Freshwater Wetlands: A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas. A Stream Encroachment Permit, an U.S. Army Corps of Engineers Dredge and Fill Permit, and a Water Quality Certification may also be required.

General Groundwater Petroleum Products Cleanup: This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

NJPDES permits: A permit is required for the discharge of pollutants to surface and groundwater, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities, which require a permit, may be found at N.J.A.C. 7:14A-2.4)

Solid Waste Facility: A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

Stream Encroachment: Under the Flood Control Act DEP is empowered to require a permit to control construction within and proximate to flood hazard areas to reduce flood damage to and from new development and to protect the flood storage capacity and ecology of flood plains.

General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Stream Encroachment (SE) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

NOTICE OF PUBLIC HEARING ON APPLICATION TO REMOVE CONSERVATION/DEED
RESTRICTION
FRESHWATER WETLANDS TRANSITION AREA WAIVER**

TAKE NOTICE that the New Jersey Department of Environmental Protection, Land Use Regulation Program has received an application requesting the release of the current conservation/deed restriction by and between Kenneth/Susan Gates and the New Jersey Department of Environmental Protection dated November 30, 1999 and recorded December 8, 1999 in the Morris County Clerk's Office in Deed Book 5099, pages 037 through 043. The applicant filed this conservation/deed restriction as a condition of the Freshwater Wetlands Special Activity Transition Area Waiver for Redevelopment approved on November 1, 1999. While the applicant was only required to restrict the area to be re-vegetated under the provisions of N.J.A.C. 7:7A-7.4(f)3 (former rules), the applicant restricted nearly the entire transition area on the property, including the area containing existing concrete pavement. An in-ground swimming pool is now proposed within that paved area. The proposed project meets the requirements for redevelopment of a transition area under the current Freshwater Wetland Protection Act rules at N.J.A.C. 7:7A-6.3(f). Based on the proposed re-vegetated areas being located near the pool and mostly within a fenced area, a new conservation/deed restriction for these areas is not "practicable" under N.J.A.C. 7:7A-6.3(f)4 and will not be required. The proposed release of restrictions is authorized under the provisions of the "New Jersey Conservation Restriction and Historic Preservation Restriction Act" N.J.S.A. 13:B-5 and 6.
