

A TOPOGRAPHICAL MAP
OF
EGG HARBOR AND VICINITY

INCLUDING THE ATLANTIC SHORE FROM
BARNEGAT TO GREAT EGG HARBOR

From Original Surveys and Levelings based on the
Triangulation of the U. S. Coast and Geodetic Survey.

Scale 1 Mile to an Inch

GEORGE H. COOK, State Geologist, C. C. VERMELLE, Topographer

1885. (Edition 1899)

NOTE. The curved lines are level lines drawn on the earth's surface. All points through which any given line passes are at the same level and their height above mean sea level is shown by the figures on the line. The rise or fall from any line to the next is as the figures will show. Figures not on any line show the actual elevation of the surface at a point indicated by a small cross. The dotted lines on the shore ground are lines of equal depth of water, and the figures accompanying show depth at mean or half tide.

LEGEND

- TIDE WASH
- FRESH WASH
- PIKE SWAMP
- CEDAR SWAMP
- CRANBERRY BODIES
- RAILROAD STATIONS
- Contour Lines
