General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

Notice of Rule Proposal
Financial Assistance Programs for Environmental Infrastructure Facilities, N.J.A.C. 7:22
Public Notice

Take notice that the NJ Department of Environmental Protection and the NJ Environmental Infrastructure Trust are proposing to readopt N.J.A.C. 7:22 without change. The Financial Assistance Programs for Environmental Infrastructure Facilities rules were scheduled to expire on December 8, 2010. The filing of this proposal with the Office of Administrative Law before that date automatically extended the expiration date 180 days, until June 5, 2011, in accordance with the Administrative Procedure Act. (See N.J.S.A. 52:14B-5.1c.) The Department and the Trust have reviewed these rules and have determined them to be necessary, reasonable and proper for the purpose for which they were originally promulgated. Therefore, the Department and the Trust propose to readopt this chapter without change.

N.J.A.C. 7:22 contains the rules of the Department and the Trust governing the financial assistance application and award procedures, as well as other related requirements, for project sponsors to qualify for State monies to finance environmental infrastructure projects, including wastewater treatment, water supply and stormwater/nonpoint source management facilities. The Financing Program, administered under these rules, has provided over \$5.4 billion worth of financial assistance over the past 24 years.

The proposal is scheduled to be published in the New Jersey Register dated January 18, 2011. A copy of the proposal is available from: Scott Shymon, Rule Manager at 609-633-1208, the DEP web site at <http://www.nj.gov/dep/rules/notices.html>, LexisNexis Customer Service at 800-223-1944 or www.lexisnexis.com/bookstore. The street address for the property to be sold is 401 Pennington-Titusville Road, Hopewell Township, Titusville, New Jersey 08560.

The 8.5-acre parcel to be sold includes the following structures:

- a 2-story 3 bedroom 1 bath (1584 square foot) frame farm house
- a 1-story duplex (2472 square foot) frame construction ranch type house
 - unit 1 = 1328 square foot 3 bedrooms, 1 bath

The DEP is considering two possible scenarios for the sale of this property: (1) direct sale to the Township of Hopewell for affordable housing purposes (Scenario A) or (2) public auction of the property for residential and/or agricultural purposes (Scenario B). A copy of a report analyzing both scenarios, including photographs of the structures and a more detailed description of each structure, is available online at www.nj.gov/dep/greenacres/notices.htm. The exact lot size, minimum bid price and other conditions of the sale will be determined in consultation with the Department of Treasury prior to the sale.

As required by *N.J.S.A.* 13:1D-57, the proceeds of the sale will be returned to the Garden State Preservation Trust Fund (or other appropriate Green Acres bond fund) for

There are no science laboratories within the facility. The conventional wastewater design flow volume of sanitary wastewater from the school is approximately 15,000 gpd, however, the school has a wastewater recycling and treatment system which recycles the majority of the treated wastewater through the school's toilets. Because the majority of the wastewater is recycled, the treatment system has been designed to discharge 3,000 gpd of effluent to ground water via four subsurface disposal beds, totaling 6,000 square feet. The wastewater is treated to Ground Water Quality Standards for all parameters of concern except fecal coliform bacteria prior to discharge. Although ultraviolet disinfection is provided, final treatment to Ground Water Quality Standards is provided by unsaturated soils within the disposal bed. The maintenance of an adequate unsaturated soil zone is assessed through required water level measurements in four monitor wells. All residuals generated by the treatment and disposal system are managed at an approved residuals management facility. The Department is granting a reduction in the number of parameters that must be reported on the annual residuals "production" Waste Characterization Report (WCR) at monitoring location SL1A, pursuant to N.J.A.C. 7:14C-1.13(c). The implementation of this change to the residuals "production" WCR is based upon the effective date of the permit renewal and will be activated at the beginning of the corresponding calendar year.</p>
