GREEN ACRES PROGRAM
NOTICE OF PUBLIC HEARING ON PROPOSED CONVEYANCE TO
SOUTH JERSEY GAS OF NATURAL GAS PIPELINE EASEMENT THROUGH DEP
PROPERTY
LOCATED IN THE TOWNSHIP OF WEYMOUTH, ATLANTIC COUNTY

Take Notice that in accordance with *N.J.S.A. 13:1D-51 through -58*, the State of New Jersey, Department of Environmental Protection (Department), Green Acres Program, will hold a **public hearing** to seek comments on a proposed conveyance of a natural gas pipeline easement through property owned by the State of New Jersey and located in the Township of Weymouth, Atlantic County.

The Department's Division of Fish and Wildlife (Division) wishes to obtain State House Commission approval to convey a 15-foot wide permanent natural gas pipeline easement through Block 120, Lots 1, 1.01, 1.02 and 1.04 in the Township of Weymouth, Atlantic County to South Jersey Gas Company. The properties in question were purchased by the State in 2000 and are administered by the Division as part of the Great Egg Harbor River Wildlife Management Area. South Jersey Gas has requested the easement to allow the installation of a new 24-inch natural gas transmission pipeline as part of the extension of its major feed line from west to east. Extension of the line is necessary to ensure continuing reliable natural gas service and to serve increasing residential, commercial and industrial demand in Atlantic County. The proposed easement will cover a linear distance of 6500 feet (1.2 miles), resulting in a total proposed easement area of 2.24 acres.

The entire South Jersey Gas project corridor is 12 miles long and extends from the terminus of the company's transmission system in Estell Manor, eastwardly through the municipalities of Weymouth, Hamilton and Egg Harbor Townships. Phase I of the project (5 miles) is now complete; the proposed easement is part of Phase II of the project (7 miles). On the State properties in the project corridor, South Jersey Gas proposes to install the new pipeline entirely within the 100-foot cleared portion of an existing 200-foot wide overhead electric transmission line right of way owned by Connectiv. This portion of the Connectiv right of way has been occupied for several decades by electric transmission towers and lines. South Jersey Gas also seeks permission to use a 60-foot wide area parallel to the proposed easement as temporary work space. During construction, South Jersey Gas will utilize directional boring and other techniques as necessary and appropriate to avoid wetlands areas within the project corridor and minimize disturbance.

As compensation for the proposed easement and temporary work space, South Jersey Gas proposes to pay the State of New Jersey \$50,000 to be used for acquisition of open space in Atlantic County. As a condition of approval of the proposed easement and of various Department permits required for the pipeline project, South Jersey Gas would also undertake substantial mitigation and restoration activities on the State properties.

The **public hearing** on the proposed easement will be held on:

Thursday, June 3, 2004 at 7:00 PM
(to 9:00 PM or close of testimony, whichever comes first) at the
Weymouth Township Municipal Building located at
45 South Jersey Avenue
Dorothy, New Jersey 08317
(609) 476-2633

The hearing record for the public hearing will close on June 17, 2004. Interested persons may obtain information from Michael E. Heenehan in the Green Acres Program at the address below and may submit written comments to Mr. Heenehan until the close of business on June 17, 2004.

Persons wishing to make oral presentations at the public hearing are asked to bring a written copy of their comments (if available) to the hearing for use by the Department. For further information on the proposed easement, please contact:

<p>McDonalds Restaurant</p> <p>NJPDES Permit No. NJ0147575</p> <p>Ground Water</p>	<p>735 Route 15 S Jefferson Twp,NJ</p> <p>Morris County</p>	<p>Ron Bannister</p> <p>Bureau of Nonpoint Pollution Control</p> <p>(609) 633-7021</p>	<p>II- A</p>	<p>The McDonalds in Lake Hopatcong, N.J. is an existing 5,558 sq. ft. fast food restaurant with seating for 107 patrons. The individual subsurface sewage disposal system (ISSDS) for the facility was originally approved by the Jefferson Township Health Department in 1988 with a design flow of 1,950 gpd. Since that time business has increased but the facility size has not changed. This resulted in an increased wastewater flow and hydraulic malfunction of the ISSDS. Actual flow monitoring has been performed and it has been determined that the design flow for this facility should be 3,745 gpd, which is consistent with the design flow criteria for “restaurant” or 35 gpd/seat. Therefore, because the design flow is in excess of 2,000 gpd a NJPDES-DGW permit is required. In order to alleviate the hydraulic malfunction the facility is proposing to expand the existing ISSDS.</p> <p>Sanitary waste generated by the facility will now be managed by a newly constructed ISSDS in conjunction with the existing ISSDS. The existing ISSDS is ~ 2,500 sq. ft and the proposed ISSDS will provide an additional 3,500 sq. ft. of infiltrative surface (35’ x 100’). Wastewater will be discharged to the ground water of the State via these two (2) ISSDS’s with a maximum of 1,250 gpd going to the existing ISSDS and 2,495 going to the newly constructed ISSDS. Since the original design of the on-site subsurface sewage disposal system was reviewed and approved by the local administrative authority prior to January 1, 1990, this facility qualifies to be regulated under this individual NJPDES-DGW permit with condition similar to the conditions of the Department’s NJPDES-DGW T-1 General Permit. The design flow for the facility will be 3,745 gpd.</p>
