**\*Vehicle Type** is based on the following California Air Resources Board (CARB) vehicle classifications: Light Duty (LD) vehicle – GVWR < 8,501 lbs., Medium Duty (MD) vehicle – GVWR 8,501 - 14,000 lbs., Heavy Duty (HD) vehicle – GVWR > 14,000 lbs., and Neighborhood Electric Vehicle (NEV). GVWR is the Gross Vehicle Weight Rating value specified by the manufacturer as the maximum designed loaded weight of a single vehicle. Entries shaded in green do not have a unique name identifying a ZEV powertrain and must be confirmed using the information in the VIN Designator column.

Vehicles that have a gross vehicle weight rating more than 26,000 pounds are exempted from sales tax per N.J.A.C. 18:24-7.18(a)1(i) and are therefore not included in this list.

**Please Note:** Only electric vehicles that have been certified pursuant to the CARB zero-emission standards are included in this list. Motorcycles are not included.
