

Camden Waterfront South Bucket Brigade: Getting Organized

- When: August 19, 2003
– from 9:30 to 11:30am
- Where: Heart of Camden
1742 Ferry Avenue
- Who: Any interested area residents

As part of the Camden Waterfront South Air Toxics Pilot Project, NJDEP is organizing a local effort to collect air samples during odor episodes. These samples will be sent to a Laboratory to measure the levels of toxics and odorous substances in the air.

At this meeting, we will describe the basic concept behind the Bucket Brigade, gather ideas from the community about the best times & locations for taking samples, learn how the buckets work, and go outside to take a sample.

If you would like to participate in the project, or would just like to learn more about it, you are welcome to attend.

For more information, call Joann Held at 609-633-1113.
