## General Information

---

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

**NOTICE OF INTENT TO SETTLE**

On February 1, 2011 a revision letter was issued to the applicant Care One for the previously approved Freshwater Wetlands Transition Area Waiver for Stormwater Management and General Permit No. 6. The permits numbers are 1103-07-0007.1 FWGP6 070001 and FWTW4S 080001. The site is located off of Whitehorse Mercerville Road, within Lot No. 416 of Block No. 2167 in Hamilton Township, Mercer County.

The revision letter approves:

- (1) A safety fence to be constructed around the perimeter of the entire detention basin.
- (2) The relocation of manufactured water quality treatment devices which are to be located connected and adjoining to storm water pipes.
- (3) Groundwater recharge chambers are to be relocated.

The applicant is still required to submit the following information:

- (1) A revised Groundwater Recharge Spread Sheet (NJGRS) must be submitted and if not acceptable additional recharge structures must be provided.
- (2) A revised Landscape Map must be submitted showing the basin is seeded with a grass seed mixture of wet tolerant and dry tolerant varieties.

Seven (7) drawings prepared by Taylor, Wiseman and Taylor, dated March 30, 2007 and last revised July 30, 2010 were approved with this revision.

### **Notice of Intent to Settle**

Take notice that the Department of Environmental Protection intends to issue a Flood Hazard Area Control Act Individual Permit and Freshwater Wetland General Permits and a Transition Area Waiver for the construction of eight residential dwellings, an access road, and two stormwater basins in Ogdensburg Borough. Following the Department's permit application denial of February 28, 2008, the applicant revised the development plans to minimize environmental impacts, and provided additional information regarding access alternatives and stormwater management to comply with Flood Hazard Area Control Act Rules and Freshwater Wetland Protection Act Rules. Therefore, the Department is proposing to issue flood hazard area and freshwater wetland permits and a transition area waiver since the revised project appears to address concerns raised in the Department's denial.
