In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

FACT SHEET

For NJPDES Permit to Discharge To the Ground Waters of the State

NAME AND ADDRESS OF PERMITTEE:

Brian Johnson
El Paso Energy Corp.
1001 Louisiana Street
Houston, TX 77002

NAME AND ADDRESS OF FACILITY WHERE DISCHARGE OCCURED:

Former Tenneco Polymers Facility
45 River Road, Raritan Twp., Hunterdon County

RECEIVING WATER:

Ground waters of the State. The discharge was to the underlying shallow aquifer beneath the site.

DESCRIPTION OF FACILITY:

The former Tenneco Polymers site manufactured polyvinylchloride (PVC) powder resin from the mid 1960s until 1986. During the manufacturing activities, industrial wastewater was discharge daily to a series of three unlined settling lagoons and two unlined sludge drying basins. The five units were closed under an approved RCRA closure plan. All contaminated sludge and soils associated with the lagoons and sludge basins were removed and disposed offsite. The remaining non RCRA contaminated groundwater is being addressed under ISRA Case # E86315 and USEPA's HSWA Permit # NJD001890300.

DESCRIPTION OF DISCHARGE:

A groundwater pump and treat remediation system was initiated in 1987. In 1997 the ground water pump and treat system was expanded. From March 1999 until September 2001 a chemical oxidation solution was injected into the groundwater periodically. In June 2004 a dual phase vapor extraction (DPVE) system was installed to supplement the pump and treat system. Currently the treated groundwater is discharged to the Raritan Township Municipal Utilities Authority via NJPDES-DGW/SIU Permit # NJ0081850. Periodic groundwater sampling occurs to monitor the groundwater remediation. The Bureau of Industrial Site Remediation continues to oversee the remediation under case #E86315.
