## Permit Descriptions

---

**CAFRA** - A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy -related facilities in the coastal area as defined by the Act.

**Federal Consistency Activity**: Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

**Freshwater Wetlands**: A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas. A Stream Encroachment Permit, an U.S. Army Corps of Engineers Dredge and Fill Permit, and a Water Quality Certification may also be required.

**General Groundwater Petroleum Products Cleanup**: This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

**NJPDES permits**: A permit is required for the discharge of pollutants to surface and groundwater, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities, which require a permit, may be found at N.J.A.C. 7:14A-2.4)

**Solid Waste Facility**: A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

**Stream Encroachment**: Under the Flood Control Act DEP is empowered to require a permit to control construction within and proximate to flood hazard areas to reduce flood damage to and from new development and to protect the flood storage capacity and ecology of flood plains.

**Tidal Wetlands**: A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

**Treatment Works Approval**: A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

**Waterfront Development**: A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

## General Information

---

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Stream Encroachment (SE) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

## Appeals on Applications

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION  
ADMINISTRATIVE CONSENT ORDER  
FRESHWATER WETLANDS PROTECTION ACT**

**TAKE NOTICE THAT THE DEPARTMENT OF ENVIRONMENTAL PROTECTION** intends to execute an Administrative Consent Order to settle enforcement claims as to specific violations of the FRESHWATER WETLANDS PROTECTION ACT, N.J.S.A. 13.9B-1 et seq., and the rules promulgated pursuant thereto, N.J.A.C. 7:7A-1 et seq.

IN THE MATTER OF: William and Constance Smith  
SUBJECT PROPERTY: Block 2310, Lot 1.08  
Borough of Franklin Lakes, Bergen County

The Department of Environmental Protection cited William and Constance Smith for violating the Freshwater Wetlands Protection Act at the subject property by placing fill in an area of freshwater wetlands. To resolve the violation the Smiths have reconfigured a portion of their driveway, removed a portion of a wooden deck and removed all fill material from the floodplain (which includes an area of wetlands) on the site. The proposed Administrative Consent Order (ACO) requires that William and Constance Smith complete the planting of vegetation on the area of restored wetlands by April 30, 2003 and monitor the success of the restoration for three years. The Smiths are further required to perform any remedial action directed by the Department over the next three years to ensure the success of the restoration. The ACO also requires that the Smiths purchase credits from an approved mitigation bank for 4,500 square feet of wetlands to compensate for 1,500 square feet of wetlands which are not being restored on the property. The ACO also requires that the Smiths pay a penalty of \$4,000.

Comments regarding this proposed Administrative Consent Order, or requests for a copy of the proposed Administrative Consent Order, may be sent to:

Peter Lynch, Chief  
Bureau of Coastal and Land Use Compliance and Enforcement

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION  
DIVISION OF SOLID AND HAZARDOUS WASTE  
PUBLIC NOTICE**

Notice is hereby given that the New Jersey Department of Environmental Protection, Division of Solid and Hazardous Waste has tentatively approved an application made by the Pollution Control Financing Authority of Camden County to renew their Solid Waste Facility Permit to operate an existing sanitary landfill in accordance with N.J.A.C. 7:26-1 *et seq.* and by authority of N.J.S.A. 13:1E-1 *et seq.*

The landfill is located at 9600 River Road in Pennsauken Township, Camden County. The landfill is owned and operated by the Pollution Control Financing Authority of Camden County, located at 729 Hylton Road, Pennsauken, New Jersey. This landfill is a state-of-the-art, double composite lined facility. The flow of waste to the landfill is limited due to the operation of the Camden County Resource Recovery Facility. Incinerator ash is not disposed of at the landfill. Some by-pass waste is handled when the incinerator reaches capacity or is down for repairs. The Intermediate Processing Facility (IPF) building was originally used as a solid waste baler facility. Now it serves as a vehicle maintenance area and as a tire chipping area for a research, development and demonstration (RD&D) project.

The permit action prepared by the Department is based on the administrative record that is on file at the offices of the Department, Division of Solid and Hazardous Waste, Office of Permitting and Technical Programs, located at 401 E. State Street in the City of Trenton, Mercer County, New Jersey. It is available for inspection, by appointment, Monday through Friday, between 9:00 A.M. and 4:00 P.M. Appointment for inspection may be made in writing to the Office of Permitting and Technical Programs, by fax at (609) 633-9839 or by calling (609) 984-5950. Requests should be made to the attention of Ms. Rebecca Croke, file custodian. Copies of the tentative approval and the project fact sheet are also available for review at that office and the office of Pat Gudis, Pennsauken Township Clerk, located at 5605 N. Crescent Blvd., Pennsauken, New Jersey, 08110.

Comments on the tentative approval or a request that the Department hold a non-adversarial public hearing must be submitted in writing to the person specified below during the public comment period which begins on the date of the publication of this notice and closes on December 22, 2002.

All interested persons, including the applicant, who believe any aspect of the tentative approval is inappropriate shall raise all reasonably ascertainable issues and submit all reasonably available arguments and factual grounds supporting their position, including all supporting material, by the close of the public comment period. All supporting materials shall be included in full and may not be incorporated by reference, unless they are already part of the administrative record in the same proceeding, or consist of State or Federal statutes and regulations or other generally available reference materials.

Any interested person who reasonably requires additional time within which to supplement the administrative record should request, in writing, an extension of the public comment period, and the Department will exercise reasonable discretion in setting the closing date for public comment. The Department will publish subsequent notice of any decision to extend the period for public comment. Any notice of an extension of the public comment period will clearly set forth the closing date of such extension.

If any request for a public hearing, in the opinion of the Department, raises significant issues of fact relevant to the proposed agency action during the public comment period, a public hearing will be scheduled regarding the proposed agency action. The Department will publish subsequent notice of a scheduled hearing.

The Department will respond to all relevant comments submitted during the public comment period. These comments and the Department's responses will be set forth in a response document which will become part of the administrative record upon which the Department will base its final decision. Any person who has submitted relevant written comments will receive notification of the Department's final decision.

Written comments should be submitted to:

Mr. Thomas Sherman, Assistant Director  
New Jersey Department of Environmental Protection  
Division of Solid and Hazardous Waste  
Office of Permitting and Technical Programs  
401 East State Street, P.O. Box 414

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION  
LAND USE REGULATION PROGRAM  
INTENT TO SETTLE**

The Land Use Regulation Program has agreed to settle the pending appeal of Freshwater Wetland Letter of Interpretation Application File #1505-00-0043.1 for property designated Block 1257, Lots 1, 2, 3, 4, 35, 36, 37, 38, 39, & 40 Berkeley Township, Ocean County. Both the Program and the applicant, Lori Hartigan, have agreed to the location of wetlands on the property in question. The settlement would allow the applicant to construct a single family dwelling unit within an agreed to buildable area. The settlement would preclude any further development outside of the agreed to buildable area.

Comments regarding this proposed settlement may be forwarded within 10 days of this notice to:

Andrew Heyl, NJDEP

**PUBLIC NOTICE**

Notice is hereby given that the New Jersey Department of Environmental Protection (Department), Site Remediation Program, proposes to issue the following New Jersey Pollutant Discharge Elimination System permit actions in accordance with N.J.S.A. 58:10A-1 et seq. and N.J.A.C. 7:14A-1 et seq.

The permit action prepared by the Department is based on the administrative record which is on file at the offices of the Department, Site Remediation Program, located at 401 East State Street in the City of Trenton, Mercer County, New Jersey. It is available for inspection, by appointment, Monday through Friday, between 8:30 A.M. and 4:00 P.M. Appointment for inspection may be requested in writing to the Bureau of Federal Case Management or by fax at (609) 777-4285. Requests should be made to the attention of the file custodians. Appointments for inspection of the NJPDES file only or requests for a copy of the draft document (at a nominal charge) may be made by calling Central File at (609) 292-0400.

Comments on the draft document or a request that the Department holds a non-adversarial public hearing must be submitted in writing to the person specified below and shall be postmarked within 30 days of the date of this public notice. All persons, including the applicant, who believe that any condition set forth in this document is inappropriate, must raise all reasonable issues and submit all arguments and factual materials supporting their position by the close of the public comment period. Any request for a hearing shall state the nature of the issues to be raised. A public hearing will be conducted whenever the Department determines that there is a significant degree of public interest in the permit decision. If a public hearing is held, the public comment period shall automatically be extended to the close of the public hearing.

The Department will consider and respond to all significant and timely comments. The applicant and each person who has submitted written comments will receive notice of Department's final decision.

Written comments should be submitted to the appropriate permitting bureau:

**PUBLIC NOTICE**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP) proposes to issue the following New Jersey Pollutant Discharge Elimination System (NJPDES) permit actions in accordance with N.J.A.C. 7:14A-1 et seq. and by authority of N.J.S.A. 58:10A-1 et seq. The description of each proposed permit action is contained in the accompanying table.

This public notice has been prepared for these facilities as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. Copies of the draft document are obtainable, for a nominal charge, and the administrative record is available for inspection by appointment only, Monday through Friday, by contacting the NJDEP file room at (609) 292-0400. Additional information regarding the draft document may be obtained from the contact person listed in the accompanying table.

Comments on the draft document or a request that NJDEP hold a non-adversarial public hearing on the document must be submitted, in writing, to the individual specified below (refer to the accompanying table for the appropriate permitting bureau) during the public comment period, which closes either:

1. 30 calendar days after publication of the last newspaper notice when a notice is published in the DEP Bulletin **and** a newspaper(s); or
2. 30 calendar days after publication of the DEP Bulletin notice when a notice is published in the DEP Bulletin **only**.

All persons, including permittees who believe that any condition of NJDEP's tentative decision to issue these permit actions is inappropriate must raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. Any request for a public hearing shall state the nature of the proposed issues to be raised in the hearing. A public hearing will be conducted if NJDEP determines there is a significant degree of public interest. If a public hearing is held, the public comment period is automatically extended through the close of the hearing.

NJDEP will consider and respond to all significant and timely submitted comments. The permittee and each person who submitted written comments, will receive notice of NJDEP's final decision to issue, revoke or redraft the document.

The facility maintains a discharge to surface water through a NJPDES – Discharge to Surface Water (DSW) Permit No. NJ0004375. Effluent sampling is accomplished through the DSW, while this DGW requires sampling of six (6) onsite monitoring wells. The total wastewater stream generated by the onsite processes generates approximately 0.13 million gallons per day (MGD). The wastewater is a composite of process wastewater treated through the onsite treatment system, stormwater, and three (3) non-contact cooling water streams.           |

Approximately 250,000 gpd of sanitary wastewater are received by Homestead Treatment Utility's onsite Wastewater Treatment Plant (WTP) from approximately 1,025 homes. Treated effluent then enters the facultative lagoons where it receives secondary treatment via aeration prior to discharging to surface water. The discharge to surface water is regulated under NJPDES Permit No. NJ0098663. There is no influent of industrial wastewater.   |

A location map of the facility is included. The applicant operates a general aviation airport under the Standard Industrial Classification (SIC) 4581. The existing permit regulates stormwater discharges to the Berry's Creek, classified as SE2. After discussions with representatives of Teterboro Airport a decision was reached to renew the existing NJP DES permit NJ0028941.   |

Currently the facility discharges treated wastewater through discharge serial number (DSN) 001A, partially treated wastewater through DSN002A, and raw wastewater through DSNs 003A and 004A. A renewal permit is being issued for the current conditions as well as future discharge conditions based on the requirements of a Judicial Consent Order dated October 12, 2001. This Order mandates a number of improvements to the wastewater treatment plant and, as a result of these improvements, the wastewater treatment plant will be equipped to handle peak hourly and peak daily flows of 105 million gallons per day (MGD) and 85 MGD, respectively. Under the expanded conditions, treated effluent will be discharged via DSNs 001A and 002A, whereas DSNs 003A and 004A will be terminated. |
