## **INTRODUCTION**

The New Jersey Department of Environmental Protection ("Department") is responsible for administering the New Jersey Pollutant Discharge Elimination System ("NJPDES") program that regulates the discharge of pollutants to the surface and ground waters of the State. The Department's authority is derived from the New Jersey Water Pollution Control Act, N.J.S.A. 58:10A-1 et seq. ("State Act"), pursuant to which New Jersey qualifies, and has primary responsibility under the Federal Water Pollution Control Act (33 U.S.C. 1251 et seq.), for the administration of the NJPDES permitting program.

The NJPDES program rules are set forth at N.J.A.C. 7:14A. All persons who wish to discharge wastewater in the State or dispose of residuals generated from treatment systems are required to obtain a NJPDES discharge permit from the Department. Pursuant to Section 9 of the State Act and consistent with responsibilities negotiated during establishment of New Jersey's Memorandum of Agreement delegation agreement to implement the NPDES program, the Department is authorized to "establish and charge reasonable annual administrative fees, which fees shall be based upon, and shall not exceed, the estimated cost of processing, monitoring and administering the NJPDES permits." Fees are assessed to cover the Department's costs to issue and manage NJPDES permits. The NJPDES budget and fee schedule covers activities including, but not limited to, the review of NJPDES permit applications, the development of specific permit terms and conditions, evaluating compliance with the terms and conditions of each NJPDES permit, conducting compliance inspections and providing for the general administrative costs of the NJPDES program including regulatory support, data processing, and budgeting. N.J.S.A. 58:10A-10 provides the Department with the authority to seek civil administrative penalties for failure to pay assessed NJPDES permit fees.

## **NJPDES BUDGET PROPOSAL**

The NJPDES Program encompasses both permitting and enforcement activities, as well as other program support. Permitting activities include developing, issuing, monitoring and administering NJPDES permits. Enforcement activities include inspections and, when appropriate, follow up activities to gain permit compliance. Examples of other program support includes water quality monitoring and standards assessment and information technology support. The total Water Pollution Control (WPC) budget consists of the NJPDES and Enforcement Services budgets that are funded by State appropriations given at the start of the State fiscal year. All fees collected are deposited directly into the General Fund within the Department of the Treasury. Similarly, all penalties collected are also deposited into the General Fund.

### ***Budget Summary***

The total costs as they pertain to NJPDES permitted facilities in the workplan and the NJPDES program are presented in Appendix C and D, respectively. For this fiscal year, the total costs for program activities funded through NJPDES permit fees is \$21.87 million; an increase of \$1.64 million (8.1%) from the previous budget year.

#### **COMPARISON OF NJPDES SERVICES BUDGETS**

	FISCAL YEAR			
	2021	2022	2023	2024
TOTAL WORK-YEARS	111.3	120.9	110.77	114.34
TOTAL PERSONNEL COSTS	\$17,555,534	\$18,731,159	\$18,508,751	\$19,768,806
TOTAL OPERATING COSTS	\$1,512,144	\$1,670,214	\$1,721,561	\$2,105,343
<b>TOTAL PROGRAM COSTS</b>	<b>\$19,067,678</b>	<b>\$20,401,373</b>	<b>\$20,230,312</b>	<b>\$21,874,149</b>

### ***Work-Years***

The NJPDES budget is expected to cover the costs of 114.34 positions assigned to the NJPDES program; an increase of 3.57 work years (3.2%) from the previous budget cycle. This includes 76.19 work years assigned to the NJPDES permitting programs, 32.0 assigned to the Water Compliance and Enforcement Element and 6.15 to other DEP units. The Department has included detailed workplans for the various program categories in Appendix B. The expected outputs for FY2024 are based upon current staffing.

#### **COMPARISON OF NJPDES RELATED STAFFING LEVELS**

PROGRAM	FISCAL YEAR			
	2021	2022	2023	2024
SURFACE WATER MUNICIPAL	32.95	36.18	31.92	29.24
SURFACE WATER INDUSTRIAL	13.60	13.18	12.85	13.01
STORMWATER	25.85	21.43	23.78	24.39
GROUNDWATER	10.55	8.76	9.68	10.85
SIGNIFICANT INDIRECT USER	2.94	3.25	4.54	4.85
ENFORCEMENT	25.40	38.10	28.00	32.00
<b>TOTAL</b>	<b>111.29</b>	<b>120.90</b>	<b>110.77</b>	<b>114.34</b>

## Personnel Costs

The current average salary cost for each position in the NJPDES program is \$81,672; a decrease of \$1,339 (1.6%) from the previous budget cycle. The average salary cost for FY2024 has been determined based upon the anticipated salary costs as of January 1, 2024.

A fringe benefit rate of 77.15 percent has been established by the Department of Treasury's Office of Management and Budget (OMB). The fringe rate represents the Department's charges for the following benefits: pension, health benefits including prescription drug and dental care program, workers compensation, unemployment insurance, temporary disability insurance, unused sick leave, FICA and Medicare.

An indirect cost rate of 19.5 percent of salary plus fringe has been established by the Department of Environmental Protection. The indirect cost rate represents the Department's charges for management and administrative costs (e.g. utility costs, building rent and lease costs, management and administrative salary and non-salary costs, etc...). This rate also factors in the Department's share of Statewide indirect costs as allocated by the Office of Management and Budget.

**COMPARISON OF AVERAGE SALARY COSTS, FRINGE BENEFIT RATES AND INDIRECT RATES**

PROGRAM	FISCAL YEAR			
	2021	2022	2023	2024
Average Salary Cost for NJPDES position	\$84,229	\$80,234	\$83,011	\$81,672
Fringe Benefit Rate	53.25%	61.05%	68.45%	77.15%
Indirect Rate	22.20%	19.90%	19.50%	19.50%

## Operating Costs

The Department has included \$2.11 million for non-salary costs. This is an increase of \$0.38 million (22.3%) from the previous year. Routine operational costs include material and supply costs, cost for non-personnel services, and maintenance and fixed charges. *Material and supply costs* include those associated with printing/office supplies, medical/education, household/security/clothing, and other materials and supplies. *Non-personnel service costs* include those for travel, telephone, postage, information systems support, professional services, and training. These costs also include those for legal assistance provided by the Division of Law and Public Safety and the Office of Administrative Law (OAL). *Maintenance and fixed charges* include costs associated with maintenance equipment, central motor pool rentals, and other rentals.

**NJPDES OPERATING FUNDS BUDGET SUMMARY FOR CURRENT FISCAL YEAR**

	NJPDES ENFORCEMENT WATER POLLUTION COSTS	NJPDES PERMITTING SERVICES COSTS	TOTAL NJPDES OPERATING COSTS
<b>Materials and Supplies</b>	\$23,403	\$51,000	\$74,403
<b>Services Other Than Personnel</b>	\$378,746	\$1,509,000	\$1,887,746
<b>Maintenance and Fixed Charges</b>	\$113,194	\$30,000	\$143,194
<b>TOTALS :</b>	\$515,343	\$1,590,000	\$2,105,343

# COMPARISON OF OPERATING COSTS

PROGRAM	FISCAL YEAR			
	2021	2022	2023	2024
NJPDES Enforcement Water Pollution Costs	\$339,144	\$408,214	\$414,561	\$515,343
NJPDES Permitting Services Costs	\$1,173,000	\$1,262,000	\$1,307,000	\$1,590,000
<b>TOTAL</b>	\$1,512,144	\$1,670,214	\$1,721,561	\$2,105,343

## **NJPDES FEE ASSESSMENT METHODOLOGY**

The Department first established a fee assessment program in 1981. Individual permit fees were based on the facility's potential environmental impact, the billing rate for the category of discharge, and the minimum fee for the category of discharge. The billing rate for each category of discharge is determined annually by subtracting the total minimum fees paid by the permittees in the category of discharge from the total budget for the category of discharge, and then dividing that value by the sum of the calculated environmental impact potentials for all of the dischargers within the category.

The fee schedule is assessed in accordance with current rules. A copy of the current fee regulations is included in Appendix A. This year the percentage of the NJPDES program budget derived from the assessment of minimum fees is 45% of the total program costs, which also includes fringe, indirect and operating costs. The remaining percentage of the NJPDES program costs will continue to be assessed in a manner proportionate to the relative environmental impact potential of the permittee's discharge, pursuant to the fee assessment formula at N.J.A.C. 7:14A-3.1(c) through (g). If a NJPDES permit identifies more than one discharge category, a fee is assessed for each category.

For the FY2024 assessment, the Department offset a portion (i.e. \$0.1 million) of program costs with available revenue generated from application fees for the Stormwater Construction NJPDES permits.

### ***Minimum Fee Schedule***

Minimum fees are calculated using the procedures specified in N.J.A.C. 7:14A-3.1(a)9iii and the below equation:

$$\text{Minimum Fee} = (\text{Hours} \times \text{Cost Per Hour}) / 5$$

The following addition(s) has been made to the minimum fee schedule.

- The Wood Waste Recycling and Leaf Composting (WRC) master general permit was issued on November 25, 2022 with an effective date of January 1, 2023. This permit regulates stormwater discharges from facilities engaged in wood waste processing and leaf composting activities. The minimum fee for this permit was calculated to be \$3,100, when rounded to the nearest \$50 increment, using the following inputs:
  - The total *Hours* allocated by the Department on the administration, including permit issuance, inspection and data management for a typical permit in this category is 163.2 hours over a five year period.
  - The total personnel *Cost Per Hour*, including fringe benefits and indirect costs, is equal to \$95 per hour.

After a review of the estimated costs of processing, monitoring, and administering the WRC permit, the Department has determined it appropriate to not assess a fee to WRC permittees which also hold a Tier A MS4 (R9) Master General Permit (i.e. NJ0141852). Due to the related nature of these permits and permittees, administration of the WRC permit for dischargers holding a Tier A MS4 permit is minimal. The Department has determined that the work effort involved with administering these dischargers' WRC permit authorization is adequately covered by their annual R9 permit fee, and charging these dischargers a fee for the WRC permit would result in an inappropriate duplication of fees.

The following deletions have been made to the minimum fee schedule:

- "Residuals – Category 04 Individual permit" - The program no longer issues Residuals Category 04 Individual Permits and currently does not have any permits under this category that are effective. As such the minimum fee row, and associated footnote, has been deleted from Table III of N.J.A.C. 7:14A-3.

The following modifications have been made to the minimum fee schedule:

- "Residuals – General Permit (ZG and 4G)" - The Residuals Reed Beds (4G) Master General Permit is no longer effective and, as a result, the program no longer issues general permit authorizations under this

permit. As such, this Permit Fee Category description has been modified to “Residuals – General Permit (ZG)”.

The minimum fee schedule for this fiscal year is summarized in Appendix B.

### ***Permit Fee Schedule and Environmental Impact Calculations***

For this fiscal year, the total amount to be assessed through NJPDES permit fees is \$21.77 million. These NJPDES fees cover the period July 1, 2023 to June 30, 2024. Fees are assessed based on the minimum fee for each facility and the facility's potential impact on the environment. The environmental impact fee component is calculated in accordance with the NJPDES regulations in N.J.A.C. 7:14A-3.1 (see Appendix A). The minimum fee is added to the fee calculated based on the environmental impact potential of the discharge. Below is a summary of the permit fees assessed.

- ***Municipal Surface Water Permit Fees*** – The total amount of fees to be assessed for municipal surface water permits is \$7,438,336. Minimum fees from 214 municipal facilities will generate \$1,711,350 (23%) of this total billing. This year's environmental impact portion of the fee is based on the loadings of BOD, COD or CBOD reported during the period January 1, 2022 through December 31, 2022.
- ***Industrial Surface Water Permit Fees*** – The total amount of fees to be assessed for industrial surface water permits is \$4,487,436. Minimum fees from 263 industrial facilities will provide \$908,850 (20%) of the total billings. This year's fees are based on the loadings for all limited pollutants reported during the period January 1, 2022 through December 31, 2022 and the risk factor associated with each parameter. As in years past, where a facility's discharge is limited for BOD, COD and/or TOC, the Department is using the discharger's BOD loading for the pollutant loading calculation, rather than the oxygen demand parameter discharged in greatest quantity, provided the facility is meeting whole effluent toxicity limits.
- ***Stormwater Permitting Program Fees*** - The total amount of stormwater fees to be assessed from 3128 stormwater permits is \$5,314,600. These facilities are not subject to an environmental impact calculation. Fees for Stormwater General and Individual Permits are set in the NJPDES Rules (N.J.A.C. 7:14A-3.1 - Table III).
- ***Ground Water and Operating Landfill Permit Fees*** - The total amount of fees to be assessed for ground water discharge and operating landfill permits is \$3,061,887. Minimum fees from 1164 DGW and landfill permits will provide \$1,393,150 (45%) of the total billings. Fees for operational groundwater permits are determined upon the facility's pollutant potential (for example, hazardous vs. non-hazardous waste) and discharge control factors (for example, lined vs. non-lined lagoons). The operational groundwater and landfill permits are now assessed together resulting in one rate to be used for both types of permits.
- ***Significant Indirect Users (SIU's)*** – The total amount of fees to be assessed for significant indirect user permits is \$1,289,390. Minimum fees from 71 facilities will provide a total of \$385,250 (30%) of the total billings. The environmental impact calculation for SIU permits is based on the total weighted loading of all limited pollutants discharged during the period January 1, 2022 through December 31, 2022 and the risk categories for SIUs. These risk categories are specified in Table I of N.J.A.C. 7:14A-3.1 entitled, "Indirect Users".
- ***Residuals*** - The Department will assess fees totaling \$182,500 to 83 facilities which handle, distribute and land apply sludge. These facilities are charged applicable minimum fees and are not subject to an environmental impact calculation.

A summary of the total fee assessments and rate calculations are provided in the table below. In addition, proposed fee schedules for each permitted facility under the various discharge categories are included in Appendix E. Any questions concerning fee assessments for individual facilities should be directed to the NJPDES Fee Management Unit within the Division of Water Quality at (609) 984-4428.

**PROPOSED NJPDES FEE SCHEDULES AND RATES**

<b>Program</b>	<b>Total Assessment</b> [a]	<b>Total Fees for Facilities at Maximum</b> [b]	<b>Total Minimum Fees</b> [c]	<b>Total Minimum Fees for Facilities at Maximum</b> [d]	<b>Total Environmental Value (EV)</b> [e]	<b>Total EV for Facilities at Maximum</b> [f]	<b>Rate</b> [(a-b-(c-d)) / (e-f)]

## **ACTUAL EXPENDITURES AND FEE COLLECTIONS FOR PREVIOUS FISCAL YEARS**

The actual costs for FY2022 and FY2023 are as reported by the New Jersey Comprehensive Financial System (NJCFS). The fringe benefit rate and indirect cost rate established by the Department of Treasury and the Department of Environmental Protection respectively, were added to the total salary cost to obtain total personnel costs. Operating costs for both these fiscal years were charged against the NJPDES Account as reported by NJCFS.

### ***Actual Expenditures***

For State Budget purposes, the Water Pollution Control Program includes the Clean Water Enforcement Program, the NJPDES Program and the Treatment Works Approval Program. The total cost (not including fringe benefit and indirect costs) to administer the Water Pollution Control Program by the Department during the period July 1, 2022 through June 30, 2023 (FY2023) was \$17,491,756 and during the period of July 1, 2021 through June 30, 2022 (FY2022) was \$16,356,589. The program expenditures are presented below.

#### **RESOURCE/EXPENDITURE ANALYSIS WATER POLLUTION CONTROL PROGRAM**

	<b>FY2023</b>	<b>FY2022</b>
<b>Resources</b>		
Appropriations:	\$14,811,000	\$14,642,000
Additional Appropriations (Excess Receipts):	\$2,099,859	\$3,496,830
Credits:	\$790,003	\$1,083,990
Transfers:	(\$1,181,671)	(\$1,175,340)
Re-appropriated:	\$9,854,440	\$7,438,332
Reverted and/or Lapsed:	(\$16,812)	\$3,822
Additional Appropriations (Supplemental):	\$577,000	\$729,000
Budget Authority Reserved:	\$0	\$226,433
<b>TOTAL RESOURCES:</b>	<b>\$26,933,819</b>	<b>\$26,445,068</b>
<b>Expenditures</b>		
Salary Costs:	\$14,139,482	\$13,855,270
Encumbered Operating Costs:	\$235,607	\$885,555
Expended Operating Costs:	\$3,116,667	\$1,615,764
<b>TOTAL EXPENDITURES:</b>	<b>\$17,491,756</b>	<b>\$16,356,589</b>
<b>BALANCE</b>	<b>\$9,442,063</b>	<b>\$10,088,479</b>
<b>Off Budget Items</b>		
Additional Revenue:	\$6,289,000	\$5,958,000
Fringe Benefit Costs:	(\$9,678,476)	(\$8,458,642)
Indirect Costs:	(\$4,644,502)	(\$4,440,468)
<b>TOTAL OFF BUDGET COSTS:</b>	<b>(\$8,033,978)</b>	<b>(\$6,941,110)</b>

## ***Fee Collections***

The Department continues to pursue remaining overdue fee balances from prior years. The Department sent second and third notices to all permittees with potentially overdue fees up through and including fiscal year 2023. Additionally, some of the delinquent facilities have been referred to a collection agency. Adjustments for calculation errors, overpayments, previously unposted payments, duplicate or erroneous bills, and uncollectable bills are accounted for. Following is a summary of the collection status for this effort as of October 16, 2023:

**NJPDES FEE COLLECTION STATUS SUMMARY**

<b>Billing Fiscal Year</b>	<b>Initial Billing</b>	<b>Billing Adjustment</b>	<b>Adjusted Billing</b>	<b>Paid YTD</b>	<b>Outstanding Balance</b>	<b>Percent Paid</b>
2023	\$20,135,312	(\$164,121)	\$19,971,191	\$19,221,393	\$749,798	96.2%
2022	\$20,306,374	(\$172,119)	\$20,134,255	\$19,568,854	\$565,401	97.2%
2021	\$18,972,677	(\$116,009)	\$18,856,668	\$18,201,125	\$655,543	96.5%

Further actions to collect delinquent fees may include issuance of Administrative Orders with Civil Penalties by the Department's Water Compliance and Enforcement Element and/or referral of the delinquent facilities to a collection agency.

## **NJPDES PERMIT PROGRAM**

The NJPDES permitting program regulates all discharges of wastewater and stormwater to the surface and ground waters of the State and for residuals generated from treatment systems. This Program also regulates industrial wastewater discharges from Significant Indirect Users ("SIU") to Domestic Treatment Works. The permit process involves pre-application conferences, application tracking, administrative and technical review of the permit applications, preparation of a detailed fact sheet on the facility and the permitted discharge activities, the development of technology and water quality based effluent limitations for conventional, non-conventional and toxic pollutants (including whole effluent toxicity), applicable anti-degradation and anti-backsliding analyses, monitoring requirements, site inspections, permit coordination, public hearings, review of public comments and agency responses, permit issuance, and responses to requests for stay of permit conditions and adjudicatory hearings. In addition, the program provides direct assistance to its regulated community with reviews of toxicity testing results; calculation of water quality based effluent limits utilizing computer models; reviews of sludge quality reports; oversight and audits of Delegated Industrial Pretreatment Programs, and municipal stormwater management programs; overseeing the installation of groundwater monitoring wells and development of facility specific groundwater protection plans; and development and implementation of electronic services and other tools. The program also provides technical permit support on enforcement matters.

### ***NJPDES Permit Program Significant Activities and Accomplishments***

#### **Issuance of NJPDES Combined Sewer Overflow (CSO) Permits**

The Division of Water Quality has issued six draft and two final NJPDES CSO permit renewals as posted on the Division of Water Quality website. These permits are issued to CSO permittees which include municipalities with combined sewer systems as well as sewage treatment plants that accept combined sewage. These permit renewals incorporate implementation schedules from the coordinated CSO Long Term Control Plans (LTCPs) that were required to be submitted under the previous NJPDES permits as issued in 2015. LTCPs are complex submissions that list the projects and schedules to be used to address and reduce combined sewer overflow discharges in accordance with the Federal CSO Control Policy and NJPDES Regulations. The LTCPs and the Department's technical comments are also posted on the Division of Water Quality website to ensure public transparency.

Virtual public hearings (afternoon and evening sessions) were held subsequent to the issuance of each draft permit where opening information was read in both English and Spanish. The Division of Water Quality also established a minimum 60-day public comment period to ensure adequate time for public comments given the many interested stakeholders and complexity of the issue. A wide distribution list was utilized to provide notice of the issuance of the permits as well as notice of the public hearings.

The Division of Water Quality continues to attend external meetings with permittees on project schedules and available funding packages and also meets with interested third parties to ensure that information regarding the status of these reviews is available. These efforts, including web posting of important information, are meant to actively encourage public input and engagement as required by the permits.

#### **Issuance of Final Master Consolidated School General Permit**

The program issued the Final Master Consolidated School General Permit on October 26, 2022, effective January 1, 2023. This general permit authorizes the discharge of treated domestic wastewater from on-site school facility treatment plants to surface waters of the state. School facilities covered under this general permit are similar with respect to being small discharge quantities, seasonal in nature, and with having no off-site contributions to the treatment plants. A total of 22 individual authorizations were issued to each of the school facilities covered under this master permit prior to the effective date of the permit.

#### **Issuance of Final Master Consolidated Potable Water Treatment Plant General Permit**

The program issued the Final Master Consolidated Potable Water Treatment Plant Permit on May 16, 2023, effective July 1, 2023. This general permit authorizes the discharge of waters generated from potable water treatment plants into surface waters of the state. Potable water treatment plant facilities covered under this general permit provide potable water for domestic and industrial use after appropriate treatment. The nature

of the operations at the treatment plants and the type of wastewater discharged are substantially similar. A total of 20 individual authorizations were issued under this master permit prior to the effective date of the permit.

#### NJPDES Discharge to Surface Water Strategy for Per- and Polyfluoroalkyl substances (PFAS)

The Department required all industrial NJPDES dischargers to surface water and significant indirect users to complete a “PFAS Source Evaluation and Reductions Requirement Survey” to evaluate the use of products or production of materials containing PFAS and which may end up in the effluent/wastewater produced at the permitted facility. As a follow-up to this completed survey, the Department requires these dischargers to collect samples of effluent to analyze for PFAS. These data requests were sent on August 18, 2021, March 23, 2022 and October 5, 2022. Based upon the results of this monitoring data, the Department has modified certain permits to include PFAS monitoring to assess any levels that may be present.

#### Maintenance of Low Backlog for Significant Industrial User Permits and Continued Conduct of Pretreatment Audits

The Pretreatment Unit continues to perform its function in the issuance and management of Significant Industrial User NJPDES permits as well as oversight of the Industrial Pretreatment program. The percent of Significant Industrial User (SIU) expired permits was less than 12% in June 2023. The Pretreatment Unit continues to conduct administrative and technical reviews of annual reports and pretreatment audits through a combination of on-site and virtual meetings.

#### SQAR General Permits

The Department administers an extensive regulatory program for the use and management of residuals generated by domestic and industrial treatment works. All treatment works with a discharge, regulated under N.J.A.C. 7:14A must have permits that implement the applicable technical standards for residuals management.

During FY2023, the Department issued the renewal of the Master General Permit for Domestic Sludge Quality - Category S3G. The Master General Permit for Domestic Sludge Quality – Category S3G implements the provisions of the Sludge Quality Assurance Regulations for residual quality and quantity monitoring for Domestic Treatment Works that have a permitted flow from 1.0 to 0.999 MGD. Fifty-seven (57) authorizations were issued under this Master General Permit.

#### PFAS Modification to Ground Water Permits and Guidance

The Bureau of Ground Water, Residuals, and Permit Administration’s (BGRPA) Ground Water Unit issued 30 NJPDES-DGW permit actions (Major Modifications or Renewals) to incorporate discharge monitoring for the PFAS chemicals for which a New Jersey Ground Water Standard has been adopted (PFNA, PFOA, and PFOS). This data will help identify the scope of PFAS in the waste stream of NJPDES-DGW permits and will assist the Department in determining its future focus and/or direction in addressing this evolving issue.

In order to aid permittees with the proper submission of PFAS data in accordance with their NJPDES Discharge to Ground Water (DGW) permit, the BGRPA Ground Water Unit developed a Frequently Asked Questions document that addresses common issues with data submission. Issues addressed included, but were not limited to, certified laboratories, methods of analysis, and PFAS unit conversions. The group also reached out to each individual facility requiring assistance based on incorrect data submissions. Corrected data was resubmitted by the permittees and this outreach has led to the reduced submission of inaccurate PFAS data.

#### Issuance of New Master Farm Labor Housing General Permit and Guidance

On April 28, 2023, the Bureau of Ground Water, Residuals, and Permit Administration’s (BGRPA) Ground Water Unit issued the New Master Farm Labor Housing General Permit (GFLH) with an effective date of June 1, 2023. The GFLH authorizes the discharge of sanitary sewage to ground water from the wastewater generating activities associated with the housing of farm laborers utilizing individual subsurface sewage disposal systems (commonly called septic systems). This permit is a result of extensive coordination with the

Department of Agriculture and months of outreach to the farm community. The issuance of the GFLH moves farms one step closer to ensuring that temporary labor housing on farms is properly permitted and is conducted in a manner that is protective of human health and the environment.

In order to aid permittees in understanding the requirements of the GFLH, the BGRPA Ground Water Unit developed a Frequently Asked Questions document that addresses common questions and concerns. Questions addressed included, but were not limited to, eligibility, design volume calculations, parameters of concern, and monitoring frequency. In addition to continued outreach with farmers, the FAQ has provided an additional resource for perspective permittees on obtaining authorization.

#### Alternate Design Treatment Works Approvals

The Bureau of Ground Water, Residuals, and Permit Administration's (BGRPA) Onsite Unit issued a total of 73 Alternate Design Treatment Works Approval (TWA) determinations. These determinations included technical reviews of each proposed project to ensure the protection of human health and the environment.

The Onsite Unit also reviewed and listed four (4) additional Advanced Wastewater Pretreatment Devices on the List of Applicable Advanced Wastewater Pretreatment Device Manufacturers pursuant to N.J.A.C. 7:9A-8.3. By listing these products, New Jersey Health Department's and prospective users of these products can be assured that the technology design meets New Jersey Standards for Individual Subsurface Sewage Disposal Systems. The listings also widen the universe of available treatment technologies in New Jersey.

#### MS4 Municipal Tier reassignments

On July 1, 2022, the Municipal Stormwater Permitting Unit issued Notification of Reassignment from Tier B to Tier A letters to all 101 Tier B municipalities, and subsequently held an outreach session for the Tier B permittees to discuss the reasons for the reassignments and answer questions. The reassignments were based on the Department's reassessment of all municipal MS4 permittees as required by federal regulations. The process involved an in-depth investigation into existing surface water quality impairments, approved Total Maximum Daily Loads (that had been developed for some impaired waters) and changes in population within urbanized areas. Based upon this reassessment, the Department determined that all 101 Tier B municipalities required reassignment to Tier A due to these water quality reasons, and 11 of the Tier B towns also required reassignment due to increases in population in urbanized areas.

The Municipal Stormwater Permitting unit conducted a reassessment of all municipal MS4 permittees as required by federal regulations. The process involved an in-depth investigation into existing stream impairments, approved TMDLs and changes in population sizes within urbanized areas. All 101 new Tier A municipalities were issued General Permit Authorizations under the January 1, 2023 Tier A permit renewal.

#### Renewal of the Tier A MS4 NJPDES Master General Permit

The Municipal Stormwater Permitting Unit renewed the draft and final statewide Tier A Master General permit on July 28, 2022 and December 1, 2022, respectively. The permit became effective on January 1, 2023. This permit regulates stormwater discharges to municipally owned and operated separate storm sewer systems for the original 456 Tier A municipalities and for the 101 previous Tier B municipalities that were reassigned to Tier A in 2022, for a total of 557 municipalities. This effort involved stakeholder meetings, outreach sessions, response to comments and creation of guidance and training materials. Some of the enhancements to this renewal permit include updated street sweeping requirements; new stormwater facilities mapping requirement; development of a Watershed Improvement Plan, updated requirements for maintenance yards; updated storm drain inlet, catch basin, conveyance and other stormwater facilities inspection, maintenance and cleaning requirements; addition of 2 new ordinance adoption requirements for Privately-Owned Salt Storage and Tree Removal/Replacement; addition of new deicing material management requirements; and improved training requirements.

#### Introduction and Management of the Tier A MS4 Stormwater Assistance Grant program

The Municipal Stormwater Permitting Unit developed and implemented a non-competitive grant program for all original and newly reassigned Tier A MS4 permittees with a total allocation of \$19,000,000 to be allocated during the calendar year 2023. Original Tier A permittees are eligible for \$25,000 each upon completion of their

initial application and their stormwater facilities mapping and new Tier A permittees are eligible for \$75,000 each upon completion of their initial application and their Stormwater Pollution Prevention Plans. The program was launched in March 2023 and had awarded \$6.78 million by the end of the fiscal year.

#### New Wood Waste Recycling and Leaf Composting Master General Permit

The Municipal and Industrial Stormwater Permitting Units issued the new Wood Waste Recycling and Leaf Composting (WRC) General Permit to regulate and authorize stormwater discharges from public and commercial entities that are actively involved in the processing of wood waste and/or leaf composting. The draft and final WRC permits were issued on July 22, 2022 and November 25, 2022, respectively. The final permit became effective on January 1, 2023. Outreach sessions were conducted on March 15 and 17, 2022. The Department issued 17 authorizations by the end of the fiscal year and expects to permit approximately 200 municipal and commercial entities under this general permit.

#### Issuance of Draft and Final Basic Industrial Stormwater General Permit (5G2) Renewal

The Industrial Stormwater Unit issued the draft and final versions of the renewal of the Basic Industrial Stormwater (5G2) General Permit on September 12, 2022, and January 12, 2023, respectively. The final permit became effective February 1, 2023. This general permit is available to regulated industrial facilities that have eliminated or can eliminate, within six months of authorization, all exposure of industrial materials or activities to stormwater.

Upon renewal of the 5G2 permit, approximately 1800 facilities' permit authorizations were automatically renewed. These updated authorizations were processed and sent to permittees during January and February 2023.

#### Stormwater Management Rule Amendments

The Stormwater Management Unit developed the proposal for the amendments to the Stormwater Management rules at N.J.A.C. 7:8 in support of the Inland Flood Protection Rules which were published in the New Jersey Register on December 5, 2022 and adopted on July 17, 2023. These amendments require, among other more minor amendments, that applicants design stormwater facilities with updated rainfall information and future rainfall increases expected due to climate change.

#### Stormwater Management Design Review Course Training (SWMDR)

The Stormwater Management Unit held two 12-hour SWMDR training sessions (over 4 days each) for municipal engineers and other reviewers who approve stormwater management facilities that qualify as major development under the municipal Stormwater Control Ordinances. Attendance at this training is required once per five years and 348 professional engineers and reviewers who review the stormwater management designs for major development projects were trained this year.

#### New Jersey Stormwater Best Management Practices (BMP) Manual Updates

The Stormwater Management Unit proposed revisions to Chapter 12 of the BMP Manual regarding soil testing and to Chapter 4 for Stormwater Pollutant Removal Criteria to coincide with the NJPACT rule amendments.

#### Stormwater Management Grant 2022

The Stormwater Management Unit worked to support the ongoing administration and review of 166 grant applications for the Stormwater Management Grant 2022. In June of 2023, 37 of these projects were selected to receive these competitive grants.

#### Manufactured Treatment Devices (MTDs)

The Stormwater Management Unit revised the laboratory protocol to assess total suspended solids (TSS) Removal for Manufactured Treatment Device (MTD) which was completed and published on April 25, 2023. Three new MTDs were certified and verified.

## ***Enforcement Activities***

The Water Compliance and Enforcement Element monitors compliance with and enforces as necessary permits issued under the New Jersey Pollutant Discharge Elimination System (NJPDDES). In addition to the self-monitoring reports submitted by the permittee, periodic on-site compliance evaluation inspections are carried out by enforcement staff as a means to evaluate the facility's compliance with all conditions of the permit. In addition, the compliance sampling inspections serve as a means of checking the validity of the self-monitoring data.

The tables below summarize the results of the Department's inspections during FY2023.

**FY2023 INSPECTION ACTIVITY**

<b>Program</b>	<b>Regular Inspections</b>	<b>Follow-up Inspections</b>	<b>Total Inspections</b>
Surface Water	426	50	476
CSO/Collection System	76	8	84
Ground Water & GW-UIC's	388	44	432
Pretreatment	57	6	63
General Stormwater	544	61	605

**APPENDIX A:**  
**NJPDES**

### **SUBCHAPTER 3. DETERMINATION OF PERMIT FEES**

#### **7:14A-3.1 FEE SCHEDULE FOR NJPDES PERMITTEES AND APPLICANTS**

- (a) Except as provided in (j) and (l) below, the general conditions and applicability of the fee schedule for NJPDES permittees and applicants are as follows:
  - 1. Except as provided by (k) below, the Department shall collect an annual fee for the billing year July 1 to June 30 from all persons that are issued a NJPDES permit or authorization to discharge under a NJPDES general permit or submit a NJPDES permit application or request for authorization.
  - 2. The Department shall not assess any fee to public schools or religious or charitable institutions.
  - 3. All NJPDES permittees/applicants that are issued a draft or final NJPDES permit, or that are issued an authorization to discharge under a final NJPDES general permit, shall submit payment within 30 days of assessment of the fee by the Department.
    - i. Upon receipt of a completed application or request for authorization, the Department shall assess the minimum fee as set forth in Table III below.
    - ii. Upon issuance of the final permit or of an authorization to discharge under a final NJPDES general permit, the annual fee shall be calculated and pro-rated for the period of the fee year remaining. The minimum fee already paid shall then be subtracted from the pro-rated assessment. In no case, however, will such payment of a pro-rated fee result in a fee that is less than the minimum fee for the category of discharge. The permittee may request a fee recalculation as provided at (a)6 below, once the first required monitoring report has been completed.
  - 4. Payment of all fees shall be made by check or money order, payable to "Treasurer, State of New Jersey" and submitted to:

New Jersey Department of the Treasury

Division of Revenue

PO Box 417

Trenton, New Jersey 08625-0417
  - 5. If the permittee/applicant fails to submit payment to the Department of the Treasury within 30 days of assessment of the fee, the Department may, in its discretion, take one or more of the following actions:
    - i. Return the NJPDES permit application or request for authorization to the applicant;
    - ii. Deny issuance of a final permit or authorization under a final general permit;

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

- iii. Revoke a final permit (including revocation of a permittee's authorization to discharge under a general permit); and/or
  - iv. Assess penalties pursuant to N.J.S.A. 58:10A-10 and N.J.A.C. 7:14-8.
6. If the permittee objects to the assessment, the Department shall recalculate a permit fee upon receipt of a request from the permittee in writing within 30 days of assessment of the fee. The Department shall not recalculate a fee where the permittee has failed to submit information in compliance with its NJPDES permit.
- i. A permittee may only contest a fee imposed pursuant to (k) below based on the following:
    - (1) The Department has no factual basis to sustain the charges assessed in the fee;
    - (2) The activities for which the fee was imposed did not occur;
    - (3) The charges are false or duplicative; or
    - (4) The charges were not properly incurred because they were not associated with the Department's oversight or remediation of the case.
  - ii. A permittee may not contest a fee imposed pursuant to (k) below if the challenge is based on the following:
    - (1) An employee's hourly salary rate;
    - (2) The Department's salary additive rate, indirect rate, or fringe benefit rate; or
    - (3) Management decisions of the Department, including decisions regarding who to assign to a case, how to oversee the case or how to allocate resources for case review.
  - iii. A permittee objecting to a fee imposed pursuant to (k) below shall include the following in a request for a fee review:
    - (1) A copy of the bill;
    - (2) Payment of all uncontested charges, if not previously paid;
    - (3) A list of specific fee charges contested;
    - (4) The factual questions at issue in each of the contested charges;
    - (5) The name, mailing address and telephone number of the person making the request;
    - (6) Information supporting the request or other written documents relied upon to support the request.

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

7. The Department, in calculating Environmental Impact, shall use information reported by the permittee on MRFs for the 12 month period for which data is available on the Department's computer. The selected 12 month monitoring period will be documented in the Annual NJPDES Fee Schedule Report. Where this information is not available, the Department shall use permit limitations, information submitted in permit applications, technical reports prepared by the Department or submitted by the permittee, or other permits issued by the Department.
8. Except as provided by (k) below, the Department, upon the revocation of a NJPDES permit, or revocation of a NJPDES/SIU permit in accordance with N.J.A.C. 7:14A-21.9, shall upon written request of the permittee prorate the fee for the number of days that the facility was in operation or was discharging under a valid NJPDES/SIU permit during the billing year and return to the permittee the amount that is in excess of the minimum annual fee for the specific category of discharge.
9. Except as provided by (k) below, the annual fee for all discharges is calculated by applying the formula:

Fee = (Environmental Impact x Rate) + Minimum Fee, where:

- i. Environmental Impact is the Department's assessment of potential risk of discharge to the environment as derived under (c) through (g) below.
- ii. Rate is the dollar cost for each weighted unit of Environmental Impact. Rate is calculated as follows:

Rate = (Budget-Sum of Minimum Fees)/Total Environmental Impact

- (1) Budget is the total budget for the category of Discharge.
  - (2) The Sum of Minimum Fees is the total amount of minimum fees to be paid by all dischargers in the category of discharge.
  - (3) Total Environmental Impact is the sum of environmental impact for all dischargers in the category.
  - (4) The budget and the total environmental impact shall be adjusted to reflect those facilities, if any, assessed a maximum permit fee.
- iii. The minimum fee is a base cost to which the product of the Environmental Impact and the Rate identified under (a)9i and ii above is added. The minimum fee for any permit category is calculated by using the following formula and rounding to the nearest \$50.00 increment:

Minimum Fee =  $\frac{\text{Hours} \times \text{Cost Per Hour}}{5}$ , where:

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

Hours = Total hours allocated by the Department on the administration, including permit issuance, inspection and data management, of the permit per facility over a five year period in each category.

Cost Per Hour = Total personnel cost per hour, including fringe benefits and indirect costs.

The minimum fees are set forth in Table III below. For any new or revised category of discharge, the Department shall calculate a minimum fee and shall list it in the Annual NJPDES Fee Schedule Report for public comment under (b) below.

10. The maximum fee to be assessed for any category of discharge shall be 10 percent of the budget for the category of discharge.
  11. If a factual dispute involving a fee imposed pursuant to (k) below cannot be resolved informally, a permittee may request an adjudicatory hearing on the matter pursuant to N.J.A.C. 7:14A-17.2.
- (b) The Department shall prepare an Annual NJPDES Fee Schedule Report and provide for a public hearing on the Report.
1. The Annual NJPDES Fee Schedule Report shall include the following:
    - i. A detailed financial statement of the actual administrative cost of the NJPDES program by account title;
    - ii. A detailed financial statement of the actual revenue collected, including any surplus which can be credited or any deficit to be assessed in determining the fee schedule;
    - iii. A detailed financial statement of the anticipated cost of the NJPDES program, including:
      - (1) A breakdown of the program by account title;
      - (2) An estimate of the amount of fees that will be collected; and
      - (3) The current year's fee schedule.
    - iv. A report of the NJPDES program activities, including:
      - (1) A list of permits issued;
      - (2) A list of facilities inspected;
      - (3) A list of administrative orders and administrative consent orders issued by the Department (by type of order and discharge involved); and
      - (4) A summary of variance request activities under Section 316 of the Federal Water Pollution Control Act (33 U.S.C. §§1251 et seq.).

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

- v. A list of all minimum fees calculated in accordance with (a)9iii above, and the basis for any new or revised minimum fee.
  2. The Department shall provide for a hearing on the Annual NJPDES Fee Schedule Report. The Department shall provide public notice of the hearing at least 30 days prior to the date of the hearing:
    - i. In the New Jersey Register and one newspaper of general circulation; and
    - ii. By mailing a notice of availability of the Fee Report to each NJPDES applicant/permittee the Department identifies as subject to a NJPDES annual fee. The complete Fee Report will be posted on the Department's website at <http://www.nj.gov/dep/dwq/njpdessfees.html>. The Department will provide, free of charge, a paper copy of the complete Fee Report to each applicant/permittee, or any other interested person, upon request.
  3. The Department shall publish a Notice of Adoption of the Annual NJPDES Fee Schedule Report, which shall include a summary of the public comments and Department responses. Upon publication of this Notice of Adoption in the New Jersey Register, any adopted new or revised minimum fee(s) identified in the Notice of Adoption shall be incorporated into Table III as an administrative change.
- (c) The annual fee for discharges to surface water is calculated by using the following Environmental Impact in the annual fee formula:
1. The Environmental Impact of a discharge to Surface Water from an industrial treatment works (ITW) regulated under an individual NJPDES permit is derived by applying the formula:

Environmental Impact = (Total Pollutant Load + Heat Load) where:

- i. Total Pollutant Load is the sum of each limited pollutant's average loading (in kilograms per day) for the selected 12-month period, as determined in accordance with N.J.A.C. 7:14A-3.1(a)7, multiplied by its associated risk factor as listed in Table I below.
    - (1) Net loadings will be used if a net limit has been established in the NJPDES permit. If a permittee reports a pollutant load less than zero, a zero will be used to calculate the Total Pollutant Load.
    - (2) Any pollutant listed in Table I will be deleted from the Total Pollutant Load, if reported as non-detectable in all samples for the monitoring period. When any of the pollutants listed in Table I is detected at least once in the monitoring period, the Department shall calculate the Total Pollutant Load using one-half the reported minimum detection limit for pollutant concentrations.
  - ii. Heat Load is the average mBTU's (million British Thermal Units) per hour of the effluent discharged. Where Heat Load is not reported in mBTU's per hour, the Department shall estimate the Heat Load using the calculated difference between the

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

influent and effluent temperature (in degrees celsius) multiplied by the amount (in million gallons per day) of effluent discharged and a unit conversion factor of 0.6255. The Department shall use an average influent temperature of 5.57 degrees celsius during the period November to April and 18.87 degrees celsius during the period May to October.

2. The Department shall assess an additional fee to NJPDES permittees who request a variance under Section 316 of the Federal Water Pollution Control Act (33 U.S.C. §§1251 et seq.). The annual fee shall be assessed on the basis of the administrative cost that is incurred by the Department and the cost of the technical review performed by a consultant hired by the Department.

3. The Environmental Impact of a discharge to surface water from a domestic treatment works (DTW) regulated under an individual NJPDES permit is derived by applying the formula:

Environmental Impact = Average kilograms per day of oxygen demand discharged, as measured by Biochemical Oxygen Demand (BOD5), Carboneous Biochemical Oxygen Demand (CBOD5) or other oxygen demand parameter selected by the Department, as determined in accordance with (a)7 above.

4. The Environmental Impact value for any type of discharge to surface water regulated under a general permit shall be zero.

- (d) Except as provided by (k) below, the annual fee for discharges to groundwater, except for residuals covered in (e) below, is calculated by using the following Environmental Impact in the annual fee formula:

1. The Environmental Impact of a Discharge to Groundwater regulated by an individual NJPDES permit is derived by applying the formula:

Environmental Impact = (Pollution Potential Factor) x (Discharge Control Factor) where:

- i. For landfills and facilities discharging only sanitary sewage wastewater, the Pollution Potential Factor is the sum of the applicable Pollution Rating Factor set forth at (d)1iii below and the applicable Pollution Loading Factor set forth at (d)1iv below.
- ii. For facilities other than those identified in (d)1i above, the Pollution Potential Factors are set forth at (d)1v below.
- iii. The Pollution Rating Factor is a value that is a measure of the relative risk associated with the pollutant sources listed below. The Pollution Rating Factor is assigned as follows:

Pollutant Source Description

Pollution Rating Factor

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

Sanitary sewage wastewater	1
Sanitary landfills	20
Hazardous waste facilities including hazardous waste landfills	50

- iv. The Pollution Loading Factor is a value based on flow (Q) for a sanitary discharge, where Q is the NJPDES permitted flow limit or the facility design flow in the absence of a NJPDES permitted flow limit, or by the mass of solid waste annually deposited at a landfill. The Pollution Loading Factor is assigned as follows:

<u>Pollutant Source Description</u>	<u>Pollution Loading Factor</u>
Landfill Solid Waste	Annual Mass + 1 (where Annual Mass = Mass of solid waste annually deposited (in tons) / 400), with the result rounded to the nearest whole integer
Sanitary Waste Discharge where Q < 1.0 MGD	Q in MGD x 2000, with the result rounded to the nearest whole integer
Sanitary Waste Discharge where Q = > 1.0 MGD but < 3.0 MGD	2000
Sanitary Waste Discharge where Q = > 3.0 MGD but < 5.0 MGD	3000
Sanitary Waste Discharge where Q = > 5.0 MGD	4000

- v. The Pollution Potential Factor for facilities other than those identified in (d)1i above, is assigned as follows:

<u>Pollutant Source Description</u>	<u>Pollution Potential Factor</u>
Stormwater runoff	100
Non-contact cooling water	200

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

Potable water plant filter backwash	200
Food processing wastewater	250
Discharge from quarry operations including, sand and gravel operations	250
Industrial process wastewater (not otherwise specified)	300

- vi. The Discharge Control Factor is a measure of the potential of a discharge to affect groundwater and is based on whether a pollutant source passes through to a DSW or POTW, is designed to be discharged to the ground, or is a landfill. The Discharge Control Factor is assigned as follows:

<u>Discharge Control Scenario for Pollutant Source</u>	<u>Discharge Control Factor</u>
Permitted, but not being discharged (does not apply to landfills)	0
Pass-through wastewater to DSW or POTW, lined (surface impoundment with a liner having hydraulic conductivity of at least $<10^{-7}$ cm/sec)	1
Pass-through wastewater to DSW or POTW, unlined and/or partially lined (surface impoundment or infiltration/percolation lagoon that is unlined or partially lined)	10
Designed for discharge to the ground (sanitary wastewater with at least secondary treatment)	20
Designed for discharge to the ground (all other wastewater other than sanitary wastewater with at least secondary treatment)	25
Landfills, completely lined ( $<10^{-7}$ cm/sec)	30
Landfills, unlined and/or partially lined	40

2. The Environmental Impact value of any type of discharge to ground water regulated under a general permit shall be zero.
- (e) The Environmental Impact value for facilities which land apply, handle or distribute residuals listed in Table III below shall be zero.

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

(f) (Reserved)

(g) The annual fee for discharges by a significant indirect user to a domestic treatment works is calculated by using the following Environmental Impact in the annual fee formula:

1. The Environmental Impact of a discharge by a significant indirect user (SIU) to a domestic treatment works (DTW) is derived by applying the formula:

Environmental Impact = (Total Pollutant Load)

- i. Total Pollutant Load is the sum of each limited pollutant's average loading (in kilograms per day) for the selected 12-month period, as determined in accordance with N.J.A.C. 7:14A-3.1(a)7, multiplied by its associated risk factor as listed in Table I below.

- (1) Any pollutant listed in Table I will be deleted from the Total Pollutant Load, if reported as non-detectable in all samples for the monitoring period. When any of the pollutants listed in Table I is detected at least once in the monitoring period, the Department shall calculate the Total Pollutant Load using one-half the reported minimum detection limit for pollutant concentrations.

(h) The fees for exemptions for certain types of residual use or disposal operations shall be assessed as follows:

1. Permit exemptions or Letters of Land Application Management Approvals authorizing the land application of sludge-derived products at specific sites in accordance with a Department-approved distribution program shall be assessed a fee of \$250.00 for the duration of the permit exemption or Letter of Land Application Management Approval. The Department will not consider a request for a permit exemption or Letter of Land Application Management Approval complete unless the request is accompanied by the fee; and
2. General distribution permit exemptions providing Department approval of a sludge derived product distribution program which is not directly regulated for residuals handling through an individual NJPDES permit shall be assessed a fee of \$2,700 for the duration of the exemption. The Department will not consider a request for a permit exemption complete unless the request is accompanied by the fee.

(i) (Reserved)

(j) For NJPDES Permit No. NJ0088323 (referred to as the category 5G3 "construction activity" stormwater general permit), there is no annual or minimum fee. The fee for projects that disturb less than 5.0 acres is \$450.00. The fee for projects that disturb 5.0 acres or more is \$650.00. Except as set forth in (j)1 or 2 below, the fee shall be paid to the New Jersey Department of the Treasury, and submitted to the address set forth on the request for authorization form when the request for authorization is submitted to the Department.

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

1. For a project that the New Jersey Department of Transportation (NJDOT) is constructing or proposes to construct for which a stormwater discharge is regulated under this general permit, the fee of \$450.00 or \$600.00, as applicable, shall be paid to the Department.
  2. For a project that a Federal governmental entity is constructing or proposes to construct for which a stormwater discharge is regulated under this general permit, a fee in the amount set forth in the Soil Erosion and Sediment Control Act (N.J.S.A 4:24-39 et seq.) fee schedule for the appropriate County Soil Conservation District shall be made payable to the "Treasurer, State of New Jersey." The fee will be allocated to address the Department's administrative and enforcement responsibilities, the Department of Agriculture's administrative costs, and the appropriate Soil Conservation District's review and inspection activities.
- (k) The fee for discharges to groundwater required for conducting remediation, as defined by N.J.A.C. 7:26E, of contaminated sites, and for any NJPDES discharge to groundwater permits issued by the Site Remediation Program, is calculated and billed through requirements specified in N.J.A.C. 7:26C-4.5.
- (l) The Department shall assess, where applicable, the fee for laboratory certification pursuant to the schedule set forth at N.J.A.C. 7:18.
- (m) Any fee under this section that is subject to N.J.A.C. 7:1L shall be payable in installments in accordance with N.J.A.C. 7:1L.

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

Minimum Fees

<u>Permit Fee Category<sup>1</sup></u>	<u>Min Fee Code</u>	<u>Minimum Fee</u>
1. Major DSW Domestic Treatment Works (DTW) – Individual Permit	MMJ	\$11,150
2. Minor DSW Domestic Treatment Works (DTW) – Individual Permit	MMI	\$4,200
3. Combined Sewer Overflow – Individual Permit Component or General Permit	CSO	\$9,450
4. Major Industrial DSW – Individual Permit	IMJ	\$9,950
5. Minor Industrial DSW – Individual Permit	IMI	\$4,200
6. General Permit – Industrial DSW, DGW, or both (unless otherwise listed)	IGN	\$2,300
7. General Permit – Municipal DSW (unless otherwise listed)	MGN	\$3,100
8. Industrial Stormwater - Individual Permit	IST	\$4,100
9. Stormwater – Sand and Gravel General Permit (RSG)	R14	\$1,250
10. Stormwater – Basic Industrial General Permit (5G2)	SBG	\$800
11. Municipal Stormwater – Tier B General Permit (R10)	STB	\$500
12. Municipal Stormwater – Tier A General Permit (R9)		
(population range 0-1,000)	SA1	\$600
(population range 1,001-5,000)	SA2	\$1,050
(population range 5,001-10,000)	SA3	\$2,000
(population range 10,001-15,000)	SA4	\$3,000
(population range 15,001-20,000)	SA5	\$4,050
(population range 20,001-25,000)	SA6	\$5,250
(population range 25,000+)	SA7	\$9,000
13. Municipal Stormwater – Public Complex General Permit (R11)		
(population range 1,000-2,999)	SP1	\$900
(population range 3,000-5,999)	SP2	\$1,500
(population range 6,000-8,999)	SP3	\$2,600
(population range 9,000+)	SP4	\$3,600
14. Municipal Stormwater – Highway Agency General Permit (R12)		
(mileage range 0-9)	SH1	\$550
(mileage range 10-199)	SH2	\$2,450
(mileage range 200-399)	SH3	\$5,100
(mileage range 400+)	SH4	\$9,800
15. DGW – Initial Individual Permit <sup>2</sup>	GWN	\$6,000
16. DGW – Renewed or Continued Individual Permits <sup>2</sup>	GWE	\$2,750
17. DGW - General Permit (I1, I2 and LSI)	GGN	\$900
18. DGW - General Permit (T1)	GT1	\$450
19. DGW - Operating Landfill Individual Permit	LND	\$6,900
20. DGW – Sanitary Wastewater Discharges from Commercial Activities on Farms GP (GWCF)	GCF	\$1,250
21. Residuals Use or Disposal Operations (unless otherwise listed)	RES	\$10,600
22. Residuals - Food Processors / WTPs <sup>3</sup> Individual Permit	RFP	\$4,000
23. Residuals - Category Z Individual Permit <sup>4</sup>	RTZ	\$2,050
24. Residuals - General Permit (ZG and 4G)	RTG	\$500
25. Residuals - Category 04 Individual Permit <sup>5</sup>	RPH	\$850
26. Residuals – Land Application General Permit (unless otherwise listed)	RSG	\$800
27. Residuals – General Permit Category SXG	RSX	\$750
28. Residuals – General Permit Category S1G	RS1	\$900
29. Residuals – General Permit Category S2G	RS2	\$1,050
30. Residuals – General Permit Category S3G	RS3	\$1,200
31. Residuals – General Permit Categories 6 - 9	RS6	\$1,150
32. Residuals – General Permit Category S4G	RS4	\$1,350
33. Residuals – General Permit Categories 10 - 13	RSP	\$1,150
34. Significant Indirect User (SIU) (Pretreatment)	SIU	\$5,750

This is a courtesy copy of this rule. All of the Department's rules are compiled in Title 7 of the New Jersey Administrative Code.

35. Landfills operating or terminated after January 1, 1982 without an approved closure plan	6	\$2,500
36. Terminated Landfills properly closed or closed prior to January 1, 1982	6	\$500
37. Emergency Permit issued pursuant to N.J.A.C. 7:14A-6.14	7	

<sup>1</sup> For names corresponding to the general permit category see N.J.A.C. 7:14A-6.13(c).

<sup>2</sup> For a domestic or industrial facility issued an individual NJPDES Discharge to Groundwater permit, the minimum fee is \$6,000 for the first five years of that permit, and \$2,750 if the permit is renewed or administratively continued. All other domestic or industrial facilities issued an individual NJPDES Discharge to Groundwater permit shall be assessed a minimum fee of \$2,750.

<sup>3</sup> WTPs refer to potable water treatment plants.

<sup>4</sup> Refers to a Residuals Transfer Facilities individual permit.

<sup>5</sup> Refers to a Residuals - Reed Beds individual permit.

<sup>6</sup> This permit is issued and administered by the Division of Solid and Hazardous Waste.

<sup>7</sup> Fee based on category for type of discharge.

# **APPENDIX B:** **Minimum Fee** **Schedule**

Permit Fee Category <sup>1</sup>	Min Fee Code	Minimum Fee for FY2024
1. Major DSW Domestic Treatment Works (DTW) - Individual Permit	MMJ	\$11,150
