---

## Permit Descriptions

---

**CAFRA** - A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

**Federal Consistency Activity:** Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

**Freshwater Wetlands:** A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas. A Stream Encroachment Permit, an U.S. Army Corps of Engineers Dredge and Fill Permit, and a Water Quality Certification may also be required.

**General Groundwater Petroleum Products Cleanup:** This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

**NJPDES permits:** A permit is required for the discharge of pollutants to surface and groundwater, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities, which require a permit, may be found at N.J.A.C. 7:14A-2.4)

**Solid Waste Facility:** A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

**Stream Encroachment:** Under the Flood Control Act DEP is empowered to require a permit to control construction within and proximate to flood hazard areas to reduce flood damage to and from new development and to protect the flood storage capacity and ecology of flood plains.

**Tidal Wetlands:** A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

**Treatment Works Approval:** A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

**Waterfront Development:** A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

## General Information

---

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Stream Encroachment (SE) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

## Appeals on Applications

---

Any individual who would like to appeal a decision on an application should direct their remarks to:

Office of Legal Affairs  
Attn: Adjudicatory Hearing Requests  
Department of Environmental Protection  
PO Box 402  
Trenton, NJ 08625-0402

---

## DEP SUBSCRIPTION INFORMATION

Copies of this publication are found in all municipal clerks offices and county planning board offices. Individuals may obtain an annual subscription of 24 issues for a fee of \$50, which is the estimated cost of producing and mailing each issue to subscribers. If you desire a new subscription, please send a check for \$50 payable to the Treasurer, State of New Jersey and mail it to the NJDEP, Bureau of Revenue, PO Box 417, 160 S. Broad St., 3<sup>rd</sup> Flr., Trenton, NJ 08646-0417. Please use the form below to make any changes in your subscription.

For information on a specific permit, please see the telephone list inside the back cover.

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION**  
**EVENTS OF PUBLIC INTEREST**

**DATE:** December 15, 2005

**TIME:** 10:00 a.m.

**PLACE:** Water/Wastewater Board of Examination Meeting  
428 E. State Street, Carroll Building, 1<sup>st</sup> floor, Trenton, NJ

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION  
NOTICE OF PUBLIC COMMENT PERIOD  
For A Solid Waste Landfill Operating Permit**

The New Jersey Department of Environmental Protection, Solid and Hazardous Waste Management Program, hereby gives notice that it has tentatively approved a Solid Waste Facility Permit renewal application regarding the operation of the existing Solid Waste Landfill Operating Permit for the Middlesex County Landfill.

The application for a Solid Waste Facility Permit Renewal was submitted in accordance with the requirements established at N.J.A.C. 7:26-2. The facility is a Class I Sanitary Landfill currently permitted to accept waste types 10, 13, 13C, 23, 25, 27, 27A, 27I, and Treated Regulated Medical Waste Class 1-7. The landfill has a remaining capacity for approximately 7 million tons of waste.

The public comment period on the draft permit action begins on the date of the publication of this notice and will close November 28, 2005. Any interested person may submit written comments during this period to the Department concerning the draft permit action to:

Frank Coolick, Administrator  
New Jersey Department of Environmental Protection  
Solid and Hazardous Waste Management Program  
401 E. State Street, P.O. Box 414  
Trenton, New Jersey 08625-0414  
(609) 984-5950

Upon written request of any interested party, which raises the issues of fact relevant to the proposed agency action by December 16, 2005, a public hearing will be scheduled regarding the proposed agency action.

The application and all other supporting documents, as well as the draft Solid Waste Facility Permit and fact sheet are available for inspection at the above noted office of the Department's Solid and Hazardous Waste Management Program, and the office of the East Brunswick Municipal Clerk.

Anyone who would like to obtain copies of the draft permit and a fact sheet for the facility should notify Ms. Lisa Offredo at the above address or contact her at (609) 984-5950.

---

**NOTICE OF PUBLIC COMMENT PERIOD AND OPPORTUNITY FOR A PUBLIC HEARING  
FOR A TRANSFER OF OWNERSHIP OF A SOLID WASTE FACILITY PERMIT AND A NAME  
CHANGE FROM RECYCLING SPECIALISTS, INC. TO I. W.S. TRANSFER SYSTEMS OF NJ,  
INC. TRANSFER STATION/MATERIAL RECOVERY FACILITY AND CLASS A RECYCLING  
CENTER**

The New Jersey Department of Environmental Protection, Solid and Hazardous Waste Management Program, hereby gives notice that it has tentatively approved an application for a Transfer of Ownership of a Solid Waste Facility Permit and a name change of the solid waste transfer station/material recovery facility (TS/MRF) and Class A Recycling Center from Recycling Specialists, Inc. to I.W.S. Transfer Systems of NJ, Inc. The facility is located at 375 Route 1 & 9 South, Jersey City, Hudson County, New

Jersey on Lot 2 (Also known as Lot 1-H), Block 1627.1. The existing owner (375 1& 9 Associates, L.P.) of the property on which the facility is located will remain the same.

The application for a Transfer of Ownership of a Solid Waste Facility Permit was submitted in accordance with the requirements established at N.J.A.C. 7:26-2. The existing Solid Waste Facility (SWF) Permit approved the construction and operation of a proposed TS/MRF building for acceptance of solid waste types 10 (Municipal Waste), 13 (Bulky Waste), 13C (Construction and Demolition Waste), 23 (Vegetative Waste), 27 (Dry Industrial Waste) and/or recyclable materials for processing, recovery and transfer with a maximum daily capacity of 700 tons on any operating day with a weekly maximum of 3600 tons based on a six-day per week (Monday through Saturday) operation. The TS/MRF facility is a commercial facility (subject to tariff).

At present, the facility is operating as a Class A Recycling Center for 100 tons per day maximum of glass, aluminum, metal, and plastic containers and 250 tons per day maximum of paper products within an existing building. The facility is also authorized to operate a Class B recycling Center for concrete, asphalt and brick materials in a designated area of the site under a separate Class B Recycling Center General Approval. Scrap metal is also authorized for acceptance within the Class B recycling center general approval. The Class B Recycling Center is authorized to accept 725 tons per day of Class B recyclable materials (concrete, asphalt and brick) and scrap metal.

The facility is also approved for a solid waste operation (99 tons per day of municipal solid waste, Type 10 to be collected by I.W.S. transfer Systems of NJ, Inc. only) within the existing Class A Recycling Center building on a temporary basis until the solid waste TS/MRF building is constructed and operational. There will be no operational changes at the facility due to the transfer of ownership and name change of the facility.

The public comment period on the draft permit action begins on the date of the publication of this notice and will close by December 16, 2005, if no public hearing is scheduled. Any interested person may submit written comments during this period to the Department concerning the draft permit action to:

Anthony Fontana, Bureau Chief  
Bureau of Hazardous Waste & Transfer Facilities  
Solid and Hazardous Waste Management Program  
New Jersey Department of Environmental Protection  
401 E. State Street, P.O. Box 414  
Trenton, New Jersey 08625-0414  
(609) 292-9880

Upon written request of any interested party, which raises the issues of fact relevant to the proposed agency action by December 16, 2005, a public hearing will be scheduled regarding the proposed agency action.

The application and all other supporting documents, as well as the draft Solid Waste Facility Permit and fact sheet are available for inspection at the above noted office of the Department's Solid and Hazardous Waste Management Program, the offices of Jersey City Clerk, Hudson County Clerk and the office of the Hudson County Improvement Authority.

Anyone who would like to obtain copies of the draft permit and a fact sheet for the facility should notify Ms. Lisa Offredo at the above address or contact her at (609) 984-5950.

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION**

**NOTICE OF INTENT TO SETTLE NOTICE OF INTENT TO SETTLE  
FRESHWATER WETLANDS VIOLATION**

**TAKE NOTICE THAT THE DEPARTMENT OF ENVIRONMENTAL PROTECTION** intends to enter an ADMINISTRATIVE CONSENT ORDER (ACO) that would resolve violations of the Freshwater Wetlands Protection Act, N.J.S.A. 13:9B-1 et seq., and the Flood Hazard Area Control Act. N.J.S.A. 58:16A-50 et seq. The ACO requires the removal of fill from the flood plain and associated wetlands along two tributaries of Preakness Brook, the restoration of those areas to pre-disturbance grades, stabilization of the affected areas by planting and seeding, and the payment of a monetary penalty.

IN THE MATTER OF:        Victor Seven L.L.C. / Wayne Commons  
                                 Enforcement File #1614-02-0034.1  
                                 Paterson-Hamburg Turnpike  
                                 Block 3000, Lot 399  
                                 Wayne Township, Passaic County

Comments regarding this ACO, or requests for a copy of the ACO, should be sent to: Bureau of Coastal and Land Use Compliance and Enforcement, 401 East State Street, P.O. Box 422, Trenton, NJ 08625, or by telephone at (609) 292-1240. Comments must be received by NJDEP by December 16, 2005.

---

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION**

**NOTICE OF PUBLIC COMMENT**

**LACEY TOWNSHIP BULDING ASSOCIATES**

On April 24, 2005, DEP's Land Use Regulation Program received Freshwater Wetlands and Flood Hazard Area permit applications for development proposed on Lots 2.01, 2.03 and part of 7, Block 739 of Lacey Township, Ocean County.

However, it was brought to the Program's attention that the applications noted above were never posted as per Freshwater Wetlands Rules at N.J.A.C. 7:7A.

In order to perfect the public notice requirements of the Freshwater Wetlands rules, the Freshwater Wetlands General Permit was suspended by letter dated September 16, 2005. Suspension of the Stream Encroachment Permit is not covered by either the 90 day Construction Law or Flood Hazard Area rules.

The Department is, by way of this notice, seeking to provide a comment period for the following DEP actions:

Receipt of Freshwater Wetlands General Permit #11 application , file # 1512-02-0046.2 FWW050001 for the construction of an outfall originally received by DEP on April 24, 2005;

Receipt of Flood Hazard Area permit application # 1512-02-0046.2 FHA050001, for the installation of 1,100 L.F. of 48 inch perforated pipe to bypass the flows of an existing drainage ditch originally recopied by DEP of April 24, 2005, and

Suspension of Freshwater Wetlands General Permit by letter dated September 16, 2005 because of DEP failure to provide appropriate notice in the DEP bulletin.

Any comments shall be submitted by December 22, 2005 to Andy Heyl, Supervisor, NJDEP, Land Use Regulation Program, PO Box 439, Trenton, NJ 08625.

---

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION  
PUBLIC NOTICE  
NOTICE OF PUBLIC HEARING ON APPLICATION  
TO REMOVE CONSERVATION EASEMENT**

TAKE NOTICE that the New Jersey Department of Environmental Protection, Land Use Regulation Program, has received a request to remove Conservation Easements/ Declarations of Environmental Restrictions. DIVISION OF REMEDIATION MANAGEMENT AND  
RESPONSIBLE PARTY REMEDIATION ELEMENT**

**PUBLIC NOTICE**

Notice is hereby given that the New Jersey Department of Environmental Protection (Department), Site Remediation and Waste Management, proposes to issue the following New Jersey Pollutant Discharge Elimination System permit actions in accordance with N.J.S.A. 58:10A-1 et seq. and N.J.A.C. 7:14A-1 et seq.

The permit action prepared by the Department is based on the administrative record which is on file at the offices of the Department, Site Remediation Program, located at 401 East State Street in the City of Trenton, Mercer County, New Jersey. It is available for inspection, by appointment, Monday through Friday, between 8:30 A.M. and 4:00 P.M. Appointment for inspection may be requested through the Open Public Records Act. Details are online at [www.nj.gov/dep/opra](http://www.nj.gov/dep/opra), or call (609) 341-3121. Appointments for inspection of the NJPDES file only or requests for a copy of the draft document (at a nominal charge) may be made by calling Central File at (609) 292-0400.

Comments on the draft document or a request that the Department holds a non-adversarial public hearing must be submitted in writing to the person specified below and shall be postmarked within 30 days of the date of this public notice. All persons, including the applicant, who believe that any condition set forth in this document is inappropriate, must raise all reasonable issues and submit all arguments and factual materials supporting their position by the close of the public comment period. Any request for a hearing shall state the nature of the issues to be raised. A public hearing will be conducted whenever the Department determines that there is a significant degree of public interest in the permit decision. If a public hearing is held, the public comment period shall automatically be extended to the close of the public hearing.

The Department will consider and respond to all significant and timely comments. The applicant and each person who has submitted written comments will receive notice of Department's final decision.

Written comments should be submitted to:

Wayne Howitz  
Responsible Party Remediation Element  
PO Box 028  
Trenton, NJ 08625

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION  
DIVISION OF WATER QUALITY**

**PUBLIC NOTICE**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP) proposes to issue the following New Jersey Pollutant Discharge Elimination System (NJPDES) permit actions in accordance with N.J.A.C. 7:14A-1 et seq. and by authority of N.J.S.A. 58:10A-1 et seq. The description of each proposed permit action is contained in the accompanying table.

This public notice has been prepared for these facilities as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. Copies of the draft document are obtainable, for a nominal charge, and the administrative record is available for inspection by appointment only, Monday through Friday, by contacting the NJDEP file room at (609) 292-0400. Additional information regarding the draft document may be obtained from the contact person listed in the accompanying table.

Comments on the draft document or a request that NJDEP hold a non-adversarial public hearing on the document must be submitted, in writing, to the individual specified below (refer to the accompanying table for the appropriate permitting bureau) during the public comment period, which closes either:

1. 30 calendar days after publication of the last newspaper notice when a notice is published in the DEP Bulletin **and** a newspaper(s); or
2. 30 calendar days after publication of the DEP Bulletin notice when a notice is published in the DEP Bulletin **only**.

All persons, including permittees who believe that any condition of NJDEP's tentative decision to issue these permit actions is inappropriate must raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. Any request for a public hearing shall state the nature of the proposed issues to be raised in the hearing. A public hearing will be conducted if NJDEP determines there is a significant degree of public interest. If a public hearing is held, the public comment period is automatically extended through the close of the hearing.

NJDEP will consider and respond to all significant and timely submitted comments. The permittee and each person who submitted written comments, will receive notice of NJDEP's final decision to issue, revoke or redraft the document.

***Written comments should be submitted to the appropriate permitting bureau:***

River Zone 2<br><br>02040105240                                                                                    | A draft NJPDES Renewal Permit Action has been prepared for NJ Porcelain, Inc. to authorize the discharge of stormwater to surface waters of the State. The applicant is involved with the production of small ceramic/porcelain products such as switch plates and cabinet hardware under the Standard Industrial Classification (SIC) 3261. The permit regulates stormwater discharges to the Delaware River (via a municipal storm sewer system), classified as Mainstem Delaware – Zone 2.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| Monroe Township ASR Well No 8A and 11<br><br>NJPDES Permit No. NJ0147168<br><br>Ground Water                  | Monroe Township<br><br>Middlesex County                                                 | Lisa Hoare<br><br>Bureau of Nonpoint Pollution Control<br><br>(609) 633-7021                                           | II-A                                                                                                                                                 | This is a new Underground Injection Control (Non-Sanitary) DGW permit action for Monroe Township MUA (MTMUA). The MTMUA currently supplies potable water to 27,000 residential, commercial and industrial customers in Middlesex County, New Jersey. With increasing development, residential and commercial development in the township, water demands in the MTMUA system have been increasing at a rapid rate in recent years, ASR technology is a viable option to water bank during high usage months, i.e., summer months. Injection water will be monitored monthly at the discharge points (one for each ASR well) K01K, during recharge periods. The monitoring incorporates safe drinking water parameters as well as 22 additional parameters that must comply with the Ground Water Quality Standards (GWQS), see Part III, Limits and Monitoring Requirements Table III-A-1. Monitoring Wells (one for each ASR well), MW-1, a down-gradient compliance point, will monitor parameters of concern specific to the site (Part III, Table III-B-1). This additional monitoring will occur quarterly. |

|                                                                                    |                                                                             |                                                                                           |                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

| <p>South Brunswick YMCA</p> <p>NJPDES Permit No. NJ0132471</p> <p>Ground Water</p> | <p>329 Culver Road<br/>South Brunswick Twp., NJ</p> <p>Middlesex County</p> | <p>Greg Chin</p> <p>Bureau of Nonpoint Pollution Control</p> <p>(609) 633-7021</p>        | <p>II-A</p>                                      | <p>This renewal permit action is for a former industrial site converted to a YMCA. The YMCA consists of a day care center, gymnasium, weight room and locker rooms and occupies 18,600 square feet.</p> <p>The discharge is sanitary waste from showers and lavatories in the building. Wastewater design flow of the discharge is 6,851 gallons per day. Subsurface disposal fields totaling 9450 square feet will be used for primary treatment. Three monitor wells are utilized to determine compliance with the Ground Water Quality Standards at the downgradient property boundary.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| <p>Copper Hill School</p> <p>NJPDES Permit No. NJ0108332</p> <p>Ground Water</p>   | <p>Raritan Twp</p> <p>Hunterdon County</p>                                  | <p>Mike Pigliacelli</p> <p>Bureau of Nonpoint Pollution Control</p> <p>(609) 633-7021</p> | <p>II-A</p>                                      | <p>This is a renewal permit action for Copper Hill School. The facility is a 123,000 sq. ft. elementary school serving preschool through fifth grade. The school has a functional capacity of 850 students and at present there are 65 teachers employed. The school has a cafeteria and a gymnasium with one shower. There are no science laboratories within the facility.</p> <p>The conventional wastewater design flow volume of sanitary wastewater from the school is approximately 15,000 gpd, however, the school has a wastewater recycling and treatment system which recycles the majority of the treated wastewater through the school's toilets. Because the majority of the wastewater is recycled, the treatment system has been designed to discharge 3,000 gpd of effluent to ground water via four subsurface disposal beds, totaling 6,000 square feet.</p>                                                                                                                                                                                                    |
| <p>Princeton Montessori School</p> <p>NJPDES Permit No. NJ0100501</p>              | <p>Princeton Twp</p> <p>Mercer County</p>                                   | <p>Fritz Wise</p> <p>Bureau of Nonpoint Pollution Control</p> <p>(609) 633-7021</p>       |                                                  | <p>Princeton Montessori's NJPDES-DGW permit for sanitary wastewater is being renewed. The facility is a school that is limited to a discharge of 2000 gpd of treated wastewater injected on-site into the ground.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| <p>Onyx Waste Services</p> <p>NJPDES Permit No. NJ0157261</p> <p>Storm Water</p>   | <p>1710 Hurffville Rd.<br/>Deptford Twp., NJ</p> <p>Gloucester County</p>   | <p>John Ashton</p> <p>Bureau of Nonpoint Pollution Control</p> <p>(609) 633-7021</p>      | <p>Bull Run</p> <p>FW2-NT</p> <p>02040202120</p> | <p>A draft NJPDES Renewal Permit Action has been prepared for Onyx Waste Services, Inc. to authorize the discharge of stormwater to surface waters of the State. Onyx Waste Services, Inc. (Onyx) repairs and/or stores waste collection containers including portable dumpsters, roll-off containers and municipal trash collection vehicles. The site is divided by Hurffville Road (Route 41). The west side is bordered by a landfill, the Deptford Public Works and several industrial operations including an auto scrap yard and an outdoor power washing company. The west side of the site includes an office building, a gravel parking area for temporary and/or overnight storage of roll-off containers, municipal trash collection vehicles and trailers; a maintenance shop; trash loading area and a vehicle fueling station. The east side is primarily used for storage and repair of waste collection containers and includes a repair shop and outdoor fuel tank. There is also miscellaneous storage of used equipment, scrap metal and storage trailers.</p> |

Well 2 has been limited in use the last few years due to the implementation of Critical Area I regulations. Well 2 is completed into the Englishtown Aquifer at a total depth of 762 feet.</p> <p>The ASR system will withdraw from the shallow Kirkwood-Cohansey (KC) Aquifer during the fall, winter and spring and then stored in the Englishtown Aquifer for summer storage. The water is chlorinated before injection into the ASR well.</p>                |
| <p>Monroe Gloucester<br/>County MUA</p> <p>NJPDES Permit No.<br/>NJ0155691</p> <p>Ground Water</p>              | <p>Monroe Township</p> <p>Gloucester County</p>                              | <p>Lisa Hoare</p> <p>Bureau of Nonpoint<br/>Pollution Control</p> <p>(609) 633-7021</p>                    | II-A                                              | <p>This is a new Underground Injection Control (Non-Sanitary) DGW permit action for Monroe Gloucester County MUA Wells 11 and 14. ASR wells 11 and 14 are used for the recharge of system water at a maximum rate of 1500 gallons per minute during low water demands in the winter months. Recovery of the injectate is planned during peak water usage, i.e., the summer months. The system water will be dechlorinated with sodium bisulfite, treated with lime for pH adjustment and greensand filtration will be used for iron.</p>                                                                                                                                                               |
| <p>Salem City<br/>Wastewater<br/>Treatment Facility</p> <p>NJPDES Permit No.<br/>NJ0024856</p> <p>DSW Major</p> | <p>19 South Front Street<br/>Salem, New Jersey 08079</p> <p>Salem County</p> | <p>Ramanathan Asokan</p> <p>Bureau of Point<br/>Source Permitting -<br/>Region 2</p> <p>(609) 292-4860</p> | <p>Salem River</p> <p>SE-1</p> <p>Salem River</p> | <p>This application is for a major modification of a NJPDES permit to discharge a NJPDES permitted flow of 1.4 million gallons per day of treated domestic wastewater with industrial contribution. The existing permit for this facility became effective on August 1, 2005 and expires on July 31, 2010.</p> <p>The Department has modified the permit for two reasons. First, the Department has extended the submittal date of the Ammonia Toxicity Study and work plan due to potential changes in the facility's influent characteristics within two years. Secondly, based on the facility's ammonia effluent quality; the Department has modified the technical requirements of the study.</p> |

| <p>Camden County<br/>MUA Delaware #1<br/>Water Pollution</p> <p>NJPDES Permit No.<br/>NJ0026182</p> <p>DSW Major</p>         | <p>2nd &amp; Jackson Streets<br/>Camden, NJ, 08104-1357</p> <p>Camden County</p> | <p>Robert Hall</p> <p>Bureau of Point<br/>Source Permitting<br/>Region 2</p> <p>(609) 292-4860</p>         | <p>Delaware River</p> <p>Zone 3</p> <p>Woodbury/Big timber/Newton<br/>Creeks</p> | <p>This application is for a renewal of a NJPDES/DSW permit to discharge a NJPDES permitted flow of 80 million gallons per day (MGD) of treated and disinfected domestic wastewater with industrial contribution into Zone 3 of the Delaware River.</p> <p>This public notice is for a re-draft permit action of the draft permit that was previously issued on October 12, 2005. It is necessary to re-draft the permit since the previous draft permit did not contain the industrial pretreatment program influent (IPPI) requirements and because it was necessary to add monitoring and reporting requirements to the residual conditions in the permit due to a proposed sludge drying system that will operate in an enclosed building with air pollution control equipment. This re-draft adds the specific reporting requirements and monitoring frequencies pursuant to the Sludge Quality Assurance Regulations at N.J.A.C. 7:14A for this proposed operation. Included in this re-draft permit package are the reporting forms for the heat drying units and an annual Wastewater Characterization Report (WCR) form for reporting sludge production. Also included are the WCR forms for the IPPI requirements.</p> <p>Only the relevant pages of the fact sheet and the permit pertaining to these issues are open for public comment during the re-draft public comment period.</p> |
| <p>Township of<br/>Lower MUA</p> <p>NJPDES Permit<br/>No. NJ0128597</p> <p>Land Application<br/>of Biosolids-Class<br/>A</p> | <p>2900 Bayshore Road<br/>Villas, NJ 08251</p> <p>Cape May County</p>            | <p>Ruth Anne<br/>Rosenberg</p> <p>Bureau of<br/>Pretreatment<br/>&amp; Residuals</p> <p>(609) 633-3823</p> | <p>NA</p>                                                                        | <p>The permittee applied to the State of New Jersey to obtain authorization to continue to operate the existing design maximum of 12 dry metric tons/per day residuals stabilization facility and to continue to distribute the resultant marketable residual product. The NJDEP intends to renew this permit in accordance with the New Jersey Pollutant Discharge Elimination System regulations N.J.A.C. 7:14A, and by the authority of the Water Pollution Control Act, N.J.S.A. 58:10A-1 <u>et seq.</u></p> <p>The MRP is intended to meet the United States Environmental Protection Agency's 40 CFR Part 503 regulation Exceptional Quality pollutant, pathogen reduction, and vector attraction reduction options. These standards were adopted by the NJDEP at N.J.A.C. 7:14A-20. MRP, that meets these standards, will be suitable for distribution and marketing as a soil amendment or fertilizer.</p> <p>The stabilization process involves the addition of lime and will take place within an enclosed pasteurization vessel, which provides an insulated and heated area to ensure that the dewatered material maintains the proper time and temperature requirements.</p>                                                                                                                                                                                                          |

**New Jersey Department of Environmental Protection  
Division of Watershed Management  
Bureau of Watershed Regulation**

**Notice of Public Comment Period Regarding Requests for Highlands Applicability and Water Quality  
Management Plan Consistency Determinations**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Bureau of Watershed Regulation, has received the following Highlands Applicability and Water Quality Management Plan Consistency Determination application(s) requesting the issuance of determinations in accordance with N.J.S.A. 13:20-30. Each application is described in the accompanying table.

All applications, prior to submittal for public notice, have been deemed administratively complete in accordance with N.J.A.C. 7:38-11.2(c)3 and the following agencies/persons have been notified by the applicant in accordance with the requirements under N.J.A.C. 7:38-9.2(b).

- i. The Municipal Clerk
- ii. The Highlands Council
- iii. The Municipal Environmental Commission (if one exists);
- iv. The Municipal Planning Board
- v. The Municipal Construction Official
- vi. The County Planning Board; and
- vii. The County Environmental Commission (if one exists)

The public notice has been prepared for these applications as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. An appointment to review the file pertinent to the listed proposals may be requested through the Open Public Records Act. Details are online at [www.nj.gov/dep/opra](http://www.nj.gov/dep/opra), or call (609) 341-3121

The public comment period on these applications begins on the date of publication of this notice and will close thirty (30) calendar days later. Any interested person may raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period.

NJDEP will consider all timely submitted comments. The applicant and each person who submitted written comments will receive notice of NJDEP's final determination.

**Written comments should be submitted to:**

Terry Pilawski, Chief  
Division of Watershed Management  
Bureau of Watershed Regulation  
PO Box 418  
Trenton, NJ 08625
