---

## Permit Descriptions

---

**CAFRA** - A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

**Federal Consistency Activity:** Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

**Freshwater Wetlands:** A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas. A Stream Encroachment Permit, an U.S. Army Corps of Engineers Dredge and Fill Permit, and a Water Quality Certification may also be required.

**General Groundwater Petroleum Products Cleanup:** This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

**NJPDES permits:** A permit is required for the discharge of pollutants to surface and groundwater, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities, which require a permit, may be found at N.J.A.C. 7:14A-2.4)

**Solid Waste Facility:** A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

**Stream Encroachment:** Under the Flood Control Act DEP is empowered to require a permit to control construction within and proximate to flood hazard areas to reduce flood damage to and from new development and to protect the flood storage capacity and ecology of flood plains.

**Tidal Wetlands:** A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

**Treatment Works Approval:** A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

**Waterfront Development:** A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

## General Information

---

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Stream Encroachment (SE) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

## Appeals on Applications

---

Any individual who would like to appeal a decision on an application should direct their remarks to:

Office of Legal Affairs  
Attn: Adjudicatory Hearing Requests  
Department of Environmental Protection  
PO Box 402  
Trenton, NJ 08625-0402

---

## DEP SUBSCRIPTION INFORMATION

Copies of this publication are found in all municipal clerks offices and county planning board offices. Individuals may obtain an annual subscription of 24 issues for a fee of \$50, which is the estimated cost of producing and mailing each issue to subscribers. If you desire a new subscription, please send a check for \$50 payable to the Treasurer, State of New Jersey and mail it to the NJDEP, Bureau of Revenue, PO Box 417, 160 S. Broad St., 3<sup>rd</sup> Flr., Trenton, NJ 08646-0417. Please use the form below to make any changes in your subscription.

For information on a specific permit, please see the telephone list inside the back cover.

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION**

**NOTICE OF SETTLEMENT OF APPEAL**

Notice is hereby given that the New Jersey Department of Environmental Protection ("NJDEP") has settled LURP File #1503-00-0005.1. The settlement allows Tycher Family Interests, L.L.C., successor to Starbare II Partners, L.P. / Roseland Property Company, to construct a duplex dwelling, an in-ground pool, and related improvements at block 202, lot 9.02 in Beach Haven Borough, Ocean County. The plan entails enhancing the adjacent waterfront park by granting a 10' wide conservation and landscaping easement to the Borough of Beach Haven, and granting of a 1,134 square foot pedestrian access easement connecting the Borough park property to and including the Waterfront Walkway on the Starbare Property. Tycher Family Interests, L.L.C. shall fund and / or implement certain improvements to the Borough of Beach Haven's bayfront park system to enhance water-dependent activities within the Borough. The improvements shall be in the amount of \$50,000.

Comments regarding this settlement, or requests for copies of the Consent Order Of Settlement And Withdrawal Of Hearing Request or the proposed plan, may be sent to Helen Owens, Project Manager, Land Use Regulation Program, P.O. Box 439, Trenton, NJ 08625, telephone (609) 292-8262. Comments must be received by NJDEP within 10 days of this publication, or by August 7, 2004.

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION**  
**NOTICE OF INTENT TO SETTLE**  
**STREAM ENCROACHMENT PERMIT**

TAKE NOTICE THAT THE DEPARTMENT OF ENVIRONMENTAL PROTECTION intends to enter into a Settlement Agreement that would legalize the as built reconstruction a gas station located within the delineated floodway of Green Brook, within Lot No, Block 128 in the Borough Middlesex, Middlesex County.

The applicant name is:  
C.G. Service, Inc  
532 Lincoln Street, Carlsdat. NJ

The File No. assigned for this project is: 1211-00-0002.1

Comments regarding this settlement or requests project plan should be sent to, Land Use regulation Program, PO Box 439 Trenton, New Jersey 08625. This office can be reached by dialing (609) 984 0162. Comment must be received by NJDEP within 10 days of this publication, or by August 7, 2004.

---

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION**  
**NOTICE INTENT TO SETTLE**

Take notice that the Department of Environmental Protection (DEP) is proposing to enter into a settlement agreement with George Harms to resolve appeal of DEP's February 15, 2002 denial of a Waterfront Development Permit Application #1308-90-0009.6 The original application proposed the expansion of an existing 2 foot wide catwalk and legalization of an oversized dock in documented shellfish habitat off shore of block-87, lot-5 Borough of Brielle, Monmouth County. Through negotiations with the applicant, an alternative site plan was devised that reduced the amount of water coverage while still providing a viable project that also mitigated for occupation of shellfish habitat.

The work as authorized includes: payment to the shellfish mitigation fund of \$928.69; allows the existing catwalk to be widened to 3 feet; requires the petitioner to replace all existing creosote piles with poles constructed of non-polluting material; construct the catwalk and dock structures of non-polluting material; widen the existing dock to 8-feet in width and reduce the L portion of the existing dock to 8-feet in width.

All work as allowed by the proposed settlement is represented on a plan entitled "Plan to Accompany NJDEP Application, Lot-5, Block-87, Borough of Brielle, Monmouth County, New Jersey." Prepared by Michael B. Intile, dated August 24, 2001 and revised to October 10, 2003.

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION**

**Notice of Public Comment Period for Request for Federal Consistency Determination**

**The requests for a Federal Consistency Determination for the projects listed below are reviewed under the Rules on Coastal Zone Management, N.J.A.C. 7:7E.**

Attn: (Name of project manager listed above)**

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION  
DIVISION OF REMEDIATION MANAGEMENT AND  
RESPONSIBLE PARTY REMEDIATION ELEMENT**

**PUBLIC NOTICE**

Notice is hereby given that the New Jersey Department of Environmental Protection (Department), Site Remediation and Waste Management, proposes to issue the following New Jersey Pollutant Discharge Elimination System permit actions in accordance with N.J.S.A. 58:10A-1 et seq. and N.J.A.C. 7:14A-1 et seq.

The permit action prepared by the Department is based on the administrative record which is on file at the offices of the Department, Site Remediation Program, located at 401 East State Street in the City of Trenton, Mercer County, New Jersey. It is available for inspection, by appointment, Monday through Friday, between 8:30 A.M. and 4:00 P.M. Appointment for inspection may be requested through the Open Public Records Act. Details are online at [www.nj.gov/dep/opra](http://www.nj.gov/dep/opra), or call (609) 341-3121. Appointments for inspection of the NJPDES file only or requests for a copy of the draft document (at a nominal charge) may be made by calling Central File at (609) 292-0400.

Comments on the draft document or a request that the Department holds a non-adversarial public hearing must be submitted in writing to the person specified below and shall be postmarked within 30 days of the date of this public notice. All persons, including the applicant, who believe that any condition set forth in this document is inappropriate, must raise all reasonable issues and submit all arguments and factual materials supporting their position by the close of the public comment period. Any request for a hearing shall state the nature of the issues to be raised. A public hearing will be conducted whenever the Department determines that there is a significant degree of public interest in the permit decision. If a public hearing is held, the public comment period shall automatically be extended to the close of the public hearing.

The Department will consider and respond to all significant and timely comments. The applicant and each person who has submitted written comments will receive notice of Department's final decision.

Written comments should be submitted to:

Wayne Howitz  
Responsible Party Remediation Element  
PO Box 028  
Trenton, NJ 08625

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION  
DIVISION OF WATER QUALITY**

**PUBLIC NOTICE**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP) proposes to issue the following New Jersey Pollutant Discharge Elimination System (NJPDES) permit actions in accordance with N.J.A.C. 7:14A-1 et seq. and by authority of N.J.S.A. 58:10A-1 et seq. The description of each proposed permit action is contained in the accompanying table.

This public notice has been prepared for these facilities as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. Copies of the draft document are obtainable, for a nominal charge, and the administrative record is available for inspection by appointment only, Monday through Friday, by contacting the NJDEP file room at (609) 292-0400. Additional information regarding the draft document may be obtained from the contact person listed in the accompanying table.

Comments on the draft document or a request that NJDEP hold a non-adversarial public hearing on the document must be submitted, in writing, to the individual specified below (refer to the accompanying table for the appropriate permitting bureau) during the public comment period, which closes either:

1. 30 calendar days after publication of the last newspaper notice when a notice is published in the DEP Bulletin **and** a newspaper(s); or
2. 30 calendar days after publication of the DEP Bulletin notice when a notice is published in the DEP Bulletin **only.**

All persons, including permittees who believe that any condition of NJDEP's tentative decision to issue these permit actions is inappropriate must raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. Any request for a public hearing shall state the nature of the proposed issues to be raised in the hearing. A public hearing will be conducted if NJDEP determines there is a significant degree of public interest. If a public hearing is held, the public comment period is automatically extended through the close of the hearing.

NJDEP will consider and respond to all significant and timely submitted comments. The permittee and each person who submitted written comments, will receive notice of NJDEP's final decision to issue, revoke or redraft the document.

***Written comments should be submitted to the appropriate permitting bureau:***

The site is also approved to recycle oil-contaminated soils.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| St Lawrence Cement<br>NJ0136441<br>Storm Water             | 2500 Broadway<br>Camden City<br>Camden County                                   | Vicki Margulies<br>Bureau of Nonpoint Pollution Control<br>(609) 633-7021  | Delaware River<br>Del. River Zone 2<br>02040202110 | St. Lawrence Cement has requested a major permit modification for the construction of a detention basin associated with an additional raw material storage area. This area will be comprised of a rolled concrete pad that will also facilitate stormwater retention. The storage area will cover 2.7 acres, and will be approximately 420 feet in length, 140 feet wide and 62 feet in height. The material to be stored here is imported ground granulated blast furnace slag and will be used as a cement substitution for concrete applications. Stormwater overflow from this additional storage area will be directed to an existing drainage system consisting of a lined grassed swale and reinforced concrete drainage pipe, ultimately discharging through outfall (001A) to the main stem of the Delaware River. Proposed changes to the monitoring requirements are the reduction of stormwater sampling for radionuclids from monthly to quarterly; the reduction of the in-river stormwater sampling from monthly to quarterly; and the beginning of monthly sediment sampling from the new basin. storage of a detention basin |
| New Jersey Sports & Expo Auth<br>NJ0023345<br>Storm Water  | New Jersey Sports & Exposition Complex<br>East Rutherford Boro<br>Bergen County | Eric Sussman<br>Bureau of Nonpoint Pollution Control<br>(609) 633-7021     | Berry's Creek<br>02030103180                       | The above named applicant has applied for a New Jersey Pollutant Discharge Elimination System (NJPDES) permit Renewal Permit to the New Jersey Department of Environmental Protection (NJDEP), Bureau Nonpoint Pollution Control. The applicant is involved with the operation of a horse racing track and is considered to be a Concentrated Animal Feeding Operation under the provisions at N.J.A.C. 7:14A-1.2 and N.J.A.C. 7:14A-2.13. The existing permit regulates stormwater discharges to the Berry's Creek, classified as SE2(C2).                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| Pan Chemical Corp<br>NJ0132004<br>Storm Water              | One Washington Ave.<br>Hawthorne Boro<br>Passaic County                         | Kevin Ball<br>Bureau of Nonpoint Pollution Control<br>(609) 633-7021       | Passaic River<br>FW2-NT<br>02030103120             | This is a renewal of the facility's NJPDES permit to discharge stormwater runoff. The existing permit authorized the facility to discharge stormwater associated with the industrial activity to surface waters of the state. The Department has determined that this permittee is eligible for permit renewal. The Department is renewing the permit without change pursuant to N.J.A.C. 7:14A-16.3(h).                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| Pathmark Supermarket<br>NJ0108243<br>Ground Water          | Jefferson Township<br>Jefferson Twp.<br>Morris County                           | Mike Pigliacelli<br>Bureau of Nonpoint Pollution Control<br>(609) 633-7021 | II-A                                               | This is a renewal permit for this facility which is a 50,750 ft2 supermarket, with 30 full time and 30-50 part time employees with approximately 74 8-hour employee shifts per day. On an average day, the supermarket will serve 250 to 350 customers. Operations are year-round, 24 hours per day. Wastewater is generated by employee/customer lavatories, a janitorial lavatory, separate kitchens (with grease traps) for meat, fish, and baked goods, and floor drains receiving wastewater from cleaning operations and condensate from refrigerators and freezers. This condensate will not come in contact with the interior or moving parts of the refrigerators or freezers. The discharge will meet ground water quality standards for nitrogen before being discharged to the disposal area.                                                                                                                                                                                                                                                                                                                                     |

|                                      |                                                 |                                                                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

| Dynasil Corp Of America<br>NJ0099716 | 385 Cooper Road<br>Berlin Boro<br>Camden County | Jes Therkelsen<br>Bureau of Nonpoint Pollution Control<br>(609) 633-7021 | This is a renewal permit for Dynasil Corporation which is a manufacturer of specialty glassware. In the manufacturing process, a furnace is utilized which requires approximately 23,000 GPD of non-contact cooling water from the operation of their furnace. The cooling water is obtained from a potable well on-site. Non-contact cooling water is discharged via pipe to an unlined on-site infiltration/percolation lagoon. There is no outlet from this lagoon. Discharge to surface water or to a storm sewer is not authorized by this permit. No acti-scalants or other additives are introduced to the cooling water. The discharge to the lagoon is monitored by sampling from the discharge pipe and three on-site monitoring wells. |
