## **INTRODUCTION**

The New Jersey Department of Environmental Protection ("Department") is responsible for administering the New Jersey Pollutant Discharge Elimination System ("NJPDES") program that regulates the discharge of pollutants to the surface and ground waters of the State. The Department's authority is derived from the New Jersey Water Pollution Control Act, N.J.S.A. 58:10A-1 et seq. ("State Act"), pursuant to which New Jersey qualifies, and has primary responsibility under the Federal Water Pollution Control Act (33 U.S.C. 1251 et seq.), for the administration of the NJPDES permitting program.

The NJPDES program rules are set forth at N.J.A.C. 7:14A. All persons who wish to discharge wastewater in the State or dispose of residuals generated from treatment systems are required to obtain a NJPDES discharge permit from the Department. Pursuant to Section 9 of the State Act and consistent with responsibilities negotiated during establishment of New Jersey's Memorandum of Agreement delegation agreement to implement the NPDES program, the Department is authorized to "establish and charge reasonable annual administrative fees, which fees shall be based upon, and shall not exceed, the estimated cost of processing, monitoring and administering the NJPDES permits." Fees are assessed to cover the Department's costs to issue and manage NJPDES permits. The NJPDES budget and fee schedule covers activities including, but not limited to, the review of NJPDES permit applications, the development of specific permit terms and conditions, evaluating compliance with the terms and conditions of each NJPDES permit, conducting compliance inspections and providing for the general administrative costs of the NJPDES program including regulatory support, data processing, and budgeting. N.J.S.A. 58:10A-10 provides the Department with the authority to seek civil administrative penalties for failure to pay assessed NJPDES permit fees.

## **NJPDES BUDGET PROPOSAL**

The NJPDES Program encompasses both permitting and enforcement activities, as well as other program support. Permitting activities include developing, issuing, monitoring and administering NJPDES permits. Enforcement activities include inspections and, when appropriate, follow up activities to gain permit compliance. Examples of other program support includes water quality monitoring and standards assessment and information technology support. The total Water Pollution Control (WPC) budget consists of the NJPDES and Enforcement Services budgets that are funded by State appropriations given at the start of the State fiscal year. All fees collected are deposited directly into the General Fund within the Department of the Treasury. Similarly, all penalties collected are also deposited into the General Fund.

### ***Budget Summary***

The total costs as they pertain to NJPDES permitted facilities in the workplan and the NJPDES program are presented in Appendix B and C, respectively. For this fiscal year, the total costs for program activities funded through NJPDES permit fees is \$18.96 million; a decrease of \$1.18 million (5.9%) from the previous budget year. The Department assessed \$10.61 million as fees for the Surface Water portion of the program; \$0.54 million for the Significant Indirect User portion; \$2.37million for the Ground Water (including Landfills) portion; \$0.15 million for the Residuals portion and \$5.28 million for the Stormwater portion. These NJPDES fees cover the period July 1, 2017 to June 30, 2018.

#### **COMPARISON OF NJPDES SERVICES BUDGETS**

	FISCAL YEAR			
	2015	2016	2017	2018
TOTAL WORK-YEARS	119.36	118.17	116.98	112.28
TOTAL PERSONNEL COSTS	\$17,027,392	\$17,592,459	\$18,280,649	\$17,102,176
TOTAL OPERATING COSTS	\$2,123,251	\$2,107,040	\$1,857,687	\$1,854,240
<b>TOTAL PROGRAM COSTS</b>	<b>\$19,150,643</b>	<b>\$19,699,499</b>	<b>\$20,138,336</b>	<b>\$18,956,416</b>

### ***Work-Years***

The NJPDES budget is expected to cover the costs of 112.28 positions assigned to the NJPDES program; a decrease of 4.7 work years (4%) from the previous budget cycle. This includes 78.29 work years assigned to the Division of Water Quality, 22.89 assigned to the Water Compliance and Enforcement Element and 11.10 to other DEP units. The Department has included detailed workplans for the various program categories in Appendix B. The expected outputs for FY2018 are based upon current staffing.

#### **COMPARISON OF NJPDES RELATED STAFFING LEVELS**

PROGRAM	FISCAL YEAR			
	2015	2016	2017	2018
SURFACE WATER MUNICIPAL	36.31	39.09	39.50	34.77
SURFACE WATER INDUSTRIAL	19.72	15.97	18.38	18.74
STORMWATER	24.15	24.24	23.80	24.27
GROUNDWATER	14.87	13.86	10.01	9.11
SIGNIFICANT INDIRECT USER	2.30	2.72	2.57	2.51
ENFORCEMENT	22.01	22.28	22.72	22.89
<b>TOTAL</b>	<b>119.36</b>	<b>118.17</b>	<b>116.98</b>	<b>112.28</b>

## Personnel Costs

The current average salary cost for each position in the NJPDES program is \$83,440; a decrease of \$806 (1%) from the previous budget cycle. The average salary cost for FY2018 has been determined based upon the anticipated salary costs as of January 1, 2018. The fringe benefit rate of 50.65 percent has been established by the Department of Treasury. The indirect rate of 21.17 percent, of salary plus fringe, has been established by the Department of Environmental Protection for FY2018. This rate factors in the Departmental indirect costs, as well as the Department's share of Statewide indirect costs as allocated by the Office of Management and Budget.

### COMPARISON OF AVERAGE SALARY COSTS, FRINGE BENEFIT RATES AND INDIRECT RATES

PROGRAM	FISCAL YEAR			
	2015	2016	2017	2018
Average Salary Cost for NJPDES position	\$84,795	\$86,105	\$84,246	\$83,440
Fringe Benefit Rate	40.15%	45.25%	53.95%	50.65%
Indirect Rate	20.04%	19.03%	20.49%	21.17%

## Operating Costs

The Department has included \$1.85 million for non-salary costs. This is a decrease 0.2% from the previous year. Routine operational costs include material and supply costs, cost for non-personnel services, and maintenance and fixed charges. *Material and supply costs* include those associated with printing/office supplies, medical/education, household/security/clothing, and other materials and supplies. *Non-personnel service costs* include those for travel, telephone, postage, information systems support, professional services, and training. These costs also include those for legal assistance provided by the Division of Law and Public Safety and the Office of Administrative Law (OAL). *Maintenance and fixed charges* include costs associated with maintenance equipment, central motor pool rentals, and other rentals.

### NJPDES OPERATING FUNDS BUDGET SUMMARY FOR CURRENT FISCAL YEAR

	NJPDES ENFORCEMENT WATER POLLUTION COSTS	NJPDES PERMITTING SERVICES COSTS	TOTAL NJPDES OPERATING COSTS
Materials and Supplies	\$15,157	\$34,000	\$49,157
Services Other Than Personnel	\$204,773	\$1,513,000	\$1,717,773
Maintenance and Fixed Charges	\$73,310	\$14,000	\$87,310
<b>TOTALS :</b>	<b>\$293,239</b>	<b>\$1,561,000</b>	<b>\$1,854,239</b>

### COMPARISON OF OPERATING COSTS

PROGRAM	FISCAL YEAR			
	2015	2016	2017	2018
NJPDES Enforcement Water Pollution Costs	\$293,251	\$273,223	\$283,402	\$293,239
NJPDES Permitting Services Costs	\$1,830,000	\$1,833,817	\$1,574,285	\$1,561,000
<b>TOTAL</b>	<b>\$2,123,251</b>	<b>\$2,107,040</b>	<b>\$1,857,687</b>	<b>\$1,854,239</b>

## **NJPDES FEE ASSESSMENT METHODOLOGY**

The Department first established a fee assessment program in 1981. Individual permit fees were based on the facility's potential environmental impact, the billing rate for the category of discharge, and the minimum fee for the category of discharge. The billing rate for each category of discharge is determined annually by subtracting the total minimum fees paid by the permittees in the category of discharge from the total budget for the category of discharge, and then dividing that value by the sum of the calculated environmental impact potentials for all of the dischargers within the category.

The fee schedule is assessed in accordance with current rules. A copy of the current fee regulations is included in Appendix A. This year the percentage of the NJPDES program budget derived from the assessment of minimum fees is 52% of the total program costs, which also includes fringe, indirect and operating costs. The remaining percentage of the NJPDES program costs will continue to be assessed in a manner proportionate to the relative environmental impact potential of the permittee's discharge, pursuant to the fee assessment formula at N.J.A.C. 7:14A-3.1(c) through (g). If a NJPDES permit identifies more than one discharge category, a fee is assessed for each category.

### ***Minimum Fee Schedule***

Minimum fees are calculated as specified in N.J.A.C. 7:14A-3.1(a)9iii. No changes to the minimum fees are proposed this year.

The minimum fee schedule for this fiscal year is summarized in Appendix B.

### ***Permit Fee Schedule and Environmental Impact Calculations***

For this fiscal year, the total amount to be assessed through NJPDES permit fees is \$18.96 million. Fees are assessed based on the minimum fee for each facility and the facility's potential impact on the environment. The environmental impact fee component is calculated in accordance with the NJPDES regulations in N.J.A.C. 7:14A-3.1 (see Appendix A). The minimum fee is added to the fee calculated based on the environmental impact potential of the discharge. Below is a summary of the permit fees assessed.

- ***Municipal Surface Water Permit Fees*** – The total amount of fees to be assessed for municipal surface water permits is \$6,753,882. Minimum fees from 219 municipal facilities will generate \$1,704,550 (25%) of this total billing. This year's environmental impact portion of the fee is based on the loadings of BOD, COD or CBOD reported during the period January 1, 2016 through December 31, 2016.
- ***Industrial Surface Water Permit Fees*** – The total amount of fees to be assessed for industrial surface water permits is \$3,860,454. Minimum fees from 277 industrial facilities will provide \$990,300 (26%) of the total billings. This year's fees are based on the loadings for all limited pollutants reported during the period January 1, 2016 through December 31, 2016 and the risk factor associated with each parameter. As in years past, where a facility's discharge is limited for BOD, COD and/or TOC, the Department is using the discharger's BOD loading for the pollutant loading calculation, rather than the oxygen demand parameter discharged in greatest quantity, provided the facility is meeting whole effluent toxicity limits.
- ***Stormwater Permitting Program Fees*** - The total amount of stormwater fees to be assessed from 3195 stormwater permits is \$5,277,550. These facilities are not subject to an environmental impact calculation. Fees for Stormwater General and Individual Permits are set in the NJPDES Rules (N.J.A.C. 7:14A-3.1 - Table III).
- ***Ground Water and Operating Landfill Permit Fees*** - The total amount of fees to be assessed for ground water discharge and operating landfill permits is \$2,369,085. Minimum fees from 1090 DGW and landfill permits will provide \$1,359,000 (57%) of the total billings. In accordance with rule amendments adopted in January 2009, fees for operational groundwater permits are determined upon the facilities pollutant potential (for example, hazardous vs. non hazardous waste) and discharge control factors (for

example, lined vs. non lined lagoons). The operational groundwater and landfill permits are now assessed together resulting in one rate to be used for both types of permits

- **Significant Indirect Users (SIU's)** – The total amount of fees to be assessed for significant indirect user permits is \$541,195. Minimum fees from 69 facilities will provide a total of \$391,000 (72%) of the total billings. The environmental impact calculation for SIU permits is based on the total weighted loading of all limited pollutants discharged during the period January 1, 2016 through December 31, 2016 and the risk categories for SIUs. These risk categories are specified in Table I of N.J.A.C. 7:14A-3.1 entitled, "Indirect Users".
- **Residuals** - The Department will assess fees totaling \$154,250 to 61 facilities which handle, distribute and land apply sludge. These facilities are charged applicable minimum fees and are not subject to an environmental impact calculation.

A summary of the total fee assessments and rate calculations are provided in the table below. In addition, proposed fee schedules for each permitted facility under the various discharge categories are included in Appendix E. Any questions concerning fee assessments for individual facilities should be directed to the NJPDES Fee Management Unit within the Division of Water Quality at (609) 984-4428.

#### PROPOSED NJPDES FEE SCHEDULES AND RATES

Program	Total Assessment [a]	Total Fees for Facilities Capped at Maximum [b]	Total Minimum Fees [c]	Total Minimum Fees for Facilities Capped at Maximum [d]	Total Environmental Value (EV) [d]	Total EV for Facilities at Maximum [e]	Rate [(a-b-(c-d)) / (e-f)]
SURFACE WATER MUNICIPAL	\$6,753,882	\$2,026,165	\$1,738,000	\$33,450	33987.6175	19695.58333	<b>211.5281</b>
SURFACE WATER INDUSTRIAL	\$3,860,454	\$1,544,182	\$1,030,100	\$39,800	453300.7392	342086.4849	<b>11.9227</b>
STORMWATER	\$5,277,550	-----	\$5,277,550	-----	-----	-----	-----

SIGNIFICANT INDIRECT USER	\$541,195	\$54,120	\$396,750	\$5,750	12324.29204	7900.94686	<b>21.7201</b>
RESIDUALS	\$154,250	-----	\$154,250	-----	-----	-----	-----
<b>Totals</b>	<b>\$18,956,416</b>	<b>\$3,624,466</b>	<b>\$9,955,650</b>	<b>\$79,000</b>	<b>1856015.649</b>	<b>369683.015</b>	-----

## **ACTUAL EXPENDITURES AND FEE COLLECTIONS FOR PREVIOUS FISCAL YEARS**

The actual costs for FY2016 and FY2017 are as reported by the New Jersey Comprehensive Financial System (NJCFS). The fringe benefit rate and indirect cost rate established by the Department of Treasury and the Department of Environmental Protection respectively, were added to the total salary cost to obtain total personnel costs. Operating costs for both these fiscal years were charged against the NJPDES Account as reported by NJCFS.

### ***Actual Expenditures***

For State Budget purposes, the Water Pollution Control Program includes the Clean Water Enforcement Program, the NJPDES Program and the Treatment Works Approval Program. The total cost (not including fringe benefit and indirect costs) to administer the Water Pollution Control Program by the Department during the period July 1, 2016 to June 30, 2017 (FY2017) was \$16,905,925 and during the period of July 1, 2015 to June 30, 2016 (FY2016) was \$17,552,675. The program expenditures are presented below.

#### **RESOURCE/EXPENDITURE ANALYSIS WATER POLLUTION CONTROL PROGRAM**

	<b>FY2017</b>	<b>FY2016</b>
<b>Resources</b>		
Appropriations:	\$14,030,000	\$13,929,000
Additional Appropriations (Excess Receipts):	\$1,938,243	\$2,460,861
Credits:	\$1,022,145	\$1,373,622
Transfers:	(\$428,875)	\$144,329
Carry Forward:	\$2,426,793	\$1,611,968
Reverted and/or Lapsed:	\$0	\$0
Additional Appropriations (Supplemental):	\$239,994	\$459,429
Budget Authority Reserved:	\$0	\$0
<b>TOTAL RESOURCES:</b>	<b>\$19,228,300</b>	<b>\$19,979,209</b>
<b>Expenditures</b>		
Salary Costs:	\$14,464,434	\$15,617,411
Encumbered Operating Costs:	\$528,712	\$101,894
Expended Operating Costs:	\$1,912,779	\$1,833,370
<b>TOTAL EXPENDITURES:</b>	<b>\$16,905,925</b>	<b>\$17,552,675</b>
<b>BALANCE</b>	<b>\$2,322,375</b>	<b>\$2,426,534</b>
<b>Off Budget Items</b>		
Additional Revenue:	\$5,920,000	\$5,571,000
Fringe Benefit Costs:	\$7,514,273	\$7,066,878
Indirect Costs:	\$4,503,437	\$4,316,820
<b>TOTAL OFF BUDGET COSTS:</b>	<b>(\$6,097,710)</b>	<b>(\$5,812,698)</b>

### ***Fee Collections***

The Department continues to pursue remaining overdue fee balances from prior years. The Department sent second and third notices to all permittees with potentially overdue fees up through and including fiscal year 2017. Additionally, some of the delinquent facilities have been referred to a collection agency. Adjustments for calculation errors, overpayments, previously unposted payments, duplicate or erroneous bills, and uncollectable bills are accounted for. Following is a summary of the collection status for this effort as of December 27, 2017:

**NJPDES FEE COLLECTION STATUS SUMMARY**

<b>Billing Year</b>	<b>Initial Billing</b>	<b>Billing Adjustment</b>	<b>Adjusted Billing</b>	<b>Paid YTD</b>	<b>Outstanding Balance</b>	<b>Percent Paid</b>
FY2017	\$20,136,737	(\$257,604)	\$19,879,133	\$19,115,363	\$763,770	96.2%
FY2016	\$19,688,899	(\$220,901)	\$19,467,998	\$18,804,218	\$663,780	96.6%
FY2015	\$19,139,243	(\$561,974)	\$18,577,269	\$18,105,619	\$471,650	97.5%

Further actions to collect delinquent fees may include issuance of Administrative Orders with Civil Penalties by the Department's Water Compliance and Enforcement program and/or referral of the delinquent facilities to a collection agency.

## **NJPDES PERMIT PROGRAM**

Through the NJPDES permitting program, the Division of Water Quality (Division) regulates all discharges of wastewater and stormwater to the surface and ground waters of the State and for residuals generated from treatment systems. This Program also regulates industrial wastewater discharges from Significant Indirect Users (SIU) to Domestic Treatment Works. The permit process involves pre-application conferences, application tracking, administrative and technical review of the permit applications, preparation of a detailed fact sheet on the facility and the permitted discharge activities, the development of technology and water quality based effluent limitations for conventional, non-conventional and toxic pollutants (including whole effluent toxicity), applicable anti-degradation and anti-backsliding analyses, monitoring requirements, site inspections, permit coordination, public hearings, review of public comments and agency responses, permit issuance, and responses to requests for stay of permit conditions and adjudicatory hearings, as well as rule development and technical guidance. In addition, the Division provides direct assistance to its regulated community with reviews of toxicity testing results; calculation of water quality based effluent limits utilizing computer models; reviews of sludge quality reports; oversight and audits of Delegated Industrial Pretreatment Programs and municipal stormwater management programs; overseeing the installation of groundwater monitoring wells, and development of facility specific groundwater protection plans and; continues to develop and implement electronic services and other tools. The Division also provides technical permit support on enforcement matters.

### ***NJPDES Permit Program Significant Activities and Accomplishments***

#### **Permit Quality Review**

USEPA Region 2 staff, with assistance from USEPA Headquarters and a contractor, conducted an in-depth review of the NJPDES permitting program. USEPA evaluated a select set of NJPDES permits to determine whether permits are developed in a manner consistent with applicable requirements established in the Clean Water Act and applicable regulations. Through this review mechanism, the EPA promotes national consistency, and identifies successes in implementation of the permitting program and opportunities for improvement in the development of NJPDES permits. USEPA concluded that the Department administers a very robust and thorough program and no water quality concerns were identified.

#### **Issuance of Draft & Final Renewal MS4 Permits for Tier A and Tier B Municipalities**

The draft and final renewal of the MS4 Master General Permits for both the Tier A and Tier B municipalities were issued on February 15, 2017 and November 9, 2017, respectively. On December 8, 2017, the Department issued 557 Authorizations to Discharge under the authority of both Master General Permits that became effective January 1, 2018. Some of the permit improvements include the following: clarification of existing municipal responsibility to maintain detailed logs, including inspection and maintenance reports and stormwater facility locations when performing routine inspection and maintenance; clarification of an existing municipal responsibility to ensure maintenance of privately and publicly owned stormwater facilities; improved training of municipal employees and municipal representatives; expanded community education and outreach; and requirement to complete a standard summary form for proposed stormwater management measures on new major developments.

#### **Stormwater Infrastructure Mapping and Inventory Tools**

The Department developed a group of stormwater infrastructure mapping and inventory tools to assist municipalities in the management of their systems. The tools created include a mobile application, GPS unit templates, an ArcGIS geodatabase template, and an Excel spreadsheet template. The variety of tools created are meant to make the creation of a stormwater infrastructure map and inventory an obtainable goal for users with different abilities and available resources. The mapping and inventory tools are free to use for Municipal Separate Storm Sewer System (MS4) permittees and the Department has made a pool of ArcGIS Online licenses available to permittees so that the municipality can use the mobile application without incurring license fees.

## **Publication of the TMDL Look-Up Tool on the DEP web page**

The Department developed the Total Maximum Daily Load (TMDL) Look-Up Tool to assist municipalities with permit compliance. Under the renewal of the Tier A MS4 General Permit, all Tier A municipalities are required to review adopted TMDL reports to identify any TMDLs that apply to surface water bodies wholly or partially within or bordering the Tier A municipality. The municipality will use the information contained within the reports to help prioritize maintenance of stormwater facilities and identify and develop strategies to address specific sources of stormwater-related pollutants contributing to the waterbody. The web page also includes a "Tool Box" of strategies that municipalities can consider in order to address stormwater-related pollutants. The Tool Box is a table that lists potential pollutant sources and potential responses for common stormwater pollutants. The web page is located at <http://www.nj.gov/dep/dwg/msrp-tmdl-rh.htm>.

## **Reduction of Discharge to Surface Water (DSW) Permit Backlog**

The percent of DSW backlogged permits (18%) is at a historically low level. This reduction is attributed to the issuance of renewals of several general permits that coordinate similar facilities and similar types of pollutants.

## **Monitoring Report Form (MRFs) Electronic Submission Update**

The Department's outreach and ongoing efforts in 2017 to promote compliance with the federal EPA electronic reporting rule has resulted in 100% compliance for all NJPDES permittees required to electronically submit their MRFs under the federal rule. Furthermore, approximately 92% of all NJPDES permittees are now submitting MRFs electronically, even if not specifically required to submit under the rule. The remaining 8% of the NJPDES permittees are not required to submit MRFs electronically at this time.

## **The One Process/One Permit – Delaware River Basin Commission (DRBC) Administrative Agreement (AA)**

The Department and DRBC worked together to successfully complete 16 NJPDES/Discharge to Surface Water (DSW) renewal permits located in the DRBC region in 2017. Under the Administrative Agreement, the requirements for both the state NJPDES and the DRBC programs are consolidated in the NJPDES permit, thereby eliminating the need for 2 separate reviews and permits.

## **Municipal Separate Storm Sewer System (MS4) Audit Program**

Eight MS4 Stormwater Audits of municipal permittees were conducted this year to evaluate the implementation and effectiveness of the Municipal Stormwater Permitting Program under N.J.A.C. 7:14A-25, and the Stormwater Management Regulations under N.J.A.C. 7:8. In addition to providing compliance assistance to permittees, the MS4 Stormwater Audit program helps the Department identify where it needs to provide better guidance, improved BMPs, necessary training, improved permit conditions, and/or necessary regulatory changes.

## **Dental Amalgam Certifications and Registrations**

The Department updated the on-line portal and changed the registration period for dental amalgam certifications and registrations to assist dental facilities in complying with new federal and existing state regulations. The previous implementation period ran from October 1<sup>st</sup> through September 30<sup>th</sup>. The implementation period was revised to coincide with a calendar year schedule (i.e., January 1<sup>st</sup> through December 30<sup>th</sup>) with the annual certification or registration now being due during the first quarter of the calendar year.

## **New/Updated NJPDES DataMiner Reports**

The NJPDES program posted the new reports and updated others to the Department's website to provide easy public access to permit information and improve the quality and increase the amount of information readily available. The reports provide the public with general information pertaining to a specific NJPDES permit and information can be searched from a variety of ways. Information displayed through the reports includes such things as the permit identification numbers, facility name, property owner, the Department case manager and SIC codes. The reports also provide information regarding the most recent permit actions, as well as issuance, effective and expiration dates and the monitoring locations.

## **Updated Stormwater Best Management Practices (BMPs)**

The Department continues to update its technical guidance document, NJ Stormwater Best Management Practices Manual (Manual). The Department added a subchapter on Blue Roofs (subchapter 9.8) in 2017. This subchapter was created with stakeholder input and was posted to the Department web page to solicit comments. The Manual is posted at [http://www.njstormwater.org/bmp\\_manual2.htm](http://www.njstormwater.org/bmp_manual2.htm). Numerous stakeholder meetings were also held on other future revisions.

## **Manufactured Treatment Device Certifications**

MTD certifications completed under pre-2013 verification and certification protocols expired in December of 2016. During 2017, the Department certified fifteen (15) Manufactured Treatment Devices (MTDs) under the January 2013 protocols. Most of these actions were re-certifications of expired MTDs using the updated/new protocol, however, some were entirely new certifications. These certifications, which occur after a device has been verified by the NJCAT, allow the devices to be used for pollutant removals in compliance with the design and performance standards under N.J.A.C. 7:8. A list of all certifications and information about the MTD program can be found at <http://www.njstormwater.org/treatment.html>.

## **Guidance Document on Evaluating Green Infrastructure (GI) as a CSO Control Alternative**

The Department created a guidance document for CSO permittees on evaluating GI as one of their CSO control alternatives in their Long Term Control Plan. The newly released guidance, "Evaluating Green Infrastructure: A Combined Sewer Overflow Control Alternative for Long Term Control Plans" can be found on the Department's CSO webpage and accessed directly at: [http://www.nj.gov/dep/dwq/pdf/CSO\\_Guidance\\_Evaluating\\_Green\\_Infrastructure\\_A\\_CSO\\_Control\\_Alternative\\_for\\_LTCPs.pdf](http://www.nj.gov/dep/dwq/pdf/CSO_Guidance_Evaluating_Green_Infrastructure_A_CSO_Control_Alternative_for_LTCPs.pdf). The guidance has seven chapters covering the following topics: Locating and Assessing the Feasibility of GI, GI Implementation and Monitoring, Maintenance Considerations, CSO Reduction Potential, Cost Benefit Analysis, and Financing. The document provides case studies, links, and resources to assist a CSO permittee with including GI as part of its CSO Long Term Control Plan.

**Division of Water Quality  
Final Permit Outputs**

<b>Industrial Permit Actions</b>	<b>Permit Type</b>	<b>FY2014</b>	<b>FY2015</b>	<b>FY2016</b>	<b>FY2017</b>
	New (Individual)	0	1	0	0

## ***Enforcement Activities***

The Department's Water Compliance and Enforcement program monitors compliance with and enforces as necessary permits issued under the New Jersey Pollutant Discharge Elimination System (NJPDES). In addition to the self monitoring reports submitted by the permittee, periodic on-site compliance evaluation inspections are carried out by enforcement staff as a means to evaluate the facilities compliance with all conditions of the permit. In addition, the compliance sampling inspections serve as a means of checking the validity of the self-monitoring data.

The tables below summarize the results of the Department's inspections during FY2017

**FY2017 INSPECTION ACTIVITY**

<b>Program</b>	<b>Regular Inspections</b>	<b>Follow-up Inspections</b>	<b>Total Inspections</b>
Surface Water	364	63	427
CSO/Collection System	26	132	158
Ground Water & GW-UIC's	702	127	829
Pretreatment	58	0	58
General Stormwater	1002	65	1067

**APPENDIX A:**  
**NJPDES**  
**Regulations at**  
**N.J.A.C. 7:14A-3.1**

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

### **SUBCHAPTER 3. DETERMINATION OF PERMIT FEES**

#### **7:14A-3.1 FEE SCHEDULE FOR NJPDES PERMITTEES AND APPLICANTS**

- (a) Except as provided in (j) and (l) below, the general conditions and applicability of the fee schedule for NJPDES permittees and applicants are as follows:
  - 1. Except as provided by (k) below, the Department shall collect an annual fee for the billing year July 1 to June 30 from all persons that are issued a NJPDES permit or authorization to discharge under a NJPDES general permit or submit a NJPDES permit application or request for authorization.
  - 2. The Department shall not assess any fee to public schools or religious or charitable institutions.
  - 3. All NJPDES permittees/applicants that are issued a draft or final NJPDES permit, or that are issued an authorization to discharge under a final NJPDES general permit, shall submit payment within 30 days of assessment of the fee by the Department.
    - i. Upon receipt of a completed application or request for authorization, the Department shall assess the minimum fee as set forth in Table III below.
    - ii. Upon issuance of the final permit or of an authorization to discharge under a final NJPDES general permit, the annual fee shall be calculated and pro-rated for the period of the fee year remaining. The minimum fee already paid shall then be subtracted from the pro-rated assessment. In no case, however, will such payment of a pro-rated fee result in a fee that is less than the minimum fee for the category of discharge. The permittee may request a fee recalculation as provided at (a)6 below, once the first required monitoring report has been completed.
  - 4. Payment of all fees shall be made by check or money order, payable to "Treasurer, State of New Jersey" and submitted to:

New Jersey Department of the Treasury

Division of Revenue

PO Box 417

Trenton, New Jersey 08625-0417
  - 5. If the permittee/applicant fails to submit payment to the Department of the Treasury within 30 days of assessment of the fee, the Department may, in its discretion, take one or more of the following actions:
    - i. Return the NJPDES permit application or request for authorization to the applicant;
    - ii. Deny issuance of a final permit or authorization under a final general permit;

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

- iii. Revoke a final permit (including revocation of a permittee's authorization to discharge under a general permit); and/or
  - iv. Assess penalties pursuant to N.J.S.A. 58:10A-10 and N.J.A.C. 7:14-8.
6. If the permittee objects to the assessment, the Department shall recalculate a permit fee upon receipt of a request from the permittee in writing within 30 days of assessment of the fee. The Department shall not recalculate a fee where the permittee has failed to submit information in compliance with its NJPDES permit.
- i. A permittee may only contest a fee imposed pursuant to (k) below based on the following:
    - (1) The Department has no factual basis to sustain the charges assessed in the fee;
    - (2) The activities for which the fee was imposed did not occur;
    - (3) The charges are false or duplicative; or
    - (4) The charges were not properly incurred because they were not associated with the Department's oversight or remediation of the case.
  - ii. A permittee may not contest a fee imposed pursuant to (k) below if the challenge is based on the following:
    - (1) An employee's hourly salary rate;
    - (2) The Department's salary additive rate, indirect rate, or fringe benefit rate; or
    - (3) Management decisions of the Department, including decisions regarding who to assign to a case, how to oversee the case or how to allocate resources for case review.
  - iii. A permittee objecting to a fee imposed pursuant to (k) below shall include the following in a request for a fee review:
    - (1) A copy of the bill;
    - (2) Payment of all uncontested charges, if not previously paid;
    - (3) A list of specific fee charges contested;
    - (4) The factual questions at issue in each of the contested charges;
    - (5) The name, mailing address and telephone number of the person making the request;
    - (6) Information supporting the request or other written documents relied upon to support the request.

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

7. The Department, in calculating Environmental Impact, shall use information reported by the permittee on MRFs for the 12 month period for which data is available on the Department's computer. The selected 12 month monitoring period will be documented in the Annual NJPDES Fee Schedule Report. Where this information is not available, the Department shall use permit limitations, information submitted in permit applications, technical reports prepared by the Department or submitted by the permittee, or other permits issued by the Department.
8. Except as provided by (k) below, the Department, upon the revocation of a NJPDES permit, or revocation of a NJPDES/SIU permit in accordance with N.J.A.C. 7:14A-21.9, shall upon written request of the permittee prorate the fee for the number of days that the facility was in operation or was discharging under a valid NJPDES/SIU permit during the billing year and return to the permittee the amount that is in excess of the minimum annual fee for the specific category of discharge.
9. Except as provided by (k) below, the annual fee for all discharges is calculated by applying the formula:

Fee = (Environmental Impact x Rate) + Minimum Fee, where:

- i. Environmental Impact is the Department's assessment of potential risk of discharge to the environment as derived under (c) through (g) below.
- ii. Rate is the dollar cost for each weighted unit of Environmental Impact. Rate is calculated as follows:

Rate = (Budget-Sum of Minimum Fees)/Total Environmental Impact

- (1) Budget is the total budget for the category of Discharge.
- (2) The Sum of Minimum Fees is the total amount of minimum fees to be paid by all dischargers in the category of discharge.
- (3) Total Environmental Impact is the sum of environmental impact for all dischargers in the category.
- (4) The budget and the total environmental impact shall be adjusted to reflect those facilities, if any, assessed a maximum permit fee.

- iii. The minimum fee is a base cost to which the product of the Environmental Impact and the Rate identified under (a)9i and ii above is added. The minimum fee for any permit category is calculated by using the following formula and rounding to the nearest \$50.00 increment:

Minimum Fee =  $\frac{\text{Hours} \times \text{Cost Per Hour}}{5}$ , where:

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

Hours = Total hours allocated by the Department on the administration, including permit issuance, inspection and data management, of the permit per facility over a five year period in each category.

Cost Per Hour = Total personnel cost per hour, including fringe benefits and indirect costs.

The minimum fees are set forth in Table III below. For any new or revised category of discharge, the Department shall calculate a minimum fee and shall list it in the Annual NJPDES Fee Schedule Report for public comment under (b) below.

10. The maximum fee to be assessed for any category of discharge shall be 10 percent of the budget for the category of discharge.
  11. If a factual dispute involving a fee imposed pursuant to (k) below cannot be resolved informally, a permittee may request an adjudicatory hearing on the matter pursuant to N.J.A.C. 7:14A-17.2.
- (b) The Department shall prepare an Annual NJPDES Fee Schedule Report and provide for a public hearing on the Report.
1. The Annual NJPDES Fee Schedule Report shall include the following:
    - i. A detailed financial statement of the actual administrative cost of the NJPDES program by account title;
    - ii. A detailed financial statement of the actual revenue collected, including any surplus which can be credited or any deficit to be assessed in determining the fee schedule;
    - iii. A detailed financial statement of the anticipated cost of the NJPDES program, including:
      - (1) A breakdown of the program by account title;
      - (2) An estimate of the amount of fees that will be collected; and
      - (3) The current year's fee schedule.
    - iv. A report of the NJPDES program activities, including:
      - (1) A list of permits issued;
      - (2) A list of facilities inspected;
      - (3) A list of administrative orders and administrative consent orders issued by the Department (by type of order and discharge involved); and
      - (4) A summary of variance request activities under Section 316 of the Federal Water Pollution Control Act (33 U.S.C. §§1251 et seq.).

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

- v. A list of all minimum fees calculated in accordance with (a)9iii above, and the basis for any new or revised minimum fee.
  - 2. The Department shall provide for a hearing on the Annual NJPDES Fee Schedule Report. The Department shall provide public notice of the hearing at least 30 days prior to the date of the hearing:
    - i. In the New Jersey Register and one newspaper of general circulation; and
    - ii. By mailing a notice of availability of the Fee Report to each NJPDES applicant/permittee the Department identifies as subject to a NJPDES annual fee. The complete Fee Report will be posted on the Department's website at <http://www.nj.gov/dep/dwq/njpdessfees.html>. The Department will provide, free of charge, a paper copy of the complete Fee Report to each applicant/permittee, or any other interested person, upon request.
  - 3. The Department shall publish a Notice of Adoption of the Annual NJPDES Fee Schedule Report, which shall include a summary of the public comments and Department responses. Upon publication of this Notice of Adoption in the New Jersey Register, any adopted new or revised minimum fee(s) identified in the Notice of Adoption shall be incorporated into Table III as an administrative change.
- (c) The annual fee for discharges to surface water is calculated by using the following Environmental Impact in the annual fee formula:
- 1. The Environmental Impact of a discharge to Surface Water from an industrial treatment works (ITW) regulated under an individual NJPDES permit is derived by applying the formula:

Environmental Impact = (Total Pollutant Load + Heat Load) where:

- i. Total Pollutant Load is the sum of each limited pollutant's average loading (in kilograms per day) for the selected 12-month period, as determined in accordance with N.J.A.C. 7:14A-3.1(a)7, multiplied by its associated risk factor as listed in Table I below.
  - (1) Net loadings will be used if a net limit has been established in the NJPDES permit. If a permittee reports a pollutant load less than zero, a zero will be used to calculate the Total Pollutant Load.
  - (2) Any pollutant listed in Table I will be deleted from the Total Pollutant Load, if reported as non-detectable in all samples for the monitoring period. When any of the pollutants listed in Table I is detected at least once in the monitoring period, the Department shall calculate the Total Pollutant Load using one-half the reported minimum detection limit for pollutant concentrations.
- ii. Heat Load is the average mBTU's (million British Thermal Units) per hour of the effluent discharged. Where Heat Load is not reported in mBTU's per hour, the Department shall estimate the Heat Load using the calculated difference between the

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

influent and effluent temperature (in degrees celsius) multiplied by the amount (in million gallons per day) of effluent discharged and a unit conversion factor of 0.6255. The Department shall use an average influent temperature of 5.57 degrees celsius during the period November to April and 18.87 degrees celsius during the period May to October.

2. The Department shall assess an additional fee to NJPDES permittees who request a variance under Section 316 of the Federal Water Pollution Control Act (33 U.S.C. §§1251 et seq.). The annual fee shall be assessed on the basis of the administrative cost that is incurred by the Department and the cost of the technical review performed by a consultant hired by the Department.

3. The Environmental Impact of a discharge to surface water from a domestic treatment works (DTW) regulated under an individual NJPDES permit is derived by applying the formula:

Environmental Impact = Average kilograms per day of oxygen demand discharged, as measured by Biochemical Oxygen Demand (BOD5), Carbonaceous Biochemical Oxygen Demand (CBOD5) or other oxygen demand parameter selected by the Department, as determined in accordance with (a)7 above.

4. The Environmental Impact value for any type of discharge to surface water regulated under a general permit shall be zero.

- (d) Except as provided by (k) below, the annual fee for discharges to groundwater, except for residuals covered in (e) below, is calculated by using the following Environmental Impact in the annual fee formula:

1. The Environmental Impact of a Discharge to Groundwater regulated by an individual NJPDES permit is derived by applying the formula:

Environmental Impact = (Pollution Potential Factor) x (Discharge Control Factor) where:

- i. For landfills and facilities discharging only sanitary sewage wastewater, the Pollution Potential Factor is the sum of the applicable Pollution Rating Factor set forth at (d)1iii below and the applicable Pollution Loading Factor set forth at (d)1iv below.
- ii. For facilities other than those identified in (d)1i above, the Pollution Potential Factors are set forth at (d)1v below.
- iii. The Pollution Rating Factor is a value that is a measure of the relative risk associated with the pollutant sources listed below. The Pollution Rating Factor is assigned as follows:

Pollutant Source Description

Pollution Rating Factor

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

Sanitary sewage wastewater	1
Sanitary landfills	20
Hazardous waste facilities including hazardous waste landfills	50

- iv. The Pollution Loading Factor is a value based on flow (Q) for a sanitary discharge, where Q is the NJPDES permitted flow limit or the facility design flow in the absence of a NJPDES permitted flow limit, or by the mass of solid waste annually deposited at a landfill. The Pollution Loading Factor is assigned as follows:

<u>Pollutant Source Description</u>	<u>Pollution Loading Factor</u>
Landfill Solid Waste	Annual Mass + 1 (where Annual Mass = Mass of solid waste annually deposited (in tons) / 400), with the result rounded to the nearest whole integer
Sanitary Waste Discharge where Q < 1.0 MGD	Q in MGD x 2000, with the result rounded to the nearest whole integer
Sanitary Waste Discharge where Q = > 1.0 MGD but < 3.0 MGD	2000
Sanitary Waste Discharge where Q = > 3.0 MGD but < 5.0 MGD	3000
Sanitary Waste Discharge where Q = > 5.0 MGD	4000

- v. The Pollution Potential Factor for facilities other than those identified in (d)1i above, is assigned as follows:

<u>Pollutant Source Description</u>	<u>Pollution Potential Factor</u>
Stormwater runoff	100
Non-contact cooling water	200

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

Potable water plant filter backwash	200
Food processing wastewater	250
Discharge from quarry operations including, sand and gravel operations	250
Industrial process wastewater (not otherwise specified)	300

- vi. The Discharge Control Factor is a measure of the potential of a discharge to affect groundwater and is based on whether a pollutant source passes through to a DSW or POTW, is designed to be discharged to the ground, or is a landfill. The Discharge Control Factor is assigned as follows:

<u>Discharge Control Scenario for Pollutant Source</u>	<u>Discharge Control Factor</u>
Permitted, but not being discharged (does not apply to landfills)	0
Pass-through wastewater to DSW or POTW, lined (surface impoundment with a liner having hydraulic conductivity of at least $<10^{-7}$ cm/sec)	1
Pass-through wastewater to DSW or POTW, unlined and/or partially lined (surface impoundment or infiltration/percolation lagoon that is unlined or partially lined)	10
Designed for discharge to the ground (sanitary wastewater with at least secondary treatment)	20
Designed for discharge to the ground (all other wastewater other than sanitary wastewater with at least secondary treatment)	25
Landfills, completely lined ( $<10^{-7}$ cm/sec)	30
Landfills, unlined and/or partially lined	40

2. The Environmental Impact value of any type of discharge to ground water regulated under a general permit shall be zero.
- (e) The Environmental Impact value for facilities which land apply, handle or distribute residuals listed in Table III below shall be zero.

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

(f) (Reserved)

(g) The annual fee for discharges by a significant indirect user to a domestic treatment works is calculated by using the following Environmental Impact in the annual fee formula:

1. The Environmental Impact of a discharge by a significant indirect user (SIU) to a domestic treatment works (DTW) is derived by applying the formula:

Environmental Impact = (Total Pollutant Load)

- i. Total Pollutant Load is the sum of each limited pollutant's average loading (in kilograms per day) for the selected 12-month period, as determined in accordance with N.J.A.C. 7:14A-3.1(a)7, multiplied by its associated risk factor as listed in Table I below.

- (1) Any pollutant listed in Table I will be deleted from the Total Pollutant Load, if reported as non-detectable in all samples for the monitoring period. When any of the pollutants listed in Table I is detected at least once in the monitoring period, the Department shall calculate the Total Pollutant Load using one-half the reported minimum detection limit for pollutant concentrations.

(h) The fees for exemptions for certain types of residual use or disposal operations shall be assessed as follows:

1. Permit exemptions or Letters of Land Application Management Approvals authorizing the land application of sludge-derived products at specific sites in accordance with a Department-approved distribution program shall be assessed a fee of \$250.00 for the duration of the permit exemption or Letter of Land Application Management Approval. The Department will not consider a request for a permit exemption or Letter of Land Application Management Approval complete unless the request is accompanied by the fee; and
2. General distribution permit exemptions providing Department approval of a sludge derived product distribution program which is not directly regulated for residuals handling through an individual NJPDES permit shall be assessed a fee of \$2,700 for the duration of the exemption. The Department will not consider a request for a permit exemption complete unless the request is accompanied by the fee.

(i) (Reserved)

(j) For NJPDES Permit No. NJ0088323 (referred to as the category 5G3 "construction activity" stormwater general permit), there is no annual or minimum fee. The fee for projects that disturb less than 5.0 acres is \$450.00. The fee for projects that disturb 5.0 acres or more is \$650.00. Except as set forth in (j)1 or 2 below, the fee shall be paid to the New Jersey Department of the Treasury, and submitted to the address set forth on the request for authorization form when the request for authorization is submitted to the Department.

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

1. For a project that the New Jersey Department of Transportation (NJDOT) is constructing or proposes to construct for which a stormwater discharge is regulated under this general permit, the fee of \$450.00 or \$600.00, as applicable, shall be paid to the Department.
  2. For a project that a Federal governmental entity is constructing or proposes to construct for which a stormwater discharge is regulated under this general permit, a fee in the amount set forth in the Soil Erosion and Sediment Control Act (N.J.S.A 4:24-39 et seq.) fee schedule for the appropriate County Soil Conservation District shall be made payable to the "Treasurer, State of New Jersey." The fee will be allocated to address the Department's administrative and enforcement responsibilities, the Department of Agriculture's administrative costs, and the appropriate Soil Conservation District's review and inspection activities.
- (k) The fee for discharges to groundwater required for conducting remediation, as defined by N.J.A.C. 7:26E, of contaminated sites, and for any NJPDES discharge to groundwater permits issued by the Site Remediation Program, is calculated and billed through requirements specified in N.J.A.C. 7:26C-4.5.
- (l) The Department shall assess, where applicable, the fee for laboratory certification pursuant to the schedule set forth at N.J.A.C. 7:18.
- (m) Any fee under this section that is subject to N.J.A.C. 7:1L shall be payable in installments in accordance with N.J.A.C. 7:1L.

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

32. Residuals – General Permit Categories 10 - 13	RSP	\$1,150
33. Significant Indirect User (SIU) (Pretreatment)	SIU	\$5,750
34. Landfills operating or terminated after January 1, 1982 without an approved	6	\$2,500

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

closure plan

35. Terminated Landfills properly closed or closed prior to January 1, 1982	<sup>6</sup>	\$500
36. Emergency Permit issued pursuant to N.J.A.C. 7:14A-6.14	<sup>7</sup>	

<sup>1</sup> For names corresponding to the general permit category see N.J.A.C. 7:14A-6.13(c).

<sup>2</sup> For a domestic or industrial facility issued an individual NJPDES Discharge to Groundwater permit, the minimum fee is \$6,000 for the first five years of that permit, and \$2,750 if the permit is renewed or administratively continued. All other domestic or industrial facilities issued an individual NJPDES Discharge to Groundwater permit shall be assessed a minimum fee of \$2,750.

<sup>3</sup> WTPs refer to potable water treatment plants.

<sup>4</sup> Refers to a Residuals Transfer Facilities individual permit.

<sup>5</sup> Refers to a Residuals - Reed Beds individual permit.

<sup>6</sup> This permit is issued and administered by the Division of Solid and Hazardous Waste.

<sup>7</sup> Fee based on category for type of discharge.

# **APPENDIX B:** **Minimum Fee** **Schedule**

Permit Fee Category	Min Fee Code	Minimum Fee for FY2018
Major DSW Domestic Treatment Works (DTW) - Individual Permit	MMJ	\$11,150
Minor DSW Domestic Treatment Works (DTW) - Individual Permit	MMI	\$4,200
Combined Sewer Overflow - Individual Permit Component or General Permit	CSO	\$9,450
Major Industrial DSW - Individual Permit	IMJ	\$9,950
Minor Industrial DSW - Individual Permit	IMI	\$4,200
General Permit - Industrial DSW, DGW, or both (unless otherwise listed)	IGN	\$2,300
General Permit - Municipal DSW (unless otherwise listed)	MGN	\$3,100
Industrial Stormwater - Individual Permit	IST	\$4,100
