## General Application Milestone Codes

Application Approved	F = Complete for Filing	P = Permit Decision Date
Application Denied	H = Public Hearing Date	R = Complete for Review
Application Withdrawal	I = Additional Information Requested	T = Additional Information Received
A= Approved	IS = Issued	W= Withdrawn
C = Cancelled	L = Legal Appeal of Permit Decision	
D= Denied	M = Permit Modification	

## Specific Decision Application Codes

O = Other

REG = HMDC/Pinelands Exemption

## Permit Descriptions

CAFRA – A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

Coastal Permit: A permit or an authorization issued under this chapter pursuant to CAFRA, the Wetlands Act of 1970, N.J.S.A. 13:9A-1 et seq., or the Waterfront Development Law, N.J.S.A. 12:5-3.

Coastal Wetlands: A permit authorizing disturbances to Mapped Tidal Wetlands under the Wetlands Act of 1970, N.J.S.A. 13:9A”

Federal Consistency Activity: Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

Flood Hazard Area: A Flood Hazard permit or verification is required for disturbances within the floodway, floodplain or riparian zone in areas regulated under the Flood Hazard Area Control Act.

Freshwater Wetlands: A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas.

General Groundwater Petroleum Products Cleanup: This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

NJPDES permits: A permit is required for the discharge of pollutants to surface and groundwater, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities, which require a permit, may be found at N.J.A.C. 7:14A-2.4)

Solid Waste Facility: A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

Highlands Resource: A Highland Preservation Area Approval is required for regulated activities within the Highland Preservation Area as defined in the Highlands Water Protection & Planning Act Preservation Area Rules. Highlands Applicability Determinations verifies certain exemptions allowed by the regulations.

Tidal Wetlands: A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

Treatment Works Approval: A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

Waterfront Development: A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

## General Information

---

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA). In addition, this publication lists status of Highlands application and Highlands Applicability Determinations.

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally, their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

## Appeals on Applications

---

Any individual who would like to appeal a decision on an application should direct their remarks to:

Office of Legal Affairs  
Attn: Adjudicatory Hearing Requests  
Department of Environmental Protection  
PO Box 402

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION**

**BUREAU OF RELEASE PREVENTION**

**NOTICE OF CANCELLATION OF PUBLIC HEARING TO CONSTRUCT TWO NEW  
UNDERGROUND STORAGE CAVERN SYSTEMS INCLUDING A CENTRAL COMPLEX**

Delaware River Partners LLC  
Program Interest (PI) 1032630, Permit Application No. CAV230001

TAKE NOTICE that the New Jersey Department of Environmental Protection (Department) has withdrawn its proposed approval of an application to construct two new underground storage cavern systems, including a central complex, submitted by Delaware River Partners (DRP) LLC, and cancelled the public hearing scheduled for March 26, 2025, at 6:00 PM. DRP is the owner and operator of the proposed underground storage cavern systems located at 200 N. Repauno Ave, Gibbstown, Gloucester County, NJ 08027. The Department published notice in the March 5, 2025, DEP Bulletin of its proposed approval and proposed draft permit to construct, public hearing, and public comment period. The Department will publish a new notice of its proposed approval and proposed draft permit for public comment. The notice will include new dates for the public comment period and a new date for the public hearing, which will be held in-person with a virtual component.

**NOTICE OF PUBLIC COMMENT PERIOD  
REGARDING A SOLID WASTE FACILITY PERMIT FOR A TRANSFER STATION**

The New Jersey Department of Environmental Protection, Division of Sustainable Waste Management, hereby gives notice that it has tentatively approved an application for renewal of a Solid Waste Facility Permit issue to Mercer County Improvement Authority (MCIA) regarding the operation of the existing solid waste transfer station located at 1609 North Olden Avenue in the Township of Ewing, Mercer County. The MCIA's offices are located at 80 Hamilton Avenue, 2<sup>nd</sup> Floor, Trenton.

The application for renewal of the Solid Waste Facility Permit was submitted in accordance with the requirements established at N.J.A.C. 7:26-2. The facility is currently permitted to accept waste types ID 10 (Municipal Waste), 13 (Bulky Waste), 13C (Construction and Demolition Waste), 23 (Vegetative Waste), 25 (Animal and Food Processing Waste), 27 (Dry Industrial Waste), 27A (Asbestos Containing Waste), and 27I (Incinerator Ash/ Incinerator Containing Ash Waste) with an approved capacity of 1,500 tons per day of waste and cannot exceed 6,000 tons over a six (6) day operating period (Monday through Saturday).

The public comment period on the draft permit action begins on the date of publication of this notice and extends for thirty (30) days after publication. Any interested person may submit written comments during this period to the Department concerning the draft permit action to:

Michael R. Gerchman, Section Chief  
New Jersey Department of Environmental Protection  
Division of Sustainable Waste Management  
Bureau of Solid Waste Permitting  
Mail Code 401-02C  
401 E. State Street, P.O. Box 420  
Trenton, New Jersey 08625-0420  
(609) 292-9880

Upon written request of any interested party, which raises the issues of fact relevant to the proposed agency action within thirty (30) days of this publication, a public hearing will be scheduled regarding the proposed agency action.

The application and all other supporting documents, as well as the draft Solid Waste Facility Permit and fact sheet are available for inspection at the above noted office of the Department's Division of Sustainable Waste Management. Copies of the application were provided to the offices of the Ewing Township Clerk and Mercer County Clerk.

Anyone who would like to obtain copies of the draft permit and a fact sheet for the facility should contact John Nguyen at the above address or phone number.

## **PUBLIC NOTICE OF INTENTION TO EXTEND A LANDFILL POST-CLOSURE CARE PERIOD FOR KINSLEY'S LANDFILL**

The New Jersey Department of Environmental Protection hereby issues this public notice, pursuant to N.J.A.C. 7:26-2A.9(c)10, of its intention to extend the post-closure care period for Kinsley's Landfill (landfill) located at 2025 Delsea Drive in Sewell Township, Gloucester County by an additional 10 years.

The subject landfill ceased operating and was closed in 1987. The closure was certified as complete and approved by the Department of Environmental Protection in 1989. The Solid Waste Regulations at N.J.A.C. 7:26-2A.9 require that closed landfills be maintained and monitored during their post-closure care periods which continue for 30 years after closure. However, the Department may extend the post-closure care period upon a finding that such an extended period is necessary to protect human health and/or the environment. The Department has previously extended the post-closure period for the subject landfill by ten (10) years to monitor and maintain active methane and leachate collection systems, resulting in a post-closure termination date of June 30, 2027.

Based on data generated during the post-closure care period and a review of the most recent annual inspection report, the Department has found that the landfill will require post-closure maintenance and monitoring of the active systems and regrading project to continue beyond the current post-closure care period to protect human health and the surrounding environment. Based on these findings, the Department has determined that it is necessary to extend the post-closure care period for the landfill. The Department intends to extend the post-closure care period for ten (10) additional years, until June 30, 2037. During this extended post-closure care period, the Department will require maintenance and monitoring of the landfill to continue in accordance with N.J.A.C. 7:26-2A.9 and the most recent Closure and Post-Closure Plan Approval.

If anyone has questions or comments concerning the Department's intention to extend the post-closure care period of the landfill, please send those questions or comments to the following address:

# Public Notice of Proposed Permit Actions (NJPDES Permits)

## 4/2/25 DEP Bulletin

<b><u>Permit:</u></b> • Name • NJPDES No. • Type	<b><u>Facility Location:</u></b> • Address • County	<b><u>NJDEP</u></b> • Case Manager • Bureau • Phone No	<b><u>Receiving Discharge:</u></b> • Stream or GW Formation or POTW • Stream or GW Classification • Watershed	<b><u>Executive Summary</u></b>
ALBERT C WAGNER YOUTH CORRECTIONAL FACILITY NJ0026719 DSW Minor	500 WARD AVE Chesterfield Twp, NJ 08505-2928  Burlington County	Vincent Spino  Bureau of Surface Water and Pretreatment Permitting  (609) 292-4860	Crosswicks Creek  FW2-NT(C2)  Crosswicks Ck (Doctors Ck to New Egypt)	Surface Water Renewal Permit Action - This is a NJPDES Discharge to Surface Water (DSW) permit renewal to allow discharge of treated domestic wastewater. Sanitary wastewater is processed through the existing treatment plant via a sludge grinder with bypass bar screen, rotary screen, oil-water separator, equalization basin, primary clarifiers, rotating biological contactors (RBCs), alum addition, final clarifiers, gravity filters and ultraviolet disinfection (UV). The existing facility currently discharges approximately 0.578 MGD. This permit renewal proposes effluent limitations based on flows of 0.769 MGD and 1.3 MGD.
NJ TRAINING SCHOOL FOR BOYS NJ0028479 DSW Minor	STATE HOME & GRACE HILL RDS Monroe Twp, NJ 08831  Middlesex County	Brett Callanan  Bureau of Surface Water and Pretreatment Permitting  (609) 292-4860	Matchaponix Brook  FW2-NT(C2)  Matchaponix Brook	Surface Water Revocation Permit Action - The Department has confirmed that the facility is no longer performing any activities requiring a permit under the New Jersey Pollution Discharge Elimination System. This permit action administratively revokes this permit effective March 1st, 2025. On June 27, 2012 the facility tied in with Monroe Township Sewer System which ultimately pumps to Middlesex County Utilities Authority. This was confirmed by the Department through an on-site inspection.
POSSUMTOWN ROAD LANDFILL NJ0075094 DSW Minor	POSSUMTOWN RD & BAEKLAND AVE Piscataway Twp, NJ  08854 Middlesex County	Jonathan Hanuschik  Bureau of Surface Water and Pretreatment Permitting  (609) 292-4860	Ambrose Brook  FW2-NT(C2)  )  Raritan R Lower (Lawrence to Millstone)	Surface Water Renewal Permit Action - This permit action is for the renewal of a NJPDES permit at a closed landfill. The facility uses a groundwater interceptor trench to divert groundwater from the landfill area. The groundwater intercepted by the trench is discharged to surface water through three outfalls. Two outfalls are intermittent whereas one outfall is continuous. All outfalls discharge to Ambrose Brook as classified as FW2-NT (C2).

NJPDES MASTER GENERAL PERMIT PROGRAM INTEREST NJ0235075 RES	401 E STATE ST Trenton, NJ  08625  Mercer  County	Karley Mcilhatton  Bureau of Ground Water, Residuals, and Permit Administration  (609) 984-4428		Residual Master General Permit Renewal - This general permit renewal is issued to a Domestic Treatment Works that generates only domestic septage, or that has a permitted flow of 0.020 MGD or less and that removes all sewage sludge generated to an off-site in-State treatment works treating domestic sewage. It is intended to implement the provisions of the Sludge Quality Assurance Regulations (SQAR, N.J.A.C. 7:14C) for residual quality and quantity monitoring as well as other general conditions required by N.J.A.C. 7:14A-6.

Activity Number	Project Location	Project Description	Applicant	Project Manager
1434-25-0001.1 - LUP - 250001	STREET ADDRESS NOT IDENTIFIED	The project includes the installation of 150 feet of 12 thick gabion mattress anchored by a 3x3 gabion cutoff wall at the top of the bank. The bottom of the bank will be stabilized via a riprap cutoff utilizing D50 = 8 riprap. On both the eastern and western sides of the gabion mattress, erosion control matting will be installed which will support natural vegetation growth for stabilization. In addition, the project will also include upgrades to the existing stormwater outfalls.	ROCKAWAY BORO@ROCKAWAY RIVER STREAMBANK	Neelofar Qureshi, Scarlett Simpson
