Are you interested in learning how to fish, but not really sure where to start?

Has it been a while since you've been fishing and could use a refresher?

Join NJDEP Fish & Wildlife staff and volunteers for a hands-on workshop that includes everything you need to know to get started! Participants, 18 years and older, will learn fishing basics including: fish biology; how to set up equipment; safety practices; bait and tackle choices; how to cast; and fishing regulations. Participants will put their new skills to practice with a fishing experience and leave the workshop with the knowledge and confidence to head out fishing on their own. All bait, tackle and equipment will be provided.
