General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Stream Encroachment (SE) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
GREEN ACRES PROGRAM
NOTICE OF PUBLIC HEARINGS ON PROPOSED LAND EXCHANGE WITH THE
COUNTY OF PASSAIC OF PROPERTY LOCATED IN THE TOWNSHIP OF WEST
MILFORD, PASSAIC COUNTY

Take Notice that in accordance with N.J.S.A. 13:1D-51 through –58, the State of New Jersey, Department of Environmental Protection, Green Acres Program, will hold two public hearings to seek comments on a proposed land exchange between the State of New Jersey and the County of Passaic of property located in the Township of West Milford, Passaic County.

The Department of Environmental Protection, Division of Parks and Forestry wishes to obtain State House Commission approval to convey portions of Block 3801, Lots 1 and 10 and Block 6002, Lots 33 and 38, in the Township of West Milford to the County of Passaic in order to allow the County to realign and improve approximately one mile of Greenwood Lake Turnpike (County Route 511) from Marshall Hill Road to Awosting Road. The conveyance of State property is required for the improvement of roadway safety, incorporation of water quality facilities and wetlands mitigation. This road project will require approximately 3.15 acres of State land to be transferred to Passaic County in fee and approximately 9.06 acres of slope, drainage, wall, sign, and construction easements. The State properties proposed for exchange were acquired in 1998 by the Department of Environmental Protection for administration by the Division of Parks and Forestry as part of Long Pond Ironworks State Park and Norvin Green State Forest.

Greenwood Lake Turnpike is a two-lane winding road that fails to meet current County and State design standards. The roadway deficiencies have contributed to a number of serious accidents on this section of the Turnpike. Improvements to this one-mile stretch of roadway will include widening of travel lanes and shoulder widths, new guardrail construction, construction of a left turn lane at Awosting and Marshall Hill Roads and reduction of horizontal and vertical roadway curvatures.

As compensation for the proposed taking of State property, Passaic County proposes to abandon a portion of the existing right of way and to acquire a private residence (Block 3801, Lot 11) that will be cut off from the road once the Turnpike is realigned. The areas to be turned over to the State consist of approximately 2.668 acres and will be added to Long Pond Ironworks State Park and/or Norvin Green State Forest. In addition, the County has agreed to make various improvements to the proposed replacement land at its expense. Upon completion of the road realignment, the old roadbed will be excavated by the County, restored to grade and reforested with native shrubs and trees. All overhead utilities will be moved from the abandoned portion of the Turnpike to the new right of way. The County will also demolish the private residence on Block 3801, Lot 11 and construct a gravel parking lot and driveway for fishing access to the Hewitt Brook.

The **first public hearing** on the proposed land exchange will be held on:

Thursday, May 22, 2003 at 6:00PM at the
Township of West Milford Town Hall located at
1480 Union Valley Road
West Milford, New Jersey 07480-1303
(973) 728-7000

The hearing record for the first public hearing will close on May 29, 2003. Interested persons may obtain information from David Smith in the Green Acres Program at the address below and may submit written comments to Mr. Smith until the close of business on May 29, 2003.

The **second public hearing** will be held on:

Thursday, June 5, 2003 at 4 PM at the
Department of Environmental Protection
1st floor Public Hearing Room
401 E. State Street
Trenton, New Jersey 08625

The hearing record for the second public hearing will close on June 12, 2003. Interested persons may obtain information from David Smith in the Green Acres Program at the address below and may submit written comments to Mr. Smith until the close of business on June 12, 2003.

Persons wishing to make oral presentations at either of the public hearings are asked to bring a written copy of their comments to the hearing for use by the Department. For further information on the proposed land exchange, please contact:

The wastewater will be directed to an on-site wastewater treatment and disposal system employing a bioreactor, microfiltration and ultraviolet disinfection. Wastewater disposal is facilitated through two subsurface disposal beds with a total area of 9,600 sq. ft. The effluent discharged to the disposal beds will meet the Ground Water Quality Standards (GWQS) for all parameters of concern. The facility intends to use treated effluent for fire protection and landscape purposes and will follow the guidelines for Reclaimed Water for Beneficial Reuse (RWBR). Approximately 500,000 gallons of on-line storage is proposed for fire protection and landscape irrigation. The wastewater will meet the fire protection (construction and maintenance operations systems) and spray irrigation (unrestricted public access) quality limits required by the NJDEP's Effluent Reuse Treatment Guidelines within the RWBR manual.
