Permit Descriptions

CAFRA - A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

Federal Consistency Activity: Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

Freshwater Wetlands: A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas. A Stream Encroachment Permit, an U.S. Army Corps of Engineers Dredge and Fill Permit, and a Water Quality Certification may also be required.

General Groundwater Petroleum Products Cleanup: This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

NJPDES permits: A permit is required for the discharge of pollutants to surface and groundwater, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities, which require a permit, may be found at N.J.A.C. 7:14A-2.4)

Solid Waste Facility: A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

Stream Encroachment: Under the Flood Control Act DEP is empowered to require a permit to control construction within and proximate to flood hazard areas to reduce flood damage to and from new development and to protect the flood storage capacity and ecology of flood plains.

Tidal Wetlands: A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

Treatment Works Approval: A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

Waterfront Development: A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Stream Encroachment (SE) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

LAND USE REGULATION PROGRAM
NOTICE OF INTENT TO RECONSIDER

Notice of the Department's intent to initiate a reconsideration of application of substantive standards under 7:7-1.10 of the Coastal Permit Program Rules and Subchapter 17 of the Freshwater Wetlands Protection Act Rules and to provide a 30 day comment period as provided in the referenced rules.

Reconsideration of application of substantive standards is being initiated for:

Development by Roy Winans
Block: 861, Lots 1 & 5
Brick Township, Ocean County
CAFRA Permit Application No. 1506-02-0130.1 CAF020001

On February 21, 2003, the Department denied a CAFRA Individual Permit on the above property for the construction of two (2) single-family detached homes, associated driveways, drainage, utilities and associated landscaping. The Department has reassessed the physical conditions of the property and will determine if some level of development of the property may occur in accordance with the Rules on Coastal Zone Management and the Freshwater Wetlands Protection Act Rules, pursuant to NJAC 7:7-1.10 and NJAC 7:7A-17.

A 15-day public comment period shall commence upon the publication of this bulletin. Comments may be sent to:

New Jersey Department of Environmental Protection

NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
SOLID AND HAZARDOUS WASTE MANAGEMENT PROGRAM
PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection, Solid and Hazardous Waste Management Program has tentatively approved an application made by Capital Health System, Inc. to renew their Solid Waste Facility Permit to operate an existing small-scale thermal destruction facility (incinerator) in accordance with N.J.A.C. 7:26-1 *et seq.* and by authority of N.J.S.A. 13:1E-1 *et seq.*

This facility is located on Block 227A, Lot 1 at Capital Health System, Inc. Fuld Campus Hospital, 750 Brunswick Avenue, Trenton, New Jersey 08638. The tentative approval proposes that the incinerator be permitted to process waste for not more than 10 hours per day, with an approved capacity of 500 pounds per hour, and with a maximum daily processing rate not to exceed 5000 pounds per day. The facility is permitted to process municipal waste (exclusively limited to institutional waste originating in the Fuld Campus hospital) and Regulated Medical Waste Classes 1, 2, 3, 4, 6, and 7 originating from the Fuld Campus Hospital and the Capital Health System, Inc. Medical Arts Building located at 40 Fuld Street, Trenton, New Jersey.

The public comment period on this tentative approval begins on the date of the publication of this notice and will close thirty (30) days after the publication date. During this period, any interested person may submit written comments concerning the tentatively approved Permit to:

Mr. Frank Coolick
Administrator
New Jersey Department of Environmental Protection
Solid and Hazardous Waste Program
401 East State Street, P.O. Box 414
Trenton, New Jersey 08625-0414
(609) 984-5950

All interested persons, including the applicant, who believe any aspect of the tentative approval is inappropriate shall raise all reasonably ascertainable issues and submit all reasonably available arguments and factual grounds supporting their position, including all supporting material, by the close of the public comment period. All supporting materials shall be included in full and may not be incorporated by reference, unless they are already part of the administrative record in the same proceeding, or consist of State or Federal statutes and regulations or other generally available reference materials.

Any interested person who reasonably requires additional time within which to supplement the administrative record should request, in writing, an extension of the public comment period, and the Department will exercise reasonable discretion in setting the closing date for public comment. The Department will publish subsequent notice of any decision to extend the period for public comment. Any notice of an extension of the public comment period will clearly set forth the closing date of such extension.

The Department will respond to all relevant comments submitted during the public comment period. These comments and the Department's responses will be set forth in a response document which shall become part of the administrative record upon which the Department shall base its final decision. Any person who has submitted relevant written comments will receive notification of the Department's final decision. Upon the written request of any interested party which, in the opinion of the Department, raises significant issues of fact relevant to the proposed agency action within thirty (30) days of this publication date, a public hearing will be scheduled regarding the proposed agency action.

Copies of the tentative approval and the project fact sheet are available for review at the office of the City of Trenton Clerk at 319 East State Street; the office of the Mercer County Clerk at 209 South Broad Street, Trenton; and at the Department of Environmental Protection office listed above. Copies of the application documents and the administrative record are available at the Department of Environmental Protection office listed above. Anyone wishing to review the Department files for this project or who would like to obtain copies of the tentative approval and the fact sheet, should notify Ms. Lisa Offredo at the address listed above or contact her at (609) 984-5950. The files may be inspected by appointment only, weekdays between the hours of 9:00 AM and 5:00 PM.

NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
SOLID AND HAZARDOUS WASTE MANAGEMENT PROGRAM
NOTICE OF PUBLIC COMMENT PERIOD
FOR RENEWAL OF A SOLID WASTE FACILITY PERMIT

The New Jersey Department of Environmental Protection, Solid and Hazardous Waste Management Program, hereby gives notice that it has tentatively approved a Solid Waste Facility Permit renewal application submitted by Merck & Co., Inc., for the continued operation of a small-scale thermal destruction facility. The application for a Solid Waste Facility Permit renewal was submitted in accordance with the requirements established at N.J.A.C. 7:26-2.

The facility is located on the Merck & Co., Inc. "Rahway Campus". The Rahway Campus encompasses land located in both the City of Rahway and the City of Linden, Union County. The street address of the Rahway Campus is 126 E. Lincoln Avenue, Rahway, New Jersey 07065. The incinerator is located on Block 470, Lot 67 in the City of Linden in the northeast quadrant of the Rahway Campus. The facility is operated for the sole purpose of disposing of select waste materials generated by the Merck & Co., Inc. Rahway Campus. The facility has a maximum permitted capacity of 799 pounds per hour of any combination of solid waste types authorized for processing, and 751 pounds per hour for injected liquid waste. The facility is permitted to process the following waste types:

Type 27: Dry Industrial Waste

Regulated Medical Waste (RMW): Classes 1, 2, 3, 4, 5, 6, and 7 that include liquids and semi-liquids used in research and development activities conducted at the Rahway Campus, that have been in contact with regulated waste materials. Incineration of RMW that is also low-level radioactive waste-containing byproduct material shall be conducted in accordance with the permittee's U.S. Nuclear Regulatory Commission (NRC) Materials License, 10 CFR Part 20 and 40 CFR Part 61, Subpart I, as applicable.

The public comment period on this tentative approval begins on March 31, 2006 and will close on May 1, 2006. During this period, any interested person may submit written comments concerning the tentatively approved permit to:

Mr. Frank Coolick, Administrator
New Jersey Department of Environmental Protection
Solid and Hazardous Waste Management Program
401 E. State Street, P.O. Box 414
Trenton, New Jersey 08625-0414
(609) 633-1418

All interested persons, including the applicant, who believe any aspect of the tentative approval is inappropriate shall raise all reasonably ascertainable issues and submit all reasonably available arguments and factual grounds supporting their position, including all supporting material, by the close of the public comment period. All supporting materials shall be included in full and may not be incorporated by reference, unless they are already part of the administrative record in the same proceeding, or consist of State or Federal statutes and regulations or other generally available reference materials.

The Department will respond to all relevant comments submitted during the public comment period. These comments and the Department's responses will be set forth in a response document which shall become part of the administrative record upon which the Department shall base its final decision. Any person who has submitted relevant written comments will receive notification of the Department's final decision. Upon the written request of any interested party which, in the opinion of the Department, raises significant issues of fact relevant to the proposed agency action within thirty (30) days of this publication date, a public hearing will be scheduled regarding the proposed agency action.

The Permit renewal application and the administrative record, as well as the draft Solid Waste Facility Permit (tentative approval) and fact sheet are available for inspection at the office of the Department's Solid and Hazardous Waste Management Program listed above. Anyone who wishes to review the Department files for this project or who would like to obtain copies of the draft permit and the fact sheet for the facility should notify Ms. Lisa Offredo at the address listed above, or contact her at (609) 984-5950. The files may be inspected by appointment only, weekdays between the hours of 9:00 AM and 5:00 PM.

PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection (Department), Site Remediation and Waste Management, proposes to issue the following New Jersey Pollutant Discharge Elimination System permit actions in accordance with N.J.S.A. 58:10A-1 et seq. and N.J.A.C. 7:14A-1 et seq.

The permit action prepared by the Department is based on the administrative record which is on file at the offices of the Department, Site Remediation Program, located at 401 East State Street in the City of Trenton, Mercer County, New Jersey. It is available for inspection, by appointment, Monday through Friday, between 8:30 A.M. and 4:00 P.M. Appointment for inspection may be requested through the Open Public Records Act. Details are online at www.nj.gov/dep/opra, or call (609) 341-3121. Appointments for inspection of the NJPDES file only or requests for a copy of the draft document (at a nominal charge) may be made by calling Central File at (609) 292-0400.

Comments on the draft document or a request that the Department holds a non-adversarial public hearing must be submitted in writing to the person specified below and shall be postmarked within 30 days of the date of this public notice. All persons, including the applicant, who believe that any condition set forth in this document is inappropriate, must raise all reasonable issues and submit all arguments and factual materials supporting their position by the close of the public comment period. Any request for a hearing shall state the nature of the issues to be raised. A public hearing will be conducted whenever the Department determines that there is a significant degree of public interest in the permit decision. If a public hearing is held, the public comment period shall automatically be extended to the close of the public hearing.

The Department will consider and respond to all significant and timely comments. The applicant and each person who has submitted written comments will receive notice of Department's final decision.

Written comments should be submitted to:

PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP) proposes to issue the following New Jersey Pollutant Discharge Elimination System (NJPDES) permit actions in accordance with N.J.A.C. 7:14A-1 et seq. and by authority of N.J.S.A. 58:10A-1 et seq. The description of each proposed permit action is contained in the accompanying table.

This public notice has been prepared for these facilities as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. Copies of the draft document are obtainable, for a nominal charge, and the administrative record is available for inspection by appointment only, Monday through Friday, by contacting the NJDEP file room at (609) 292-0400. Additional information regarding the draft document may be obtained from the contact person listed in the accompanying table.

Comments on the draft document or a request that NJDEP hold a non-adversarial public hearing on the document must be submitted, in writing, to the individual specified below (refer to the accompanying table for the appropriate permitting bureau) during the public comment period, which closes either:

1. 30 calendar days after publication of the last newspaper notice when a notice is published in the DEP Bulletin **and** a newspaper(s); or
2. 30 calendar days after publication of the DEP Bulletin notice when a notice is published in the DEP Bulletin **only**.

All persons, including permittees who believe that any condition of NJDEP's tentative decision to issue these permit actions is inappropriate must raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. Any request for a public hearing shall state the nature of the proposed issues to be raised in the hearing. A public hearing will be conducted if NJDEP determines there is a significant degree of public interest. If a public hearing is held, the public comment period is automatically extended through the close of the hearing.

NJDEP will consider and respond to all significant and timely submitted comments. The permittee and each person who submitted written comments, will receive notice of NJDEP's final decision to issue, revoke or redraft the document.

Written comments should be submitted to the appropriate permitting bureau:

Approximately 11,000 gallons per day (GPD) of sanitary wastewater is treated by a on-site wastewater treatment plant before being discharged to the ground waters of the state via two (2) subsurface disposal beds. Residuals generated on-site will be managed off-site at an approved residuals management operation
U A Columbia NJPDES Permit No. NJ0083038 Ground Water	Oakland, NJ Bergen County	Mike Pigliacelli Bureau of Nonpoint Pollution Control (609) 633-7021	II-A	This is a renewal permit action for Cable Vision of Oakland. Cable Vision of Oakland consists of an office building and a warehouse with 67,005 square feet of floor space. Sanitary wastewater generated by the facility is treated by an on-site treatment plant and discharged to the ground water of the State via a subsurface disposal bed. A second, reserve disposal bed is also available. The wastewater is treated to Ground Water Quality Standards for all parameters of concern, except fecal coliform bacteria, prior to discharge. Although ultraviolet disinfection is provided, final treatment to Ground Water Quality Standards is provided by the unsaturated soils within the disposal bed. One piezometer well monitors the hydraulic performance of the disposal area. Flow from the facility is limited to 2,000 gpd.

M.A.R.T. NJPDES Permit No. NJ0147559 Ground Water	3137 Chamblings Court Vineland, NJ Cumberland County	Keith Howell Bureau of Nonpoint Pollution Control (609) 633-7021	II-A	Mid Atlantic Recycling Technologies Inc. (M.A.R.T.) has submitted an application for a NJPDES permit. This is a soil recycling facility located in an industrial park in Vineland Township, Cumberland County. The facility imports class B contaminated soils containing petroleum hydrocarbons and up to 5% concrete and brick which is removed through an industrial process. Processed soil is temporarily stockpiled on site at designated area(s) waiting to be distributed off site as recycled soil for commercial or residential use. Unprocessed material is stockpiled outside on an impervious pad or inside a storage building to prevent any onsite or offsite contamination. The impervious pad is designed to channel stormwater runoff from the unprocessed soil to a sump which is then pumped off-site as wastewater for treatment. The facility will maintain a log to record the date and amounts removed from the sump. Concrete and brick that are removed from the unprocessed soil are to be stockpiled at a designated area. Runoff from MART is not permitted to migrate off site and must be directed to their infiltration percolation lagoon which will be addressed in their Best Management Practices (BMP). Monitoring of discharge into the infiltration percolation lagoon will be conducted on a monthly basis. Monitoring wells will be installed near infiltration percolation lagoon and throughout their property to insure Ground Water Quality Standards (GWQS) are being attained. The wells will be installed within 30 days of the effective date of the permit (EDP). The permit includes conditions to monitor effectiveness of structural and administrative BMPs to ensure that there is no stormwater discharge from the MART site. The permit also includes monitoring requirements in the event of BMP failure resulting in stormwater runoff from the site. The permittee is required to collect representative samples of stormwater discharge for every valid storm event until the stormwater discharge has been eliminated. Stormwater samples will be analyzed for Total Suspended Solids, Oil and Grease, Chemical Oxygen Demand, Biochemical Oxygen Demand (5 day) and pH. MART is also required to submit a summary report to the Bureau of Nonpoint Pollution Control for each incident of stormwater discharge. The summary report will include the results of the analysis. In accordance with the Division of Solid and Hazardous Waste regulations, unprocessed class B soils are required to be managed in a storage building or on an impervious lined storage pad. BMPs are to be developed and maintained in order to prevent any onsite or offsite contamination. MART will maintain and demonstrate that unprocessed and processed material will not migrate or spill over from their designated storage areas by developing a drainage plan to manage stormwater onsite. The processed material storage area must demonstrate compliance with sampling and storage requirements in the Division of Solid and Hazardous Waste or the pile will be required to be contained on an impervious containment pad. The basin at this time is unlined and partially filled in from the over abundant stockpiling of processed soil. The infiltration percolation lagoon "basin" must be reconditioned to hold the volume of a 100-year 2-hour storm event and maintained appropriately. The infiltration percolation lagoon must meet the design standards contained in the most recent edition of the New Jersey Stormwater Best Management Practices Manual and the Standards for Soil Erosion and Sediment Control in New Jersey. Sampling on a bimonthly basis will be conducted on the discharge to the infiltration percolation lagoon and monitor wells. Stormwater sampling during upsets caused by failure of diversionary structures resulting in stormwater runoff outside of the infiltration/percolation lagoon or failure of the infiltration percolation lagoon to contain a 100-year 2-hour storm event will be conducted weekly until appropriate repairs are completed and the stormwater discharge is eliminated. Sampling during upsets will be done for the following pollutants: Total Suspended Solids, Oil & Grease, pH, Chemical Oxygen Demand and Biochemical Oxygen Demand (5-day)

Harmony Twp. School NJPDES Permit No. NJ0089648 Ground Water	2551 Belvidere Rd. Harmony Twp., NJ Warren County	Greg Chin Bureau of Nonpoint Pollution Control (609) 633-7021	II-A	This renewal permit action is for Harmony Twp. School, an existing facility with a maximum occupancy of 895 students and staff. This permit regulates the discharge of sanitary wastewater from sinks and lavatory facilities within the school. The wastewater treatment disposal system provides primary treatment prior to discharge. The design flow of sanitary wastewater for the disposal system is 9000 gallons per day. No other regulated discharges are known to exist. The applicable environmental performance standard is the Ground Water Quality Standards, N.J.A.C. 7:9-6.

The following minor modifications and administrative permit revocations were recently issued. These actions are listed for informational purposes only and are not open for public comment.

**Notice of Public Comment Period Regarding Requests for Highlands Applicability and Water Quality
Management Plan Consistency Determinations**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Bureau of Watershed Regulation, has received the following Highlands Applicability and Water Quality Management Plan Consistency Determination application(s) requesting the issuance of determinations in accordance with N.J.S.A. 13:20-30. Each application is described in the accompanying table.

All applications, prior to submittal for public notice, have been deemed administratively complete in accordance with N.J.A.C. 7:38-11.2(c)3 and the following agencies/persons have been notified by the applicant in accordance with the requirements under N.J.A.C. 7:38-9.2(b).

- i. The Municipal Clerk
- ii. The Highlands Council
- iii. The Municipal Environmental Commission (if one exists);
- iv. The Municipal Planning Board
- v. The Municipal Construction Official
- vi. The County Planning Board; and
- vii. The County Environmental Commission (if one exists)

The public notice has been prepared for these applications as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. An appointment to review the file pertinent to the listed proposals may be requested through the Open Public Records Act. Details are online at www.nj.gov/dep/opra, or call (609) 341-3121

The public comment period on these applications begins on the date of publication of this notice and will close thirty (30) calendar days later. Any interested person may raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period.

NJDEP will consider all timely submitted comments. The applicant and each person who submitted written comments will receive notice of NJDEP's final determination.

Written comments should be submitted to:
