## General Information

---

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

Public Notice

Take notice that the NJ Department of Environmental Protection and the NJ Environmental Infrastructure Trust are proposing to readopt N.J.A.C. 7:22 without change. The Financial Assistance Programs for Environmental Infrastructure Facilities rules were scheduled to expire on December 8, 2010. The filing of this proposal with the Office of Administrative Law before that date automatically extended the expiration date 180 days, until June 5, 2011, in accordance with the Administrative Procedure Act. (See N.J.S.A. 52:14B-5.1c.) The Department and the Trust have reviewed these rules and have determined them to be necessary, reasonable and proper for the purpose for which they were originally promulgated. Therefore, the Department and the Trust propose to readopt this chapter without change.

N.J.A.C. 7:22 contains the rules of the Department and the Trust governing the financial assistance application and award procedures, as well as other related requirements, for project sponsors to qualify for State monies to finance environmental infrastructure projects, including wastewater treatment, water supply and stormwater/nonpoint source management facilities. The Financing Program, administered under these rules, has provided over \$5.4 billion worth of financial assistance over the past 24 years.

The proposal is scheduled to be published in the New Jersey Register dated January 18, 2011. A copy of the proposal is available from: Scott Shymon, Rule Manager at 609-633-1208, the DEP web site at <http://www.nj.gov/dep/rules/notices.html>, LexisNexis Customer Service at 800-223-1944 or [www.lexisnexis.com/bookstore](http://www.lexisnexis.com/bookstore). Rolling hills of Hunterdon Care Center NJ0087335 Ground Water	16 Cratetown Rd. Clinton Twp., NJ Hunterdon County	Greg Chin Bureau of Nonpoint Pollution Control (609) 633-7021	II-A	This renewal permit action is for a 67-bed nursing home, which is served by an onsite potable water supply well and three sanitary subsurface sewage disposal beds. Also, there is a farmhouse within the boundaries of the property, which utilizes its own water supply and septic system. The facility proposes a 15-bed expansion (82 total beds) to the nursing home and an additional subsurface sewage disposal bed. The nursing home discharges sanitary wastewater to three subsurface disposal beds, with two septic tanks each, corresponding to the kitchen, the North Wing and the South Wing. The kitchen also uses a grease trap and the two wings have pump tanks. The South Wing's disposal bed was replaced through a NJDEP Treatment Works Approval issued on 8/26/92. The proposed expansion will include the construction of a West Wing, as well as, a mounded subsurface disposal bed fed by two septic tanks and a pump tank in series. The new fourth disposal bed will receive wastewater from 26 beds and laundry. This permit limits the quarterly calculated average daily discharge to 13,515 gpd. Residuals generated at this facility will be managed off-site at an approved residuals management operation.
