at the MSA facility will result in an overall improvement of water quality. Therefore, the Department is proposing permit limitations and conditions based on an intermediate staged flow of 4.31 MGD.</p> <p>On behalf of Musconetcong Sewerage Authority (MSA), the Department received, on February 2, 2002, a WQM-005 form, signed and submitted by Leo T. Purcell, Jr. P.E. of Lee T. Purcell Associates. The WQM-005 form certified that the existing MSA sewerage treatment plant can comply with all effluent limitations in Table III-A-1 of Part III in the existing NJPDES/DSW permit for the flow of 3.81 MGD. This certification was deemed acceptable by the Bureau of Engineering North for the increase in design flow from 3.63 MGD to 3.81 MGD which requires no additional construction at the facility. Therefore, the Department hereby increases the facility's operating design flow to 3.81 MGD. Furthermore, through this permit action, the Department is proposing the removal of all permit requirements related to the flow of 3.63 MGD.</p> <p>Upon a re-evaluation of the existing permit conditions, the Department has proposed to modify the phosphorus concentration and loading limitations associated with the permitted flows of 3.81 MGD and 5.79 MGD. This phosphorus limitation modification will be reflected in the limitation and monitoring conditions proposed for the flow of 4.31 MGD as well.</p> <p>The existing permit includes the requirements to perform initial and follow-up thermal analyses. Presently, the initial thermal analysis requirement, including submission of a workplan, is contingent upon the facility's average monthly flow reaching 80% of 3.63 MGD. Based on the need to address all instream water quality effects of the permittee's discharge as soon as possible, the initial thermal analysis submission schedule for the workplan and final report should require the study to be conducted in the summer season of 2003. Therefore, the Department is proposing to modify the Part IV, Sections D(3)iii and D(3)iv conditions so that the initial thermal analysis workplan shall be submitted to the Department on or before January 31, 2003 and the report shall be submitted on or before January 31, 2004.</p>
