General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Stream Encroachment (SE) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

ENVIRONMENTAL REGULATION
DIVISION OF WATER QUALITY**

Notice of Treatment Works Approval Program FY 2008 Fee Report and Fee Schedule

Take notice that the Department of Environmental Protection (Department) has issued the Fiscal Year (FY) 2008 Fee Report and Fee Schedule for the Treatment Works Approval (TWA) program.

The Department is responsible for administering the TWA program, which establishes and implements minimum standards for the approval of the design, construction and operation of treatment works to ensure that wastes are properly collected, conveyed and treated before discharge to the waters of the State. A TWA is a permit that authorizes the construction and/or operation of a wastewater treatment, storage and/or conveyance facility. These facilities include, but are not limited to, municipal or privately owned sewage treatment plants, sewer extensions, pumping stations, force mains, holding tanks and equalization tanks.

Fees are assessed to cover the Department's costs to review applications, issue permits, and manage the TWA program. The Department, through the issuance of a TWA Fee Report, can adjust the fee structure necessary to recover costs to administer the TWA program pursuant to N.J.A.C. 7:1C-1.5.

TWA fees are calculated based on project construction cost and a "P" coefficient. The Department has updated the "P" coefficient using the estimated program budget in conjunction with actual data concerning the categories and number of projects submitted in the previous fiscal year. In FY2007 the "P" coefficient is 0.0040, which has remained unchanged since July 1, 2005. For FY2008, the "P" coefficient is 0.0044, which will result in an approximate increase of 7.4 percent over the FY2007 fee structure. The minimum fees for smaller projects will remain the same.

Because the projected fee increase does not exceed 10 percent, the Department is not required to hold a public hearing. The Department is providing this public notice, which contains the revised "P" coefficient and a synopsis of the Fee Report and Fee Schedule for the TWA program.

In accordance with N.J.A.C. 7:1C, all applicants for a Treatment Works Approval (TWA) shall pay a fee based upon the construction cost category of the application.

Category 1 (construction costs greater than \$1,000,000) fee = $4P (\$250,000) + 2P(\$750,000) + P$ (construction cost - \$1,000,000).

Category 2 (construction costs greater than \$250,000 but are less than or equal to \$1,000,000) fee = $4P (\$250,000) + 2P$ (construction cost - \$250,000).

Category 3 (construction costs less than or equal to \$250,000) fee = $4P$ (construction cost).

The “P” coefficient in the above formula is derived from the following formula.

$$P = EB / (T1 + 2 (T2) + 4 (T3) + 1,500,000 (N1) + 500,000 (N2))$$

Where:

EB = estimated budget for the TWA Program;

T1, T2, and T3 = the sum of the construction costs for all projects in categories 1, 2, and 3, respectively, from the prior fiscal year;

N1 and N2 = the total number of projects in categories 1 and 2, respectively, from the prior fiscal year.

The values from FY2007 were as follows:

T1 = \$156,320,360

T2 = \$39,038,396

T3 = \$37,383,697

N1 = 41

N2 = 81

$$EB = \$2,139,930$$

Therefore, for FY2008,

$$P = 2,139,930 / (156,320,360 + 2 (39,038,396) + 4 (37,383,697) + 1,500,000 (41) + 500,000 (81))$$

$$P = 0.0044$$

The following fees listed in the rules governing Ninety-Day Construction Permits, N.J.A.C. 7:1C-1.5 will remain the same in FY2008:

Minimum Fee - \$ 850.00

All General Industrial TWAs - \$850.00

All Modifications – Fee based upon construction cost, \$500.00 minimum fee

Time Extensions – \$200.00 per year

The FY2008 fee schedule will be effective July 1, 2008.

The FY2008 Fee Report and Fee Schedule for the TWA program are located on the Department's webpage at http://www.nj.gov/dep/dwq/twa_app_fees.htm. Interested persons may request a paper copy by contacting the Bureau of Financing and Construction Permits at (609) 984-6840.
