In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Stream Encroachment (SE) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

**PUBLIC HEARING NOTICE
DEPARTMENT OF ENVIRONMENTAL PROTECTION**

**GREEN ACRES PROGRAM
NOTICE OF PUBLIC HEARINGS ON PROPOSED LAND EXCHANGE WITH THE
COUNTY OF PASSAIC OF PROPERTY LOCATED IN THE TOWNSHIP OF WEST
MILFORD, PASSAIC COUNTY**

Take Notice that in accordance with N.J.S.A. 13:1D-51 through -58, the State of New Jersey, Department of Environmental Protection, Green Acres Program, will hold two public hearings to seek comments on a proposed land exchange between the State of New Jersey and the County of Passaic of property located in the Township of West Milford, Passaic County.

The Department of Environmental Protection, Division of Parks and Forestry wishes to obtain State House Commission approval to convey portions of Block 3801, Lots 1 and 10 and Block 6002, Lots 33 and 38, in the Township of West Milford to the County of Passaic in order to allow the County to realign and improve approximately one mile of Greenwood Lake Turnpike (County Route 511) from Marshall Hill Road to Awosting Road. The conveyance of State property is required for the improvement of roadway safety, incorporation of water quality facilities and wetlands mitigation. This road project will require approximately 3.15 acres of State land to be transferred to Passaic County in fee and approximately 9.06 acres of slope, drainage, wall, sign, and construction easements. The State properties proposed for exchange were acquired in 1998 by the Department of Environmental Protection for administration by the Division of Parks and Forestry as part of Long Pond Ironworks State Park and Norvin Green State Forest.

Greenwood Lake Turnpike is a two-lane winding road that fails to meet current County and State design standards. The roadway deficiencies have contributed to a number of serious accidents on this section of the Turnpike. Improvements to this one-mile stretch of roadway will include widening of travel lanes and shoulder widths, new guardrail construction, construction of a left turn lane at Awosting and Marshall Hill Roads and reduction of horizontal and vertical roadway curvatures.

As compensation for the proposed taking of State property, Passaic County proposes to abandon a portion of the existing right of way and to acquire a private residence (Block 3801, Lot 11) that will be cut off from the road once the Turnpike is realigned. The areas to be turned over to the State consist of approximately 2.668 acres and will be added to Long Pond Ironworks State Park and/or Norvin Green State Forest. In addition, the County has agreed to make various improvements to the proposed replacement land at its expense. Upon completion of the road realignment, the old roadbed will be excavated by the County, restored to grade and reforested with native shrubs and trees. All overhead utilities will be moved from the abandoned portion of the Turnpike to the new right of way. The County will also demolish the private residence on Block 3801, Lot 11 and construct a gravel parking lot and driveway for fishing access to the Hewitt Brook.

The **first public hearing** on the proposed land exchange will be held on:

Thursday, May 22, 2003 at 6:00PM at the
Township of West Milford Town Hall located at
1480 Union Valley Road
West Milford, New Jersey 07480-1303
(973) 728-7000

The hearing record for the first public hearing will close on May 29, 2003. Interested persons may obtain information from David Smith in the Green Acres Program at the address below and may submit written comments to Mr. Smith until the close of business on May 29, 2003.

The **second public hearing** will be held on:

Thursday, June 5, 2003 at 4 PM at the
Department of Environmental Protection
1st floor Public Hearing Room
401 E. State Street
Trenton, New Jersey 08625

Until such map is promulgated, the proposed amendments allow the Department to participate in financing reserve capacity costs for projects that serve Urban Centers and Complexes designated by the State Planning Commission. In addition, rule amendments will be proposed to require mandatory connection and well sealing ordinances for water main extension projects and to clarify certain definitions associated with the open space land acquisition aspects of the Financing Program.

The proposal is scheduled to be published in the *New Jersey Register* dated April 7, 2003. A copy of the proposal is available from the Division of Water Quality, Municipal Finance and Construction Element by contacting Theresa Fenton, Chief, Bureau of Program Development and Technical Services at (609) 292-3859. ADMINISTRATIVE CONSENT ORDER

FLOOD HAZARD AREA CONTROL ACT

TAKE NOTICE THAT THE DEPARTMENT OF ENVIRONMENTAL PROTECTION intends to execute an Administrative Consent Order to settle enforcement claims as to specific violations of the FLOOD HAZARD AREA CONTROL ACT, N.J.S.A. 58:16A-50 et seq., and the rules promulgated pursuant thereto, N.J.A.C. 7:13-1.1 et seq.

IN THE MATTER OF: Robert and Tammy Mondgock
SUBJECT PROPERTY: Block 10, Lot 12
 Mansfield Township, Burlington County

Robert and Tammy Mondgock are the owners of the subject property. Robert Mondgock constructed a pond and placed the excavated soils within the floodway and flood plain of Bacon's Run. These activities are regulated by the Flood Hazard Area Control Act and Robert Mondgock did not obtain the required authorization from the Department to conduct these activities. To resolve the violation Robert and Tammy Mondgock will record a permanent declaration of conservation restrictions /easement on the approximately one acre portion of the property affected by the violation. The Department has determined that restoration of the pond and soil placement areas would be more environmentally disruptive than continuing to allow the natural progression of these areas. The conservation restrictions / easement will restrict any activities which would change the character of these areas. The ACO also requires that Robert and Tammy Mondgock pay a penalty of \$1,500.

Comments regarding this proposed Administrative Consent Order, or requests for a copy of the proposed Administrative Consent Order, may be sent to:

Peter Lynch, Chief
Bureau of Coastal and Land Use Compliance and Enforcement
P.O. Box 422
Trenton, New Jersey 08625-0422

FAX (609) 633-6798

Comments must be received by NJDEP within 30 days of this publication, or by May 9, 2003.

Robert Michael Shopping Ctr NJPDES Permit No. NJ0105601 Ground Water	Ramapo Valley Road Oakland Boro, NJ Bergen County	John Gray Bureau of Nonpoint Pollution Control (609) 633-7021	II-A	This is a draft denial NJPDES permit action to revoke the existing NJPDES-DGW permit and deny the renewal application of Robert Michaels Shopping Center. As per N.J.A.C. 7:14A-16.6(a)1, the Department may revoke a permit for noncompliance by the permittee with any condition of the permit. The Department has determined that the facility is in noncompliance with following condition of its existing permit; "This permit only allows for the discharge of treated sanitary sewage." Additionally, the Department has determined a revocation is also warranted because several volatile organic compounds detected in the discharge of the facility's wastewater exceed the Ground Water Quality Standards of the State of New Jersey.

Aspen Ice	Middlebury Blvd Randolph Township, NJ	Greg Chin	II-A	Aspen Ice is a proposed indoor recreational center specializing in indoor ice-skating activities. The facility will consist of 63,000 square foot building which contains two full sized hockey rinks and bleacher seating on either side of a personnel assembly area. The assembly area will consist of ten team rooms toilets and showers, entry area, ticket sales, pro shop, skate rental, snack bar, public rest rooms, mechanical equipment room, referee's room, first aid room, and Zamboni parking. A 13,950 square foot second floor will contain an office and conference area, arcade rooms, rest rooms, and the dehumidification system. Also available during hockey time will be a work out room and four play rooms. The proposed facility has a sanitary wastewater design flow of 7,000 GPD. The wastewater will be treated via an on-site wastewater treatment plant employing a sequential batch reactor (bio-oxidation) with membrane separation. Disinfection will be provided by ultraviolet light. The effluent will meet the Ground Water Quality Standards (GWQS) for all parameters of concern, except for fecal coliform bacteria. Although ultraviolet disinfection will be provided, final treatment to Ground Water Quality Standards for fecal coliform bacteria will be provided by unsaturated soils within the disposal area. The treated wastewater will be disposed of via a 20' by 175' subsurface disposal bed at a loading rate of 2 gpd/sq.ft.
