General Application Milestone Codes

Application Approved
Application Denied
Application Withdrawal
A= Approved
C = Cancelled
D= Denied

F = Complete for Filing
H = Public Hearing Date
I = Additional Information Requested
L = Legal Appeal of Permit Decision
M = Permit Modification

P = Permit Decision Date
R = Complete for Review
T = Additional Information Received
W= Withdrawn

Specific Decision Application Codes

AVE PLAN = Averaging Plan	PA/SOW = Presence/Absence/State Open Waters Only
FP/A = Footprint/Absence of Wet., Waters & Transition Area	PA/T = Presence/Absence/Transition Area Only
F/F = Farming/Forestry/Silviculture Exemption	R = Reductions
FP/P = Footprint/Wetlands Present	REG = HMDC/Pinelands Exemption
FP/SOW = Footprint/State Open Waters Present Only	SPEC ACTIVITY = Special Activity (Linear Dev. & Stormwater Mgmt.)
FP/T = Footprint/Transition Area Present Only	SA/GP = Special Activity for Statewide Gen. Permit Activity
NW = ACOE Nationwide Permit Exemptions	SA/R = Special Activity for Redevelopment
O = Other	SD = Municipal Subdivision Approval
PA/A = Presence-Absence/Absence of Wet., Waters & Trans. Area	SP = Municipal Site Plan Approval
PA/P = Presence-Absence/Wetlands Present	VERIFIED = Verified Line

Permit Descriptions

CAFRA - A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

Federal Consistency Activity: Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

Freshwater Wetlands: A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas. A Stream Encroachment Permit, an U.S. Army Corps of Engineers Dredge and Fill Permit, and a Water Quality Certification may also be required.

General Groundwater Petroleum Products Cleanup: This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

NJPDES permits: A permit is required for the discharge of pollutants to surface and groundwater, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities, which require a permit, may be found at N.J.A.C. 7:14A-2.4)

Solid Waste Facility: A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

Stream Encroachment: Under the Flood Control Act DEP is empowered to require a permit to control construction within and proximate to flood hazard areas to reduce flood damage to and from new development and to protect the flood storage capacity and ecology of flood plains.

Tidal Wetlands: A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

Treatment Works Approval: A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

Waterfront Development: A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Stream Encroachment (SE) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

Appeals on Applications

Any individual who would like to appeal a decision on an application should direct their remarks to:

NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
SOLID AND HAZARDOUS WASTE MANAGEMENT PROGRAM
NOTICE OF PUBLIC COMMENT PERIOD
FOR RENEWAL OF A SOLID AND HAZARDOUS WASTE FACILITY PERMIT

The New Jersey Department of Environmental Protection, Solid and Hazardous Waste Management Program, hereby gives notice that it has tentatively approved a Solid and Hazardous Waste Facility Permit renewal application submitted by Safety-Kleen Systems, Inc., Linden City, Union County, for the continued operation of a solid and hazardous waste facility, known as Linden Recycle Center. This permit covers ongoing solid and hazardous waste activities that are regulated by the Solid Waste Management Act (N.J.S.A. 13:1E-1 et seq.) on the State level and the Resource Conservation and Recovery Act (RCRA) on the Federal level.

Safety-Kleen Systems, Inc., Linden Recycle Center, operates as a major commercial solid and hazardous waste facility. The primary hazardous waste activity at the facility involves processing of spent organic solvents received from Safety-Kleen service centers, other Safety-Kleen recycle centers, and various commercial and industrial generators to recover clean solvents for recycle or sale. Other hazardous waste activities at the facility include processing of waste received from other Safety-Kleen facilities, waste generated on-site, and waste received from Safety-Kleen customers to produce fuel and operating a transfer station facility to store waste received from generators and ship off-site to authorized facilities. Solid waste activities authorized by this permit include storage, bulking, commingling, consolidation, and transfer of ID27 and ID72 type solid waste.

The public comment period on this tentative approval begins on September 14, 2007 and will close forty-five (45) days thereafter. During this period, any interested person may submit written comments concerning the tentatively approved permit to:

Mr. Frank Coolick, Administrator
New Jersey Department of Environmental Protection
Solid and Hazardous Waste Management Program
401 East State Street, P.O. Box 414
Trenton, NJ 08625-0414
(609) 984-5950

The Department will respond to all relevant comments submitted during the public comment period. These comments and the Department's response will be set forth in a response document which shall become part of the administrative record upon which the Department shall base its final decision. Any person who has submitted relevant written comments will receive notification of the Department's final decision. Upon the written request of any interested party which, in the opinion of the Department, raises significant issues relevant to the proposed permit issuance during the public comment period, a public hearing will be scheduled regarding the proposed permit issuance.

Copies of the draft permit and supporting permit application are available for inspection at the office of the Department's Solid and Hazardous Waste Management Program listed above. Anyone wishing to obtain a copy of a fact sheet on the facility, the draft permit, and/or further information, or to arrange to review the administrative record should first contact Ms. Lisa Offredo at the address listed above or contact her at (609) 984-5950. The files may be inspected by appointment only, weekdays between the hours of 9:00 AM and 5:00 PM.

NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
BUREAU OF COASTAL AND LAND USE COMPLIANCE AND ENFORCEMENT
NOTICE OF INTENT TO SETTLE
FRESHWATER WETLANDS VIOLATION

PLEASE TAKE NOTICE THAT THE DEPARTMENT OF ENVIRONMENTAL PROTECTION intends to enter into a Settlement and/or an Administrative Consent Order (ACO) that would resolve violations of the Freshwater Wetlands Protection Act, N.J.S.A. 13:9B-1 et seq.

The Settlement and/or the ACO require mitigation for the violations conducted at the site and payment of a monetary penalty.

IN THE MATTER OF: Eugene and Deborah Hill
Enforcement File # 1016-05-0038.1
Block 24, Lot 13.5; 206 Kingwood-Locktown Road
Kingwood Township, Hunterdon County

Comments regarding this ACO or requests for a copy of the Settlement should be sent to: Bureau of Coastal and Land Use Compliance and Enforcement, Dwayne Snead, NJDEP Bureau of Coastal and Land Use Compliance and Enforcement, 401 East State Street, PO Box 422, Trenton, New Jersey 08625 or by telephone at (609) 292-9475 or via email at Dwayne.Snead@dep.state.nj.us. Comments must be received by NJDEP within 30 days of this publication.

NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
NOTICE OF PUBLIC HEARING
FOR THE PROPOSED FFY2008 PRIORITY SYSTEM, INTENDED USE PLAN AND
PROJECT PRIORITY LIST DOCUMENT FOR CLEAN WATER FINANCING

August 24, 2007

Dear Interested Party:

The Department of Environmental Protection (Department) has developed the Proposed Federal Fiscal Year 2008 Priority System document for administration of the Clean Water State Revolving Fund (CWSRF) program. Projects eligible for assistance under this program include a wide variety of wastewater treatment, combined sewer and stormwater management, as well as, nonpoint source pollution control projects (including open space land acquisition and conservation, landfill closure and construction, remedial action activities and well sealing). It is important to note that the Department may not have sufficient funds available to finance all of the projects that submit applications for the 2008 Clean Water Financing Program. Projects are certified for funding based on the project's rank, the amount of available funds, and compliance with the Program's requirements and deadlines for planning, design and application submittal.

All local government units that have a project or projects listed or eligible for listing on the FFY2008 Priority List are required to commit to the following schedule by the October 1, 2007 deadline to be considered for the 2008 Financing Program. The commitment must be made in writing to the **Assistant Director, Municipal Finance and Construction Element** (MF&CE) with a copy to the Executive Director, New Jersey Environmental Infrastructure Trust (Trust). Prior to the submission of a commitment letter, all applicants are encouraged to have a pre-planning meeting with appropriate officials within the Municipal Finance and Construction Element.

2008 Loan Program Schedule	
Activity	Deadline
Commitment Letter and Planning Documents	October 1, 2007
Design Documents and Loan Application	March 3, 2008
Loan Award	November 2008

A hearing on the Proposed FFY2008 Priority System document for Clean Water Financing will be held at the offices of the NJ Environmental Infrastructure Trust, 3131 Princeton Pike, Building 6, Suite 201, Lawrenceville, New Jersey, in the large conference room on Wednesday, September 26, 2007. The hearing will commence at 10:00 a.m. and conclude at the end of testimony. Presentations may be made orally or in writing; if written testimony is prepared, the oral presentation should be limited to a summary of the text. The period for submitting written comments on the proposal will close on October 1, 2007 (all comments must be postmarked by that date). All comments submitted in accordance with the deadline will be considered in the preparation of the final FFY2008 Priority System documents.

Of particular note, please be advised that portions of the FFY2008 Priority System ranking methodology have been revised and some of the funding policies have been amended from those adopted under the FFY2007 Priority System document. The most significant changes included in the FFY2008 Priority System proposal are identified below.

1. The project ranking methodology has been adjusted to assign higher priority for traditional wastewater management projects that are more directly linked to water quality (such as combined sewer overflow (CSO) abatement activities, sewage treatment plant (STP) upgrades and sanitary sewer rehabilitation) as compared to projects in the non-traditional project categories (such as landfill closures, land acquisition, landfill construction and site remediation). The Program will continue to maintain eligibility for all of the project categories that have been eligible in the past.

This adjustment is needed since the pace of the loan program has significantly increased in recent years. The loan awards have exceeded an average of \$400 million per year; an amount four times the average of the loan awards made from 1992-1999. Concurrently, the federal contribution to the CWSRF Programs has been significantly curtailed, resulting in reduced amount of funds available to provide new loans under the Program. The Department anticipates that adequate funds may not be available to finance all of the clean water projects in the FFY2008 funding cycle.

In proposing these changes, the Department has assigned higher priority to traditional projects with direct water quality implications over the non-traditional project categories because (1) these projects are directly related to ambient water quality and public health and have greater potential to adversely impact designated water uses (such as potable water supplies and recreational activities); (2) the latest Clean Watershed Needs Survey shows that more than 80% of New Jersey's needs are in the wastewater treatment categories (and these needs are on the rise with new requirements for combined sewer systems and phosphorous control on the horizon); and (3) there is no other significant source of financing available to owners/operators of wastewater treatment facilities to maintain and improve their systems.

2. In part, to offset the impact of the priority ranking changes on financing of brownfields redevelopment projects, the FFY2008 Priority System document establishes a reserve dedicated solely for landfill closure and site remediation projects. The Department proposes to allocate \$25 million in Fund loans as the "Brownfields Set-Aside" for the 2008 Financing Program. Project priority will be determined in accordance with the ranking methodology included in this document and the set-aside funds will be allocated based on the project's rank, the sponsor's ability to meet program requirements and the amount of funds available for these purposes. In cases where the available Fund loan does not cover 50 percent of the allowable project costs, the Trust may finance the remaining allowable costs, which may exceed their traditional 50 percent contribution. Financing above and beyond the amount set-aside for such projects will be considered if monies are available after the need for funding of higher ranking projects during the funding cycle has been satisfied. Conversely, if there are funds in the set-aside leftover because of insufficient demand for brownfield redevelopment loans in the 2008 Program, those funds may be used to finance projects listed on the Priority List that may otherwise not receive financing in the 2008 Program.

In addition, a new project discharge category has been included in the FFY2008 proposal to establish a separate classification for projects where a developer, LLC, partnership or other private entity is involved and a local government unit serves as the applicant on the private entity's behalf to statutorily qualify for loans from the Department and the Trust. This category generally includes all landfill closure and site remediation projects where the project site is privately owned and private use is

anticipated. However, if a local government unit that sponsors a project on behalf of a private entity commits to providing a general obligation pledge (including its unlimited taxing power) as security for the DEP and Trust loans, the project is considered exempt from the conduit financing classification. Projects that are secured with a local government's general obligation pledge will be assigned points under the project discharge category as if the site were in public ownership.

The Department is also continuing the practice of setting a limit on the amount of Fund monies that a conduit borrower project can receive and is adjusting the limit downward from the \$25 million per project limit set in the 2007 program to \$20 million per project for the 2008 Priority System. The changes to the 2008 Priority System ranking methodology provides one of the lowest point assignments for projects in this category and previously-financed conduit borrowers will not be eligible for supplemental loans to cover unanticipated cost increases due to bid receipt, differing site conditions, change orders or other circumstances.

3. The FFY2008 Priority System document does not include provisions for a second chance program. The Department considered eliminating the second chance program in the 2007 Financing Program, but rather than eliminating it, the FFY2007 Priority System indicated that the second chance provisions would be eliminated in the 2008 funding cycle. No comments regarding the elimination of second chance provisions were received. The elimination of the second chance provisions is being made to better manage the program workload that has been steadily increasing along with its scope in recent years. There is often not enough time for the Department to adequately evaluate the project and provide certification to the Trust. Second chance projects generally do not have complete planning documents, have difficulty completing public participation activities in the short time available, and generally do not apply for permits and approvals needed to implement the project in a timely manner. Also, the need for a second chance process is not as pressing, as it once was, because of the Department's ability to issue pre-award approval and provide interim financing for projects that miss the initial October deadline.

4. The FFY2008 proposal will continue the enhanced financing for smart growth projects with the exception of open space land acquisition, landfill closure and site remediation projects. New projects in these categories will continue to be eligible in 2008, but at the traditional (50% DEP/50% Trust) financing rate.

5. The Priority System establishes a new requirement for projects involving publicly-owned brownfields projects. Project sponsors must pledge that the site on which the improvements occur will remain in public ownership for the term of the loan (typically 20-23 years). While the Financing Program will allow the public sponsor to sell the improved land to a private entity and use it for private purposes, the loans provided by the Department and the Trust to finance the remediation must be repaid in full upon the transfer of ownership. This requirement does not apply to conduit borrowers' projects which, by their nature, involve private developer(s) and private ownership interests.

6. The proposal modifies and expands the "Approved Watershed Management Plan" ranking subcategory to include the following subcomponents:

<u>Environmental Enhancement Activity</u>	<u>Points</u>
Watershed-Based Implementation Plans	50
Implementation of Regional Stormwater Management Plans	50
Sustainable Community Planning	100

The changes to this category will encourage and facilitate the implementation of environmentally sustainable practices at the local government level that go beyond compliance with existing regulatory requirements and incorporate one or more of the aforementioned environmental enhancement activities. More points are assigned for projects located in or benefiting municipalities where sustainable community strategies have been developed and master plans and/or ordinances adopted that include provisions to reduce water consumption, encourage water reuse and incorporate "green" building techniques that increase water efficiency such as green roofs, green streets, tree filters, rain gardens, rain barrels, and porous pavement.

7. The FFY2008 Priority System provides financing to projects in the following order:

- (1) Supplemental Loans,
- (2) Emergency Projects,
- (3) Projects with pre-award approval,
- (4) Wastewater Management Projects:
 - (a) Combined Sewer Overflow and Sanitary Sewer Overflow Abatement
 - (b) Sewage Treatment Plant Improvements
 - (c) Rehabilitation/Replacement of Sanitary Collection and Conveyance Systems

- (d) Sludge Management
 - (e) Wastewater Reuse
 - (f) Septic System Repair or Replacement
 - (g) New wastewater treatment, conveyance or collection systems
- (5) Stormwater Management Activities,
- (6) Nonpoint Source Pollution Controls:
- (a) Landfill Closures
 - (b) Open Space Land Acquisition
 - (c) Landfill Construction
 - (d) Site Remediation
- (7) Conduit Borrowers.

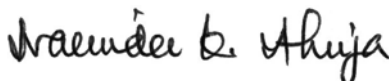

Since the priority ranking methodology is being significantly changed and the subsidy for certain categories of projects is being reduced, the Department is proposing that those projects that obtain a pre-award approval in prior years, but are unable to close on the Department and Trust loans, will be offered funding in 2008. This one-year exception is necessary to be fair to project sponsors that have diligently pursued loan awards in the 2007 funding cycle but are unable to execute loan agreements in accordance with the program's schedule for legitimate reasons beyond their control. In addition, projects that received pre-award approval at a time when the project scope qualified for the enhanced financing program will continue to be eligible for reimbursement of up to 75 percent of the allowable project costs at zero percent interest. This provision will only be effective for the 2008 Financing Program. Currently, seven land acquisition projects that have pre-award approval for specific sites may fall in this category, with an estimated aggregate loan amount of \$25 million.

The Department no longer routinely distributes hard copies of the Priority System document for public review but will make individual exceptions upon request, if necessary. The format for distribution of the Priority System documents is via compact discs (CDs) and posting on the Department's web site at <http://www.nj.gov/dep/dwq/cwpl.htm>. In addition to the complete Priority System, Intended Use Plan and Project Priority List, the Priority System CDs and the web posting include a project description and project ranking worksheet for each listed project.

For project-specific questions or to request a pre-planning meeting, please contact Gautam Patel, Chief, Bureau of Financing and Construction Permits at **(609) 984-6840**. For open space land acquisition projects, please contact Scott Shymon, Supervisor, Program Development and Land Acquisition Unit at **(609) 292-3859**. For questions regarding this notice or to request a copy of the Priority System proposal, please contact Scott Shymon, Bureau of Program Development and Technical Services, at (609) 292-3859.

Thank you for your anticipated input on this proposal document.

Sincerely,

Narinder K. Ahuja, Director
Division of Water Quality

NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION

Notice of Public Comment Period for Request for Federal Consistency Determination

The request for a Federal Consistency Determination for the projects listed below are reviewed under the Rules on Coastal Zone Management, N.J.A.C. 7:7E.

PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection (Department), Site Remediation and Waste Management, proposes to issue the following New Jersey Pollutant Discharge Elimination System permit actions in accordance with N.J.S.A. 58:10A-1 et seq. and N.J.A.C. 7:14A-1 et seq.

The permit action prepared by the Department is based on the administrative record which is on file at the offices of the Department, Site Remediation Program, located at 401 East State Street in the City of Trenton, Mercer County, New Jersey. It is available for inspection, by appointment, Monday through Friday, between 8:30 A.M. and 4:00 P.M. Appointment for inspection may be requested through the Open Public Records Act. Details are online at www.nj.gov/dep/opra, or call (609) 341-3121. Appointments for inspection of the NJPDES file only or requests for a copy of the draft document (at a nominal charge) may be made by calling Central File at (609) 292-0400.

Comments on the draft document or a request that the Department holds a non-adversarial public hearing must be submitted in writing to the person specified below and shall be postmarked within 30 days of the date of this public notice. All persons, including the applicant, who believe that any condition set forth in this document is inappropriate, must raise all reasonable issues and submit all arguments and factual materials supporting their position by the close of the public comment period. Any request for a hearing shall state the nature of the issues to be raised. A public hearing will be conducted whenever the Department determines that there is a significant degree of public interest in the permit decision. If a public hearing is held, the public comment period shall automatically be extended to the close of the public hearing.

The Department will consider and respond to all significant and timely comments. The applicant and each person who has submitted written comments will receive notice of Department's final decision.

Written comments should be submitted to:

Wayne Howitz
Responsible Party Remediation Element
PO Box 028
Trenton, NJ 08625

PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP) proposes to issue the following New Jersey Pollutant Discharge Elimination System (NJPDES) permit actions in accordance with N.J.A.C. 7:14A-1 *et seq.* and by authority of N.J.S.A. 58:10A-1 *et seq.* The description of each proposed permit action is contained in the accompanying table.

This public notice has been prepared for these facilities as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. Copies of the draft document are obtainable, for a nominal charge, and the administrative record is available for inspection by appointment only, Monday through Friday, by contacting the NJDEP file room at (609) 292-0400. Additional information regarding the draft document may be obtained from the contact person listed in the accompanying table.

Comments on the draft document or a request that NJDEP hold a non-adversarial public hearing on the document must be submitted, in writing, to the individual specified below (refer to the accompanying table for the appropriate permitting bureau) during the public comment period, which closes either:

1. 30 calendar days after publication of the last newspaper notice when a notice is published in the DEP Bulletin *and* a newspaper(s); or
2. 30 calendar days after publication of the DEP Bulletin notice when a notice is published in the DEP Bulletin *only*.

All persons, including permittees who believe that any condition of NJDEP's tentative decision to issue these permit actions is inappropriate must raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. Any request for a public hearing shall state the nature of the proposed issues to be raised in the hearing. A public hearing will be conducted if NJDEP determines there is a significant degree of public interest. If a public hearing is held, the public comment period is automatically extended through the close of the hearing.

NJDEP will consider and respond to all significant and timely submitted comments. The permittee and each person who submitted written comments, will receive notice of NJDEP's final decision to issue, revoke or redraft the document.

Written comments should be submitted to the appropriate permitting bureau:

NJPDES Phosphorus Evaluation Manual	Varies throughout the State	Pilar Patterson Bureau of Point Source Permitting Region 2 (609) 292-4860	Varies throughout the State	The Department is proposing for public comment revisions to the 2003 Phosphorus Evaluation Manual. This technical manual is used to determine whether or not phosphorus criteria shall be applied to specific wastewater discharges, in accordance with the existing criteria at N.J.A.C. 7:9B. The Department is soliciting public comment for a two week period beginning with the date of this publication. Comments should be submitted to Pilar Patterson at 401 East State Street, P.O. Box 029, Trenton, NJ 08625. The manual can be downloaded at http://www.state.nj.us/dep/dwq/techman.htm , or a paper copy can be requested by calling (609) 292-4860.
Gerresheimer Glass Incorporated NJPDES Permit No. NJ0004499 DSW Minor	537 Crystal Avenue Vineland, NJ 08360 Cumberland County	Robert Hall Bureau of Point Source Permitting Region 2 (609) 292-4860	Pine Branch via Storm Sewer FW2-NT Maurice River (above Sherman Ave Bridge)	This application is for a renewal of a NJPDES permit. This renewal permit is being re-drafted as a discharge component was not recognized under the original draft permit issued on June 1, 2007. DSN 001A discharges an estimated average of 0.22 million gallons per day (MGD) of untreated stormwater and non-contact cooling water from air conditioning units. DSN 002A discharges an estimated average of 0.37 MGD of treated (concrete settling basin) wastewater consisting of contact and non-contact cooling water from furnace cooling and quenching water. DSN 004A is a new outfall that will discharge an estimated average of 0.22 MGD of non-contact cooling water from newly installed compressors. Also, the permittee has requested a change in the owner of the facility.
Du Pont Parlin Works/Parlin NJPDES Permit No. NJ0000159 DSW Minor	250 Cheesecake Road Parlin, NJ 08859 Middlesex County	Bela Mankad Bureau of Point Source Permitting Region 2 (609) 292-4860	South River FW2-NT Raritan River Lower (Below Lawrence)	This is a minor renewal permit action for an existing industrial NJPDES/DSW permit. A combination of untreated non-contact cooling water and stormwater are discharged through two outfalls. A long term average flow of 0.291 MGD from the north side of the facility is discharged via DSN 001A to the South River. A long term average flow of 0.0.248 MGD from the south side of the facility is discharged via DSN 002A to a drainage ditch known as Selover Creek, which ultimately discharges into the South River.

East Windsor Water Pollution Control Plant NJPDES Permit No. NJ0023787 DSW Major	Millstone Road East Windsor, NJ 08520 Mercer County	Kelly Perez Bureau of Point Source Permitting Region 2 (609) 292-4860	Millstone River FW2-NT 02030105100	This permit action is a revocation and reissuance of the NJPDES permit to increase their discharge from 3.35 MGD to 4.5 MGD of treated domestic wastewater. This action proposes effluent limitations based on flows in stages at 3.35 MGD, 4.0 MGD and 4.5 MGD. Additionally, the permittee has authority to reuse it's effluent under an authorization (NJG0165999) of the reuse general permit (NJ0142581). This renewal permit proposes to revoke that authorization and authorize effluent reuse under this individual permit.
Pemberton Township MUA STP NJPDES Permit No. NJ0024821 DSW Major	Birmingham Rd Birmingham, NJ 08011 Burlington County	Rachael Seney Bureau of Point Source Permitting Region 2 (609) 292-4860	North Branch of Rancocas Creek FW2-NT(C2) North Branch of Rancocas Creek	This application is for a renewal of a NJPDES permit to discharge an average of 2.5 MGD of treated, domestic, wastewater. Additionally, the permittee has authority to reuse its effluent under General Permit Authorization (GPA) (NJG0166146) of the Master Reuse General Permit (NJ0142581). This individual renewal permit proposes to revoke the GPA authorization and authorize effluent reuse under this individual permit.
Ringwood Acres STP NJPDES Permit No. NJ0027006 DSW Minor	James Dr Ringwood, NJ 07456 Passaic County	Dave Thomas Bureau of Point Source Permitting Region 1 (609) 633-3869	High Mountain Brook FW2-TP(C1) HUC 11 Wanaque River	This application is for a renewal of a NJPDES permit to discharge an average of 0.0298 MGD, of treated domestic wastewater.

The following minor modifications and administrative permit revocations were recently issued. These actions are listed for informational purposes only and are not open for public comment.

Bureau of Watershed Regulation**

Notice of Public Comment Period Regarding Requests for Highlands Applicability and Water Quality Management Plan Consistency Determinations

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Bureau of Watershed Regulation, has received the following Highlands Applicability and Water Quality Management Plan Consistency Determination application(s) requesting the issuance of determinations in accordance with N.J.S.A. 13:20-30. Each application is described in the accompanying table.

All applications, prior to submittal for public notice, have been deemed administratively complete in accordance with N.J.A.C. 7:38-11.2(c)3 and the following agencies/persons have been notified by the applicant in accordance with the requirements under N.J.A.C. 7:38-9.2(b).

- i. The Municipal Clerk
- ii. The Highlands Council
- iii. The Municipal Environmental Commission (if one exists);
- iv. The Municipal Planning Board
- v. The Municipal Construction Official
- vi. The County Planning Board; and
- vii. The County Environmental Commission (if one exists)

The public notice has been prepared for these applications as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. An appointment to review the file pertinent to the listed proposals may be requested through the Open Public Records Act. Details are online at www.nj.gov/dep/opra, or call (609) 341-3121

The public comment period on these applications begins on the date of publication of this notice and will close thirty (30) calendar days later. Any interested person may raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period.

NJDEP will consider all timely submitted comments. The applicant and each person who submitted written comments will receive notice of NJDEP's final determination.

Written comments should be submitted to:

Terry Pilawski, Chief
Division of Watershed Management
Bureau of Watershed Regulation
PO Box 418
Trenton, NJ 08625
