Permit Descriptions

CAFRA - A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

Federal Consistency Activity: Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

Flood Hazard Area: A Flood Hazard permit or verification is required for disturbances within the floodway or floodplain in areas regulated under the Flood Hazard Area Control Act.

Freshwater Wetlands: A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas. A Flood Hazard Area Permit, an U.S. Army Corps of Engineers Dredge and Fill Permit, and a Water Quality Certification may also be required.

General Groundwater Petroleum Products Cleanup: This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

NJPDES permits: A permit is required for the discharge of pollutants to surface and groundwater, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities, which require a permit, may be found at N.J.A.C. 7:14A-2.4)

Solid Waste Facility: A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

Special Highlands Resource: A Highland Preservation Area Approval is required for regulated activities within the Highland Preservation Area as defined in the Highlands Water Protection & Planning Act Preservation Area Rules.

Tidal Wetlands: A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

Treatment Works Approval: A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

Waterfront Development: A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

Coastal Wetlands: A permit authorizing disturbances to Mapped Tidal Wetlands under the Wetlands Act of 1970, N.J.S.A. 13:9A”

General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

Appeals on Applications

Any individual who would like to appeal a decision on an application should direct their remarks to:

Office of Legal Affairs

PO Box 402
Trenton, NJ 08625-0402

NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
EVENTS OF PUBLIC INTEREST

DATE: **October 24, 2012**

TIME: **10:00 a.m.**

PLACE: **Water Supply and Wastewater Operator Public Meeting**
401 E. State Street, 4th Floor Conference Room, Trenton, NJ

**NOTICE OF PUBLIC COMMENT PERIOD AND OPPORTUNITY FOR PUBLIC HEARING
REGARDING A SOLID WASTE FACILITY PERMIT RENEWAL FOR A SOLID WASTE TRANSFER
STATION AND MATERIALS RECOVERY FACILITY**

The New Jersey Department of Environmental Protection, Solid and Hazardous Waste Management Program, hereby gives notice that it has tentatively approved a Solid Waste Facility (SWF) Permit renewal application regarding the construction and operation of the Republic Services of New Jersey, LLC d/b/a Midco Waste Systems Transfer Station/Materials Recovery Facility (Woodbridge TS/MRF) located at 440 Smith Street, Block 57, Lots 1.021, 2 and 3, in the Township of Woodbridge, Middlesex County.

The application for a Solid Waste Facility Permit renewal was submitted in accordance with the requirements established at N.J.A.C. 7:26-2. Although the facility has been permitted since February 9, 2007, the facility has not yet been constructed and is not operational.

Republic Services of New Jersey, LLC (the applicant) will be the owner and operator of the sole source facility (permitted to accept solid waste from the facility's own haulers). All solid waste vehicles will access the facility via Smith Street and will follow designated traffic routes approved within the Middlesex County District Solid Waste Management Plan.

The facility will be permitted to accept up to 350 tons per day of solid waste types ID 10 (Municipal waste), ID 13 (Bulky waste), ID 13C (Construction and demolition waste), ID 23 (Vegetative waste) and ID 27 (Dry industrial waste) and/or recyclable materials for processing within the enclosed TS/MRF building. Recyclable materials to be recovered from the waste stream include corrugated cardboard, aluminum and steel containers, metal, concrete and wood materials from incoming solid waste. Residual trash will be transferred to licensed disposal facilities. The facility will be allowed to accept solid waste from 7:00 a.m. to 5:00 p.m., Monday through Friday. The facility will be allowed to process and transfer the solid waste from 7:00 a.m. to 7:00 p.m., Monday through Friday. The facility will also be allowed to accept, process and transfer solid waste from 9:00 a.m. to 1:00 p.m. on Saturdays.

Under the SWF permit renewal, daily waste capacity, days and hours of operation, waste types accepted and recyclable materials to be recovered at the facility will remain the same.

The public comment period on the draft permit action begins on the date of the publication of this notice and will close within thirty (30) days of this publication if no public hearing is scheduled. Any interested person may submit written comments during this period to the Department concerning the draft permit action to:

Anthony Fontana, Chief
Bureau of Transfer Stations and Recycling Facilities
Solid and Hazardous Waste Management Program
New Jersey Department of Environmental Protection
Mail Code 401-02C
P.O. Box 420
Trenton, New Jersey 08625-0420
Telephone: (609) 292-9880 Fax: (609) 984-0565

Upon written request of any interested party, which raises the issues of fact relevant to the proposed agency action within thirty (30) days of this publication, a public hearing will be scheduled regarding the proposed agency action.

The application and all other supporting documents, as well as the draft Solid Waste Facility Permit and fact sheet are available for inspection at the above noted office of the Department's Solid and Hazardous Waste Management Program, the offices of the Middlesex County Division of Solid Waste Management, the Woodbridge Township Clerk and the Middlesex County Clerk.

Anyone who would like to obtain copies of the draft permit and a fact sheet for the facility should notify Ms. Lisa Offredo at the above address or contact her at (609) 984-5950.

NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
BUREAU OF COASTAL AND LAND USE COMPLIANCE AND ENFORCEMENT
NOTICE OF INTENT TO SETTLE A FRESHWATER WETLANDS VIOLATION

PLEASE TAKE NOTICE THAT THE DEPARTMENT OF ENVIRONMENTAL PROTECTION intends to settle an enforcement action pertaining to the below site and responsible party for violations of the Freshwater Wetlands Protection Act pursuant to N.J.S.A. 13:9B-21.j.

IN THE MATTER OF: ATLANTIC CITY ELECTRIC
 Enforcement File # 0800-05-0004.1
 Block and Lot [N/A, N/A] [N/A, N/A]
 Mantua Twp, Gloucester County

Comments regarding this settlement or requests for a copy of the settlement should be sent to: Dwayne Snead, NJDEP Bureau of Coastal and Land Use Compliance and Enforcement, 401 East State Street, Mail Code 401-04C, PO Box 420, Trenton, New Jersey 08625 or via email at Dwayne.Snead@dep.state.nj.us. Comments must be received by NJDEP within 30 days of this publication to be considered.

Notice of Public Comment Period Regarding Site Specific Water Quality Management Plan Amendment Applications pursuant to P.L.2011, c.203

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Division of Coastal and Land Use Planning, has received the following Water Quality Management Plan site specific amendment requests pursuant to P.L. 2011, c.203 which was enacted on January 17, 2012. This legislation modifies some aspects of the Water Quality Management Planning Program for a period of two years. P.L. 2011, c.203 directs the Department to accept and process certain site specific amendment proposals despite the absence of a wastewater management plan in compliance with the Water Quality Management Plan rules. Pursuant to the provisions of the Statewide Water Quality Management Planning rules (N.J.A.C. 7:15-3.4), notices of amendment proposals and the Department's subsequent final action are to be published in the New Jersey Register (NJR). In accordance with P.L. 2011, c.203, notice of site specific amendments for projects or activities having a wastewater planning flow of less than 20,000 gallons per day (gpd) or being less than 100 acres in size is to be published in the Department of Environmental Protection (DEP) Bulletin.

Notice of site specific amendment proposals for changes in sewer service area designation, which may include new or expanded wastewater treatment facilities, are individually provided below.

An appointment to review the file for any of the proposals may be arranged by calling the Division of Coastal and Land Use Planning at (609) 984-6888. The Department's file is available for inspection between 8:30 a.m. and 4:00 p.m., Monday through Friday at 401 East State Street, Trenton, New Jersey.

Interested person may submit written comments on any of the proposals. When providing comments, specify which proposal the comments are being provided for. All comments must be submitted within 30 days of the date

of this public notice to the address cited below. All comments submitted prior to the close of the comment period shall be considered by the Department in reviewing the amendment request.

Interested persons may request that the Department hold a non-adversarial public hearing or extend the public comment period up to 30 additional days for any of the proposals. These requests must state the nature of the issues to be raised at the proposed hearing or state the reasons why the proposed extension is necessary. The requests must be submitted within 30 days of the date of this public notice to the address cited below. If a public hearing is held, the public comment period in this notice shall be extended to close 15 days after the public hearing.

Written comments should be submitted to:

Elizabeth Semple, Acting Director
Land Use Management
Division of Coastal and Land Use Planning
Mail Code 401-07C
PO Box 420, 401 East State Street
Trenton, New Jersey 08625-0420

Site Specific Amendment Proposals for Changes in Sewer Service Area
ENVIRONMENTAL PROTECTION
DIVISION OF COASTAL AND LAND USE PLANNING
Proposed Amendment to the Tri-County Water Quality Management Plan
Public Notice

Take notice that the New Jersey Department of Environmental Protection (Department) is seeking public comment on a proposed amendment to the Tri-County Water Quality Management (WQM) Plan. This amendment proposal was submitted on behalf of Berkley Square, LLC and requests expansion of the Gloucester County Utilities Authority (GCUA) sewer service area in order to serve the proposed Berkley Square development. This mixed use development is planned for Block 304, Lot 13 and Block 401, Lots 2.02 and 2.03, East Greenwich Township (Township), Gloucester County. The subject property totals 35.8 acres and is located on the south side of Berkley Road. The project includes 92 three-bedroom townhomes, 62,000 square feet of office/retail space, and a 150-seat restaurant. The proposed development would generate a wastewater flow of 37,300 gallons per day (gpd), calculated in accordance with N.J.A.C.7:14A, and would be conveyed to the GCUA treatment facility, located in West Deptford, Gloucester County. Currently, the GCUA facility (NJ0024686) has a permitted capacity of 38.6 million gallons per day (mgd) and discharges to the Delaware River, a designated Category 2 (C2), Fresh Water 2, Non-Trout, Saline Estuarine 2 (FW2-NT\SE2) waterway, as classified under the Surface Water Quality Standards, N.J.A.C. 7:9B. The GCUA provides treatment for the northern portion of Gloucester County known as the Consolidated District. Along with a portion of East Greenwich, the Consolidated District includes Clayton Borough, Deptford Township, Glassboro Borough, Mantua Township, National Park Borough, Paulsboro Borough, Pitman Borough, Washington Township, Wenonah Borough, West Deptford Township, Westville Borough, Woodbury City, Woodbury Heights Borough, and portions of Elk Township and Monroe Township.

This proposal would amend the GCUA Wastewater Management Plan (WMP), adopted December 10, 2008 (see 41 N.J.R. 671(a), January 20, 2009) to include the Berkley Square development in the GCUA sewer service area. This application has been reviewed in accordance with the Water Quality Management Planning rules that set the environmental standards to be applied to an amendment at N.J.A.C. 7:15-5.18, N.J.A.C. 7:15-5.24 and N.J.A.C. 7:15-5.25.

As part of the wastewater management planning for the Gloucester County Consolidated District, an environmental constraints/build out analysis was performed for each municipality in order to identify future wastewater needs. Based on the analysis, East Greenwich has a projected need to treat a total wastewater flow of 1.39 mgd. Presently the Township has a contractual agreement with the GCUA to treat 730,000 gallons per day (gpd) of wastewater. This proposed amendment to include the Berkley Square development in the GCUA sewer service area, can be accommodated within the Township's apportioned 730,000 flow without modification to existing facilities, thus the project has received local approvals and GCUA endorsement.

Pursuant to N.J.A.C. 7:15-5.25(g), an assessment of nonpoint source pollution impacts of planned future development shall demonstrate that environmental standards for stormwater, riparian zones, and steep slopes will be met. The Township has adopted stormwater management ordinances (No. 7-2006 and 01-2008) which comply with the performance standards of the Stormwater Management Rules at N.J.A.C. 7:8. To ensure protection of the riparian corridors along all perennial and intermittent streams, the Township has adopted a riparian zone protection ordinance (No. 13-2000). Regarding protection of steep slopes (gradients 20 percent or greater), no area of steep slopes has been identified within the proposed development site. Consequently, the Department's requirements under this portion of the rule have been met.

In accordance with N.J.A.C. 7:15-5.24, sewer service may only be provided to areas that are not identified as environmentally sensitive. Environmentally sensitive areas are defined as contiguous areas of 25 acres or larger consisting of habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, Category One (C1) special water resource protection areas, and wetlands, alone or in combination. Excepting an expanse of wetlands in the southern portion of Block 401, Lots 2.02 and 2.03, (mapped pursuant to N.J.S.A. 13:9A-1 and 13:9B-25) the proposed development site does not include any other environmentally sensitive features. The applicant has received a Letter of Interpretation (LOI) from the Department (0803-11-0002.1-FWW11001) confirming the presence and boundary of an intermediate resource value wetlands, requiring a 50-foot buffer. In compliance with the LOI, the project's site plan excludes both the mapped wetlands and associated 50-foot buffer.

Water supply for the proposed development will be provided by the East Greenwich Township Water & Sewer Department which withdraws and treats water from the Potomac Raritan Magothy Aquifer. Water use analysis

indicates that the 2.604 million gallons per day allocation currently permitted under WAP090001 is sufficient to meet the Township's needs and will not require modification to serve the proposed development.

Approval of this amendment does not eliminate the need for any permits, approvals or certifications required by any Federal, State, County or municipal review agency with jurisdiction over this project/activity.

This notice is being given to inform the public that a plan amendment has been proposed for the Tri-County WQM Plan. All information related to the WQM Plan and the proposed amendment is located at the Department, Division of Coastal and Land Use Planning, 401 East State Street, P.O. Box 420, Mail Code 401-07C, 401 East State Street, Trenton, N.J. 08625-0420. The Department's file is available for inspection between 8:30 a.m. and 4:00 p.m., Monday through Friday. An appointment to inspect the documents may be arranged by calling the Division of Coastal and Land Use Planning at (609) 984-6888.

Interested persons may submit written comments on the proposed amendment to WQM Program Docket, at the Department address cited above with a copy sent to Mr. Richard Clemson, P.E., James Sassano Associates, Inc., 41 South Route 73, Hammonton, NJ 08037. All comments must be submitted within 30 days of the date of this public notice. All comments submitted prior to the close of the comment period shall be considered by the Department in reviewing the amendment request.

Interested persons may request in writing that the Department hold a non-adversarial public hearing on the amendment or extend the public comment period in this notice up to 30 additional days. These requests must state the nature of the issues to be raised at the proposed hearing or state the reasons why the proposed extension is necessary. These requests must be submitted within 30 days of the date of this notice to WQM Program Docket at the Department address cited above. If a public hearing for the amendment is held, the public comment period in this notice shall be extended to close 15 days after the public hearing.

SIGNED

Elizabeth Semple, Acting Director
Division of Coastal & Land Use Planning
Department of Environmental Protection

Public Emergency	

Narrative	<p>The purpose of this waiver is to seek relief from certain land use regulation that is incompatible and inconsistent with remediatin historic fill. The strict compliance with the Flood Hazard Area Control Act Rules, N.J.A.C. 7:13-1.1 et seq. (Flood Plain Rules), in the context of remediating historic fill results in an atypical, costly, and unduly burdensome remedy that achieves no greater environmental benefit. Daicolor is committed to the environment and has incurred significant costs investigating and remediating property associated with its operations pursuant to the Industrial Site Recovery Act, N.J.S.A. 13:1K-6 et seq. (ISRA). However, it is faced with an unnecessarily expanded scope of work to address contamination it never caused simply because the Flood Plain Rules impose compliance requirements incompatible with historic fill remediation. Therefore, Daicolor requests that NJDEP, through this Waiver Rule Application, grant the relief necessary to complete the remediation of historic fill in a practical manner. Daicolor seeks a waiver from strict compliance with the Flood Hazard Area Control Act Rules, N.J.A.C. 7:13-1.1 et seq., including but not limited to: N.J.A.C. 7:13-2.1 (obtaining a permit), N.J.A.C. 7:13-2.4 (regulated activities), N.J.A.C. 7:13-10.4 (requirements for a regulated activity in a flood fringe), N.J.A.C. 7:13-11.1 (requirements that apply to all regulated activities), N.J.A.C. 7:13-11.2 (requirements for stormwater management), N.J.A.C. 7:13-11.3 (requirements for excavation, fill and grading activities).</p>

Public Emergency	

Narrative	<p>Snug Harbor Marina is a privately owned marina with approximately 124 in-water slips and upland support buildings and parking, all located within the Township of Lower, Cape May County NJ. The property is located on the south side of Ocean Drive and is fronted by Cape May Harbor. Privately owned marinas that lease in-water slips to the public are located to the east and west of the project in question. It should be noted that three marinas within Cape May Harbor have expanded in the last 10-12 years and were subject of the same mapping conditions and shellfish habitat definition, an aerial photograph of the marinas within the harbor are attached. The unduly burdensome-exceptional hardship exists with the classification of the water area as shellfish habitat. The rule does not allow the expansion of a water dependent use as encouraged by the CZM as a result of a mapping unit performed in the 1960's as outlined in the project narrative attached. While the rule allows maintenance dredging within the shellfish habitat as defined by the rule, the installation of docks is not. The applicant has prepared scientific studies contesting the presence of habitat and therefore the expansion with traditional marine material and dredging should be permitted as submitted and not reconfigured as desired by the Bureau of Shellfisheries.</p>

Narrative	<p>The DeNofa's have applied to the NJDEP-DLURP (file no. 0510-09-0038.1) to grandfather the dock as constructed and the application was denied on 6/14/2010. The existing dock maintains approximately 629 square feet of disturbance below the mean high water line. Historical aeriels show a dock structure greater than 700 square feet of coverage below the mean high water line in 1963 and therefore the dock maintains the same environmental impact as historically shown. The owners continue to utilize the fixed pier and floating dock for water dependent, recreational purposes including mooring of boats and launching water vehicles such as kayaks. Existing construction minimizes environmental impact by implementing inert materials for surface decking and fencing for safety. Further discussion of the exceptional hardship is provided in the project narrative.</p>

NARRATIVE

	<p>The filled waters edge regulation provides that on filled waters edge sites with direct water access (i.e. sites without extensive intertidal shallows or wetlands) the water front portion shall be developed with a water dependent use or left undeveloped for future water dependent uses. The Applicant has attempted to develop the property in accordance with the Filled Waters Edge and Public Access Rules with DEPs approval and the municipality has rejected these efforts. The property is situated on a bulkheaded parcel along the water at the end of a public street. The adjoining properties are developed with a residence on one side and a marina on the other side. DEP has approved development of one single family dwelling on the property with public access to be provided by a proposed adjoining public park, but the municipality has twice denied applications for public access to be provided by way of public park. As the municipality will not approve public access at this site, the only remaining viable use of the property is private residential use, which would not conform with the public access and water dependent use requirements of the filled waters edge rule. The docks accessory to the two proposed residences would also be privately accessible only. Because the Applicant is precluded by the actions of the municipality from complying with the provisions of the filled waters edge rule and the public access requirements, this creates an undue hardship to the Applicant. Because the Applicant has exhausted efforts to develop the property in compliance with the Department Rules and based on the unique circumstances associated with this particular project, the requested waiver should be granted.</p>

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
DIVISION OF REMEDIATION MANAGEMENT AND
OPERATIONS ELEMENT**

PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection (Department), Site Remediation and Waste Management, proposes to issue the following New Jersey Pollutant Discharge Elimination System permit actions in accordance with N.J.S.A. 58:10A-1 et seq. and N.J.A.C. 7:14A-1 et seq.

The permit action prepared by the Department is based on the administrative record which is on file at the offices of the Department, Site Remediation Program, located at 401 East State Street in the City of Trenton, Mercer County, New Jersey. It is available for inspection, by appointment, Monday through Friday, between 8:30 A.M. and 4:00 P.M. Appointment for inspection may be requested through the Open Public Records Act. Details are online at www.nj.gov/dep/opra, or call (609) 341-3121. Appointments for inspection of the NJPDES file only or requests for a copy of the draft document (at a nominal charge) may be made by calling Central File at (609) 292-0400.

Comments on the draft document or a request that the Department holds a non-adversarial public hearing must be submitted in writing to the person specified below and shall be postmarked within 30 days of the date of this public notice. All persons, including the applicant, who believe that any condition set forth in this document is inappropriate, must raise all reasonable issues and submit all arguments and factual materials supporting their position by the close of the public comment period. Any request for a hearing shall state the nature of the issues to be raised. A public hearing will be conducted whenever the Department determines that there is a significant degree of public interest in the permit decision. If a public hearing is held, the public comment period shall automatically be extended to the close of the public hearing.

The Department will consider and respond to all significant and timely comments. The applicant and each person who has submitted written comments will receive notice of Department's final decision.

Written comments should be submitted to:

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
DIVISION OF WATER QUALITY**

PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP) proposes to issue the following New Jersey Pollutant Discharge Elimination System (NJPDES) permit actions in accordance with N.J.A.C. 7:14A-1 et seq. and by authority of N.J.S.A. 58:10A-1 et seq. The description of each proposed permit action is contained in the accompanying table.

This public notice has been prepared for these facilities as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. Copies of the draft document are obtainable, for a nominal charge, and the administrative record is available for inspection by appointment only, Monday through Friday, by contacting the NJDEP file room at (609) 292-0400. Additional information regarding the draft document may be obtained from the contact person listed in the accompanying table.

Comments on the draft document or a request that NJDEP hold a non-adversarial public hearing on the document must be submitted, in writing, to the individual specified below (refer to the accompanying table for the appropriate permitting bureau) during the public comment period, which closes either:

1. 30 calendar days after publication of the last newspaper notice when a notice is published in the DEP Bulletin *and* a newspaper(s); or
2. 30 calendar days after publication of the DEP Bulletin notice when a notice is published in the DEP Bulletin *only*.

All persons, including permittees who believe that any condition of NJDEP's tentative decision to issue these permit actions is inappropriate must raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. Any request for a public hearing shall state the nature of the proposed issues to be raised in the hearing. A public hearing will be conducted if NJDEP determines there is a significant degree of public interest. If a public hearing is held, the public comment period is automatically extended through the close of the hearing.

NJDEP will consider and respond to all significant and timely submitted comments. The permittee and each person who submitted written comments, will receive notice of NJDEP's final decision to issue, revoke or redraft the document.

Written comments should be submitted to the appropriate permitting bureau:

Notice of Public Comment Period Regarding Requests for Highlands Applicability and Water Quality Management Plan Consistency Determinations

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Division of Coastal and Land Use Planning, has received the following Highlands Applicability and Water Quality Management Plan Consistency Determination application(s) requesting the issuance of determinations in accordance with N.J.S.A. 13:20-1 et seq. Each application is described in the accompanying table.

All applications, prior to submittal for public notice, have been deemed administratively complete in accordance with N.J.A.C. 7:38-11.2(c)3 and the following agencies/persons have been notified by the applicant in accordance with the requirements under N.J.A.C. 7:38-9.2(b).

- i. The Municipal Clerk
- ii. The Highlands Council
- iii. The Municipal Environmental Commission (if one exists);
- iv. The Municipal Planning Board
- v. The Municipal Construction Official
- vi. The County Planning Board; and
- vii. The County Environmental Commission (if one exists)

Applications will be reviewed to determine whether the project proposal qualifies for the selected exemption and whether it is consistent with the applicable Water Quality Management Plan. Be advised, however, that the proposal will also be reviewed to determine whether it qualifies for an exemption other than the one specifically applied for.

The public notice has been prepared for these applications as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. An appointment to review the file pertinent to the listed proposals may be requested through the Open Public Records Act. Details are online at www.nj.gov/dep/opra, or call (609) 341-3121.

The public comment period on these applications begins on the date of publication of this notice and will close thirty (30) calendar days later. Any interested person may raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period.

NJDEP will consider all timely submitted comments. The applicant and each person who submitted written comments will receive notice of NJDEP's final determination.

Written comments should be submitted to:

Elizabeth Semple, Acting Director
Land Use Management
Division of Coastal and Land Use Planning
Mail Code 401-07C
