## General Information

---

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION  
NOTICE OF AMENDED DECISION  
HIGHLANDS WATER PROTECTION AND PLANNING ACT**

TAKE NOTICE THAT THE DEPARTMENT OF ENVIRONMENTAL PROTECTION (Department), Division of Watershed Management (Division), has issued an AMENDED DECISION dated July 15, 2009 regarding an application by **New Jersey Central Power and Light for a Highlands Applicability Determination (HAD)** and Water Quality Management Plan Consistency Determination pursuant to N.J.A.C. 7:38-2.3(a) for a proposed electrical substation on  $\pm 7.526$  acres of undeveloped land designated as Block 17, Lot 2, on the Tax Map of the Township of Tewksbury, Hunterdon County. On November 6, 2008, the Division determined that the proposed project/activity, known as "JCP&L Califon Substation", was exempt from the permitting requirements of the Highlands Water Protection and Planning Act (Highlands Act) pursuant to N.J.S.A. 13:20-28a(11) and that the Statewide Water Quality Management Planning Rules at N.J.A.C. 7:15 do not apply to the project. On November 11, 2008, the Friends of Fairmount Historic District ("Petitioners"), requested an administrative hearing to challenge the HAD. On May 11, 2009, the Petitioners requested direct review of the November 6, 2008 decision by Commissioner Mark N. Mauriello. By order dated June 17, 2009, Commissioner Mauriello denied the Petitioners' request for a hearing and direct review, stayed the November 6, 2008 decision, and remanded it to the Division to amplify its findings of facts and reexamine the decision within fourteen days. At the Division's request, the Commissioner subsequently extended the deadline to July 15, 2009. On July 15, 2009, the Division issued the AMENDED DECISION with amplified findings of facts which concluded that the Statewide Water Quality Management Planning Rules at N.J.A.C. 7:15 does not apply to the project because no wastewater will be generated from this project/activity, and that the project/activity is exempt from the permitting requirements of the Highlands Act pursuant to N.J.S.A. 13:20-28(a)11 and N.J.A.C. 7:38-2.3, subject to compliance with specified conditions necessary for the project to achieve consistency with the goals of the Highlands Act.

The New Jersey Department of Environmental Protection, Division of Watershed Management, has reviewed the below-listed Highlands Applicability and Water Quality Management Plan (WQMP) Consistency Determination Application(s) according to the requirements under N.J.S.A. 13:20 (The Highlands Water Protection and Planning Act) and issued the indicated determinations.
