The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA). In addition, this publication lists status of Highlands application and Highlands Applicability Determinations.

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally, their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

FOR AN OPERATING SANITARY LANDFILL**

Notice is hereby given that the New Jersey Department of Environmental Protection (Department), Division of Solid & Hazardous Waste, has tentatively approved an application made by the Pollution Control Financing Authority of Camden County (PCFACC) to modify and renew its current Solid Waste Facility (SWF) Permit to operate an existing sanitary landfill in accordance with N.J.A.C. 7:26-1 *et seq.* and by authority of N.J.S.A. 13:1E-1 *et seq.* The proposed modification involves increasing the design capacity by vertical expansion of the landfill.

The landfill is owned and operated by the Pollution Control Financing Authority of Camden County and is located at 9600 River Road in Pennsauken Township, Camden County, New Jersey. The landfill is 36 acres. It is classified as a Class I Landfill permitted to accept solid waste types 10, 13, 13C, 23, 25, 27, 27A & 27I. Hazardous waste as defined in N.J.A.C. 7:26G-5 is not authorized for acceptance. The landfill is open for operation Monday through Saturday. The facility accepted approximately 82,400 cubic yards (cy) of solid waste last year with a total remaining capacity for waste disposal is 596,935 cy as of March 19, 2018. The proposed vertical expansion involves construction of a Mechanically Stabilized Earthen Wall and changing the side slope of the existing landfill. Facility infrastructure will be repositioned as necessary to accommodate the staged construction. The proposed expansion will add approximately 630,000 tons of additional capacity of waste disposal.

The SWF Permit action is based on the administrative record that is on file at the offices of the Department of Environmental Protection, Division of Solid & Hazardous Waste, Bureau of Solid Waste Permitting, located at the address provided below. All supporting materials shall be included in full and may not be incorporated by reference, unless they are already part of the administrative record in the same proceeding or consist of State or Federal statutes and regulations or other generally available reference materials.

Any interested person who reasonably requires additional time within which to supplement the administrative record should request, in writing, an extension of the public comment period, and the Department will exercise reasonable discretion in setting the closing date for public comment.

During the public comment period if any request for a public hearing raises significant issues of fact relevant to the proposed agency action, the Department will schedule and publish notice of a public hearing regarding the proposed agency action.

The Department will respond to all relevant comments submitted during the public comment period. These comments and the Department's responses will be set forth in a response document which will become part of the administrative record upon which the Department will base its final decision. Any person who has submitted relevant written comments will receive notification of the Department's final decision.
