

Amalgam Waste Recycling (Separators and Facilities)

The following list is based on information provided to the NJDEP by the amalgam separator manufacturers. This list is not all inclusive. Other separators not listed herein may be installed provided that they meet the ISO 11143 standard and minimum removal efficiency.

The Department can not and does not endorse any manufacturers. Dental practices are encouraged to contact the manufacturers directly or speak with their dental supplier.

This list is in alphabetical order by manufacturer name. The NJDEP intends to periodically update this list. Manufacturers that wish to have their amalgam separators considered for inclusion on this list should contact the Bureau of Surface Water and Pretreatment Permitting at (609) 292-4860, or NJDEP_AmalgamWaste@dep.nj.gov.

If you need to replace the collection container in your dental amalgam separator, contact the manufacturer of your dental amalgam separator. If you are unsure of how often to replace your dental amalgam separator, contact the manufacturer of your dental amalgam separator.

EPA Listing of Dental Amalgam Recyclers

Drawing upon information received from recovery facilities related to their 2021 RCRA Biennial Report forms, EPA has compiled the following list of RCRA-permitted mercury retorters that accept dental amalgam waste.

PLEASE NOTE: This list is based upon information submitted directly by the facilities and is for informational purposes only. The list may not be comprehensive or up-to-date. For additional information, please contact your state hazardous waste authority. Inclusion on the list does not confer any rights or benefits, nor does it imply any governmental sanction or endorsement whatsoever by the U.S. EPA or the federal government.

Bethlehem Apparatus Company, Inc.
890 Front Street
Hellertown, PA 18055
