General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Stream Encroachment (SE) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

The New Jersey Department of Environmental Protection, Solid & Hazardous Waste Management Program, hereby gives notice that it has tentatively approved a Solid Waste Facility Permit modification application regarding the operation of the existing LIEZE ASSOCIATES D/B/A EAGLE RECYCLING OF NJ solid waste transfer station/material recovery facility located at 4711 Dell Avenue, North Bergen.

The application for a Solid Waste Facility Permit modification was submitted in accordance with the requirements established at N.J.A.C. 7:26-2. The facility is currently permitted to accept waste types ID 10 (non-putrescible) Municipal Waste (household, commercial and institutional), ID 13 Bulky Waste, ID 13C Construction and Demolition Waste, ID 23 Vegetative Waste and ID 27 Dry Industrial Waste with an approved capacity of 353 tons per day Monday through Saturday. The application for modification seeks to increase the daily capacity of the facility to 1000 tons per day Monday through Saturday and to employ a weekly averaging method to accept waste up to a maximum of 1200 tons per day but not to exceed 6000 tons of waste per week.

The public comment period on the draft permit action begins on the date of the publication of this notice and will close within thirty (30) days of this publication. During this period, any interested person may submit written comments concerning the draft permit action to:

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
NOTICE OF INTENT TO SETTLE
HIGHLANDS WATER PROTECTION AND PLANNING ACT**

TAKE NOTICE THAT THE DEPARTMENT OF ENVIRONMENTAL PROTECTION, Division of Watershed Management, intends to enter into a Settlement Agreement with Crossroads Outdoor Ministries that finds that the construction of a Chapel Retreat Building including 30 beds, the removal of 3 existing tent platforms which presently have the capacity to accommodate 60 beds, the construction of a new director's house limited to the same number of bedrooms as the existing Director's House, the conversion of the existing Director's House to office use and addition of bathrooms to the Oakwood Cabin units is exempt from the Highlands Water Protection and Planning Act (Highlands Act). Crossroads Outdoor Ministries is located on property designated as Block 51, Lot 13 on the tax maps of Lebanon Township, Hunterdon County, New Jersey. The Highlands Act exemption is based on plans, consisting of 2 sheets entitled "Impervious Development for Crossroads Camping and Retreat Center Block 51, Lot 13 Township of Lebanon Hunterdon New Jersey, " by Schoor DePalma Engineers and consultants, dated August 24, 2007, unrevised. These plans, together with conditions included in the proposed settlement, result in a major Highlands development that does not increase impervious surfaces by .25 of an acre or more and does not exceed 125 percent of the footprint of lawfully existing impervious surface on the subject property. The Settlement Agreement requires the removal and revegetation of 1,200 linear feet of an existing gravel road, which eliminates 10,800 square feet of impervious surface as defined in the Highlands Act. Therefore, based on the plans cited above, the Department has determined that the activities shown on those plans meet the requirements of N.J.S.A. 13:20-28a.(4) for exemption from the Highlands Act as a reconstruction of any building or structure for any reason. Upon notice of Final Settlement, the Settlement Agreement will resolve the appeal by Crossroads Outdoor Ministries of DEP's August 23, 2005 Highlands Applicability Determination that these improvements were not exempt from regulation under the Highlands Act.

The Settlement Agreement and plans cited herein may be viewed upon request to Lawrence J. Baier, Director, Division of Watershed Management, P.O. Box 418, 401 East State Street, Trenton, New Jersey 08625-0418 or by telephoning (609) 984-0058.

Written comments regarding this settlement must be addressed to Lawrence J. Baier, Director, Division of Watershed Management, P.O. Box 418, 401 East State Street, Trenton, New Jersey 08625-0418. Comments must be received within thirty (30) days of publication, which is by March 1, 2008.
