General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Stream Encroachment (SE) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

Greenwich Township WTP Well 4A & Well 6 NJPDES Permit No. NJ0130273 SIU	1200 Memorial Ave. Greenwich Twp., NJ 08027 Gloucester County	Gary Torres Bureau of Pretreatment and Residuals (609) 633-3823	Greenwich Township (Gloucester County) sewage treatment plant (GTSTP)	This application is for a renewal NJPDES permit to discharge an average of about 76,059.2 gallons per day of wastewater. The applicant operates potable water treatment plants, SIC Code 4941. Potable water is treated to remove iron and manganese. The discharge to GTSTP consists of backwash, i.e. water used to clear solids from potable water treatment units along with the solids themselves. Each on-site plant alternates between production and backwash activities in cycles dependant on demand. About 44,426.8 gallons of backwash wastewater per cycle (or an average of 66,745.5 gallons daily in 1.5 cycles) is generated from treatment of 158,059 gallons of well water by a Greensand Filtration Plant. About 38,888.9 gallons of backwash wastewater per cycle (or an average of 9,313.7 gallons daily in 0.24 cycles) is generated from treatment of 618,928 gallons of well water by an Ion Exchange Plant. Because groundwater in the area contains low levels of naturally occurring radionuclides which can become more concentrated in the filter backwash, the Department is proposing to continue monitoring and limitations for radionuclides present in the discharge. Comment period ends 30 days after publication in the <i>Gloucester County Times</i> newspaper.
Milford Sewer Utility NJPDES Permit No. NJ0021890 DSW Minor	122 Carpenter St Milford Boro, NJ 08848- 0507 Hunterdon County	Dave Thomas Bureau of Point Source Permitting Region 1 (609) 633-3869	Hakihokake Creek FW2-TP (C1) HUC 11 watershed 02040105170	This application is for a renewal of a NJPDES permit to discharge an average of 0.04 MGD design flow of treated domestic wastewater to the Hakihokake creek.
