Public Notice of Intention to Extend Landfill Post-Closure Care Period

The New Jersey Department of Environmental Protection hereby issues this public notice, pursuant to N.J.A.C. 7:26-2A.9(c)10, of its intention to extend the post-closure care period for the Landfill and Development Co., Inc. Landfill located off Route 38 on Block 1401, Lots 1, 1.02, 2, 3, 4, and 18 and Block 1402, Lot 4 in the Township of Eastampton; Block 23, Lots 1 and 2 in the Township of Lumberton; and Block 118, Lots 1, 10, 11, 12, 13, 13.01, 14, 15, 15.01, 15.02, 15.03, 15.04, and 16 in the Township of Mount Holly, Burlington County.

The post-closure care period for the landfill began in 1989. The landfill has been maintained and monitored since closure during its post-closure care period. The solid waste rules at N.J.A.C. 7:26-2A.9(c)9 specify that landfill post-closure care periods shall continue for 30 years and include a provision that the post-closure care period may be extended by the Department upon a finding that such an extended period is necessary to protect human health and/or the environment.

The Department has determined that groundwater quality on site remains negatively impacted and that relatively high concentrations of methane are still being generated in certain areas of the landfill; therefore, continued maintenance and monitoring of the landfill is necessary to protect human health and the environment. Based on this determination, the Department intends to extend the post-closure care period for the landfill for an additional ten (10) years.

If anyone from the public has questions or comments concerning the Department's intention to extend the post-closure care period, please send those questions or comments to the following address:
