General Application Milestone Codes

Application Approved
Application Denied
Application Withdrawal
A= Approved
C = Cancelled
D= Denied

F = Complete for Filing
H = Public Hearing Date
I = Additional Information Requested
L = Legal Appeal of Permit Decision
M = Permit Modification

P = Permit Decision Date
R = Complete for Review
T = Additional Information Received
W= Withdrawn

Specific Decision Application Codes

AVE PLAN = Averaging Plan	PA/SOW = Presence/Absence/State Open Waters Only
FP/A = Footprint/Absence of Wet., Waters & Transition Area	PA/T = Presence/Absence/Transition Area Only
F/F = Farming/Forestry/Silviculture Exemption	R = Reductions
FP/P = Footprint/Wetlands Present	REG = HMDC/Pinelands Exemption
FP/SOW = Footprint/State Open Waters Present Only	SPEC ACTIVITY = Special Activity (Linear Dev. & Stormwater Mgmt.)
FP/T = Footprint/Transition Area Present Only	SA/GP = Special Activity for Statewide Gen. Permit Activity
NW = ACOE Nationwide Permit Exemptions	SA/R = Special Activity for Redevelopment
O = Other	SD = Municipal Subdivision Approval
PA/A = Presence-Absence/Absence of Wet., Waters & Trans. Area	SP = Municipal Site Plan Approval
PA/P = Presence-Absence/Wetlands Present	VERIFIED = Verified Line

Permit Descriptions

CAFRA - A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

Federal Consistency Activity: Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

Freshwater Wetlands: A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas. A Flood Hazard Area Permit, an U.S. Army Corps of Engineers Dredge and Fill Permit, and a Water Quality Certification may also be required.

General Groundwater Petroleum Products Cleanup: This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

NJPDES permits: A permit is required for the discharge of pollutants to surface and groundwater, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities, which require a permit, may be found at N.J.A.C. 7:14A-2.4)

Solid Waste Facility: A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

Tidal Wetlands: A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

Treatment Works Approval: A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

Waterfront Development: A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

Coastal Wetlands: A permit authorizing disturbances to Mapped Tidal Wetlands under the Wetlands Act of 1970, N.J.S.A. 13:9A"

General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

Appeals on Applications

Any individual who would like to appeal a decision on an application should direct their remarks to:

**NOTICE OF PUBLIC COMMENT PERIOD
REGARDING A SOLID WASTE FACILITY PERMIT FOR THE CAPE MAY COUNTY MUNICIPAL
UTILITIES AUTHORITY LANDFILL**

The New Jersey Department of Environmental Protection, Solid & Hazardous Waste Management Program, hereby gives notice that it has tentatively approved a Solid Waste Facility Permit application which authorizes construction and operation of a 74 acre expansion at the existing regional sanitary landfill known as Cape May County Municipal Utilities Authority Landfill. Applications for modification and renewal of the Solid Waste Facility Permit were submitted in accordance with the requirements established at N.J.A.C. 7:26-2.

The landfill is located within and on the borders of Upper Township and Woodbine Borough at Kearney Avenue and Dennisville-Petersburg Road (Cape May County Route 610) and is owned and operated by Cape May County Municipal Utilities Authority (the applicant) whose business address is P.O. Box 610, Cape May Court House, New Jersey 08210.

The landfill is a regional solid waste disposal facility designed to comply with the approved Cape May County Solid Waste Management Plan which requires the County to site, design, construct and operate a regional landfill to meet the needs of every municipality within the County. The landfill is permitted to accept solid waste types ID 10 (Household, Commercial and Institutional Wastes), ID 13 (Bulky Wastes), ID 13C (Construction and Demolition Waste), ID 23 (Vegetative Waste), ID 25 (Animal and Food Processing Waste), ID 27 (Dry Industrial Waste), ID 27A (Waste Material consisting of Asbestos or Asbestos Containing Waste) and ID 27I (Waste Material consisting of Incinerator Ash or Ash Containing Waste). Hazardous waste as defined in N.J.A.C. 7:26G-5 may not be accepted. An average of six hundred fifty tons of solid waste per day enters the facility. The landfill has a maximum estimated refuse handling capacity of two thousand (2,000) tons per day, which is needed to accommodate the large increase in waste from summer tourists.

The proposed expansion will mainly include: 1) development of 74 additional acres of waste disposal area which will be divided into five phases; 2) construction of a reinforced wall around the entire perimeter; 3) excavation of waste within portions of existing landfill to accommodate the construction of the reinforced wall around the perimeter; 4) excavation of waste within the existing landfill and installation of a new liner system in Phase 1B area and 5) a leachate recirculation system in all new cells. The final design elevation of the entire landfill is 255 feet above mean sea level. The design capacity of the expansion is approximately 26 million cubic yards. Based upon waste projections included within the County's Solid Waste Management Plan, the landfill will provide disposal capacity until the year 2067.

The public comment period on the draft permit action begins on the date of the publication of this notice and will close within thirty (30) days of this publication. During this period, any interested person may submit written comments to the Department concerning the draft permit action. Comments must be directed to:

Robert M. Confer, Chief
New Jersey Department of Environmental Protection
Solid & Hazardous Waste Management Program
Bureau of Landfill & Hazardous Waste Permitting
401 E. State Street, P.O. Box 414
Trenton, New Jersey 08625-0414
(609) 984-6985

Upon written request of any interested party, which raises issues of fact relevant to the proposed agency action within thirty (30) days of this publication, a public hearing will be scheduled regarding the proposed agency action.

The application and all other supporting documents, as well as the draft Solid Waste Facility Permit and fact sheet are available for inspection at the above noted office of the Department's Solid & Hazardous Waste Management Program, in addition to the office of Upper Township Clerk, the office of Borough of Woodbine Clerk and the office of the Cape May County Clerk.

Anyone who would like to obtain copies of the draft permit and fact sheet for the facility should notify Ms. Lisa Offredo at the above address or contact her at (609) 984-5950.

**WATERSHED PROPERTY REVIEW BOARD
NOTICE OF REQUEST FOR JURISDICTIONAL DETERMINATION**

The Watershed Property Review Board is charged with granting or denying exemptions to the Watershed Protection and Moratorium Act, P.L. 1988, c.163, as amended by P.L. 1990, c.19. The Act requires that all municipalities, municipal utility authorities and utilities obtain an exemption from the Board prior to the conveyance of any land utilized for the purpose of the protection of a public water supply. The Board only has jurisdiction over land utilized for the purpose of the protection of a public water supply.

Please take notice that New Jersey American Water has asked the Watershed Property Review Board to make a determination as to whether certain property falls under the jurisdiction of the Board. If the property is within the jurisdiction of the Board, United Water would be required to obtain an exemption from the Board prior to conveyance of that property. If the property is not within the Board's jurisdiction, United Water, subject to any other applicable law or regulation, can convey that property without further notice to or approval from the Watershed Property Review Board.

The properties are:

Borough of Penns Grove, Salem County, Block 64, Lot 17, Railroad Avenue
Borough of Penns Grove, Salem County, Block 47, Lot 1, West Harmony Street
Township of Scotch Plains, Union County, Block 4401, Lot 3, Jerusalem Avenue
Township of Mansfield, Burlington County, Block 30, Lot 4 Route 206
Borough of Kenilworth, Union County, Block 65, Lot 2, Kenilworth Boulevard
Township of Cranbury, Middlesex County, Block 32, Lots 9, 17, 25, Maplewood Avenue

Township of Bridgewater, Somerset County, Block 623, Lot 2, Papen Road
Township of Egg Harbor, Atlantic County, Block 3801, Lot 19, Spruce Avenue
Borough of Bernardsville, Somerset County, Block 81, Lot 18, Roundtop Road

Comments or questions regarding this jurisdictional determination should be sent to the Watershed Property Review Board, Michael Heenehan, NJDEP, Green Acres Program, P.O. Box 412 Trenton, New Jersey 08625 or by telephone at (609) 984-0500 or via email at Mike.Heenehan@dep.state.nj.us. Comments must be received by the WPRB within 30 days of this publication.

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
NOTICE OF SETTLEMENT
CAFRA INDIVIDUAL PERMIT**

TAKE NOTICE THAT THE DEPARTMENT OF ENVIRONMENTAL PROTECTION has issued a Stipulation of Settlement and Dismissal that authorizes the construction of a 93' vinyl bulkhead upland of the mean high water line. As part of this settlement, the Department requires the permittee to remove 322 s.f. of fill and to create approximately 668 s.f. of coastal wetlands. This parcel is located on Block 127, Lot 507.01 in North Wildwood, Cape May County. The Applicant is Leo McKernan. This settlement satisfies the appeal of File #0507-06-0005.1, CAF060001.

IN THE MATTER OF: Leo McKernan
 File #: 0507-06-0005.1, CAF060001
 Block: 127, Lot: 507.01
 North Wildwood, Cape May County

Comments regarding this settlement may be forwarded within 15 days of this notice to: Urban Growth & Redevelopment, Southern Region Supervisor, Division of Land Use Regulation, NJDEP, PO Box 439, Trenton, NJ 08625.

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
NOTICE OF SETTLEMENT
FRESHWATER WETLAND STATEWIDE GENERAL PERMIT NO. 6**

TAKE NOTICE THAT THE DEPARTMENT OF ENVIRONMENTAL PROTECTION has issued a Statewide general permit no. 6 to Daniel Markowitz that authorizes the disturbance of 0.80 acres of isolated freshwater wetlands for the construction of an 11-lot residential subdivision. On May 6, 2003, Daniel Markowitz received a Statewide general permit no. 6 and no. 10 from the Department. However, based upon the receipt of additional information, the Department concluded that an onsite wetland was not isolated and therefore not eligible for Statewide general permit no. 6. On June 8, 2006, the Department had notified Mr. Markowitz of its intent to terminate the Statewide general permit no. 6 and no. 10, as well as a Letter of Interpretation. Daniel Markowitz filed an appeal of the Department's intent to terminate decision. On March 10, 2008, subsequent to the notice of appeal, the Department conducted a dye test on the relevant wetland. The results of this dye test confirmed that the wetland complex did not discharge to a surface water tributary system and thus caused the Division to reconsider the not isolated classification of the wetlands and to modify the classification to isolated. Therefore, the proposed activities are authorized by Statewide general permit no. 6 pursuant to the Freshwater Wetland Protection Act (N.J.S.A. 13:9B-1.1 et seq.), and the Freshwater Wetland Protection Act Rules (N.J.A.C. 7:7A-1.1 et seq.). The Department has concluded that all of the proposed activities can be accomplished under Statewide general permit no. 6 and therefore the Statewide general permit no. 10 is not required. With the issuance of this Statewide general permit, Daniel Markowitz has withdrawn his appeal.

IN THE MATTER OF: Daniel Markowitz

File No. 0701-01-0005.2 (GP6)
0701-02-0004.1 (GP10)
Township of Livingston; Essex County
OAL Docket No. ESA 05425-2007N

Written comments regarding this proposed settlement may be within 15 days to Christopher Jones, Manager, Land Use Regulation Program, P.O. Box 439, Trenton, New Jersey 08625.

PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection (Department), Site Remediation and Waste Management, proposes to issue the following New Jersey Pollutant Discharge Elimination System permit actions in accordance with N.J.S.A. 58:10A-1 et seq. and N.J.A.C. 7:14A-1 et seq.

The permit action prepared by the Department is based on the administrative record which is on file at the offices of the Department, Site Remediation Program, located at 401 East State Street in the City of Trenton, Mercer County, New Jersey. It is available for inspection, by appointment, Monday through Friday, between 8:30 A.M. and 4:00 P.M. Appointment for inspection may be requested through the Open Public Records Act. Details are online at www.nj.gov/dep/opra, or call (609) 341-3121. Appointments for inspection of the NJPDES file only or requests for a copy of the draft document (at a nominal charge) may be made by calling Central File at (609) 292-0400.

Comments on the draft document or a request that the Department holds a non-adversarial public hearing must be submitted in writing to the person specified below and shall be postmarked within 30 days of the date of this public notice. All persons, including the applicant, who believe that any condition set forth in this document is inappropriate, must raise all reasonable issues and submit all arguments and factual materials supporting their position by the close of the public comment period. Any request for a hearing shall state the nature of the issues to be raised. A public hearing will be conducted whenever the Department determines that there is a significant degree of public interest in the permit decision. If a public hearing is held, the public comment period shall automatically be extended to the close of the public hearing.

The Department will consider and respond to all significant and timely comments. The applicant and each person who has submitted written comments will receive notice of Department's final decision.

Written comments should be submitted to:

Wayne Howitz
Operations Element
PO Box 028
Trenton, NJ 08625

PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP) proposes to issue the following New Jersey Pollutant Discharge Elimination System (NJPDES) permit actions in accordance with N.J.A.C. 7:14A-1 et seq. and by authority of N.J.S.A. 58:10A-1 et seq. The description of each proposed permit action is contained in the accompanying table.

This public notice has been prepared for these facilities as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. Copies of the draft document are obtainable, for a nominal charge, and the administrative record is available for inspection by appointment only, Monday through Friday, by contacting the NJDEP file room at (609) 292-0400. Additional information regarding the draft document may be obtained from the contact person listed in the accompanying table.

Comments on the draft document or a request that NJDEP hold a non-adversarial public hearing on the document must be submitted, in writing, to the individual specified below (refer to the accompanying table for the appropriate permitting bureau) during the public comment period, which closes either:

1. 30 calendar days after publication of the last newspaper notice when a notice is published in the DEP Bulletin *and* a newspaper(s); or
2. 30 calendar days after publication of the DEP Bulletin notice when a notice is published in the DEP Bulletin *only*.

All persons, including permittees who believe that any condition of NJDEP's tentative decision to issue these permit actions is inappropriate must raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. Any request for a public hearing shall state the nature of the proposed issues to be raised in the hearing. A public hearing will be conducted if NJDEP determines there is a significant degree of public interest. If a public hearing is held, the public comment period is automatically extended through the close of the hearing.

NJDEP will consider and respond to all significant and timely submitted comments. The permittee and each person who submitted written comments, will receive notice of NJDEP's final decision to issue, revoke or redraft the document.

Written comments should be submitted to the appropriate permitting bureau:

Covanta Warren Energy Resource Co. LP NJJ0103853 SIU	218 Mt. Pisgah Ave. Oxford, NJ 07863 Warren County	Gary Torres Bureau of Pretreatment and Residuals (609) 633-3823	Warren County (Pequest River) Municipal Utilities Authority Oxford Sewage Treatment Plant	<p>A NJPDES/SIU Permit was issued to the applicant on 09/24/2003 regarding discharge of approximately 44,000 gallons per day of from floor washing, boiler blowdown, and cooling tower blowdown. Due to an aggressive water conservation program which includes treatment of internal wastestreams so that they can be recycled, the discharge has decreased to about 5,000 gallons per day. Further reductions are being implemented, and discharge is expected to decrease to less than 4,500 gallons daily. These flow rates do not include sanitary wastewater from the site. The Department has tentatively determined that the permittee has no reasonable potential for adversely affecting the local agency's operations or for violating any Federal, State, or local pretreatment standards or requirements and is therefore not a significant indirect user.</p> <p>Comment period ends 30 days after publication in the Express newspaper.</p>

Spartan Village Mobile Home Pk NJ0027596 DSW Minor	511 Wrightstown-Sykesville Rd North Hanover Twp, NJ 08562 Burlington	Joseph Mannick Bureau of Point Source Permitting Region 2 (609) 292-4860	North Run FW2-Non trout Crosswicks Creek (above New Egypt)	This application is for a renewal of a NJPDES permit to discharge an average of 0.038 million gallons per day of treated, domestic wastewater. This permit modifies the Pinelands-related requirements to be consistent with the requirements of the Pinelands Commission and also includes the requirements for all types of beneficial reuse.
Reagent Chemical &Research Inc NJ0033791 Storm Water	5 Factory Lane Middlesex Boro Middlesex County	Eline Megalla Bureau of Nonpoint Pollution Control (609) 633-7021	Green Brook FW2-NT(C1) 02030105120130	Reagent Chemical and Research Inc. (Reagent Chemical) has applied for a New Jersey Pollutant Discharge Elimination System (NJPDES) Permit Renewal to the New Jersey Department of Environmental Protection (NJDEP), Bureau of Nonpoint Pollution Control. The applicant is involved in the bulk storage and distribution of Hydrochloric acid under the Standard Industrial Classification (SIC) 5161. Hydrochloric acid is received in rail cars and tank trucks, and shipped out by tank trucks. The existing permit regulates stormwater discharges to the Green Brook, classified as FW2-NT (C2).
Clove Hill Manor NJ0137031 Ground Water	Route 23 Wantage Twp. Sussex County	Brian Sage Bureau of Nonpoint Pollution Control (609) 633-7021	II-A	Clove Hill Manor is an age restricted senior housing complex consisting of 117 two (2) bedroom units (each with their own laundry facilities). Sanitary wastewater generated by the facility is treated by an on-site treatment plant and discharged to the ground water of the State via subsurface disposal beds. The flow will be limited to 19,890 gpd. Sanitary wastewater generated by the facility is treated by an on-site treatment plant and discharged to the ground water of the State via three (3) discharge beds with a total area for disposal of 32,500 ft ² . Discharge Bed A is 7,500 ft ² (50' x 150'); Discharge Bed B is 10,000 ft ² (50' x 200'); Discharge Bed C is 15,000 ft ² (50' x 300'). The wastewater is treated to Ground Water Quality Standards for all parameters of concern except fecal coliform bacteria prior to discharge. Although ultraviolet disinfection will be provided, final treatment to Ground Water Quality Standards will be provided by unsaturated soils within the disposal bed.

Upper Pittsgrove Elementary School NJ100625 Ground Water	235 Pine Tavern Road Upper Pittsgrove Twp. Salem County	Brian Sage Bureau of Nonpoint Pollution Control (609) 633-7021	II-A	<p>The Upper Pittsgrove Township Elementary School is an existing 78,200 ft² elementary school consisting of grades K-8. The school has no cafeteria or science laboratories and a maximum population of 600 students and staff, resulting in the generation of daily design volume of sanitary sewage of 9,000 gallons per day.</p> <p>The existing elementary school generates a daily design volume of sanitary sewage of 9,000 gallons per day. The sanitary sewage is treated by an onsite advanced wastewater treatment system and the effluent is discharged into a series of subsurface disposal beds. Up to 14,688ft² of disposal area is provided with a maximum loading rate of 0.613 gpd/ft². Currently there are three (3) 51' * 72' subsurface disposal beds.</p> <p>The sanitary wastewater generated by the existing facility will be managed by an onsite advanced wastewater treatment system and will be treated to Ground Water Quality Standards (GWQS), N.J.A.C. 7:9-6, for all parameters of concern, except fecal coliform bacteria, prior to discharge. Although ultraviolet disinfection will be provided, final treatment to GWQS for fecal coliform bacteria will be provided by unsaturated soils within the disposal area. Therefore the Department is removing the requirement that the GWQS for fecal coliform bacteria be met in ground water monitoring wells. As such, the four (4) existing ground water monitoring wells can be abandoned pursuant to N.J.A.C. 7:9D.</p> <p>As part of the renewal application, the permittee requested a generic residual quality suitability determination. Please be advised, consistent with N.J.A.C. 7:14A-20.11, that it is the responsibility of the person who accepts residual from customers to ensure that all residual accepted for processing is compatible with the applicable residual quality limitations. Written Department approval is required for the person who accepts residual for blending from domestic treatment works sources not reported at the time of permit application where the median or mean pollutant concentration (based on a 12 month moving mean and median) exceeds the appropriate residual quality criteria at 40 CFR 503.13. In addition, if the residual is to be taken to a permitted land application site where the individual permit requires a suitability determination for new residual sources, the permittee of the land application site must submit a written request to the Department before accepting the residual.</p> <p>The Department has added a Discharge Monitoring Report (DMR) to Part III, Limits and Monitoring Requirements. Pursuant to the Sludge Quality Assurance Regulations N.J.A.C. 7:14C under 1.8(c), Category 1 domestic treatment works that do not qualify for the domestic septage exclusion are required to do an annual quality analysis of their sludge. Due to the advanced wastewater treatment system, it has been determined that this facility is not eligible for the domestic septage exclusion.</p>
New NGC Inc. d/b/a National Gypsum Company NJ0052264 Storm Water	1818 River Road Burlington Twp. Burlington County	Shashi Nayak Bureau of Nonpoint Pollution Control (609) 633-7021	Delaware River Del. River Zone 2 02040201090030	New NGC Inc. d/b/a National Gypsum Company has applied for a New Jersey Pollutant Discharge Elimination System (NJPDES) renewal permit to the New Jersey Department of Environmental Protection (NJDEP), Bureau of Nonpoint Pollution Control. The applicant is involved in the manufacturing of building and construction products using gypsum under the Standard Industrial Classification (SIC) code 3275. The permit regulates stormwater discharges to Delaware River, classified as Zone 2.

Colts Neck High School NJ0109355 Ground Water	Five Points Rd. & Route 537 Colts Neck Twp. Monmouth County	Brian Sage Bureau of Nonpoint Pollution Control (609) 633-7021	II-A	<p>This is a renewal NJPDES--DGW permit for Colts Neck High School. Colts Neck High School is an existing high school serving grades 9 through 12. The functional capacity of the school, including students and staff is 1,390 people. The school includes a cafeteria, gymnasium, science laboratories, and art and home management training facilities.</p> <p>The sanitary wastewater design flow from the school is approximately 32,500 gpd. However, the school utilizes a wastewater recycling and treatment system that recycles the majority of the wastewater through the school's toilets. Because the majority of the wastewater is recycled, the treatment system has been designed to discharge only 6,000 gpd of effluent to ground water. Two subsurface disposal beds totaling 13,600 square feet are utilized to dispose of the effluent. All residuals generated by the facility are managed off-site at an approved residuals management facility.</p>
Union Dry Dock 0104728	901 Sinatra Drive Hoboken City Hudson County	Kevin Ball Bureau of Nonpoint Pollution Control (609) 633-7021	SE2 (C2) 02030101170010	<p>The above named applicant has applied for a New Jersey Pollutant Discharge Elimination System (NJPDES) Renewal Permit to the New Jersey Department of Environmental Protection (NJDEP), Bureau of Nonpoint Pollution Control. The applicant is involved with the repairing of ships, barges and lighters under the Standard Industrial Classification (SIC) 3731. The existing permit regulates stormwater discharges to the Hudson River, classified as SE2(C2). This is permit redraft as requested by the permittee.</p>
Tewksbury Twp. Christy Property NJ0138592 Ground Water	159 Oldwick Road (Route 523) Tewksbury Twp. Hunterdon County	Brian Sage Bureau of Nonpoint Pollution Control (609) 633-7021	II-A	<p>The project consists of the following facilities: Alternative Living Units (1, 2 and 3 bedrooms), Senior Housing Units (5 bedrooms), Library, Volunteer Fire House with Banquet Hall and Historical Society House</p> <p>The facility generates a maximum quantity of 9,975 gpd of wastewater. The wastewater is treated to the Ground Water Quality Standards prior to discharge to a subsurface disposal field.</p> <p>The wastewater is discharged to two subsurface disposal beds providing a total of 20,000 ft² of infiltrative area. The flow from the facility shall be limited to 9,975 gpd. Residuals generated in the treatment process shall be periodically removed from the primary settling tank to an approved residual management facility.</p>
Morris Chase NJ0053422 Ground Water	Gold Mine Rd. Mount Olive Twp. Morris County	Mike Pigliacelli Bureau of Nonpoint Pollution Control (609) 633-7021	II-A	<p>This is a renewal permit action for Morris Chase.</p> <p>The proposed project consists of a mixture of single family and townhome dwellings, with maximum volume of 81,000 gallons per day. The wastewater generated by the proposed development will be treated by an advanced wastewater treatment system. The treated wastewater will be discharged to the ground via a subsurface disposal system.</p> <p>The wastewater generated by the proposed development will be treated by an advanced wastewater treatment system. The wastewater treatment plant cannot incorporate chlorine for disinfection as in the original design. The wastewater will be treated to the Ground Water Quality Standards prior to discharge to a subsurface sewage disposal system. Although disinfection will be provided, final treatment to Ground Water Quality Standards for fecal coliform bacteria will be provided by unsaturated soils within the disposal area. A minimum of 118,300 ft² of disposal area shall be provided. The disposal area shall not be loaded at a rate which exceeds 0.68 gpd/ft². The proposed disposal area shall be comprised of 5 subsurface disposal beds.</p>

Lafayette Twp School District NJ0074861 Ground Water	178 Beaver Run Road Lafayette Twp. Sussex County	Greg Chin Bureau of Nonpoint Pollution Control (609) 633-7021	II-A	This renewal permit action is for Lafayette Consolidated School which is an existing elementary school with a cafeteria. The projected enrollment is 584 students. Design flow of the septic system is 8,760 gpd. Four ground water monitor wells continue to monitor the impact the discharge has on ground water quality. Residuals generated will be removed and managed at an approved residuals management site.
Sika Chemical Corp NJ0101389 Ground Water	201 Polito Ave Lyndhurst Twp. Bergen County	Greg Chin Bureau of Nonpoint Pollution Control (609) 633-7021	II-A	This is a renewal permit action for and industrial facility. SIKA Corporation manufactures a variety of compounds used in the concrete industry. These include: admixtures (which alter the properties of a concrete batch), epoxy, sealants and mortars. Chemical compounds are stored and mixed on-site to prepared finished products. Any waste materials are incorrect mixtures which cannot be sold. Such wastes are stored in 55 gallon drums and sent to a landfill. An on-site well provides the facility with its industrial water supply. Approximately 285 chemicals are stored and used by the facility. Process wastes which are not hauled offsite are discharged into a sanitary sewer line. Non-contact cooling water and surface drainage for approximately half the property is discharged into storm drains and monitored by a DSW permit (NJ0002011). An unlined lagoon receives storm/surface run-off from the other half of the property and floor drainage from one storage warehouse. There are two influent pipes and one rock-cut ditch leading into the lagoon. A storm drains runs from the lagoon into Berrys Creek. Tidal influences from Newark Bay cause water to enter the lagoon through the storm drain. Run-off to the lagoon is estimated to be 13,930 gpd on an annual basis.

The following minor modifications and administrative permit revocations were recently issued. These actions are listed for informational purposes only and are not open for public comment.
