EPA SmartWay/SmartWay Elite										
http://www.epa.gov/SmartwayLogistics/consumer/vehicles.htm										
EPA SmartWay is a designation earned by those vehicles that score a 6 or better on each of the Air Pollution and Greenhouse Gas Scores and achieve a combined score of at least 13 when added together. Scores indicate vehicles with reduced levels of emissions that cause smog and health problems. Higher Greenhouse Gas Scores indicate vehicles with reduced levels of emissions that cause greenhouse gases and have improved fuel economy.										
EPA SmartWay Elite is a designation given to those vehicles that score 9 or better on each of the Greenhouse Gas and Air Pollution Scores.										
¹ EPA Size Class is preferred over EPA Market Class, wherever data is available.										
EPA Fuel Economy rating can be obtained from:
