General Application Milestone Codes

Application Approved
Application Denied
Application Withdrawal
C = Cancelled

F = Complete for Filing
H = Public Hearing Date
I = Additional Information Requested
L = Legal Appeal of Permit Decision

M = Permit Modification
P = Permit Decision Date
R = Complete for Review
T = Additional Information Received

Specific Decision Application Codes

AVE PLAN = Averaging Plan	PA/SOW = Presence/Absence/State Open Waters Only
FP/A = Footprint/Absence of Wet., Waters & Transition Area	PA/T = Presence/Absence/Transition Area Only
F/F = Farming/Forestry/Silviculture Exemption	R = Reductions
FP/P = Footprint/Wetlands Present	REG = HMDC/Pinelands Exemption
FP/SOW = Footprint/State Open Waters Present Only	SPEC ACTIVITY = Special Activity (Linear Dev. & Stormwater Mgmt.)
FP/T = Footprint/Transition Area Present Only	SA/GP = Special Activity for Statewide Gen. Permit Activity
NW = ACOE Nationwide Permit Exemptions	SA/R = Special Activity for Redevelopment
O = Other	SD = Municipal Subdivision Approval
PA/A = Presence-Absence/Absence of Wet., Waters & Trans. Area	SP = Municipal Site Plan Approval
PA/P = Presence-Absence/Wetlands Present	VERIFIED = Verified Line

Permit Descriptions

CAFRA - A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

Federal Consistency Activity: Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

Freshwater Wetlands: A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas. A Stream Encroachment Permit, an U.S. Army Corps of Engineers Dredge and Fill Permit, and a Water Quality Certification may also be required.

General Groundwater Petroleum Products Cleanup: This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

NJPDES permits: A permit is required for the discharge of pollutants to surface and groundwater, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities, which require a permit, may be found at N.J.A.C. 7:14A-2.4)

Solid Waste Facility: A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

Stream Encroachment: Under the Flood Control Act DEP is empowered to require a permit to control construction within and proximate to flood hazard areas to reduce flood damage to and from new development and to protect the flood storage capacity and ecology of flood plains.

Tidal Wetlands: A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

Treatment Works Approval: A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

Waterfront Development: A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Stream Encroachment (SE) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

Appeals on Applications

Any individual who would like to appeal a decision on an application should direct their remarks to:

Office of Legal Affairs
Attn: Adjudicatory Hearing Requests
Department of Environmental Protection
PO Box 402
Trenton, NJ 08625-0402

DEP SUBSCRIPTION INFORMATION

Copies of this publication are found in all municipal clerks offices and county planning board offices. Individuals may obtain an annual subscription of 24 issues for a fee of \$50, which is the estimated cost of producing and mailing each issue to subscribers. If you desire a new subscription, please send a check for \$50 payable to the Treasurer, State of New Jersey and mail it to the NJDEP, Bureau of Revenue, PO Box 417, 160 S. Broad St., 3rd Flr., Trenton, NJ 08646-0417. Please use the form below to make any changes in your subscription.

For information on a specific permit, please see the telephone list inside the back cover.

NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
EVENTS OF PUBLIC INTEREST

DATE: February 28, 2006

TIME: 10:00 a.m.

PLACE: Water and Wastewater Board of Examiners Public Meeting
428 E. State Street, Carroll Building, 1st floor, Trenton, NJ

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
NOTICE OF PUBLIC COMMENT PERIOD FOR:
A SOLID WASTE TRANSFER STATION/ MATERIALS RECOVERY FACILITY PERMIT
ALLEGRO SANITATION CORPORATION
CITY OF SECAUCUS**

The New Jersey Department of Environmental Protection, Solid and Hazardous Waste Program, hereby gives notice that it has tentatively approved a Solid Waste Facility Permit Renewal Application regarding the operation of the existing SW Transfer Station/ Materials Recovery Facility for Allegro Sanitation Corporation.

The application for a Solid Waste Facility Permit Renewal was submitted in accordance with the requirements established at N.J.A.C. 7:26-2. The facility is currently permitted to accept the following waste types and recyclable materials with an approved capacity of 95 tons per day of waste or mixtures of recyclable materials and solid waste: ID 10 Municipal (household, commercial, and institutional) Waste; ID 13 Bulky Waste; ID 13C Construction and Demolition Waste; Class A recyclable materials; and Class B recyclable materials.

The public comment period on the draft permit action begins on the date of the publication of this notice and will close within thirty (30) days (February 25, 2006) of this publication. Any interested person may submit written comments during this period to the Department concerning the draft permit action to:

Anthony Fontana, Chief
Bureau of Solid and Hazardous Waste Permitting - North
New Jersey Department of Environmental Protection
Solid and Hazardous Waste Program
401 E. State Street, P.O. Box 414
Trenton, New Jersey 08625-0414
(609) 292-9880

Upon the specific written request of any interested party, who raises the issues of fact relevant to the proposed agency action within thirty (30) days of this publication, a public hearing will be scheduled regarding the proposed agency action.

The application and all other supporting documents, as well as the draft Solid Waste Facility Permit and fact sheet are available for inspection at the above noted office of the Department's Solid and Hazardous Waste Program, the office of City of Secaucus Clerk, and the office the Hudson County Clerk.

Anyone who would like to obtain copies of the draft permit and a fact sheet for the facility should notify Ms. Lisa Offredo at the above address or contact her at (609) 984-5950.

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
FOR A SOLID WASTE TRANSFER STATION/MATERIAL RECOVERY FACILITY
PERMIT**

The New Jersey Department of Environmental Protection, Solid and Hazardous Waste Management Program, hereby gives notice that it has tentatively approved an application for renewal of the Solid Waste Facility Permit for the existing Waste Management of New Jersey, Inc.-Fairview Solid Waste Transfer Station/Material Recovery Facility.

The application for a Solid Waste Facility Permit Renewal was submitted in accordance with the requirements established at N.J.A.C. 7:26-2. The facility is currently permitted to accept waste types ID # 10 Municipal, #13 Bulky, #13C Construction and Demolition, # 23 Vegetative and #27 Dry Industrial with an approved capacity of 950 tons per day (but not to exceed 4,800 tons per week) of waste and/or source separated recyclable material (six day per week operation).

The public comment period on the draft permit action begins on the date of the publication of this notice and will close thirty (30) days (March 11, 2006) after publication. Any interested person may submit written comments during this period to the Department concerning the draft permit action to:

Frank Coolick
Administrator
New Jersey Department of Environmental Protection
Solid and Hazardous Waste Management Program
401 E. State Street, P.O. Box 414
Trenton, New Jersey 08625-0414
(609) 984-5950

Upon written request of any interested party, which raises issues of fact relevant to the proposed agency action within thirty (30) days of this publication, a public hearing will be scheduled regarding the proposed agency action.

The application and all other supporting documents, as well as the draft Solid Waste Facility Permit and fact sheet, are available for inspection at the Department's Solid and Hazardous Waste Management Program office mentioned above, the office of the Borough of Fairview Clerk and the office of the Bergen County Clerk.

Anyone who would like to obtain copies of the draft permit and a fact sheet for the facility should notify Ms. Lisa Offredo at the above address or contact her at (609) 984-5950.

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
DEP BULLETIN NOTICE
APPROVAL OF PARSIPPANY-TROY HILLS' PROPOSED WELLHEAD PROTECTION
ORDINANCE
PURSUANT TO UNDERGROUND STORAGE OF HAZARDOUS SUBSTANCES ACT
(N.J.S.A. 58:10A-21. ET.SEQ) AND IMPLEMENTING REGULATIONS (N.J.A.C. 7:14B)**

On November 4, 2005, the Department received Parsippany-Troy Hills' application requesting approval of a proposed Well Head Protection Ordinance (Ordinance) pursuant to the Underground Storage of Hazardous Substances Act (N.J.S.A. 58:10A-21. et.seq) and Implementing Regulations (N.J.A.C. 7:14B). By submitting this petition, Parsippany-Troy Hills has requested the authority to enact and enforce an ordinance that is more environmentally protective than N.J.A.C. 7:14B.

In support of their application Parsippany-Troy Hills provided a copy of the proposed Ordinance, a Parsippany-Troy Hills Well Head Protection Ordinance Analysis and a "Draft Resolution of the Township Council of the Township of Parsippany Troy-Hills, Morris County, New Jersey in Support of the Enactment of a Well Head Protection Ordinance". In addition, on November 28, 2005, the Department received an adopted "Resolution of the Township Council of the Township of Parsippany Troy-Hills, Morris County, New Jersey in Support of the Enactment of a Well Head Protection Ordinance" dated November 22, 2005. The Ordinance regulates the use of

land, physical facilities and other activities within the three tiers of Well Head Protection Areas (WHPAs) delineated by the NJ Geological Survey based on time of travel. This Ordinance prohibits the installation of new underground storage tanks regulated at N.J.A.C. 7:14B that contain greater than an aggregate total of 50 gallons of hazardous substances or waste (USTs) within WHPA tiers one and two. In addition, it imposes best management practices requirements on USTs in all three WHPA tiers when triggered by the application for a change in land use or activity.

Based on the information provided, Parsippany-Troy Hills has initiated the Ordinance as a preventative measure to reduce the probability of accidental spills or leaks which can be associated with hazardous substance storage and handling in environmentally critical WHPAs (as defined by N.J.A.C. 7:8-1.2). The Parsippany-Troy Hills Township Council has passed a resolution on November 22, 2005 in support of its proposed Well Head Protection Ordinance as follows:

“WHEREAS, the Township of Parsippany-Troy Hills is heavily dependant on ground water, which is the primary source of water supply for its residents and businesses; and
WHEREAS, the Planning Board of the Township of Parsippany -Troy Hills has amended the Township Master Plan to include recommendations for the establishment of regulations to protect public wells from contamination caused by accidental spills or leaks of hazardous substances or hazardous wastes; and
WHEREAS, in response to the amended Master Plan recommendations, the Township Council desires to protect the public health, safety and welfare of the citizens of the Township of Parsippany-Troy Hills through the protection of the ground water resources underlying the Township, which is the source of potable water for its citizens and neighboring communities.
NOW THEREFORE, BE IT RESOLVED by the Township Council of the Township of Parsippany-Troy Hills, County of Morris, and the State of New Jersey, that is hereby supports the enactment of a Well Head Protection Ordinance and submits said Ordinance to the NJDEP for authority to enact this Ordinance in accordance with NJAC 7:14B-11.2.”

Parsippany-Troy Hills has, in part, adopted the above resolution and proposed it's Ordinance based on the Township being located over the Buried Valley Aquifer System of the Passaic River Basin which has been designated as a “sole source” aquifer under Section 1424(e) of the Federal Safe Drinking Water Act of 1974. Parsippany-Troy Hills proposes the Ordinance based upon findings that (1) Parsippany-Troy Hills is heavily dependant on ground water as a primary source of water supply, (2) the vulnerability of this aquifer system to contamination and (3) Parsippany-Troy Hills is using the Ordinance as a means to reduce the potential for pollutants and other contaminants from entering the sole source aquifer within WHPAs that supply Township wells”.

The New Jersey Geological Survey (NJGS) established WHPA delineation as part of a requirement of the 1986 Federal Safe Drinking Water Act (FSDWA) to develop and implement a State program to protect wellhead areas within New Jersey from contaminants that may have any adverse effect on the health of persons. 42 U.S.C. § 300h 7. In response to this mandate, New Jersey drafted a Wellhead Protection Program Plan (“WHPP”), which was approved by EPA Region II by letter dated 6/19/1991. The WHPP stated that the most critical of its key concepts is the development of municipal and county controls of sources which remain unregulated by the Department and prevention of the development of new sources. 1991 WHPP, p v. The WHPP further stated that “municipal governments will be encouraged to make full use of these authorities to further the WHPP.” 1991 WHPP, p. 15. By prohibiting and regulating new and enlarged pollutant sources within WHPAs, Parsippany-Troy Hills has taken steps to reduce the potential for contaminants to enter the Sole Source Aquifer System surrounding Public Community Wells and school wells (Public Non-Community Wells) which are consistent with the 1991 WHPP.

Subsequently, 1996 amendments to the FSDWA required states to implement a Source Water Assessment Program to predict potential threats to the quality of the drinking water sources in the State. As part of this program, states are required to define wellhead protection areas and identify all potential anthropogenic (caused

by humans) sources of contaminants, which may have any adverse effect on the health of persons. Once these areas and contaminants have been identified, the state program is encouraged to provide “implementation of control measures” “to protect the water supply within wellhead protection areas from such contaminants.” New Jersey’s Source Water Assessment Program conducted an inventory of potential contaminant sources and a determination of the source waters’ susceptibility to regulated contaminants including volatile organics. Using past studies, water sample data and statistical models, the State determined vulnerability ratings and the environmental factors that have the potential to affect the source waters’ vulnerability. Point sources of contamination have been determined to be a significant factor for determining the vulnerability to contamination from volatile organic compounds. The density of underground storage tanks, when combined with the density of solid waste landfills and Known Contaminated Sites is a significant factor contributing to this class of contaminants. Sixty-one percent of unconfined community water systems wells were rated as highly vulnerable to volatile organic compounds.

New Jersey’s Safe Drinking Water Act (NJSDWA) sets forth a legislative determination that “it is a paramount policy of the State to protect the purity of the water we drink” and “that the maintenance of high-quality potable water is essential in order to safeguard the health and welfare of the people of the State.” N.J.S.A. 58:12A-2. Regarding contaminants, and the authority to address a potential threat to drinking water, such as that identified in the Source Water Assessments, the NJSDWA provides:

“The commissioner, upon receipt of information that a contaminant which is present in or is likely to enter a water system may present an imminent and substantial endangerment to the health of persons, may take such actions as he may deem necessary in order to protect the health of such persons. Such actions may include, but shall not be limited to: a. issuing such orders as may be necessary to protect the health of persons who are or may be users of such system, including travelers; and b. commencing a civil action for appropriate relief, including a restraining order or permanent or temporary injunction.” N.J.S.A. 58:12A-6.

Documentation provided substantiates the geologic conditions, including but not limited to the bedrock aquifer warranting Parsippany-Troy Hills’ implementation of this Ordinance. The Township of Parsippany-Troy Hills is located on the Buried Valley Sole Source Aquifer. This aquifer consists of glacial deposits of Late Wisconsinan age and is characterized by highly permeable, porous glacial sand and gravel with interbedded fine sands and silts, and in some areas glacial till. Thickness of the aquifer can range anywhere from 50 to 400 feet. Because of the permeable and interbedded nature of the aquifer, this geologic situation is not an effective barrier or deterrent ground water pollution migration. The Department recognizes that once ground water is impacted by hazardous substances (especially volatile organic compounds) in this type of hydrologic structure, it is difficult to investigate, contain and remediate the contamination given the inherent complexities of ground water flow along and within bedrock features. The common high capacity yields of Public Community and Public Non-Community Wells further influence and complicate contaminant transport and remediation. Under these conditions, accidental spills or leaks of hazardous substances are likely to enter the water system and will present an imminent and substantial endangerment to the health of persons upon entry into the water system.

In addition, the Township of Parsippany-Troy Hills is located in a designated sole source aquifer, specifically the Northwest New Jersey Fifteen Basin Sole Source Aquifer. A Sole Source Aquifer is defined as those aquifers that contribute more than 50% of the drinking water to a specific area and the water would be impossible to replace if the aquifer were contaminated. Recharge is almost entirely from the precipitation that falls within the basin. Local flow systems typically recharge at topographic high areas and discharge at the streams found in the valleys. Any pollutant discharges within this recharge area are a threat to the drinking water supply. The US Environmental Protection Agency states,

“The Fifteen Basin Aquifer System of Northwest New Jersey is vulnerable to contamination from many sources. The thinness of the soils, the high permeability of the stratified glacial deposits and the fractured nature of the bedrock contribute to the vulnerability and spread of contamination.”

The Department regulates underground storage tanks (USTs) pursuant to the Water Pollution Control Act, N.J.S.A. 58:10A-21 through 37. The State's regulation of USTs is intended to "provide for the registration and the systematic testing and monitoring of underground storage tanks to detect leaks and discharges as early as possible and thus minimize further degradation of potable water supplies." N.J.S.A. 58:10A-21. The Department is authorized to review and approve municipal ordinances which are more stringent (i.e. more environmentally protective) than the state program. N.J.S.A. 58:10A-35(b), N.J.A.C. 7:14B-11.2. Pursuant to 7:14B-11.3(b), a municipal ordinance is approvable if it meets one of the following criteria:

1. The municipal ordinance provides greater environmental protection for unique hydrologic conditions;
2. The municipal ordinance provides greater protection against imminent threats to human health; or
3. The municipal ordinance provides greater environmental protection for wetlands or flood plains.

The Ordinance has been drafted and submitted with the intent of providing "greater protection against imminent threats to human health."

The Department has evaluated the application pursuant to N.J.A.C. 7:14B-11.3 and finds that the Ordinance is more stringent than and not in conflict with N.J.A.C. 7:14B and warrants approval. Specifically, the Department has determined that the Ordinance meets the criteria specified at N.J.A.C. 7:14B-11.3(b)2 by providing "greater protection against imminent threats to human health". The Ordinance is deemed to meet the conditions required pursuant to N.J.S.A. 58:10A-35(b), has been deemed to be effective and not preempted and Parsippany-Troy Hills has been given approval to adopt, administer and enforce its provisions.

The Department finds that the Ordinance also furthers the goals of the Source Water Assessment Program, the 1986 Federal Safe Drinking Water Act and its amendments of 1996 and New Jersey's federally approved Well Head Protection Plan. The Department also finds that the Ordinance is consistent with State policy contained in the Safe Drinking Water Act (N.J.S.A. 58:12A-2) to protect water purity and safeguard the health and welfare of the people of the State.

Parsippany-Troy Hills has been advised that with the authority granted to adopt and implement the Ordinance, Parsippany-Troy Hills is also obligated to insure that its provisions are carried out in a manner which is not inconsistent with N.J.A.C. 7:14B.

The Department has requested that Parsippany-Troy Hills provide the Department a final copy of the approved Ordinance as required pursuant to N.J.A.C. 7:14B-11.3(d).

NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION

TAKE NOTICE THAT a complete Highlands Preservation Area Approval application was received on May 6, 2005, prior to the May 9, 2005 effective date of the Highlands Water Protection and Planning Act Special Adopted New Rules, N.J.A.C. 7:38. Therefore, the proposed project is subject to the requirements of the Highlands Water Protection and Planning Act, N.J.S.A. 13:20-1, et seq. but not to the requirements of the Special Adopted New Rules.

IN MATTER OF:

Seneca Hills Corp
File No. 1427-05-0010.1 SHR050001
Block 8800 Lot 33

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
DIVISION OF REMEDIATION MANAGEMENT AND
RESPONSIBLE PARTY REMEDIATION ELEMENT**

PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection (Department), Site Remediation and Waste Management, proposes to issue the following New Jersey Pollutant Discharge Elimination System permit actions in accordance with N.J.S.A. 58:10A-1 et seq. and N.J.A.C. 7:14A-1 et seq.

The permit action prepared by the Department is based on the administrative record which is on file at the offices of the Department, Site Remediation Program, located at 401 East State Street in the City of Trenton, Mercer County, New Jersey. It is available for inspection, by appointment, Monday through Friday, between 8:30 A.M. and 4:00 P.M. Appointment for inspection may be requested through the Open Public Records Act. Details are online at www.nj.gov/dep/opra, or call (609) 341-3121. Appointments for inspection of the NJPDES file only or requests for a copy of the draft document (at a nominal charge) may be made by calling Central File at (609) 292-0400.

Comments on the draft document or a request that the Department holds a non-adversarial public hearing must be submitted in writing to the person specified below and shall be postmarked within 30 days of the date of this public notice. All persons, including the applicant, who believe that any condition set forth in this document is inappropriate, must raise all reasonable issues and submit all arguments and factual materials supporting their position by the close of the public comment period. Any request for a hearing shall state the nature of the issues to be raised. A public hearing will be conducted whenever the Department determines that there is a significant degree of public interest in the permit decision. If a public hearing is held, the public comment period shall automatically be extended to the close of the public hearing.

The Department will consider and respond to all significant and timely comments. The applicant and each person who has submitted written comments will receive notice of Department's final decision.

Written comments should be submitted to:

Wayne Howitz
Responsible Party Remediation Element
PO Box 028
Trenton, NJ 08625

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
DIVISION OF WATER QUALITY**

PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP) proposes to issue the following New Jersey Pollutant Discharge Elimination System (NJPDES) permit actions in accordance with N.J.A.C. 7:14A-1 et seq. and by authority of N.J.S.A. 58:10A-1 et seq. The description of each proposed permit action is contained in the accompanying table.

This public notice has been prepared for these facilities as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. Copies of the draft document are obtainable, for a nominal charge, and the administrative record is available for inspection by appointment only, Monday through Friday, by contacting the NJDEP file room at (609) 292-0400. Additional information regarding the draft document may be obtained from the contact person listed in the accompanying table.

Comments on the draft document or a request that NJDEP hold a non-adversarial public hearing on the document must be submitted, in writing, to the individual specified below (refer to the accompanying table for the appropriate permitting bureau) during the public comment period, which closes either:

1. 30 calendar days after publication of the last newspaper notice when a notice is published in the DEP Bulletin **and** a newspaper(s); or
2. 30 calendar days after publication of the DEP Bulletin notice when a notice is published in the DEP Bulletin **only**.

All persons, including permittees who believe that any condition of NJDEP's tentative decision to issue these permit actions is inappropriate must raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. Any request for a public hearing shall state the nature of the proposed issues to be raised in the hearing. A public hearing will be conducted if NJDEP determines there is a significant degree of public interest. If a public hearing is held, the public comment period is automatically extended through the close of the hearing.

NJDEP will consider and respond to all significant and timely submitted comments. The permittee and each person who submitted written comments, will receive notice of NJDEP's final decision to issue, revoke or redraft the document.

Written comments should be submitted to the appropriate permitting bureau:

Howard Tompkins, Acting Chief
Bureau of Point Source Permitting - Region 1

**New Jersey Department of Environmental Protection
Division of Watershed Management
Bureau of Watershed Regulation**

**Notice of Public Comment Period Regarding Requests for Highlands Applicability and Water Quality
Management Plan Consistency Determinations**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Bureau of Watershed Regulation, has received the following Highlands Applicability and Water Quality Management Plan Consistency Determination application(s) requesting the issuance of determinations in accordance with N.J.S.A. 13:20-30. Each application is described in the accompanying table.

All applications, prior to submittal for public notice, have been deemed administratively complete in accordance with N.J.A.C. 7:38-11.2(c)3 and the following agencies/persons have been notified by the applicant in accordance with the requirements under N.J.A.C. 7:38-9.2(b).

- i. The Municipal Clerk
- ii. The Highlands Council
- iii. The Municipal Environmental Commission (if one exists);
- iv. The Municipal Planning Board
- v. The Municipal Construction Official
- vi. The County Planning Board; and
- vii. The County Environmental Commission (if one exists)

The public notice has been prepared for these applications as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. An appointment to review the file pertinent to the listed proposals may be requested through the Open Public Records Act. Details are online at www.nj.gov/dep/opra, or call (609) 341-3121

The public comment period on these applications begins on the date of publication of this notice and will close thirty (30) calendar days later. Any interested person may raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period.

NJDEP will consider all timely submitted comments. The applicant and each person who submitted written comments will receive notice of NJDEP's final determination.

Written comments should be submitted to:

Terry Pilawski, Chief
Division of Watershed Management
Bureau of Watershed Regulation
PO Box 418
Trenton, NJ 08625
