NOTICE INTENT TO SETTLE

Take notice that the Department of Environmental Protection (DEP) is proposing to enter into a settlement agreement with George Harms to resolve appeal of DEP's February 15, 2002 denial of a Waterfront Development Permit Application #1308-90-0009.6 The original application proposed the expansion of an existing 2 foot wide catwalk and legalization of an oversized dock in documented shellfish habitat off shore of block-87, lot-5 Borough of Brielle, Monmouth County. Through negotiations with the applicant, an alternative site plan was devised that reduced the amount of water coverage while still providing a viable project that also mitigated for occupation of shellfish habitat.

The work as authorized includes: payment to the shellfish mitigation fund of \$928.69; allows the existing catwalk to be widened to 3 feet; requires the petitioner to replace all existing creosote piles with poles constructed of non-polluting material; construct the catwalk and dock structures of non-polluting material; widen the existing dock to 8-feet in width and reduce the L portion of the existing dock to 8-feet in width.

All work as allowed by the proposed settlement is represented on a plan entitled "Plan to Accompany NJDEP Application, Lot-5, Block-87, Borough of Brielle, Monmouth County, New Jersey." Prepared by Michael B. Intile, dated August 24, 2001 and revised to October 10, 2003.

NOTICE OF INTENT TO AMEND SETTLEMENT OF APPEAL**

Notice is hereby given that the New Jersey Department of Environmental Protection ("NJDEP") intends to amend the November 17, 2003 Mediation and Settlement Agreement in Lieu of a Permit for LURP File #1503-03-0001.1 (CAF 030001 & FWW 030002). The site is known as block 188.02, lots 1.02 & 1.03 in Beach Haven Borough, Ocean County. The amended settlement will allow the applicant, Burris & Straus Beach Development, LLC, to reduce the number of new residential properties from 19 to 18. The amended development plan includes extension of the paved portion of 8th Street by 11 feet and slight reconfiguration of certain elements including the westerly access drive, one stormwater management swale, and sidewalks and vegetation in the vicinity of unit 18.
