General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA). In addition, this publication lists status of Highlands application and Highlands Applicability Determinations.

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally, their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
NOTICE OF SETTLEMENT
COASTAL GENERAL PERMIT NO. 5**

PLEASE TAKE NOTICE THAT THE DEPARTMENT OF ENVIRONMENTAL PROTECTION intends to enter into a settlement agreement that would result in the issuance of a Coastal General Permit No. 5 that would authorize the construction of a 288 square foot addition to an existing single-family home. On June 7, 2021, the Division denied a request by Robert Davis for a Coastal General Permit No. 5 for the construction of an addition to a single-family home on the referenced property because that proposed addition was located outside an approved Sewer Service Area (SSA). Because the addition was outside of the SSA, the Division concluded that the addition was not consistent with the Monmouth County Water Quality Management Plan (MWQMP) and hence, the application was denied. However, that determination by the Division was in error because pursuant to N.J.A.C. 7:15-3.2(d) and (f)5, a building that does not need a treatment works approval, which in this case the building did not, is automatically deemed consistent even if outside the SSA.

Therefore, the Division intends to correct this error by entering into a settlement agreement with Robert Davis to issue the Coastal General Permit No. 5 pursuant to Coastal Permit Program Rules (N.J.A.C. 7:7-1.1 et seq.).

IN THE MATTER OF: Robert Davis
