General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Stream Encroachment (SE) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

General Permit - Category 5G3 NJPDES Permit No. NJ0088323 Residuals	All Municipalities Statewide	Brian McLendon Bureau of Nonpoint Pollution Control (609) 633-7021		Presently this general permit controls discharges to surface water of stormwater at facilities where (Phase I) construction activities, including clearing, grading, and excavation, disturb five acres or more of land or disturb less than five acres but are part of a larger plan of development or sale; and facilities engaged in certain kinds of mining or quarrying of sand, gravel, soil, shale, stone or clay, including crushing, grinding, pulverizing, or washing. The USEPA promulgated new Phase II stormwater regulations in the Federal Register on December 8, 1999 (64 Fed. Reg. 68721). These regulations have provisions that expand National Pollutant Discharge Elimination System permit requirements for stormwater discharges associated with construction activity (both Phase I and Phase II sources). The USEPA Phase II regulations extend the 5 acre threshold in Phase I down to 1 acre, and require additional permit conditions for construction site waste management. The Department is now proposing to modify this permit (NJ0088323) to implement these provisions in the USEPA Phase II stormwater regulations and related amendments to the NJPDES rules proposed by the Department in the New Jersey Register on January 6, 2003 (35 N.J.R. 169(a)). The deadline for comment on those proposed amendments ended on April 7, 2003 (see 35 N.J.R. 1331(a) and 4224(a)), and is not extended by this proposed permit modification action. The Department will not issue a final permit decision regarding this permit modification before the Department makes a final decision regarding adoption of the proposed NJPDES rule amendments. Modification of this permit is consistent with the NJPDES rules at N.J.A.C. 7:14A-16.4(b)3, and has been prepared in response to requirements mandated under the Federal Clean Water Act (CWA), 33 U.S.C. §§ 1251 et seq.
