Mobile Education Trailer

The Mobile Education Trailer is a wildlife and habitat conservation exhibit on wheels for NJ Fish and Wildlife that can come to your event or school for free!

Outside Exhibits

Tables with hands-on activities are set up with handouts, touchable furs and skulls, a deer aging activity and more!

External displays may be modified or tailored by staff to fit the venue or educational event.

Inside Exhibits

The trailer features flip books, interactive displays, and educational videos.

The exhibits highlight the history of the agency and its partnerships, the role of hunters and anglers in conservation, and the work the agency does in conserving wildlife in the state.
