## General Information

---

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Stream Encroachment (SE) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

**NOTICE INTENT TO SETTLE**

Take notice that the Department of Environmental Protection (DEP) is proposing to enter into a settlement agreement with George Harms to resolve appeal of DEP's February 15, 2002 denial of a Waterfront Development Permit Application #1308-90-0009.6 The original application proposed the expansion of an existing 2 foot wide catwalk and legalization of an oversized dock in documented shellfish habitat off shore of block-87, lot-5 Borough of Brielle, Monmouth County. Through negotiations with the applicant, an alternative site plan was devised that reduced the amount of water coverage while still providing a viable project that also mitigated for occupation of shellfish habitat.

The work as authorized includes: payment to the shellfish mitigation fund of \$928.69; allows the existing catwalk to be widened to 3 feet; requires the petitioner to replace all existing creosote piles with poles constructed of non-polluting material; construct the catwalk and dock structures of non-polluting material; widen the existing dock to 8-feet in width and reduce the L portion of the existing dock to 8-feet in width.

All work as allowed by the proposed settlement is represented on a plan entitled "Plan to Accompany NJDEP Application, Lot-5, Block-87, Borough of Brielle, Monmouth County, New Jersey." Prepared by Michael B. Intile, dated August 24, 2001 and revised to October 10, 2003.

Comments regarding this ACO or requests for a copy of the ACO should be sent to: Bureau of Coastal and Land Use Compliance and Enforcement, *401 E. State St., P. O. Box 422, Trenton, NJ 08625.*  
Comments must be received by NJDEP within 30 days of this publication, or by September 10, 2004.
